- 6 Previous year's figures and phrases have been re-arranged wherever necessary to conform to current year presentation.

7 SURCHARGE TAX

The Government of Sri Lanka in its Budget for 2022 proposed a one-time tax, referred to as a surcharge tax, is applicable to the Hayleys Group as the collective taxable income of Companies belonging to the Group, calculated in accordance with the provisions of the Inland Revenue Act No. 24 of 2017, exceeds Rs. 2,000 Mn, for the year of assessment 2020/2021. The tax is imposed by the Surcharge Tax Act No. 14 of 2022 which was passed by the Parliament of Sri Lanka on 7th April 2022. The liability is computed at the rate of 25 per cent on the taxable income of the individual Group Companies, net of dividends from subsidiaries

Total Surcharge Tax liability of Rs. 63.1 Mn has been recognised for the Company as an opening adjustment to the 1 April 2021 retained earnings in the Statement of Changes in Equity as per the Statement of Alternative Treatment (SoAT) issued by the Institute of Chartered Accountants of Sri Lanka. According to the said Act, the surcharge tax shall be deemed to be an expenditure in the Financial Statements relating to the year of assessment which commenced on 1 April 2020.

On 20 April 2022, the Company paid Rs. 31.5 Mn on account of the first installment of the Surcharge Tax liability. The final installment of Surcharge Tax payable reported under income tax liability as of 30 June 2022 has been paid on 20 July 2022.

The impact of the surcharge tax under the Surcharge Tax Act on the comparative year would have been as given below:

	In Rs'000 Group	In Rs'000 Company
Profit after Tax for the year ended 31 March 2021	2,973,650	1,125,965
Surcharge Tax charge	(63,108)	(63,108)
Adjusted comparable Profit for the year ended 31 March 2021	2,910,542	1,062,857

Notes to the Financial Statements

8 IMPACT OF RECENT ECONOMIC CONDITIONS

The Directors are continuously monitoring the existing and the anticipated effects of economic crisis, the circumstances of the external environment as well as the resultant consequences to the Company and taking appropriate measures to manage the impact.

I. Increase in interest rates

With the increase in interest rates, a substantial increase in the Finance cost is anticipated in the coming months. This increment in finance cost was mainly due to higher working capital requirements in the Company as a result of sharp depreciation of Rupee along with curtailing of supplier credits by foreign suppliers due to the downgrade of country's credit rating by international credit rating agencies subsequent to the weakening of economic stability of the country.

Following measures were taken to reduce the impact of increase in interest rates;

- Fixed the interest of short – term working capital loans for a maximum possible period based on money market conditions by negotiating with banks.
- Initiated action plans to reduce the raw material, work in progress and finished goods value.
- Minimised borrowings by reducing credit periods offered to the customers in each type of debtors category whilst encouraging advance payments, thereby improving the liquidity of the Company.
- Taken aggressive actions to improve the recoveries from debtors in an attempt to reduce the borrowings.

II. Fluctuation of foreign currency and significant rupee depreciation

With the significant rupee depreciation, cost of raw materials and other items have been increased significantly resulting in higher working capital requirements. Further, price revisions have adversely affected the consumer demand. The Company was not in a position to mitigate the foreign exchange risk through forward forex contracts due to regulatory restrictions and shortages in forex liquidity in the market.

Following measures were taken to reduce the impact of fluctuation of foreign currency and significant rupee depreciation;

- Implemented prudent strategies to revise price in a timely manner based on market outlook.
- Initiated accelerated payments including advance payments to avoid potential additional costs due to adverse currency rate movement in the absence of forward forex contracts.

III. Adverse market conditions and Execution difficulties

The economic outlook in Sri Lanka continues to remain uncertain due to fiscal and external imbalances. Year on year inflation has accelerated amid rising global commodity prices, fuel prices and partial monetisation of the fiscal deficit. With the current situation, there is a high slowdown in the construction industry both locally and globally which has impacted to delays in project completion activities and also being halted or delayed the new projects as well.

Therefore currently economic condition has adversely affected to Company's sales due to delaying in the execution works as our work mainly depend on the progress of main contractor works/ project initiations. The continuous fuel shortage and power interruptions have also impacted to factory production process. Additionally rapidly increasing raw material prices also adversely effect to erode the project margins.

Following measures were taken to minimise the impact of adverse market conditions and execution difficulties;

- The management has focused on improving operational efficiencies and improving the profit margins.
- Implemented cost reduction programmes in each area by identifying cost saving areas and initiate action plans addressing both operational and

IV. Other considerations

Despite the current slowdown of the economy specially the construction sector, the marketing and business development team continues to pursue new projects whilst the operations teams focus on improving production efficiencies and reducing costs in order to increase the gross profit margins of the projects. Management of the company have changed the business strategy from constructing high-rise building to medium and residential projects and more emphasize will be given to overseas projects and standard products. The fluctuations will be claimed for all the existing projects to mitigate the impact of exorbitant price increments of raw material.

9 EVENTS AFTER THE REPORTING PERIOD

It was proposed that Alco Industries (Private) Limited ("Alco") a wholly owned subsidiary of Alumex PLC to amalgamate with Alumex PLC in terms of Section 242 of the Companies Act No 7 of 2007 and continue as Alumex PLC.
