11. New accounting standards and interpretations

SLFRS 16 – Leases

SLFRS 16 Leases, replace existing leasing guidance, including LKAS 17 lease, IFRIC 4 Determining whether an arrangement contains a lease, SIC -15 Operating leases – Incentives and SIC-27 Evaluating the Substance of transactions involving the legal form of a lease. SLFRS 16 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single onbalance sheet model similar to the accounting for finance leases under IAS 17.

As prescribed by this standard, the Group recognise an asset (right-of-use asset) representing its right to use the underlying assets and lease liability representing its obligation to make lease payments. Subsequently on an on going basis the Group will be separately recognising the interest expense on the lease liability and the depreciation expense on the right-of-use asset.

Nature of the effect of adoption of SLFRS 16

The Group has lease contracts for various items such as land, building, vehicles and equipment. Land leases are the major asset included in the right-of-use assets category, typically made up to 99 years of lease term and have extension options. However, the Group has elected not to recognise right-of-use assets and lease liabilities for short-term leases and leases of low-value items. The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

Initial application

The Group initially adopted SLFRS 16 from 01 April 2019 using the modified retrospective approach, under which the cumulative effect of initial application is recognised in retained earnings at the date of initial application (i.e. 01 April 2019). Accordingly the information presented for 2018/2019 has not been restated, i.e. it is presented, as previously reported, under LKAS 17 and related interpretations. Additionally, the disclosure requirements in SLFRS 16 have not generally been applied to comparative information.

The following table summarizes the impact, net of tax, of transition to SLFRS 16 - "Leases" as at 01 April 2019.

Leases previously classified as leasehold properties and pre-paid operating leases

For leases previously classified as leasehold properties and pre-paid operating leases, the Group recognised the carrying amount of the lease asset immediately before transition as the carrying amount of the right-of-use asset. The requirements of SLFRS 16 was applied to these leases from 1 April 2019.

Leases previously accounted for as operating leases

The Group recognised right-of-use assets and lease liabilities for those leases previously classified as operating leases, except for short-term leases and leases of low-value assets. The right-of-use assets for most leases were recognised based on the carrying amount as if the standard had always been applied, apart from the use of incremental borrowing rate at the date of initial application. Lease liabilities were recognised based on the present value of the remaining lease payments, discounted using the incremental borrowing rate at the date of initial application.

Impact for the period

As a result of applying SLFRS 16, the Group recognised Rs. 8.8 million as right-of-use assets and Rs. 6.3 million as lease liabilities as at 30 June 2019 in the statement of financial position. Also, in relation to those leases under SLFRS 16, the Group recognised Rs. 153 million of amortisation charges and Rs. 97.1 million of interest costs during the three months ended 30 June 2019 instead of operating lease expenses in the income statement. Therefore, the additional impact on the income statement due to the application of this standard during the quarter is Rs. 21.5 million.
