31 March 2026

Vision

To be an admired leader in providing equitable financial solutions, not limited to numerics, but also in earning the trust of our customers, employees, shareholders and country.

Mission

To adopt a unique and people friendly approach in banking with a passion for continuous improvement, enabling growth and enriching lives.

Amana Bank Records Best-Ever PBT & PAT for Q1

Amana Bank continued to deliver a strong performance in Q1 2026, demonstrating resilience amidst a challenging economic environment impacted by the effects of Cyclone Ditwah and the instability in the Middle East. Amidst these challenges, Amana Bank recorded a Profit Before Tax of LKR 0.8 billion, reflecting a 14% YoY growth, while Profit After Tax surpassed LKR 0.5 billion, marking a 16% increase compared to the profitability recorded in Q1 2025.

On the Bank's top line performance, Net Financing Income grew by 14% YoY to reach LKR 2.2 billion supported by a healthy financing margin of 4.4%. Net Fee and Commission Income continued its strong momentum, growing by 25% YoY to close Q1 at LKR 0.4 billion. As a result, Total Operating Income increased by 13% to reach LKR 2.7 billion, while Net Operating Income, after accounting for 31% reduction in impairment charges, went up by 16%, closing the quarter at LKR 2.6 billion. Despite the pressures arising from geopolitical tensions, which contributed to higher energy prices and exchange rate volatility resulting in the Bank's cost to income ratio increasing to 54%, the Bank continued to demonstrate resilience by recording a 11% YoY growth in Operating Profit before all taxes to close Q1 at LKR 1.1 billion. The Bank's aggregate tax contribution of LKR 0.6 billion accounted for a significant 56% of the Bank's Operating Profit before all taxes.

The Bank consolidated its balance sheet performance, with Customer Advances growing to LKR 152.3 billion largely driven by the Bank's SME financing portfolio, which continues to support a key sector of the national economy. The Bank's Stage 3 Impairment Ratio (NPA) of 1.2% remained one of the lowest in the industry as a result of the Bank's effective risk management and underwriting standards, driven by its unique development focussed and people friendly approach to banking. Customer Deposits closed the quarter at LKR 170.8 billion while maintaining an industry high CASA ratio of 44%.

Reinforcing its sustained upward profitability trend, the Bank's Return on Equity improved from 7.6% in Q1 2025 to 8.1% in Q1 2026, while Return on Assets read at 1.7%. The Bank's capital position remained robust, with the Common Equity Tier 1 Capital Ratio closing at 13.2% and the Total Capital Ratio at 14.9% — comfortably above the regulatory minimum requirements of 7% and 12.5%, respectively — underscoring the Bank's financial profile and stability. Liquidity buffers remained strong as at Q1 2026, with the Liquidity Coverage Ratios for Rupee and All Currency standing at 242.4% and 173.9%, respectively, and the Net Stable Funding Ratio at 142.4%, all comfortably exceeding the regulatory minimum requirement of 100%.

Towards advancing its sustainability agenda, the Bank continued to support the OrphanCare initiative by contributing a part of its profits, reflecting its belief that savings orphans from a second abandonment is not just a charity, but a responsibility. OrphanCare is guided by Article 2 of the United Nations Convention on the Rights of the Child, ensuring that all enrolments takes place without discrimination based on race, religion, ethnicity, region etc. Further strengthening its sustainability efforts, the Bank continued financing activities in alignment with the Central Bank of Sri Lanka's Sustainable Finance Road Map and Green Finance Taxonomy guidelines. In support of the Central Bank's Financial Literacy Road Map, the Bank also carried out over 30 financial literacy programmes during the quarter, reaching more than 4,000 individuals including students, undergraduates, MSMEs,

women entrepreneurs and community groups. Towards enhancing sustainability reporting practices, the Bank has already established the SLRFS S1 & S2 reporting framework.

Commenting on the Bank's Q1 performance Chairman Asgi Akbarally said "Despite the external challenges experienced during the quarter, the Bank continued to demonstrate resilience and stability, recording its best-ever Q1 performance while further strengthening its balance sheet fundamentals. These results reflect the strength of our unique non-interest based banking model, which remains firmly centred on fairness, responsible growth and creating sustainable value for all stakeholders."

Also sharing his insights on the Bank's performance Managing Director/CEO Mohamed Azmeer quoted "Our strong profitability performance in Q1 2026 reflects the Bank's continued strategic focus on quality growth, disciplined risk management and customer-centric banking. The sustained growth in our financing portfolio, particularly within the SME sector, together with one of the industry's lowest impairment ratios and a strong CASA position, signifies the resilience of our development focussed and people friendly approach to banking whilst continuing to support Sri Lanka's economic progress. Importantly, this Q1 performance has laid a strong foundation for the Bank's growth momentum for the rest of the year, where we will continue to strengthen our focus on the SME sector, which remains well aligned with our banking model and strategically important towards the revival of the national economy. Further advancing financial inclusion and digital accessibility, the Bank will continue to expand its outreach to rural communities through its growing Self Banking Centre network, having already opened five new Self Banking Centres during the year thus far. On behalf of the management, I wish to extend my sincere appreciation to our Board of Directors for their guidance, our employees for their dedication, our customers for their trust and confidence, and our shareholders for their continued support towards the Bank's sustained progress."

Amāna Bank PLC is a stand-alone institution licensed by the Central Bank of Sri Lanka and listed on the Colombo Stock Exchange with Jeddah-based IsDB Group being the principal shareholder of the Bank. The IsDB Group is a 'AAA' rated multilateral development financial institution with a membership of 57 countries. Testifying its position as a leading practitioner of the non-interest based banking model, Amāna Banks continued to be recognized amongst the Top 50 Strongest Islamic Banks in the World by The Asian Banker. Amāna Bank does not have any subsidiaries, associates, or affiliated institutions apart from its engagement with OrphanCare as its Founding Sponsor.

NOTES TO THE FINANCIAL STATEMENTS

01. ANALYSIS OF FINANCIAL INSTRUMENTS BY MEASUREMENT BASIS

Financial instruments are measured on an ongoing basis either at fair value or at amortised cost. The summary of significant accounting policies stated in the Annual Financial Statements describes how the classes of financial instruments are measured, and how income and expenses, including fair value gains and losses, are recognised. The following table analyses the carrying amounts of the financial instruments by category as defined in SLFRS 9 and by headings of the Statement of Financial Position.

NOTES TO THE FINANCIAL STATEMENTS

06. FAIR VALUE OF FINANCIAL ASSETS AND LIABILITIES

All financial assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, as described below.

- Level 1 Quoted price (unadjusted) in active markets for the identical assets or liabilities. This level includes listed equity securities and / or debt instruments.
- Level 2 Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 Inputs for asset or liability that are not based on observable market data (unobservable inputs). This level includes equity and / or debt instruments with significant unobservable components.

Derivative Financial Assets and Liabilities:

Derivative products are promissory forward foreign exchange transactions, valued using a valuation technique with market-observable inputs. The most frequently applied valuation techniques include promissory forward foreign exchange spot and Net Present Value.

Financial Assets Recognised through Profit or Loss - Measured at Fair Value, Financial Assets Measured at Fair Value through Other Comprehensive Income

The estimated fair values are based on quoted and observable market prices.

Financial Instruments not carried at Fair Value

Set out below is a comparison, by class, of the carrying amounts and fair values of the Bank's financial instruments that are not carried at fair value in the Financial Statements. This table does not include the fair values of Non-Financial Assets and Non-Financial Liabilities.

	177,411,760	177,411,760	177,652,644	177,652,644

The following describes the methodologies and assumptions used to determine fair values for those financial instruments which are not already recorded at fair value in the Financial Statements:

Balances with Banks, Balances with Licensed Finance Companies, Other Financial Assets and Other Financial Liabilities

For the above, the carrying value is a reasonable estimate of fair values.

Financial Assets at Amortised Cost - Financing and Receivables to Other Customers

The fair value of the above are estimated by discounting the estimated future cash flows using the prevailing market rates for financing as of the reporting date with similar credit risks and maturities (Level 3).

Financial Liabilities at Amortised Cost - Due to Depositors

The fair values of the above are deemed to approximate their carrying amounts as rate of returns are determined at the end of their holding periods based on the profit generated from the relevant investments.
