

A PROMISE OF PROTECTION

ANNUAL REPORT 2024

A detailed architectural line drawing of a dome, likely a classical or neoclassical structure, shown in a perspective view. The drawing includes intricate details of the dome's ribs, windows, and base. It is positioned on the left side of the page, partially overlapping the main text area.

A PROMISE OF PROTECTION

Life is unpredictable, and at Amana Life, we embrace its surprises while staying committed to delivering the best life insurance solutions to our customers. This commitment forms the foundation of our unbreakable promise of protection, extended to every Sri Lankan, as one.

During the year under review, our mission to serve all Sri Lankans led to exponential growth across the island, including regions often overlooked, allowing us to extend a vow of security. Our impressive and diverse portfolio of products and services is thoughtfully designed to meet varying needs and remain accessible to all financial segments across the country.

Our dedication to operational excellence ensures the success and protection of each customer and all of Sri Lanka. As we look to the future, supported by a diverse workforce and driven by innovation, we continue to solidify our position as a trustworthy, reliable, and unparalleled entity. Guided in the right direction by our exceptional leadership, we stay true to our course of advancement, as our compass paves the way towards enhanced protection for our customers.

At Amana Life, we transcend traditional insurance to uphold an unwavering promise of protection for all.

CHAIRMAN'S MESSAGE

Osman Kassim
Chairman

WE HAVE REMAINED STEADFAST IN OUR MISSION TO OFFER PROTECTION TO THE MOST VALUED GIFT OF ALL, THE LIVES OF OUR POLICY-HOLDERS AND PEACE OF MIND, STAYING TRUE TO OUR CORE VALUES.

REFLECTIONS FROM THE CHAIRMAN

Dear stakeholders

It is my pleasure to welcome you to Amana Takaful Life PLC's 9th Annual General Meeting and present the Company's annual report and audited financial statements for the financial year ended 31 December 2024.

A LEGACY OF STRENGTH AND TRUST: 25 YEARS OF SHARIAH-COMPLIANT INSURANCE

In 2024, Amana Takaful Life (the Company) proudly marked a remarkable 25-year journey of providing Shariah-compliant life insurance to the people of Sri Lanka. This milestone is a testament to the trust and confidence placed in us by thousands of Sri Lankans. Throughout the years, we have navigated significant challenges, including the civil war, the 2019 Easter Sunday attacks, the COVID-19 pandemic in 2020, and the economic crisis of 2022, yet our resilience and commitment have never wavered. We have remained steadfast in our mission to offer protection to the most valued gift of all, the lives of our policy-holders and peace of mind, staying true to our core values.

As we celebrate this achievement, I extend my deepest gratitude to our policyholders, past and present Board members, former and current employees, the Insurance Regulatory Commission of Sri Lanka, our reinsurers,

and all stakeholders who have played a vital role in our success. Your support has been instrumental in shaping our legacy, and we look forward to continuing this journey together.

Operating Context

Sri Lanka's economic recovery gained momentum in 2024, with three consecutive quarters of positive GDP growth. Inflation eased significantly, eventually turning into deflation from September 2024, driven by lower energy and food costs alongside a stronger Sri Lankan Rupee. Interest rates also saw a sharp decline, reflecting the Central Bank of Sri Lanka's expansionary monetary stance. This was evident in key market indicators such as the Average Weighted Prime Lending Rate, which fell from 12.39% at the end of 2023 to 9.11% by December 2024.

The external sector showed notable improvement, with the Sri Lankan Rupee appreciating by 10.7% against the US dollar and gross official reserves reaching USD 6.1 billion. A key milestone in 2024 was the successful restructuring of Sri Lanka's International Sovereign Bonds, which prompted credit rating upgrades by Fitch and Moody's, signalling renewed confidence in the country's fiscal trajectory.

On the political front, the year was defined by both presidential and parliamentary elections, resulting in a significant shift in power. The newly formed administration introduced policies that fostered stability, bolstering investor sentiment and consumer confidence.

The life insurance sector faced a dynamic landscape as household income remained constrained. With consumers prioritising convenience and personalisation, digital adoption in insurance solutions accelerated. Meanwhile, economic recovery measures outlined in the 2024 Budget helped restore confidence, indirectly supporting the sector as individuals regained focus on financial security and risk protection.

Financial Results

Despite challenges, the Company delivered strong financial results in 2024, driven by an agile and adaptive strategy. We recorded a pre-tax profit of Rs. 4.6 Mn, translating to a Return on Equity of 1%. However, reflecting the headwinds faced during the year, pre-tax profitability declined by 91% year-on-year (YoY).

A key factor influencing profitability during the year was the one-off cost impact arising from our aggressive expansion of distribution capacity in the Northern and Eastern regions of the country. We opened 15 new branches in these provinces during 2024, in line with our strategic objective of broadening market access and improving customer reach. While this expansion led to a rise in operational costs, which were fully recognised in the current financial year, we view this not as a cost but as a long-term investment. The financial return from these new outlets is expected to materialise over the coming years. This deliberate decision, though it impacted short-term profitability, aligns with our vision of sustainable growth and market development in under-served regions.

A SEAMLESS COLLABORATION BETWEEN THE BOARD AND MANAGEMENT ENABLED THE EFFECTIVE EXECUTION OF STRATEGIC PRIORITIES, TRANSLATING HIGH-LEVEL DECISIONS INTO ACTIONABLE INITIATIVES ALIGNED WITH OUR LONG-TERM VISION

CHAIRMAN'S MESSAGE

Gross Written Premium (GWP) saw a YoY growth of 13%%, reaching Rs. 1.3 Bn. Cost management remained a key strategic priority, and excluding a one-time network expansion expense incurred during the year, the overall increase in our cost base was contained at 10%.

Our balance sheet strengthened further, with total assets increasing by 15% YoY to Rs. 4,985 Mn. Within balance sheet financing, total insurance contract liabilities expanded by 17% to Rs. 3,839 Mn, while total equity grew by 4% to Rs. 638 Mn, supported by higher revenue reserves.

The regulatory Capital Adequacy Ratio (CAR) reached 193% by year-end, exceeding the minimum regulatory requirement by 33 percentage points and reflecting a 1 percentage point increase over the previous year. Further details on our financial performance can be found in the Chief Executive Officer's Review on pages 14 to 17.

Upholding Excellence in Corporate Governance

The Company continued to be guided by a dynamic and experienced Board of Directors. Of the 8 Board members, 5 were independent non-executive directors, bringing diverse expertise across insurance, actuarial science, banking and finance, investment banking, branding and marketing, and medicine.

The Board convened 4 times during the year, focusing on key priorities such as strategic direction, proactive responses to emerging economic challenges, and the preservation and growth of shareholder value. Governance matters were also actively deliberated, ensuring corporate resilience and a strong foundation for long-term value creation. The Board's effectiveness was further reinforced by the seamless functioning of its subcommittees, namely the Board Audit Committee, Board Remuneration Committee, and the Related Party Transactions Review Committee.

At Amana Takaful Life, we remain committed to upholding the highest

standards of corporate governance, proactively aligning with evolving regulatory requirements. Even ahead of mandated deadlines, we revised and strengthened our governance policies to meet the latest standards set by the Colombo Stock Exchange (CSE). Key policies were formally established and made accessible to shareholders, reinforcing our commitment to transparency and accountability.

A seamless collaboration between the Board and Management enabled the effective execution of strategic priorities, translating high-level decisions into actionable initiatives aligned with our long-term vision. Further details on our governance framework and key policy updates can be found in the Corporate Governance Report on page 36.

Creating Value for Our Stakeholders

As we progress on our growth journey, we remain committed to delivering value to our diverse stakeholders.

Our shareholders have been a key focus, as discussed earlier, we generated solid returns to them this year. At the heart of our purpose are our policyholders. In 2024, we disbursed Rs. 519 Mn in Takaful claims and benefits decrease of 8% over the previous year—reinforcing our promise of protection and financial security.

Employees are another critical stakeholder group, and we strive to provide a rewarding and growth-oriented work environment. Total investment in employee compensation for the year amounted to Rs. 329 Mn. Our strong human resource practices facilitated extensive training and professional development opportunities, including the Executive Edge MBA program at the Postgraduate Institute of Management (PIM), designed to groom executives for future leadership roles.

Beyond our business, we remain committed to making a positive social

impact. Recognising Sri Lanka's water stress challenges, we supported underprivileged families in the Mannar District by providing access to safe and clean drinking water, reaffirming our dedication to community empowerment.

Charting the Path Ahead

As we step into the next 25 years, we are poised for growth in a landscape shaped by economic and political stability. With a strong, future-focused strategy, we are well-equipped to navigate evolving market conditions while keeping innovation and digitisation at the forefront of our journey.

To drive digital transformation, we will invest in advanced IT infrastructure, ensuring seamless customer experiences from policy onboarding to claims management. Our focus remains on enhancing accessibility and convenience through digital platforms while expanding market penetration across Sri Lanka.

As the nation enters a new phase of economic growth, Amana Takaful Life is committed to supporting individuals and businesses with innovative, future-ready insurance solutions. By continuously evolving and adapting, we aim to strengthen our role as a trusted partner in protection and financial security.

Appreciation

The year gone by, was a true test of our resilience, risk management capabilities, and commitment to maintaining operational stability. Our ability to navigate these challenges was made possible by the unwavering dedication of our team.

I extend my heartfelt appreciation to my

fellow Board Directors for their visionary leadership, our Management team led by Mr. Gehan Rajapakse and employees for their relentless commitment, and our shareholders and business partners for their continued trust. A special thanks to our policyholders for their enduring loyalty and to the Insurance Regulatory Commission of Sri Lanka and the Shariah Council for their invaluable guidance and support.

The strength and success of Amana Takaful Life today are a direct result of the passion and dedication of everyone who has been part of our journey over the past 25 years. As we step into the future, let us build upon this legacy, striving for sustainable growth and long-term value creation.

Osman Kassim

Chairman

15 May 2025

Colombo

CHIEF EXECUTIVE OFFICER'S REVIEW

Gehan Rajapakse
Chief Executive Officer

WE REMAIN A MARKET LEADER IN SHARIAH COMPLIANT SOLUTIONS. OUR PROPOSITION, “TO ALL SRI LANKANS AS ONE,” UNDERSCORES OUR COMMITMENT TO PROVIDING PROTECTION FOR EVERYONE, AND WE MADE CONSIDERABLE EFFORTS IN OUR COMPETITIVE EDGE AND EXPANDING OUR MARKET SHARE

DEAR STAKEHOLDERS

Sri Lanka demonstrated encouraging signs of economic recovery throughout 2024, despite a period of political uncertainty leading up to the presidential election. Amidst this evolving landscape, Amana Takaful Life PLC (the Company) remained steadfast in our strategic direction and commitment to value creation. Our resilience and adaptability enabled us to navigate challenges effectively, delivering strong performance and sustainable growth. It is my pleasure to present a comprehensive account of our achievements and progress over the past year.

KEY STRATEGIC FOCUS AREAS FOR THE YEAR

Accelerated Growth – With a market share of just 1%, we focused on profitable growth through expanding our agency network. We increased the agency network to 724 by the end of 2024, and intend to increase this to 1,000 by the end of 2025. A significant step in this direction was the opening of 15 new branches in the North and East provinces of the country in 2024, targeting a key demographic for our growth. This expansion contributed to a 22% increase in new business during the year.

Value-Enhancing Product Portfolio – We continued to strengthen our product offerings, providing a wide range of life insurance solutions tailored to individuals and families. Our policies continued to generate some of the highest returns on investments, with various options that help diversify risks and optimise returns for our policyholders.

We remain a market leader in Shariah-compliant solutions. Our proposition, “To All Sri Lankans as One,” underscores our commitment to providing protection for everyone, and we made considerable efforts in our competitive edge and expanding our market share. Making the significant advantages of the Takaful product structure accessible to the wider Sri Lankan market remains a key strategic objective of the Company.

A HIGH RETURN PRODUCT PORTFOLIO

Amana Takaful offers a diverse product portfolio, providing customers with a wide range of protection covers. Additionally, customers can tailor their risk and return profiles by selecting from various investment fund options. We are immensely satisfied to observe that our customers have benefited from attractive returns from the performance of our investment funds. We proudly assert that our products offer the best investment choices to our customers.

FINANCIAL PERFORMANCE

As highlighted in the Reflections from the Chairman on page 11, our profitability experienced a decline compared to the prior year, with the Company achieving 90% of its budgeted business volume. While this represents a challenge, it remains commendable given the muted demand observed across the life insurance sector, driven by the constrained disposable incomes of individuals and families, despite the overall economic recovery.

In this context, we achieved a gross written contribution of Rs. 1,295Mn, reflecting a 13% growth over the previous year. Strengthening our revenue base, we generated Rs. 583Mn in income from investments. We were able to maintain stable Investment returns despite the declining yield rates in the market.

We paid out Rs. 519Mn in Takaful claims and benefits, a decline of 8% compared to the prior year. Discretionary expenses were carefully managed, as these directly impacted profitability and were within our control.

The profit from operations stood at Rs. 13Mn. Finance costs amounted to Rs. 8.6Mn, a notable reduction of 4% compared to the previous year, driven by lower interest rates. The Company posted a post-tax profit of Rs. 4.6Mn, which represents a decline of 91% YoY. A key factor impacting the Company’s profitability was the significant unbudgeted expenses incurred to expand our distribution network by adding 15 new branches in the North and East. We believe that this expansion will contribute significantly to our objective of rapid growth and profitability in the years ahead.

OUR POLICIES CONTINUED TO GENERATE SOME OF THE HIGHEST RETURNS ON INVESTMENTS, WITH VARIOUS OPTIONS THAT HELP DIVERSIFY RISKS AND OPTIMISE RETURNS FOR OUR POLICYHOLDERS.

CHIEF EXECUTIVE OFFICER'S REVIEW

As discussed in the Chairman's reflections, our balance sheet showed robust growth, further strengthening our financial position.

STRATEGIC RISK MANAGEMENT AND BUILDING RESILIENCE

Throughout the year, effective risk management remained a central priority, especially amid volatility and external uncertainties. We continuously evaluated and adjusted our risk management framework, ensuring it stayed resilient and adaptable to emerging challenges. Our proactive approach allowed us to identify potential risks early, implement mitigation measures, and maintain a stable operational environment. A key strength during this period was our diversified portfolio of insurance products and our strong reinsurance partnerships, which formed a solid foundation for protecting both our business and our policyholders.

NURTURING OUR PEOPLE

We are proud of our strong and dynamic workforce, comprising 139 team members. Diversity and inclusion are integral to our values, as reflected in the steady increase in female representation, now at 23%. Our approach blends the expertise of seasoned professionals with the energy and fresh perspectives of younger talent, fostering a collaborative and innovative environment.

Employee growth and well-being remain central to our focus. Our structured leadership development initiatives, such as the Executive Development programme at the Postgraduate Institute of Management (PIM), are designed to nurture future leaders and strengthen our talent pipeline. This investment is key to ensuring the long-term sustainability of our business.

In addition to formal training, we engaged our employees through various initiatives, including guest speakers on technical, lifestyle, and motivational topics. We also facilitated one-on-one meetings, providing employees a platform to voice concerns, share suggestions, and engage in open dialogue.

Our commitment to aligning human resource development with our strategic growth objectives ensures that we continue to cultivate the talent needed to drive the future success of the Company.

DIGITAL TRANSFORMATION AND ENHANCED EFFICIENCY

We have made significant strides in advancing our digital transformation, adopting a dual-pronged approach that integrates technology into both our internal processes and customer-facing platforms. This approach has led to enhanced process efficiencies and a superior customer experience.

Digitalisation has played a key role in optimising our cost management. We have successfully increased underwriting volume from 400 to 700 per month without any additional staff costs, thanks to the implementation of digital processes. Clients can now easily submit proposals via our digital platform, streamlining the overall process.

Approximately 50% of our internal processes are now automated, allowing us to operate more efficiently. Additionally, our agents benefit from a leads management system, which provides them with real-time updates on the status of their leads, further enhancing productivity and service delivery. This focus on digital transformation continues to drive growth and improve service for both our clients and team.

AWARDS AND ACCOLADES

During the year under review, Amana Takaful Life received over 20 awards from independent third-party organisations, recognising the excellence of our performance. These accolades highlight a broad spectrum of achievements, including our core insurance business, management practices, product innovation, technological and digital advancements (such as app usage), and customer experience.

We are truly honoured by these awards, and they motivate us to continually raise the bar. With each recognition, we strive to deliver even better service to our stakeholders, ensuring that we continue to meet and exceed expectations.

LOOKING AHEAD

As we look to the future, we are committed to expanding our agency network to enhance penetration and reach more Sri Lankans with our effective products. Our goal is to educate individuals on the importance and impact of life insurance while delivering meaningful value to our shareholders.

We plan to scale up our digital initiatives, introducing a seamless, feature-rich solution to policyholders that offers greater flexibility and options. We are optimistic about the country's future and remain hopeful that the stability will continue, paving the way for an accelerated economic recovery. This will benefit not only our business but also contribute to the well-being of all Sri Lankans.

THANK YOU

I would like to extend my sincere gratitude to all those who have been instrumental in our success throughout the year. First, my heartfelt thanks to our Chairman Mr. Osman Kassim, and the Board of Directors for their unwavering support and strategic guidance. Their leadership has been vital in steering us through both challenges and opportunities.

To our valued shareholders, thank you for your continued trust and confidence in our Company. Your support drives our commitment to delivering long-term value.

A special thank you to all our employees and fellow members of the top management team. Your dedication, hard work, and collaborative spirit are at the heart of our success, and I am deeply grateful for your contributions.

To our policyholders, thank you for your loyalty and for allowing us to be part of your lives and financial protection journey. Your trust is the foundation of our business.

We are also grateful to the regulatory authorities for their ongoing guidance, ensuring we operate with integrity and compliance. A heartfelt thank you to the Shariah Council for their continued support and for helping us uphold the principles of Shariah-compliant insurance.

Together, we have made significant strides, and I look forward to achieving even greater success in the future, thanks to the collective efforts of everyone involved.

Gehan Rajapakse

BOARD OF DIRECTORS PROFILE

Osman Kassim

Chairman / Non-Executive Director

Sharhan Muhseen

Deputy Chairman / Independent /
Non-Executive Director

Mr. Osman Kassim, the visionary and one of the main promoters of Amana Group of Companies, was the Chairman of Amana Bank PLC, Sri Lanka's first and only licensed commercial bank to conduct all its operations under the principles of Islamic banking. Kassim, a well-versed personality in Islamic banking and finance, was instrumental in introducing Islamic finance to Sri Lanka with the setting up of Amana Investments in 1997, whose assets and liabilities were later transferred to Amana Bank PLC in 2011. He has expanded his directorships in Islamic Finance companies overseas as well, where he is a Director at Amana Takaful Maldives. With over 40 years of senior management experience, Kassim was also the Founder Chairman of the well-established Expolanka Group of Companies which is engaged in diverse business activities. He is the Chairman of Vidullanka PLC, a leading provider of renewable energy to the National Grid and he is also the emeritus Chairman of Aberdeen Holdings (Private) Limited. He also sits on the Board of Ex-Pack Corrugated Cartons (Private) Limited.

He was conferred an Honorary Doctorate from the Staffordshire University in recognition of his achievements as both a global entrepreneur and visionary educationalist.

Sharhan Muhseen is a senior Investment Banker with extensive experience in areas of Mergers and Acquisitions, Corporate Finance and Capital Markets. He has served in a senior capacity working with company boards and senior leadership teams of Financial Institutions across Asia to help drive their strategic agenda and roadmap. Sharhan previously worked in best-in-class global investment banks, Credit Suisse, Bank of America Merrill Lynch and JPMorgan in leading regional coverage roles. His most immediate previous role was as Managing Director, Head of Asia Insurance, Head of South East Asia Financial Institutions Group, and Country Manager Sri Lanka at Credit Suisse based in Singapore. In his Investment Banking career spanning over 20 years, Sharhan has completed landmark mergers and capital raising transactions in excess of USD 100 Bn. The Asia FIG sector team at Merrill Lynch and Credit Suisse has won the "FIG Asia House of the Year" award and "Best Sri Lanka Investment Bank" from the Asset magazine and Finance Asia Magazine for multiple years under his leadership. Sharhan is also credited with some leading research reports including reports on Banking sector efficiency, currency depreciation and budget deficit in his role as Head of Sri Lanka Banking sector research coverage and lead Economist at Jardine Flemming. Sharhan has also worked at Standard

Chartered Bank in the corporate banking division where he started out as a Management Trainee and at Rodman and Renshaw stock and commodities broker based in Chicago.

He has experiences at the policy level working as a Team Leader at the National Council for Economic Development (NCED) under the Ministry of Finance as well as a Director at the TAFREN presidential task force for rebuilding the economy after the 2004 Tsunami. Sharhan holds a Masters in Economics from the University of Colombo and a Bachelor of Business Administration (Hons) from Western Michigan University. He has completed the Corporate Finance training with JP Morgan in New York and board leadership training at the Singapore Management University. He is the Chairman of the Board of Directors of Commercial Bank of Sri Lanka PLC.

Gehan Rajapakse
Executive Director/Ceo

Gehan Rajapakse the incumbent Chief Executive Officer of Amana Takaful Life PLC was appointed to the Board on 3rd June 2020. He counts over 25 years of experience in the Financial Services industry with primary focus on Insurance & Asset Management. He commenced his career with CTC Eagle Fund Management Company Ltd in 1992 as a Management Trainee. He has functioned as a General Manager of both the Asset Management business and later the Banc Assurance arm of Aviva NDB PLC. Prior to his appointment as CEO Amana Life, he served as the CEO of LOLC Insurance PLC. He holds a Master's Degree in Business Administration (MBA) from PIM University of Sri Jayewardenepura and a Bachelor's Degree in Economics (Hon) from the University of Colombo. He is also a Fellow Member of the Chartered Institute of Management Accountants (CIMA) – UK.

Ammar Shafik Kassim
Independent Non-Executive Director
(Resigned w.e.f 07th March 2025)

Ammar was appointed to the Board on 7th March 2016. He currently holds the position of Executive Director at Fits Aviation, Sri Lanka's largest private airline.

He has managed a programme of aircraft acquisition fleet standardisation across three global hubs for the airline. He holds a BSc in Economics and an MSc in Management Information Systems from New York University.

Hassan Kassim
Non-Independent Non-Executive Director

Hassan Kassim is the Managing Director of Amana Takaful PLC, the parent Company. He is the Deputy Chairman/ Chief Operating Officer at Aberdeen Holdings (Private) Limited and the Founder /Director of Expo Commodities Global (Pvt) Ltd.

He holds a BA (Hons.) Degree in Management Studies from the University of Nottingham, UK. Hassan Kassim also serves as a member of the Board of Directors of Bio Extracts (Pvt) Ltd, Lanka Commodity Holdings (Pvt) Ltd., Expoceylon Pharmaceuticals (Pvt) Ltd, Expo Commodities Global (Pvt) Ltd, Kolonnawa Property Holdings (Pvt) Ltd, Ruhunu Farms (Pvt) Ltd and Roar Digital (Pvt) Ltd.

Hassan Kassim, was awarded the Young Leader Award at the 26th Asia Insurance Industry Awards (AIIA) 2022. The achievement is an unprecedented feat for Amana Insurance and the Sri Lankan insurance industry as a whole, as Hassan is the only Sri Lankan to have won this Young Leader Award of Asia thus far. Furthermore, this was a rare occurrence, where a Sri Lankan company won an award in this forum after nearly 10 years, and the fact that this was achieved amidst an island wide economic crunch provides great reputational value to both Amana Insurance and Sri Lanka as a whole.

BOARD OF DIRECTORS PROFILE

K R Ravindran

STRATEGIC REPORTS

EVOLVING WITH EXCELLENCE – PERFORMANCE REVIEW

OPERATING LANDSCAPE

Resilient Sri Lanka – A reviving economy

In 2024, Sri Lanka made notable progress in achieving macroeconomic stability. Strengthened by key regulatory and policy initiatives, the financial sector's governance framework saw significant enhancements, fostering a more robust and resilient system. Consequently, the economy, including the insurance sector experienced a relatively improved operating landscape, however still laden with ongoing challenges.

Behaviour of key economic indicators in Sri Lanka

Indicator	Performance
Gross Domestic Production (GDP) growth	Three consecutive quarters of positive GDP growth from 1Q2024 to 3Q2024 at 5.3%, 4.7% and 5.5% respectively.
Inflation	Notable decline in year on year inflation through 2024 as measured by the Colombo Consumer Price Index (CCPI), with deflation reported from September 2024 onwards, predominantly driven by downward revisions to the energy prices, a strengthening Sri Lankan Rupee and the decline in food prices.
Interest rates	Continued decline in interest rates in an easing monetary policy environment taken by the Central Bank of Sri Lanka (CBSL) reducing policy rates on three occasions during the year. Average Weighted Prime Lending Rate (AWPR) movement from 12.39% in end 2023 to 9.11% in end 2024.
Exchange rate, foreign exchange earnings and gross official reserves	The external sector continued its positive momentum in 2024 contributing to stronger Rupee during the year. The Sri Lanka Rupee continued to appreciate during the year appreciating by 10.7% against the US dollar during 2024. Improved foreign exchange earnings were a key driver. Worker remittances reached USD 6.6 Bn, up by 10.1% year-on-year (YoY). Tourism industry made an impressive recovery in 2024, generating over USD 3.2 Bn in revenue, registering a substantial 52.38% YoY increase. Gross Official Reserves increased to USD 6.1 Bn at end 2024 compared to USD 4.4 Bn at end 2023 supported by forex purchases of Central Bank in 2024 at historically highest levels.
Successful completion of the International Sovereign Bonds (ISB) restructuring by the Government of Sri Lanka (GoSL)	The GoSL successfully concluded the international debt restructuring process in December 2024, finalising agreements with its major official bilateral creditors, including China, through a Memorandum of Understanding (MoU) with the Official Creditor Committee (OCC).
Sovereign rating upgrade	Consequent to the finalisation of the ISB restructuring, Fitch upgraded Sri Lanka's long-term foreign-currency rating to 'CCC+' from 'RD'(Restricted Default). and local-currency IDR to 'CCC+' from 'CCC-'. This was followed by Moody's rating agency also upgrading Sri Lanka's credit rating on 23 December 2024 to Caa1 from Ca.
Progress made on the International Monetary Fund (IMF) Extended Fund Facility (EFF)	By November 2024, the IMF approved the third review of Sri Lanka's bailout programme, disbursing approximately US\$333 million. This brought total disbursements to about US\$1.3 billion. The IMF noted emerging signs of economic recovery but emphasised the need for ongoing reforms, particularly in tax revenue enhancement and restructuring state-owned enterprises, to achieve fiscal targets.

Personalisation and convenience in insurance:

Consumers are increasingly seeking personalised and flexible insurance solutions. This shift has prompted insurers to develop innovative products that cater to specific customer needs, moving away from traditional one-size-fits-all policies. Furthermore, consumers increasingly prioritise convenience in both purchasing insurance policies and processing claims. They seek seamless, hassle-free experiences, with digital platforms, quick approvals, and simplified documentation playing a crucial role in meeting these expectations.

Economic recovery measures driving insurance sector growth:

The 2024 budget introduced measures aimed at economic recovery, which indirectly benefited the insurance sector. Policies promoting economic stability and growth created a more favourable environment for insurance uptake, as individuals and businesses felt more confident in investing in insurance products.

Growing middle class fuels demand for insurance:

The expanding middle class in Sri Lanka is playing a pivotal role in driving demand for insurance products. With rising disposable incomes and greater financial literacy, individuals are prioritising risk mitigation strategies, such as health, motor, and property insurance. Additionally, increased urbanisation and asset ownership are further fuelling the need for comprehensive coverage.

Expanding market opportunities amid economic growth:

Sri Lanka's continually improving economy, coupled with historically low insurance penetration rates, presents a strong opportunity for insurers. As the economy strengthens, businesses and individuals alike recognise the importance of financial protection, leading to higher adoption of insurance solutions. Moreover, favourable demographic trends, including a young, tech-savvy population, along with enhanced awareness campaigns by insurers, are expected to support long-term market expansion.

UNLEASHING POTENTIAL: OUR PEOPLE STRATEGY

INTRODUCTION

At Amana Takaful Life, our people are the driving force behind our success. We believe that a motivated, skilled, and engaged workforce is essential to delivering excellence and sustaining long-term growth. In an evolving business landscape, we continue to invest in our human capital through strategic talent development, robust employee engagement, and a culture that fosters innovation and inclusivity.

This year, we remained committed to empowering our employees with opportunities for learning, career progression, and well-being, ensuring they are equipped to navigate challenges and contribute meaningfully to our shared vision. As we move forward, we will continue to cultivate a dynamic and resilient workforce that drives the company toward greater achievements.

STRENGTHENING OUR WORKFORCE: TALENT ACQUISITION & INTEGRATION

At Amana Takaful Life, we recognise that building a high-performing workforce requires a strategic approach to talent acquisition and seamless integration. Our focus has been on attracting, engaging, and retaining skilled professionals who align with our business needs and company culture.

UNLEASHING POTENTIAL: OUR PEOPLE STRATEGY

Specialised skill recruitment: The insurance industry demands a blend of technical expertise and regulatory knowledge. To enhance our capabilities, we actively recruited professionals in underwriting, compliance, risk management, and claims. Additionally, we onboarded graduates from Sabaragamuwa and Wayamba universities with specialised insurance degrees, further strengthening our internal expertise.

Employee referral initiative: To encourage quality hires, HR introduced an Employee Referral Programme, allowing existing employees to recommend potential candidates. Upon successful completion of six months, the referring employee received a reward. This initiative enhanced employee engagement, reduced hiring costs, improved retention, expedited the recruitment process, and facilitated the smooth assimilation of new hires into our corporate culture.

Expanding recruitment channels: We diversified our hiring strategies by leveraging social media platforms, collaborating with headhunters, and sourcing candidates through professional industry networks, ensuring access to top-tier talent.

Culture-focused hiring process: To reinforce alignment with our company values, HR integrated core organisational principles into interview questions. This approach ensured that new recruits not only possessed the required skills but also fit seamlessly into our corporate culture.

Enhanced onboarding & development: Our orientation programme was revamped into an immersive 1.5-day session covering key learning areas. Additionally, Continuous Professional Development (CPD) initiatives were introduced to keep employees updated on industry changes. To foster teamwork and experiential learning, cross-functional Outbound Training (OBT) sessions were organised, aligning teams toward shared objectives.

EMPLOYEE DEVELOPMENT, TRAINING, AND UPSKILLING

The company recognises that continuous employee development is crucial for maintaining a competitive edge in the insurance industry. In 2024, we introduced and expanded various training programmes aimed at enhancing productivity, improving technical expertise, and equipping employees with the necessary skills to adapt to evolving business demands.

CONTINUOUS LEARNING

In keeping pace with evolving regulations, technological advancements, and changing customer expectations, HR emphasises ongoing professional development programmes. These initiatives included Sales Force Development and back-office staff development

TRAINING PROGRAMMES AND LEARNING INITIATIVES

To foster professional growth and competency, the company launched multiple structured training programmes, as listed below.

- Life Product Trainings
- IRCSL Licentiate Programs
- AML/CFT Programs
- Essential Telephone etiquettes
- Public Speaking
- Out Bound Training
- Chat GPT training programme

MANAGEMENT DEVELOPMENT PROGRAMME UPSKILLING AND RESKILLING INITIATIVES

As part of its commitment to continuous learning, the company implemented structured initiatives to upskill employees in response to evolving business needs:

- A structured training path was introduced, targeting fundamental competencies required for success in the General Insurance sector.
- Need-based training programmes were introduced based on industry demands, covering areas such as Customer Service, Telephone Etiquette, MS Office, and AML Compliance.
- Employees' training and skill development preferences were identified through a structured Training Needs Assessment (TNA), leading to the implementation of 12 different TNA-based training programmes in 2024.
- A Successor Development Programme was launched in collaboration with an outsourced professional learning body, ensuring that a leadership pipeline is built through structured learning.

EMPLOYEE PARTICIPATION AND IMPACT MEASUREMENT

The company believes in measuring the effectiveness of its training programmes to ensure tangible improvements in employee performance. The success of training initiatives was assessed through a multi-level evaluation framework:

- Immediate Level – Employees provided anonymous feedback through a digitalised post-training evaluation questionnaire, assessing content, trainer effectiveness, and logistical arrangements on a four-point Likert scale.
- Knowledge and Skill Level – Employee competency was measured through examinations and behavioral indicators to track improvements in knowledge and skills.
- Results Level – The long-term impact was monitored through key performance indicators (KPIs), including productivity metrics, cancellation rates, customer satisfaction scores, and complaint ratios.

62% of employees participated in training and development initiatives in 2024

PERFORMANCE MANAGEMENT

At Amana Takaful Life, performance management is an ongoing, structured process aimed at aligning individual contributions with the broader organisational vision. By setting clear

objectives, providing continuous feedback, and conducting regular performance assessments, we create an environment where employees are empowered to grow while

actively contributing to business success. This structured framework reinforces accountability, professional development, and a high-performance culture throughout the organisation.

Throughout the year, we reassessed and refined the Key Performance Indicators (KPIs) of departmental heads and various functions, ensuring they remained closely aligned with

the company's strategic objectives. High-performing teams, particularly in sales, were promptly recognised for their contributions. To foster motivation and appreciation, HR organised small-

scale felicitation ceremonies during review meetings, attended by the CEO and respective Line Managers, reinforcing a culture of recognition and encouragement.

UNLEASHING POTENTIAL: OUR PEOPLE STRATEGY

REMUNERATION

At Amana Takaful Life, we recognise that a fair, performance-driven remuneration strategy is key to fostering a motivated and engaged workforce. Our framework is designed to reward employees based on merit, ensuring their dedication, contributions, and achievements are acknowledged and fairly compensated.

Despite economic challenges and operational uncertainties in recent years, we remained committed to employee well-being. Upholding our people-first philosophy, we continued to provide full remuneration and benefits, reinforcing financial stability and support for our employees.

Our remuneration structure is built on transparency and a systematic approach, allowing employees to clearly understand the link between their performance and rewards. This framework not only promotes accountability and excellence but also enhances job satisfaction, financial security, and overall workplace morale.

LEADERSHIP CONTINUITY: CULTIVATING THE NEXT GENERATION OF TALENT

To strengthen its internal leadership pipeline, Amana Takaful Life launched the Leadership Excellence Programme, a 7-month initiative in collaboration with the Post Graduate Institute of

Management – the Executive Edge. This programme provided selected managers with customised modules aimed at developing the essential skills for effective leadership. We are currently enrolling the second cohort, which includes branch managers and other operations managers, further expanding our commitment to nurturing internal leadership talent.

THE EXECUTIVE EDGE

The curated MBA programme for our C-suite leaders

7 of our managers participated in the Executive Edge MBA programme conducted by the Postgraduate Institute of Management (PIM) during the year. This initiative underscores our commitment to developing future leaders and strengthening our talent pipeline to drive sustained organisational growth.

EMPLOYEE ENGAGEMENT

At Amana Takaful Life, we understand that engaged employees are the key to our continued success. In 2024, we remained dedicated to cultivating a positive and inclusive workplace where employees feel valued, motivated, and empowered. Through various initiatives focused on well-being, professional development, and team collaboration, we enhanced the overall employee experience, driving increased productivity, teamwork, and job satisfaction. Our approach to engagement goes beyond traditional HR practices, embracing innovation and ongoing feedback to foster a dynamic and supportive work environment. A comprehensive list of these activities is outlined below.

- Staff birthday celebrations
- Staff outings
- Step challenge
- Recognising the children of staff who did exceptionally well in G.C.E. Ordinary Level, Advanced Level and Grade 5 Scholarship exams
- Employee Pulse checks were conducted across the company (a cross section) in an attempt to gauge staff satisfaction levels and address any grievances in a proactive manner.
- Coffee with the CEO was introduced for the first time whereby staff completing six months in the company would interface with the CEO and HR over a coffee to openly discuss their experience in the company and also share areas for improvement.
- The Hobby Club was launched (Shutter Bug) to engage staff on a photography theme competition in which over 150 staff participated and the winner/s rewarded.
- Departmental breakfast meets along with spot games were organised to break the monotony of work.
- As a company first, we initiated Fit N Fab, a weekly aerobics session for staff members under the supervision of a certified trainer in promoting health and fitness.
- In encouraging work life integration, HR held a Children's Day at the office premises inviting the children of staff members, wherein they took part in activities and received gifts. This gave the kids an opportunity to tour the office premises and experience the area their parents' work.
- Cultural events/ festivities in bringing a sense of togetherness and inclusion
- Celebration of Women's Day and recognising all female employees.
- A special training session done for the female employees by a sought-after personal development Coach.

ENCOURAGING OPEN DIALOGUE AND TRANSPARENCY

At Amana Takaful Life, we prioritise creating a culture of openness, where communication flows freely across all levels of the organisation. Every employee has direct access to senior management, thanks to our open office layout that removes traditional cubicles and encourages transparent interactions. Our CEO and senior leadership team are always available to staff without the need for prior appointments, promoting an atmosphere of approachability and inclusivity.

The Internal Communications Unit (ICU), along with HR Notices, plays a crucial role in keeping employees informed by sharing important company news, events, and recognising staff accomplishments. Additionally, our Pulse Check initiative provides a platform for informal conversations with employees, offering insight into their work-life balance, job satisfaction, relationships with colleagues and managers, and overall workplace environment. This continuous feedback loop helps us maintain a supportive and positive culture.

GREAT MANAGER AWARDS

Amana Takaful Life was a proud recipient of the award – Organisation with Great Managers at the 2024 Great Manager Awards, conducted by the Colombo Leadership Academy.

We are proud of the team members of Amana Takaful Life who emerged as Great Managers after a structured and rigorous assessment by the Colombo Leadership Academy, covering multiple perspectives of robust leadership.

LOOKING AHEAD

As we move forward, Amana Takaful Life PLC remains dedicated to fostering the company's ongoing growth, innovation, and success by investing in our most important asset—our people. We recognise that our strength comes not only from the services we offer but also from the dedication, expertise, and passion of our team.

In the years ahead, we will focus on enhancing the employee experience, cultivating an inclusive and supportive culture, and building a workforce that is well-prepared to navigate the evolving challenges of the insurance industry. By encouraging continuous learning and offering career development opportunities, we aim to empower our people to reach their full potential and make meaningful contributions to the company's success.

We will continue to emphasise ethical practices and align our people strategies with our core values—CORD: Customer-Centered, Open-Mindedness, Rise for Quality, and Diversity. Our ultimate goal is to create a workplace where employees feel valued, engaged, and motivated, confident in knowing they are part of a company that cares for all its stakeholders.

CREATING A LASTING IMPACT: OUR PROMISE FOR A BETTER FUTURE – CORPORATE SUSTAINABILITY REPORT

At Amana Takaful Life, our commitment to corporate social responsibility (CSR) is firmly anchored in our core values and our drive to give back to the community that has supported us over the years. We understand that success goes beyond financial achievements; it is also defined by the positive contributions we make to the society around us.

Our CSR efforts take a holistic approach to community development, blending strategic financial investments with the meaningful involvement of our employees through volunteer work. Through targeted initiatives, we have directed our resources toward

supporting underserved communities, improving access to education and healthcare, and advancing environmental sustainability.

Beyond financial contributions, our employees have consistently demonstrated a deep commitment to making a difference, offering their

time and skills to various causes. Their passion and collective dedication embody our belief that businesses can play a vital role in creating lasting, positive change, driving progress that benefits both the community and the environment.

PROJECTS CONDUCTED THROUGH 2024

BLOOD DONATION CAMP

A blood donation camp was organised at the Amana Takaful Head Office, located at No. 660 - 1/1, Galle Road, Colombo 03, as part of our ongoing commitment to community welfare and social responsibility. Recognising the critical need for a steady and sufficient blood supply in local hospitals, this initiative aimed to support life-saving medical treatments and emergency care. A total of 50 donors participated in the event—all of whom were Amana Takaful staff.

Employee Volunteering: 50 employee hours, in organising the event

FEEDING HOPE: PROVIDING LUNCHES FOR UNDERPRIVILEGED CHILDREN

As part of our commitment to supporting the community, we provided lunches to underprivileged primary school students at St. Mary's College, Moratuwa. This initiative aimed to address both hunger and the essential nutritional needs of these children, ensuring they have the energy and sustenance required to thrive in their educational journey.

Beneficiaries: 115 primary students

Employee Volunteering: 75 employee hours, in organising and conducting the event

DONATION OF PLASTIC CHAIRS FOR A SCHOOL IT ROOM

As part of our ongoing efforts to support education and improve learning environments, we donated plastic chairs to the IT room of Manalkandu Muslim Maha College in Puttalam. This donation was aimed at enhancing the study environment for students, providing them with comfortable and functional seating while they engage with their studies. By improving the accessibility and comfort of the IT room, we are helping foster a more conducive space for students to learn and develop essential digital skills, contributing to their overall educational growth.

Beneficiaries: More than 100 students who use this IT room annually

Employee Volunteering: 20 employee hours, in organising and coordinating the initiative

DONATION OF ESSENTIAL SCHOOL SUPPLIES

We donated various school supplies and musical instruments to Dehiwala Methodist College. This contribution included essential items such as books, musical instruments for the school's Western Band, and a name board and school plan board to improve the school's infrastructure. By providing these resources, we aim to support low-income students in accessing quality education while encouraging extracurricular activities. The donation also helps enhance the students' learning environment and enriches their overall educational experience, empowering them for future success.

Beneficiaries: More than 35 students

Employee Volunteering: 20 employee hours, in organising and coordinating the initiative

CORPORATE GOVERNANCE

Corporate governance that nurtures a culture of transparency, accountability and integrity plays an integral part in ensuring growth and stability. It is through the adoption of the highest of such standards that we continue to enjoy the trust and confidence of all our stakeholders.

The present business environment has become more challenging. Therefore, Amana Takaful Life PLC strongly believe that it is vital for the Company to adopt the highest standards of corporate governance. This would nurture a culture of transparency, accountability and integrity which are essential prerequisites in ensuring the Company’s survival and growth in a competitive market.

Corporate governance is described as a Management process in which a corporate, business entity or Company is directed, managed and controlled. It is a concept which is now entrenched in the business world. In any company where the shareholders have placed the reigns of power in the hands of the Directors, it naturally follows that the Directors are accountable to the shareholders. To ensure that the trust placed in the Directors is secure, a company must adhere to the best corporate governance practices which embody integrity, accountability and transparency. Nevertheless, the success

of any good governance practice initiative depends on how the people are led and the policies as well as how the processes are implemented.

In order to create shareholders’ wealth and gain market confidence, Amana Takaful Life PLC is committed to adopting best practices. It is also committed to maintain the smooth functioning of the Company’s operations.

CAPITAL STRUCTURE AND SHAREHOLDING

Amana Takaful Life PLC has at its foundation a capital structure consisting an issued share capital of Rs. 500,000,000/-. The Company has 1,067 shareholders, as at 31st December 2024. Details of the main shareholders are given on page 113

BOARD OF DIRECTORS AND BOARD COMMITTEES

There are Eight Directors on the Board of Amana Takaful Life PLC, whom Seven hold office in Non-Executive capacities and one in Executive capacity who also function as the Chief Executive Officer of the Company. The Board of Directors has been drawn from a cross-section of industries/disciplines. Their expertise and experience in various fields as well as insights have

contributed immensely to making effective and informed Board decisions. The selection of the appropriate and suitable candidates with the right skills and attributes is crucial in order to ensure its efficiency and effectiveness. For it is believed that a healthy Board culture will help to encourage and safeguard good governance practices which in turn will ensure shareholders’ interests are always protected. The Company ensures that the Directors and CEO at all the times fulfill the Fit and Proper assessment criteria set out in the listing rules. The names of the Board of Directors are given on page 18 to 21

More details of our Board members can be found on pages 18 to 21

The Board is collectively responsible for the long-term success of the Company. The Executive Committee is responsible for running the business operations and ensuring that the necessary financial and human resources are in place in order to achieve the Company's strategic aims.

The Non-Executive Directors are responsible for constructively challenging and helping develop proposals on

strategy; scrutinising the performance of Management; satisfying themselves that financial controls and systems of risk management are robust; determining levels of remuneration; satisfying themselves on the integrity of financial information and succession planning.

The Board reviews strategic issues on a regular basis and exercises control over the performance of the Company by agreeing budgetary targets and monitoring performance against those targets. Certain matters are reserved for approval by the Board and the Board has overall responsibility for the Group's system of internal controls and risk management, as described on pages 42 to 48. Following presentation by Executive Management and a disciplined process of review and challenge by the Board, clear decisions on policy and strategy are adopted and the Executive Management is empowered to implement those decisions.

A formal schedule of matters reserved for Board approval is maintained, which covers items that are significant to the Company as a whole, due to their strategic, financial or reputational implications.

The main functions of the Board of Directors are as follows:

Formulate, review and monitor implementation of competitive business strategies including Long-term business plans. Ensure the appointment of a competent Chief Executive Officer, and an effective Management Team including an evaluation of their performance, as well as review the Company's and the Group's succession plans. Secure a sound and an adequate risk management system.

CORPORATE GOVERNANCE

Review the integrity and effective information, control and audit systems.

Adopt business practices that conform to “Shari’ah” Principles.

Approve policies of corporate conduct that continue to promote, maintain and sustain the integrity of the Company

Ensure compliance with legal/ethical standards.

BOARD ROLES AND RESPONSIBILITIES

CHAIRMAN

The role of the Chairman (or Chair) is to:

Lead the Board to ensure effectiveness in all aspects of its role;

Plan agenda items and timings for Board meetings;

Ensure the membership of the Board is appropriate to meet the needs of the business;

Oversee that the Board Committees carry out their duties including reporting to the Board;

Establish appropriate personal objectives for the Chief Executive;

Ensure Directors are up-to-date with training and development;

Provide the information necessary for Directors to take a full and constructive part in Board discussions;

Promote an open culture of debate; and Develop and maintain effective communication with shareholders.

CHIEF EXECUTIVE OFFICER/ EXECUTIVE DIRECTOR

The role of the Chief Executive Officer (CEO) / Chief

Executive Director is to:

Run the day-to-day business and operations of the Company;

Lead the development and delivery of strategy to enable the Group to meet the requirements of its shareholders;

Lead and oversee the Executive Management of the Company;

Meet the Group’s budget and strategic plans; and provide the appropriate environment to recruit, engage, retain and develop the personnel needed to deliver the strategy.

As an executive director, identify matters

that have an impact on our business and report to the board regularly. The Board approves strategic directions based on the evaluations of such matters which are most material in the given context.

BOARD SECRETARY

Under the direction of the Chairman, the role of the Board Secretary and his team is to:

Ensure good information flows within the Board and its committees and between Senior Management and Non-Executive Directors;

Facilitate Director inductions and professional development;

As requested, arrange independent professional advice for Directors at the Company’s expense; and

Advise the Board through the Chairman on governance matters.

The responsibilities of the Chief Executive Officer and the Chairman have been clearly established, adhering to best corporate governance practices. The responsibility and task of the Chairman and the Chief Executive Officer are separated in order to facilitate better workings of the Company and the Group.

New Directors are nominated to bridge identified knowledge gaps. Such Directors are elected to the Board by shareholders at the Annual General Meeting. In accordance with the Articles of Association, 1/3 of the Directors retire annually and being eligible, offer themselves for re-election. The Board meets quarterly and the agenda is circulated to the Board members well ahead of the scheduled date. The Chairman of the Board as well as members chairing the various Committees of the Board will outline the agendas for the Board and Committee meetings respectively. Each Director or member is free to suggest items for the agenda or raise issues and concerns at these meetings.

Amana Takaful Life PLC has outsourced its secretarial functions to a qualified company of secretaries.

The following committees of the Board have been formed with the objective of improving governance: viz–

- Audit and Compliance Committee
- Risk Management Committee
- Investment Committee

iv. Remuneration Committee

v. Related Party Transactions Review Committee

vi Board Nominations and Governance Committee

Each of them, who head Strategic Business Units drive their business functions aligned to the strategic plan, building capacity and capability. Corporate Governance and Compliance is a key function of the OMC.

The Company's performance dashboard is a key evaluation and measurement tool in this process.

INTERNAL CONTROLS

The Board of Directors acknowledges the imperative of a sound and strong internal control environment for the purpose of attaining good governance. The internal control system, among others, covers risk management and organisational, operational, financial, compliance and business development controls. Towards this end, the Board has entrusted the responsibility of establishing an effective internal control system to the Audit and Compliance Committee, which is also responsible for the regular monitoring of such controls. In addition, an inhouse audit team conducts internal audit on the systems and various aspects of the operations in accordance with the risk-based principle. The findings are conveyed to the Audit and Compliance Committee, which, in turn, briefs the Board on areas of concern.

COMPLIANCE WITH “SHARIAH”

REQUIREMENTS

Amana Takaful Life PLC takes the utmost care in adhering to “Shari'ah” principles. A Shari'ah Unit has been set up internally to carry out quarterly reviews on the policies and operations of the Company. The Unit also conducts regular training programmes to members of staff in order to disseminate the knowledge of Shari'ah, in particular that relates with the operation of Takaful and Islamic finance in general. The Statement of Compliance is a part of the Annual Report and is provided on page 58

REGULATORY COMPLIANCE

The Audit and Compliance Committee is responsible for regulatory compliance. In addition, a Compliance Unit has been set up to monitor and investigate into all compliance-related matters across the Organisation. It keeps a close track of all new legislations, regulations etc., and notify and guide the respective departments accordingly.

In accordance with Section 9 of Colombo Stock Exchange's Corporate Governance Rules, Amana Takaful Life PLC has established and maintains the following policies which are subject to revision if required.

1. Policy on Matters Relating to the Board of Directors
2. Policy on Board Committees
3. Policy on Corporate Governance, Nominations and Re-election
4. Policy on Remuneration
5. Policy on Internal Code of Business Conduct and Ethics for all Directors and employees.
6. Policy on Risk Management and Internal Controls
7. Policy on Relations with Shareholders and Investors
8. Policy on Environmental, Social, and Governance Sustainability
9. Policy on Control and Management of Company Assets and Shareholder Investments
10. Policy on Corporate Disclosures
11. Policy on Whistleblowing
12. Policy on Anti-Bribery and Corruption

CORPORATE GOVERNANCE

RELATIONSHIP WITH STAKEHOLDERS

The Board of Directors discloses policy decisions and operations affecting shareholders through its Quarterly and Annual Reports.

The Board entertains questions from shareholders at the Annual General Meetings ensuring shareholder participation and interaction.

The management holds monthly team brief at which employees are briefed on company performance, policies, goals and values of Amana Takaful Group and their views and suggestions are sought and evaluated.

Amana Takaful Life PLC believes in serving its customers beyond their expectations. An interactive website provides access to the general public on the Company's activities.

RISK MANAGEMENT FRAMEWORK

RISK & RISK MANAGEMENT

Risk is the possibility of an event or circumstance that may have adverse impacts on the achievement of an organisation’s objectives. In the context of an insurance company, risk arises from various internal and external factors, including market volatility, underwriting decisions, operational challenges, compliance obligations, and changes in the regulatory environment.

Risk Management is the systematic process of identifying, assessing, monitoring, and mitigating potential risks that may affect the organisation’s ability to achieve its goals. In the insurance sector, it involves implementing strategies and frameworks to minimise the financial, operational, legal, and reputational impacts of uncertain events. An effective risk management process supports sustainable business growth, policyholder protection, and regulatory compliance.

To ensure that risk management practices are consistently applied and effectively monitored, a robust risk governance framework is essential.

ATLPLC RISK GOVERNANCE

In the Risk Framework of Amana Takaful Life PLC, the entire Company has been structured into a 4-stage cascade, representing Practices, Personnel, Policies & procedures from a risk management perspective, as illustrated below:

BOD	–	Board of Directors
RISCO	–	Risk Committee
BAC	–	Board Audit Committee
BNGC	–	Board Nominated Governance Committee
CEO	–	Chief Executive Officer
HODs	–	Heads of Departments
SOPs	–	Standard Operating Procedures

The Risk framework operates on a bottom-up approach in terms of its Lines of Defence.

1. First Line of Defence

The frontline staff and operational teams directly manage and control risks on a day-to-day basis within their respective roles and responsibilities.

2. Second Line of Defence

The Risk and Compliance team provides oversight, guidance and support to ensure effective risk identification, assessment and mitigation across the organisation.

3. Third Line of Defence

The Internal audit reviews the effectiveness of controls to manage/mitigate risks, reports deviations, recommends necessary improvements and corrective actions, and ensures continuous follow-up on the implementation of risk management strategies

The Company has adopted a three-stage line of defence to manage risks, ensuring all categories and types of risks are considered for operating in an effectively risk-managed environment. The Company’s risk and compliance units oversee the entire risk management process while business units and operational teams provide input regarding the various risks faced in the course of doing business. The internal audit team performs regular planned checks of the entire risk management process and verifies that all controls and mitigation measures are in place.

RISKS FACED BY INSURANCE COMPANIES

It appears that many organisations are experiencing pressure and recognising that change in the organisation’s overall approach to risk oversight is warranted, with the status quo no longer acceptable. Insurance companies whose business model is based on risk management require special attention with regard to its management. As an insurance company, we identified the following risk categories as illustrated in the below mentioned tables:

1. Insurance Risk

Being an insurance company, risks related to the insurance business i.e., insurance risk, becomes primary in the list. Insurance is all about managing risks on behalf of the customers. In that context, we have identified the following three major risk areas under this category:

Risk	Control
Underwriting Risk Underwriting Risk is a core component of insurance risk and is a key consideration in Risk Management. It represents the risk of financial losses arising from inadequate pricing, misestimation of claims or severity or adverse portfolio selection. Effective management of underwriting risk ensures the maintenance of profitability and solvency while fulfilling the contractual obligations towards its stakeholders. Product/policy Design Risk – Designing the product offering reasonable & adequate benefits with the right pricing is very critical to the insurance business.	A robust underwriting regime is in place with well-experienced and qualified professionals in the team. A well-scrutinised set of SOPs are formulated and implemented. The company has appointed an actuary for all pricing related matters and for operational aspects of product development, the Company hand-pick members from Finance & Marketing, Underwriting, Strategy and IT. They meet and review existing product features while researching for new product requirements when deemed necessary
Claims Risk Refers to the uncertainty in the frequency, severity, and timing of claims payments. It impacts an insurer's profitability, reserving adequacy, and overall financial stability Frequency Risk – Relates to a higher-than-anticipated claim frequency. Severity Risk – Potential loss of values is the primary risk that the insurance businesses undertake to manage in the business model Fraud Risk – The Risk of intentional misrepresentation to obtain unwarranted claim pay-outs.	- At the time of planning for the years ahead, the management along with the underwriting and sales teams, decide the product overall targets taking the claims experiences pertaining to the protection-based products. It also assesses the future potential on agreed assumption. - Claims ratios are monitored through actuarial valuations. Further providing continuous training and development programmes to the staff with supervision of well-experienced senior staff to mitigate such risks. - Ensuring all details are obtained in order to avoid fraud. In the event of suspicion of fraud, a compulsory thorough check is to be completed
Retakaful Risk Refers to the uncertainties and potential financial losses associated with an insurer's reliance on reinsurance to manage its risk exposure, Therefore the following key risk areas must be managed effectively. Credit risk can also be a factor with respect to Retakaful. Should a reinsurance company be either slow to pay its claims/contributions or unable to make such payments, the effects on insurance company performance (and hence value) could be significant. Excessive Loss Exposure Risk – Accepting risks beyond retention limits increases the insurer's liability, leading to unexpectedly large claims payments.	- Retakaful placements are done with reinsurers having credit ratings as required by Insurance Regulatory Commission of Sri Lanka (IRCSL). - A dedicated Treaty is in place in order to mitigate the Excessive loss exposure Risk.

2. Market Risks

Market Risk refers to the potential financial losses that arise due to fluctuations in economic and financial market variables. For the Sri Lankan insurance industry, the below mentioned risks directly impact its investment portfolios, solvency and overall stability of the Company.

RISK MANAGEMENT FRAMEWORK

Furthermore, as the insurance companies in Sri Lanka are heavily dependent on the investment income, healthy market conditions underpinned by solid economic conditions are vital. Therefore, in addition to the overall economic growth conditions, key economic variables such as interest rates, inflation, stock market performance, exchange rates and commodity market conditions especially gold etc., expose enormous speculative risks to the Company.

Risk	Control
Investment Risk The risk of poor investment performance due to market volatility, poor asset allocation, or credit defaults are indicated by the investment risk.	- The Board Investment Committee, chaired by an independent Director is overseeing all the investment related matters. - Strengthening investment governance. - Diversify portfolios across asset classes (fixed income, equity, real estate). - Use of external fund management facilities when required.
Interest Rate Risk The risk that changes in interest rates will affect the value of fixed-income investments (e.g., government bonds).	- Diversify investment portfolio - Investment committee decides the long exposure or short exposure based on macroeconomic market conditions
Equity Market Risk The risk that stock market fluctuations will reduce investment income and capital reserves.	Limit exposure to market volatilities through professional investment agencies.
Liquidity Risk The risk of being unable to sell assets quickly without incurring significant losses.	- Maintain sufficient cash reserves. - Adjust asset allocation to ensure liquidity for claims.
Inflation Risk The risk that rising inflation erodes real investment returns and increases claim costs.	- Adjust pricing models to factor in inflation. - Invest in inflation-adjusted securities where possible.

3. Strategic and Reputational Risk

As the leading takaful operator, the strategic Risk can be identified as the most important consideration given the nature of the competition created by other takaful window operators, evolving regulatory landscape, market dynamics and technological advancements. The sector faces increasing competition from both traditional insurers and emerging Insure-Tech players, necessitating innovation and adaptability. Additionally, regulatory changes and economic instability pose challenges to long-term strategic planning.

Therefore, these uncertainties must be navigated while leveraging digital transformation, ethical financial practices, and customer-centric approaches to maintain a competitive edge.

Risk	Control
Market Competition Risk Refers to the challenges insurers face due to intense competition, which can lead to price wars, reduced profit margins, and customer retention struggles.	Digital transformation & brand positioning. The company's development plan has taken into consideration the market competition risk
Regulatory & Compliance Risk Refers to the risk of financial and operational impact from regulatory changes.	Proactive regulatory engagement & robust compliance monitoring.
Brand & Reputation Risk Refers to the situational risk of reputational damage affecting customer trust.	Strengthen transparency, improve customer service, enhance CSR initiatives.

Risk	Control
Digital Transformation Risk Refers to the risk of failing to adapt to digital advancements, leading to operational inefficiencies and competitive disadvantages.	Invest in digital infrastructure, enhance cybersecurity measures, and foster an innovation-driven culture.

4. Operational Risks

Operational Risk refers to the potential losses resulting from inadequate or failed internal processes, people, systems, or external events. As the leading takaful operator in Sri Lanka we must ensure that the operational framework aligns with Shariah Principles, regulatory requirements, and evolving technological advancements. Effective management of operational risk is essential for maintaining policyholder trust and ensuring the long-term sustainability of Takaful models. Some of the key aspects in operational risk are shown below.

Risk	Control
Business Continuity Risk Refers to the risk of disruptions due to natural disasters, cyberattacks, or system failures.	- The BCP is tested annually. - The Call Tree Exercise carries out during this process - Announcements for clients as well as employees is being sent during the process - Assigned locations are in place for Head Office staff to work in remotely.
Human Capital Risk Refers to the risk of talent shortages, employee misconduct, or lack of skilled professionals.	- Performance evaluation & Appraisal to scrutinise the performance of key staff members including the Top Management Personnel. - Workforce training & talent development programs. - The company has an active employee engagement strategy
Process Failure Risk Refers to the risk of errors or inefficiencies in underwriting, claims processing, or fund management.	- Annual process audits are carried out by both in-house auditors as well as through external auditors to find lapses within the departments. - Identified lapses will then be tabled at the audit committee hence closely monitored till the said issues are resolved.
Back-up & Recovery Failure Inadequate or failed backups preventing data restoration after loss incidents.	- A data Recovery process is in place. - The Life core application has Primary and Disaster recovery functions in two separate locations. - The data base has daily backup functions in place. - Mission critical applications being backed-up using "Veem" tool.
Fraud & Financial Crime Risk Refers to the risk of internal or external fraud, money laundering or other related unethical activities.	- Strict adherence to the internal controls through the SOPs. - Monitoring supervisory controls which in place pertaining to the anti-money laundering compliance.
Third-Party & Outsourcing & procurement Risk Refers to the risk of service disruptions, compliance failures, or financial losses due to vendor management, procurement inefficiencies, or outsourcing failures	- Third party engagements where sensitive data is involved are dealt with prior Non-Disclosure agreements vetted by the legal department. - Maintaining a robust contract management. - Periodical procurement audits & performance monitoring.

RISK MANAGEMENT FRAMEWORK

Risk	Control
Shariah Non-Compliance Risk Refers to the risk of failing to adhere to Islamic finance principles due to business operational failures or governance weaknesses.	- Strong Shariah governance. - Conducting independent audits & compliance training.

5. Compliance Risk

The Compliance risk refers to the potential for legal or regulatory sanctions, financial loss, or reputational damage that an organisation may face as a result of failing to adhere to laws, regulations, codes of conduct, or internal policies. In the insurance industry, compliance risk is particularly significant due to the complex regulatory landscape that governs operations, product offerings, claims handling, and data privacy. Non-compliance with regulations, such as those set by local authorities like the Insurance Regulatory Commission of Sri Lanka (IRCSL), can lead to severe penalties, reputational harm, and a loss of customer trust. As insurers face increasing scrutiny from both local and international regulators, effectively managing compliance risk is crucial for maintaining operational integrity, safeguarding business continuity, and protecting the interests of policyholders and shareholders alike.

Risk	Control
Regulatory Compliance Risk Failure to Meet Regulatory Requirements. The risk of failing to comply with specific regulations set by local authorities such as IRCSL & CBSL. These regulatory bodies govern areas such as solvency requirements, risk-based capital standards, and reporting obligations.	All Heads of Departments are made aware of the applicable laws and regulations. Further, the regulatory requirements are cascaded down to relevant staff members. A monthly sign-off is obtained on a compliance check list covering applicable laws and regulations. This checklist is tabled at the Board Risk Committee meetings.
Changes in Laws and Regulations The risk that regulatory changes may impose additional costs or operational burdens on the insurance company. This can also affect product offerings, marketing strategies, and claim settlement processes.	The company will also be establishing communication protocols & escalation pathways with regards to its response handling process pertaining to the Regulators such as IRCSL & FIU.
Anti-Money Laundering (AML) and Know Your Customer (KYC) Compliance AML Compliance Risk Insurance companies are required to adhere to anti-money laundering laws to prevent financial crimes. Failing to detect and report suspicious activities related to money laundering can lead to severe penalties and reputational damage.	A Dedicated Compliance Department is functional & headed by a Senior Manager who is a member of the General Management Committee. A monthly sign-off is obtained on a compliance checklist covering applicable laws and regulations. This checklist is tabled at the Executive Committee meetings.
KYC Requirements KYC protocols must be followed to verify the identity of their customers, particularly in life insurance and investment-linked products. Non-compliance with KYC can lead to fines, legal consequences, and issues with regulators.	Sanctioned lists, blacklisting process is reviewed by the compliance department.
Sanctions Risk The risk of inadvertently engaging in business with sanctioned individuals, entities, or countries, leading to legal repercussions and potential sanctions violations.	

Risk	Control
Data Privacy and Protection Compliance Failure to protect sensitive customer personal & financial data may lead to breaches, legal consequences & regulatory fines.	A periodic internal audit exercise is carried out on the functions of the IT department and a report is tabled at the Audit Committee meetings.
Data Handling and Retention The risk of non-compliance with data retention and handling regulations, such as not adhering to the required timelines for storing or destroying customer data.	
Non-Compliance with Governance Standards The risk of failure of adherence to corporate governance standards such as those related to board composition, risk management practices, or internal control systems & mandatory corporate governance policy development may result in regulatory penalties or loss of investor confidence.	Board Nomination & Governance Committee (BNGC) overlooks the fundamentals of the governance

ATLPLC Risk Management

Amana Takaful Life maintains a Risk Register which analyses all the potential risks under each of the above category and further being monitored quarterly through obtaining a signoff from the respective Key Responsible Person's.

Risk Management Process

In the process of managing the risks of the Organisation the Company has identified the following Key Risk Indicators. These indices are monitored through a dashboard which is reviewed at Senior Management Meetings, RISCO and Board levels. Corrective actions will be taken as and when significant deviations are observed in the relevant areas.

Risk Area	Key Risk Indicator
Insurance Risk	- Claims Ratios by rider covers - Product Profitability monitoring through product pricing & actuarial valuation - Sufficient RI Covers
Market Risk	- Interest Rate Movement - Bullion Market Movement - Equity Market Movement - Economic Indicators - Changes in Tax Regulations - Changes in Government Policies
Strategic and Reputational Risk	- Percentage of Market Share - Overall Target Achievements at Firm Level and Departmental Level - Market Positioning - Client Satisfaction Index - Regulatory Fines & Penalties (LKR amount or frequency) - Percentage of Customer Complaints - Number of Legal cases/Litigation related to disputes - Investment in Digital Transformation (Percentage of Annual Budget)

RISK MANAGEMENT FRAMEWORK

Risk Area	Key Risk Indicator
Operational Risk	- Staff Turnover Ratio - Staff Satisfaction Index - Internal/External Audit Findings - Deviations from ISO Standards on Safety Measures - Currency and Liquidity Ratios - Implementation of Industry Best Practises
Compliance Risk	- Queries Raised by Regulator/Ombudsman - Pending Legal Matters - Unresolved Audit Queries - Investment Portfolio Mix - Cybersecurity Breach Incidents (per year)

Key Areas Reviewed by the Board Risk Committee during 2024

- Review of the Risk Registers on a quarterly basis and monitored the Key Risk Indicators covering all aspects of the business.
- Review of the status pertaining to Capital Adequacy Ratio (CAR) and Total Available Capital (TAC) under Solvency Margin (Risk Based Capital) Rules 2015.
- Review of the Cashflow positioning of the Shareholder's Fund.

The Composition of the Committee before the Committee Segregation is as follows:

Member	Number of Meetings Attended
P.S. Weerasekera – Committee Chairman Independent Non-Executive Director	3 out of 3
Zulficar Ghouse Independent Non-Executive Director	3 out of 3
Syed Rizwan Hussain Independent Non-Executive Director	3 out of 3

REPORT OF THE BOARD AUDIT COMMITTEE

The Board Audit Committee (BAC) is a formal subcommittee that is appointed by the Board of Directors. The BAC is charged with assisting the board to fulfill its obligations and responsibilities in overseeing areas such as the company's financial reporting, internal control systems, internal audit and external audit functions.

COMPOSITION

The BAC comprises three members, all of whom are Non-Executive Directors. The Committee is made up of members who bring their varied expertise, experience and knowledge to carry out and discharge their duties and responsibilities professionally and effectively. The Committee meets at least four (4) times a year, usually at quarterly intervals, to review and approve both the annual external and internal audit plans; review and deliberate the internal audit reports on significant issues and audit findings, audit recommendations and management responses as well as its action plans; discuss on action taken to improve the effectiveness of the internal control system in the audit areas; ensure the independence and objectivity of the External Auditors; review the internal audit process and adequacy of internal controls. In addition, the Committee also plays the role of a platform for the Management to raise concerns on possible irregularities for investigation and stop in recurrence.

The Board Audit Committee of Amāna Takaful PLC, the Parent Company, functions as the Board Audit Committee in terms of Section 7.10.6 (a) of the Listing Rules of the Colombo Stock Exchange. The Audit Committee held four meetings during the year 2024. The membership composition of the Committee and details of attendance of each member at meetings of the Committee during the period under review are as follows:

Members Period 01.01.2024-30.09.2024	Number of Meetings Attended
Deepthie Wickramasuriya Chairperson/Independent Non-Executive Director	3 out of 3
Syed Rizwan Hussain Independent Non-Executive Director	3 out of 3
P.S.Weerasekara Independent Non-Executive Director	3 out of 3

The new members were appointed to the Audit Committee of Amana Takaful Life PLC with effect from 01.10.2024 and details of the members are given below.

Members Period 01.10.2024-31.12.2024	Number of Meetings Attended
Mr. Suresh Paranavithana, Independent, Non-Executive Director Chairman of the BAC with effect from 01.10.2024	1 out of 1
Mr.Pushpakumara Gunasekara Independent, Non-Executive Director	1 out of 1
Mr. Hassan Kassim Non-Independent, Non-Executive Director	0 out of 1

The Senior Manager-Internal Audit functions as the Secretary to BAC. The agenda and the papers for the meetings are circulated among the members with sufficient notice.

The Chief Executive Officer was invited to be present at all meetings of the Committee during the period under review. The Senior Manager-Internal Audit also attended all meetings in the capacity of Secretary to the Audit Committee, so were the respective Heads of Departments – Finance, Underwriting, Claims and Reinsurance/ Retakaful. External Auditors, Internal Auditors who carried out outsourced assignments and other members of the Management were also invited to attend the meeting as and when required.

OBJECTIVES, DUTIES AND RESPONSIBILITIES

The "Terms of Reference" (TOR) of the BAC clearly defines the role, responsibilities and scope of the Committee.

The key objectives of the Audit Committee are:

- To satisfy themselves that a good financial reporting system is in place in order to ensure accurate and timely financial information to the Board of Directors, regulators and shareholders and to make sure that these are prepared in accordance with the Sri Lanka Accounting Standards and other relevant laws and regulations.
- To satisfy themselves of the effectiveness of the Company's risk management process in order to identify and mitigate risks.
- To review the design and implementation of the internal control system and take steps to strengthen them as and when necessary.
- To ensure that the contract of the business is in compliance with the applicable laws and regulations of the country and the policies and procedures of the Company.
- To assess the independence and effectiveness of the External Auditors and monitor the performance of Internal and External Auditors.

REPORT OF THE BOARD AUDIT COMMITTEE

- To assess the Company's ability to continue as a going concern in the foreseeable future.

The primary duties and responsibilities of the Committee are as follows:

1. Review the adequacy of the internal audit programme and plan, internal audit findings and recommend actions to be taken by the Management on deficiencies in controls, processes and procedures.
2. Assessment of the effectiveness independence and performance of the Company's External Auditors.
3. Review the Management Letter of the External Auditors and follow-up on its recommendations.
4. Ensure the preparation and presentation of financial reports in line with the accounting standards and ensuring the adequacy of disclosure in such report.
5. Review the effectiveness of internal controls.
6. Obtain and review assurance received from the CEO and CFO, as relevant that the financial records have been properly maintained, and that financial statements give a true and fair view of the Company's and Group's operations and finances.

INTERNAL AUDIT

At the commencement of 2021, Messrs. KPMG Chartered Accountants were appointed as the primary internal auditor of the company in order to strengthen the Company's internal audit function. The company's Internal Audit department worked closely with KPMG to ensure that the audits were conducted and completed efficiently as mandated by the Board Audit Committee. Audit Reports are periodically presented to the BAC on a quarterly basis for review. The Internal Audit department coordinates and ensures that recommendations are implemented and additionally carries out various other audits and special assignments entrusted by the management.

The Internal Audit Department is charged with the overall internal audit functions of the Company. The Department presents to the BAC the Comprehensive Audit Plan for the financial year under review, and the BAC instruct the Internal Auditors on the approach to be adopted in their auditing processes. Apart from the Audit Plan, the BAC also instruct the Auditors to carry out investigation, inspection and auditing on certain issues deemed necessary to maintain and ensure the adequacy and effectiveness of internal controls, appropriate governance and principles of best practice.

The Committee deliberated and reviewed a number of internal audit reports on a multitude of operational areas such as Reinsurance (Retakaful), various types of reserve including technical/mortality reserve, claims and underwriting as well as treasury matters. To ensure key decisions and recommendations of the Committee were efficiently implemented, a process of follow-up programmes had been put in place. Where necessary, Auditors were directed to conduct follow-up audits and inspections.

EXTERNAL AUDIT

The BAC reviewed the External Audit Plan including the scope and fee for the annual audit. The Committee held discussion with the External Auditors, Messrs. Ernst & Young, prior to the year-end audit to discuss their audit approach and procedures, including matters relating to the scope of the audit.

The BAC reviewed the results of the external audit and the recommendations contained in the Management Letter arising from the audits of the quarterly/ annual financial statements, thus ensuring appropriate follow-up actions are taken. The independence and objectivity of the external auditors were reviewed by the BAC.

The audit partner was engaged with the external audit for the consecutive 4th year and Messrs. Ernst & Young serves as the external auditors continuously with partner rotation.

The BAC recommended to the Board the reappointment of Messrs. Ernst & Young, Chartered Accountants as the External Auditors of the Company for the ensuing financial year, subject to approval of the shareholders at the forthcoming Annual General Meeting.

PROVISION OF NON-AUDIT SERVICE

The Committee is also responsible for reviewing the nature of non-audit services that the External Auditors may undertake in order to ensure that the Auditors' independence is not impaired in such circumstances.

CONCLUSION

The BAC is satisfied that the company's accounting policies, internal controls, and risk management processes are adequate to provide reasonable assurance that the financial affairs of the company are managed in accordance with company policies and accepted accounting standards.

The committee is satisfied with the implementation of the group's internal controls, compliance with all relevant requirements of the Companies Act, No. 07 of 2007, Listing Rules and SEC Act, and Risk Management Framework and that the group's assets are adequately safeguarded. The group's Internal and external auditors have been effective and independent throughout the year.

REPORT OF THE RELATED PARTY TRANSACTIONS REVIEW COMMITTEE

OBJECTIVE OF THE COMMITTEE

The Committee reviews all related party transactions of Amana Takaful Life PLC to ensure that the Company complies with the Rules set out under Section 09 of the Listing Rules.

The primary objective of the Committee is to ensure that the interests of the shareholders are taken into consideration when entering into related party transactions and to ensure that these transactions are not more favourable to related parties than those generally available to the general public.

COMPOSITION OF COMMITTEE

The Related Party Transaction Review Committee (the Committee) comprises three Independent Non-Executive Directors as of date.

MEETINGS OF THE COMMITTEE

Four (4) meetings of the Committee were held during the period under review and the attendance of the Committee is as follows:

Joint Meeting with Parent Company before 01st October 2024

Members	Meeting Attendance
1 Padmesh Sajjeewa Weerasekera – Chairman	3 out of 3
2 E. Deepthie Wickramasuriya	3 out of 3
3 M Zulficar Ghouse	3 out of 3

Segregated Meeting after 01st October 2024

Members	Meeting Attendance
1 Sharhan Muhseen – Chairman	1 out of 1
2 Shehara De Silva	1 out of 1
3 Suresh Paranavithana	1 out of 1

In addition, Chief Executive Officer of Amana Takaful Life PLC and Head of Finance & Compliance attended these meetings by invitation. The Assistant Manager Compliance.

REVIEW OF RELATED PARTY TRANSACTIONS

The Committee reviewed all related party transactions of the Company for the year 2024 and concluded that all related party transactions entered into during the year were of a recurrent and trading nature, and were within the normal scope of day-to-day operations of the Company. Details of such related party transactions entered in to during the year are given in Note 30 to the Financial Statements on pages 98 to 99 of this Annual Report.

The Chairman of the Committee has on a regular basis, appraised the Board on the matters deliberated at the Related Party Transactions Review Committee meetings.

POLICIES AND PROCEDURES

The Head of Finance and Compliance is responsible for reporting related party transactions proposed to be entered into by the Company which are within the purview of the Committee in terms of the Listing Rules for the Committee to review and to grant approval.

Moreover, on a quarterly basis, the Compliance team is required to report the related party transactions entered into by the Company during the period under Review for Committee's consideration.

CONCLUSION

The Committee is satisfied that the interests of the shareholders as a whole are taken into consideration when entering into related party transactions and that the transactions were not more favourable to related parties than those generally available to the general public.

Further, the Company has complied with the latest listing rule requirements as follows;

9.14.1 – The Related Party Review Committee operates under a set of written terms of references and

conforms to the requirements set out in Rule 9.14 of these rules

9.14.2 – The composition of the RPT Committee comprises of 3 Independent non – executive Directors and distinguished invitees

– Functions of the Committee includes Safeguarding Shareholders interest, preventing abuse by Directors, CEOs, or substantial shareholders prioritising the economic and commercial substance of transactions over legal form.

9.14.4 – The Committee convenes quarterly, ensuring thorough completion of meeting minutes for the BOD. The Member of the Committee have access to adequate expertise to evaluate proposed transactions, seeking professional advice when necessary.

Directors with personal interest in such matters will abstain from participation and voting during relevant board meetings

9.14.5 /6 – RPT Committee reviews all related party transactions while also considering any material changes to previously reviewed transactions under rule 9.14.5.

NOMINATION & GOVERNANCE COMMITTEE REPORT

The scope and mandate of the Committee are defined in the Nomination & Governance Committee Terms of Reference (TOR). The purpose of the Committee is to assist the Board in fulfilling its statutory and fiduciary responsibilities relating to the selection/appointment of new Directors, re-appointment of current Directors, selection and appointment of the Chief Executive Officer.

COMPOSITION OF THE COMMITTEE

Mr. Sharhan Muhseen – Chairman – Independent Director

Mr. Osman Kassim – Member – Non Independent Director

Mr. Suresh Paranthavithana – Member – Independent Director

MEETINGS & ATTENDANCE

The committee sat for one meeting during the year and was attended by all the committee members.

ATTENDEES BY INVITATION

Chief Executive Officer of ATL PLC

SECRETARY TO THE COMMITTEE

Mr. Farhan Jabir

Board Secretary & Head of Human resource

KEY RESPONSIBILITIES OF THE COMMITTEE ARE GIVEN BELOW:

- **Exercise Oversight of Corporate Governance:**
Provide general oversight and ensure adherence to sound corporate governance principles within ATL PLC.
- **Director and CEO Selection:**
The committee evaluates various aspects, including skills, experience, integrity and reputation of Directors and the Chief Executive Officer (CEO) prior to their selection and appointment.
- **Board Performance Assessment:**
Evaluate the performance and contributions of individual Directors and recommend the re-election of current Directors to the Board.
- **CEO Appointment Criteria:**
Define and determine the qualifications, experience, and key attributes necessary for eligibility for the position of CEO.
- **Succession Planning and Expertise Requirements:**

Periodically assess and recommend additional or new expertise needed on the Board, including succession planning for retiring Directors and Key Management Personnel.

- **Board Composition Review:**
Regularly review the structure, size, composition, and competencies of the Board (including skills, knowledge, and experience) and propose necessary changes to enhance effectiveness.
- **Board & CEO Performance:**
Periodically appraise Board & CEO performance and facilitate discussions on evaluation.

ACTIVITIES IN 2024

- The Nomination & Governance Committee has implemented the necessary measures to comply with the new regulations introduced by the Colombo Stock Exchange (CSE) in 2024 and has ensured that the Sub-Committees are constituted in accordance with the regulations within the stipulated timeframe.
- The Committee reviews the directives issued by the Insurance Regulatory Commission of Sri Lanka and ensures full compliance with all regulatory requirements.
- Committee considered re-appointment of following Directors by rotation
 - a. Mr. Hassan Kassim
 - b. Ms. Shehara De Silva
 - c. Mr. Suresh Paranthavithana
- Committee considered election of Mr. Pushpakumar Gunasekera to the Board subsequent to the Annual General Meeting.
- Committee considered re-appointment of following Directors by passing a resolution of specifically declaring that the age limit of 70 years in terms of section 210 of the Companies Act shall not apply to the below Directors.
 - a. Mr. Osman Kassim
 - b. Mr. Krishnamoorthi Ratnam Ravindran

DISCLOSURES

- **Nomination Policy:**
ATPLC has an established policy and procedure for the nomination of Directors to the Board, ensuring a transparent and

structured approach.

- **Director Re-election:**

Independent Directors retire by rotation and are subject to re-election at regular intervals, with re-election occurring at least once every three years in line with governance best practices.

- **Board Diversity and Expertise:**

The ATL PLC Board comprises a diverse group of Directors whose collective expertise supports the achievement of the company's strategic objectives. Director profiles are detailed on pages 18 to 21 of the Annual Report.

- **Declaration of Independence:**

All Non-Executive Directors have submitted signed declarations affirming their independent or non-independent status, as applicable.

- **Director Induction:**

All newly appointed Directors participate in a comprehensive induction program, which includes an overview of relevant industry regulations and the company's strategic direction and operations.

CONCLUSION

The Committee is satisfied that the combined knowledge and experience of the Board match the demands facing the Group.

REPORT ON THE SHARI'AH ADVISORY COUNCIL

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

SHARI'AH AUDIT REPORT TO THE SHAREHOLDERS OF AMANA TAKAFUL LIFE PLC

السلام عليكم ورحمة الله وبركاته

We have examined the operations of Amana Takaful Life (PLC) (the "Company") for the year ending 31st December 2024. We have also conducted our review to form an opinion as to whether the Company has complied with the Shari'ah Rules and principles and also with the specific fatwas, regulations and guidelines issued by the Shari'ah Advisory Council.

RESPONSIBILITIES

It is our responsibility, as Shari'ah Advisory Council, to ensure that the Takaful operations, financial arrangements, contracts and transactions entered in to by the Company with its participants, clients and stakeholders are in compliance with Shari'ah rules and principles. It is the responsibility of the Company's Management to ensure that all rules, principles and guidelines set by the Shari'ah Advisory Council are complied with, and that all policies and services being offered are duly approved by the Shari'ah Advisory Council.

SCOPE OF AUDIT AND BASIS OF OPINION

The scope of our audit primarily involves the review of Company's compliance with the Shari'ah Regulations and Guidelines. Our review also includes examining, on a test basis of each type of product in relation to issuance & claims.

OPINION

In our opinion and to the best of our information and belief and according to the explanations given to us:

- The Takaful operations and financial transactions undertaken by the Company, during the year 2024, were generally in accordance with the guidelines prescribed by the Shari'ah Advisory Council.
- All non-permissible income received are applied in accordance with the guidelines issued by the Shari'ah Advisory Council.

We seek Allah the Almighty to grant us all success and straight-forwardness.

FINANCIAL STATEMENTS

STATEMENT OF DIRECTORS' RESPONSIBILITIES

This statement sets out the responsibilities of the Directors in relation to Financial Statements of the Company. The Directors confirm that the Financial Statements for the year 2024 prepared and presented in this Annual Report are consistent with the requirements of the Companies Act No. 07 of 2007 and the Regulation of Insurance Industry Act No. 43 of 2000.

In preparing the Financial Statements, the Directors have adopted appropriate accounting, principles and policies and where relevant, disclosed and explained material departures, if any. The Directors ensure that applicable accounting standards (SLFRSs/LKASs) have been followed and that the judgments and estimates provided are reasonable and prudent and provide a true and fair view of the state of affairs as well as the profitability of the Company. The Directors also state that the Financial Statements are prepared on a going concern basis and a review of the Company's performance indicates that the Company has adequate resources to continue in operation.

The Directors have taken proper and sufficient care to ensure the maintenance of adequate accounting records in conformity with the applicable provisions of the Regulation of Insurance Act No. 43 of 2000 and any other legislations including the Companies Act No. 07 of 2007 to safeguard the assets of the Company and to prevent and detect fraud and other irregularities.

The Company possesses an effective internal audit system commensurate with the size and nature of its business. Steps have also been taken to ensure that proper records are maintained and the information generated is reliable.

It is the responsibility of the Directors to provide the Auditors every opportunity to carry out necessary audit work to enable them to present their audit report. The Directors, are satisfied that all statutory payments in relation to all relevant regulatory and statutory authorities which were due and payable by the Company as at the reporting date have been paid or where relevant provided for.

The Directors are of the view that they have to the best of their knowledge, discharged their responsibilities as set out in this Statement.

For and on behalf of the Board,

Osman Kassim

Chairman

TO THE SHAREHOLDERS OF AMANA TAKAFUL LIFE PLC

Report on the audit of the financial statements

Opinion

We have audited the financial statements of Amana Takaful Life PLC (“the Company”), which comprise the statement of financial position as at 31 December 2024, and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including material accounting policy information.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Company as at 31 December 2024, and of its financial performance and cash flows for the year then ended in accordance with Sri Lanka Accounting Standards.

Basis for opinion

We conducted our audit in accordance with Sri Lanka Auditing Standards (SLAuSs). Our responsibilities under those standards are further described in the Auditor’s responsibilities for the audit of the financial statements section of our report. We are independent of the Company in accordance with the Code of Ethics for Professional Accountants issued by CA Sri Lanka (Code of Ethics) and we have fulfilled our other ethical responsibilities in accordance with the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in the audit of the financial statements of the current period. These matters were addressed in the context of the audit of the financial statements as a whole, and in forming the auditor’s opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the Auditor’s responsibilities for the audit of the financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying financial statements.

Key audit matter	How our audit addressed the key audit matter
1. Life Insurance Contract Liabilities Life Insurance Contract Liabilities amounting to Rs. 3,839 Mn represent 88% of total liabilities of the Company as at 31 December 2024 and are estimated by management using actuarial methodologies as described in Note 13 to the financial statements. The Life Insurance Contract Liabilities were determined by the management specialist engaged by the Company. This was a key audit matter due to: - materiality of the reported Life Insurance Contract Liabilities; and - the degree of management judgements, assumptions and estimation uncertainties associated with the actuarial methodologies used to estimate life insurance contract liabilities and perform the liability adequacy test used to determine the adequacy of the carrying value of Life insurance contract liabilities. Key areas of significant judgements, assumptions and estimates made by management include mortality rate, morbidity rate, lapses ratio and surrenders ratio, loss ratios, bonus, interest rates, discount rates and related claim handling expenses, as disclosed in Note 13 to the financial statements.	Our audit procedures included the following key procedures: - Assessed the competency, capability and objectivity of the management specialist engaged by the Company. - Obtained an understanding of the liability valuation process. - Agreed key information used in estimating life insurance contract liabilities to source documents and accounting records. - With the support of an Expert, we assessed the reasonableness of the key judgements, assumptions and estimates made and actuarial methodology used to estimate the value of life insurance contract liabilities, and the liability adequacy test. Reasonableness was assessed by reference to market data and policyholder experience. We assessed the adequacy of the disclosures in Note 13 to the financial statements.

Other information included in the Company's 2024 Annual Report

Other information consists of the information included in the Annual Report, other than the financial statements and our auditor's report thereon. Management is responsible for the other information.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the management and those charged with governance for the financial statements.

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with Sri Lanka Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

INDEPENDENT AUDITOR'S REPORT

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SLAuSs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SLAuSs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

As required by section 163 (2) of the Companies Act No. 07 of 2007, we have obtained all the information and explanations that were required for the audit and, as far as appears from our examination, proper accounting records have been kept by the Company.

As required by Section 47(2) of the Regulation of Insurance Industry Act, No.43 of 2000, as far as appears from our examination, the accounting records of the Company have been maintained in the manner required by the rules issued by the Insurance Regulatory Commission of Sri Lanka, so as to clearly indicate the true and fair view of the financial position of the Company.

CA Sri Lanka membership number of the engagement partner responsible for signing this independent auditor's report is 4169.

NOTES TO THE FINANCIAL STATEMENTS

1. CORPORATE INFORMATION

1.1 General

Amana Takaful Life PLC (“the Company”) is a public listed company incorporated and domiciled in Sri Lanka. The registered office of the Company is located at 660 – 1/1, Galle Road, Colombo 03.

1.2 Principal Activities and Nature of Operations

Company

The principal activities of the Company are underwriting of Family (Life) Takaful Insurance businesses in both unitised and non – unitised contracts. Unit – Linked contracts are which, contract benefits are determined by reference to the unit prices of respective investment fund.

The commercial operations of the Company commenced with effect from 1 January 2015 as follows.

Amana Takaful Life PLC was incorporated on 10 July 2014 in order to transfer the Family Takaful business of Amana Takaful PLC, with effect from 1 January 2015 in line with the requirement to segregate Life and General Insurance business as required by the RII (Amendment) Act No. 03 of 2011.

Amana Takaful Life Limited listed on Diri Savi Board of the Colombo Stock Exchange in the year 2016 by way of offering 50 million ordinary voting shares at 1.50 rupees per share, which represents a 10 percent stake in the Company.

In terms of Articles 9 of the Articles of the Association of the company, the shareholders having approved a consolidation of shares, every 10 existing issued ordinary shares to 1 share without any change to the Share Capital of the Company on 30th July 2018, the issued number of shares have reduced from 500,000,000 fully paid shares to 50,000,000 fully paid shares.

1.3 Parent Entity and Ultimate Parent Entity

The parent entity of the Company is Amana Takaful PLC.

1.4 Date of Authorisation for issue

The Financial Statements of Amana Takaful Life PLC for the year ended 31 December 2024 was authorised for issue by the Board of Directors on 15 May 2025.

1.5 Responsibility for Financial Statements

The Board of Directors is responsible for these Financial Statements.

2. BASIS OF PREPARATION

The Company's Statement of Financial Position represents the assets, liabilities of Family Takaful Fund (Unitised and Non – Unitised) and equity of Shareholders' Fund.

The Company's Statement of Comprehensive Income reflects revenue, investment income, other income and related expenses attributable to Family Takaful Fund (Unitised and Non – Unitised) and Shareholders' Fund.

Financial assets and financial liabilities are offset, and the net amount reported in the Statement of Financial Position only when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liability simultaneously.

2.1 Statement of Compliance

The Financial Statements are prepared and presented in accordance with the Sri Lanka Accounting Standards (SLFRS/ LKAS) and they also provide information as required under the Companies Act, No. 07 of 2007, Regulation of Insurance Industry Act, No. 43 of 2000 and amendments thereto, Sri Lanka Accounting and Auditing Standards Act No 15 of 1995, Rules and Regulations of the Insurance Regulatory Commission of Sri Lanka, Listing Rules of the Colombo Stock Exchange (CSE).

2.2 Basis of Measurement

The Financial Statements have been prepared on the historical cost basis except for the following material items in the Statement of Financial Position:

- Motor vehicles in Property, Plant and Equipment measured at fair value (as at 31.12.2024)
- Financial instruments at fair value through profit or loss are measured at fair value
- Available-for-sale financial assets are measured at fair value
- Investment properties, which are measured at fair value
- Policyholder's liabilities have been measured at actuarial determined values
- The liability for Defined Benefit Obligations are actuarially valued and recognised at the present value

The Company presents its Statement of Financial Position broadly in the order of liquidity.

2.3 Functional and Presentation Currency

These Financial Statements are presented in Sri Lankan Rupees (LKR), which is the Company's functional and presentation currency.) and all financial information presented in Sri Lankan Rupees has been rounded to the nearest rupee

2.4 Use of Estimates and Judgments

In the process of applying the Company's accounting policies, management is required to make judgments, apart from those involving estimations, which has the most significant effect on the amounts recognised in the Financial Statements. Further management is required to consider key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities

NOTES TO THE FINANCIAL STATEMENTS

within the next financial year. The respective carrying amounts of assets and liabilities are given in related notes to the Financial Statements. Actual results may differ from these estimates.

2.4.1 Assumptions and Estimations

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively.

The key items as such are discussed below.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment in the year ending 31 December 2024 is included in the following notes:

Actuarial Valuations of the Insurance Provisions

Note 13 – Long Term Insurance Provision- (Family Takaful Fund)

The valuation of Long-Term Insurance Provision was carried out by Mr. Zainal Abidin Mohd Kassim (BSC, FIA, ASA) of Actuarial Partners Consulting Sdn Bhd.

Life insurance liabilities are recognised when contracts are entered into and premiums are receivable. At each reporting date, an assessment is made of whether the recognised life insurance liabilities are adequate by using a liability adequacy test.

Significant estimates and assumptions made in respect of Actuarial Valuations have been disclosed in the Note 13 to the Financial Statements.

Note 14 – Employee Benefits

The Defined Benefit Obligation and the related charge for the year are determined using assumptions required under actuarial valuation techniques. The valuation involves making assumptions about discount rates, future salary increases, staff turnover rates etc. Due to the long-term nature of such obligations these estimates are subject to significant uncertainty (Note 14.2).

Note 28 – Deferred Tax Asset

Deferred tax assets are recognised for all unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgment is required to determine the best estimate of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies.

Note 8 & 11 – Fair Value of Financial Investments

The determination of fair values of financial assets and financial liabilities recorded on the Statement of Financial Position for which there is no observable market price are determined using a variety of valuation techniques that include the use of mathematical techniques.

Note 31 – Commitments & Contingencies

The Company receives legal claims against in the normal course of business. Management has made judgments as to the likelihood of any claim succeeding in making provisions. The time of concluding legal claim is uncertain, as in the amount of possible outflow of economic benefits.

Timing and cost ultimately depend on the due process in respective legal jurisdiction.

2.5 Measurement of fair values

A number of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

When measuring the fair value of an asset or a liability, the Company uses market observable data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (Unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability might be categorised in different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the assumptions made in measuring fair values is included in the following notes:

- Note 5 – Property, Plant and Equipment
- Note 8 & 11 Financial Investments

2.6 Segment Reporting

A segment is a distinguishable component of the Company engaged in providing services subject to risks and rewards that are different to those of other segments.

Segmental information is based on industry segments reflecting the Company's management structure.

Segmentation has been determined based on the activities of the Company or sectors into which the product or services are sold. The primary format is based on the core business, Family and Fund management services of Shareholders' Fund.

Inter-segment transactions are based on fair market prices.

Expenses directly identified to a particular segment are charged accordingly. Expenses that cannot be directly identified to a particular segment are allocated on basis decided by the management and applied consistently throughout the period.

The Company's activities are located mainly in Sri Lanka. Consequently, assets and liabilities by geographic region are considered not material to be disclosed.

2.7 Going Concern

These Financial Statements are presented on the assumption that the Company is a going concern. The Directors have made an assessment of the Company's ability to continue as a going concern and they do not intend to liquidate.

2.8 Right-of-Use Assets and operating lease liability

The Company uses its judgment to determine whether an operating lease contract qualifies for recognition of right-of-use assets. The Company applies judgements in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic benefit for it to exercise either the renewal or termination. The Company can readily determine the interest rate implicit in the lease. Therefore, it does not require to use incremental borrowing rate to measure operating lease liability.

The incremental borrowing rate is the rate of interest that the Company would have to pay to borrow over a similar term and with similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in similar economic environment.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

2.8.1 Foreign Currency

Foreign currency transactions

Transactions in foreign currencies are translated to the respective functional currencies of Company at exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies are translated to the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated to the functional currency at the exchange rate when the fair value was determined. Non-monetary items that are measured based on historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions.

Foreign currency differences are generally recognised in profit or loss.

However, foreign currency differences arising from the translation of available-for-sale equity investments (except on impairment, in which case foreign currency differences that have been recognised in OCI are reclassified to profit or loss); are recognised in Other Comprehensive Income.

2.8.2 Income Tax

Income tax expense comprises current and deferred tax. It is recognised in profit or loss except to the extent that items recognised directly in equity or in Other Comprehensive Income.

Current Taxes

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the Commissioner General of Inland Revenue.

The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the reporting date.

The provision for income tax is based on the elements of income and expenditure as reported in the Financial Statements and computed in accordance with the provisions of the Inland Revenue Act, No. 24 of 2017 and the amendments thereto.

Deferred Taxation

Deferred income tax is assessed, using the asset method, on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred income tax liabilities are recognised for all taxable temporary differences. Deferred income tax assets are recognised for all deductible temporary differences, carry-forward of unused tax assets and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry-forward of unused tax assets and unused tax losses can be utilised.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

NOTES TO THE FINANCIAL STATEMENTS

2.8.3 Intangible Assets

Software

Intangible assets acquired separately are measured on initial recognition at cost. Following the initial recognition of the intangible assets, the cost model is applied requiring the assets to be carried at cost less any accumulated amortisation and accumulated impairment losses.

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life is reviewed at least at each financial year end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortisation period or method, as appropriate, and treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the Statement of Comprehensive Income in the expense category consistent with the nature of the intangible asset. Amortisation commences when the assets were available for use.

The useful lives and the amortisation methods of intangible assets with finite lives are as follows:

Class	Useful	Amortisation method
Computer Software	20 years	Straight line method

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the Statement of Comprehensive Income when the asset is derecognised.

2.8.4 Prepaid Expenditure

Expenditure which is deemed to have a benefit or relationship to more than one financial year is classified as prepaid expenditure. Such expenditure is written off over the period to which it relates, on a straight-line basis.

2.8.5 Retakaful (Reinsurance) and Contribution (Premium) Receivable

The Company cedes insurance risk in the normal course of business for all of its businesses. Reinsurance assets represent balances due from reinsurance companies. Amounts recoverable from reinsurers are estimated in a manner consistent with the outstanding claims provision or settled claims associated with the re insurer's policies and are in accordance with the related reinsurance contract.

Reinsurance assets are reviewed for impairment at each reporting date or more frequently when an indication of impairment arises during the reporting year. Impairment occurs when there is objective evidence as a result of an event that occurred after initial recognition of the reinsurance asset that the Company may not receive all outstanding amounts due under the terms of the contract and the event has a reliably measurable impact on the amounts that the Company will receive from the re insurer. The impairment loss is recorded in the Statement of Comprehensive Income.

Premiums and claims on assumed reinsurance are recognised as revenue or expenses in the same manner as they would be if the reinsurance were considered direct business, taking into account the product classification of the reinsured business.

Reinsurance liabilities represent balances due to reinsurance companies. Amounts payable are estimated in a manner consistent with the related reinsurance contract.

Premiums and claims are presented on a gross basis for both ceded and assumed reinsurance.

Reinsurance assets or liabilities are derecognised when the contractual rights are extinguished or expired or when the contract is transferred to another party.

Insurance receivables are recognised when due and measured on initial recognition at the fair value of the consideration received or receivable. The carrying value of insurance receivables is reviewed for impairment whenever events or circumstances indicate that the carrying amount may not be recoverable, with the impairment loss recorded in the Statement of Comprehensive Income.

2.8.6 Other Assets & Receivables

Other assets & receivables are stated at their estimated realisable value.

2.8.7 Property, Plant and Equipment Cost

The Property, Plant and Equipment are stated at cost (except for motor vehicles) less accumulated depreciation and any accumulated impairment losses.

The cost of Property, Plant & Equipment is the cost of acquisition or construction together with any expenses incurred in bringing the asset to its working condition for its intended use.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Expenditure incurred for the purpose of acquiring, extending or improving assets of a permanent nature by means of which to carry on the business or to increase the earning capacity of the business has been treated as capital expenditure.

The motor vehicles are revalued every three years on a roll-over basis to ensure that the carrying amounts do not differ materially from the fair value at the reporting date.

An item of Property, Plant and Equipment is de-recognised upon disposal or when no future economic benefits are expected from its use. Any gain or losses arising on de-recognition of the asset is included in the Statement of Comprehensive Income in the year the asset is de-recognised.

Restoration Cost

Expenditure incurred on repairs or maintenance of Property, Plant and Equipment in order to restore or maintain the future economic benefits expected from originally assessed standard of performance, is recognised as an expense when incurred.

Depreciation

The Company provides depreciation from the date of assets are available for use up to the date of disposal on a straight - line basis over the period appropriate to the estimated useful lives of the different types of assets. Operating Leased assets if any, are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Company will obtain ownership by the end of the lease term.

The estimated useful lives of Property, Plant and Equipment are as follows:

Class	Useful Life
Motor Vehicles	05 Years
Computer Equipment	05 Years
Other Equipment	05 Years
Furniture & Fittings	05 Years
Leasehold vehicle	05 Years

The Company provides depreciation from the date the assets are available for use up to the date of disposal.

2.9 Financial Investments

The Company classifies non-derivative financial assets into the following categories: financial assets at Fair Value through Profit or Loss, Loans and Receivables and Available-For-Sale financial assets.

The Company classifies non-derivative financial liabilities into the Other Financial Liabilities category.

The classification depends on the purpose for which the investments were acquired or originated. Financial assets are classified as at fair value through profit or loss where the Company's documented investment strategy is to manage financial investments on a fair value basis, because the related liabilities are also managed on this basis. The available-for-sale and held-to-maturity categories are used when the relevant liability (including shareholders' funds) is passively managed and/or carried at amortised cost.

The Company's existing types of financial instruments and their classifications are shown in the table below.

Class	Useful Life
Equity Shares	Fair Value Through Profit or Loss and Available – for – Sale
Unit Trust	Available for Sale
Term Deposits/ Mudharaba Deposits	Loans and Receivables
Treasury Bills/ Repurchase Agreements	Loans and Receivables
Commercial Papers	Loans and Receivables
Financial Liability	Category
Other Liabilities	Other Financial Liabilities

2.9.1 Recognition of financial instruments

The Company initially recognises loans and receivables on the date that they are originated. All other financial assets (including assets designated as at Fair Value Through Profit or Loss) are recognised initially on the trade date, which is the date that the Company becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are offset, and the net amount presented in the statement of financial position when, and only when, the Company has a legal right to offset the amounts and intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

2.9.2 Measurement

Financial assets at Fair Value Through Profit or Loss

Financial assets at fair value through profit or loss include financial assets held-for-trading and those designated at fair value through profit or loss at inception. Investments typically bought with the intention to sell in the near future are classified as held-for-trading. For investments designated as at fair value through profit or loss, the following criteria must be met.

The designation eliminates or significantly reduces the inconsistent treatment that would otherwise arise from measuring the assets or liabilities or recognising gains or losses on a different basis; or The assets and liabilities are part of a Company of financial instruments, which are managed and their performance evaluated on

NOTES TO THE FINANCIAL STATEMENTS

a fair value basis, in accordance with a documented risk management or investment strategy.

These investments are initially recorded at fair value. Directly attributable transaction costs are recognised in Statement of Comprehensive Income as incurred. Subsequent to initial recognition, these investments are re-measured at fair value. Fair value adjustments and realised gain and loss are recognised in the Statement of Comprehensive Income.

Loans and Receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. These investments are initially recognised at cost, being the fair value of the consideration paid for the acquisition of the investment. All transaction costs directly attributable to the acquisition are also included in the cost of the investment. After initial measurement, loans and receivables are measured at amortised cost, using the effective interest rate method. Gains and losses are recognised in the Statement of Comprehensive Income when the investments are derecognised or impaired, as well as through the amortisation process.

Cash and Cash Equivalents

Cash and cash equivalents are defined as cash in hand, demand deposits and short-term highly liquid investments, readily convertible to known amounts of cash and subject to insignificant risk of changes in value.

For the purpose of cash flow statement, cash and cash equivalents consist of cash in hand and deposits in banks net of outstanding bank overdrafts.

Investments with short maturities i.e. three months or less from the date of acquisition are also treated as cash equivalents. The cash flow statement has been prepared using the direct method. Interest and dividend received are classified as operating cash flows.

Available-For-Sale Financial Investments

Available-For-Sale financial assets are non-derivative financial assets that are designated as Available-For-Sale or are not classified in any of the three preceding categories.

These investments are initially recorded at fair value plus any directly attributable transaction costs. After initial measurement, Available-For-Sale financial assets are measured at fair value. Fair value gains and losses are reported as a separate component in other comprehensive income and accumulated in the Available For Sale Reserve until the investment is derecognised or the investment is determined to be impaired.

On de-recognition or impairment, the cumulative fair value gains and losses previously reported in equity are transferred to the Statement of Comprehensive Income.

Other Financial Liabilities are non-derivative financial liabilities which are initially recognised at fair value less any directly attributable transaction costs. Subsequent to initial recognition, these liabilities are measured at amortised cost using the effective interest method.

2.9.3 Impairment of financial Investments

Financial assets not classified as at fair value through profit or loss are assessed at each reporting date to determine whether there is objective evidence of impairment.

Objective evidence that financial assets are impaired includes:

- default or delinquency by a debtor;
- restructuring of an amount due to the Company on terms that the Company would not consider otherwise;
- indications that a debtor or issuer will enter bankruptcy;
- adverse changes in the payment status of borrowers or issuers;

- the disappearance of an active market for a security; or
- observable data indicating that there is measurable decrease in expected cash flows from a Company of financial assets.

Assets carried at amortised cost

If there is objective evidence that an impairment loss on assets carried at amortised cost has been incurred, the amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future expected credit losses that have not been incurred) discounted at the financial asset's original effective interest rate.

The carrying amount of the asset is reduced and the loss is recorded in the Statement of Comprehensive Income.

The Company first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, and individually or collectively for financial assets that are not individually significant. If it is determined that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, the asset is included in a Company of financial assets with similar credit risk characteristics and that Company of financial assets is collectively assessed for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be, recognised are not included in a collective assessment of impairment. The impairment assessment is performed at each Reporting date.

If, in a subsequent period, the amount of the impairment loss decreases and that decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed. Any subsequent reversal of an impairment loss is recognised in the Statement of Comprehensive Income, to the extent that the carrying value of

the asset does not exceed its amortised cost at the reversal date.

Available-For-Sale financial investments

If an available-for-sale financial asset is impaired, an amount comprising the difference between its costs (net of any principal repayment and amortisation) and its current fair value, less any impairment loss previously recognised in other comprehensive income, is transferred from equity to the Statement of Comprehensive Income. Reversals in respect of equity instruments classified as available-for-sale are not recognised in the Statement of Comprehensive Income.

Reversals of impairment losses on debt instruments classified at available-for-sale are reversed through the Statement of Comprehensive Income if the increase in the fair value of the instruments can be objectively related to an event occurring after the impairment losses were recognised in the Statement of Comprehensive Income.

Financial assets carried at cost

If there is objective evidence that an impairment loss has been incurred on an unquoted equity instrument that is not carried at fair value because its fair value cannot be reliably measured, or on a derivative asset that is linked to and must be settled by delivery of such an unquoted equity instrument, the amount of the impairment loss is measured as the difference between the carrying amount of the financial asset and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment losses shall not be reversed.

2.9.4 De-recognition of financial instruments

A financial asset (or, when applicable, a part of a financial asset or part of a Company of similar financial assets) is derecognised when,

- The rights to receive cash flows from the asset have expired
- The Company retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a 'pass-through' arrangement
- The Company has transferred its rights to receive cash flows from the asset and either:
 - Has transferred substantially all the risks and rewards of the asset, or
 - Has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its right to receive cash flows from an asset and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognised to the extent of the Company's continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

When continuing involvement takes the form of a written and/or purchased option (including cash settled option or similar provision) on the transferred asset, the extent of the Company's continuing involvement is the amount of the transferred asset that the Company may repurchase, except that, in the case of a written put option (including a cash settled option or similar provision) on an asset measured at fair value, the extent of the Company's continuing involvement is limited to the lower of the fair value of the transferred asset and the option exercise price.

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled or expire.

2.10 Investment Properties

Investment properties are measured initially at cost, including transaction costs. The carrying amount includes the cost of replacing part of an existing investment property at the time that cost is incurred if the recognition criteria are met; and excludes the costs of day to day servicing of an investment property. Subsequent to initial recognition, investment properties are stated at fair value, which reflects market conditions at the reporting date. Gains or losses arising from changes in the fair value of investment properties are included in the Statement of Comprehensive Income in the year in which they arise. Valuation of investment property by a professional valuer is carried out every year.

Investment properties are derecognised when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gains or losses on the retirement or disposal of an investment property are recognised in the Statement of Comprehensive Income in the year of retirement or disposal.

Transfers are made to or from investment property only when there is a change in use. For a transfer from investment property to owner-occupied property, the deemed cost for subsequent accounting is the fair value at the date of change. If owner-occupied property becomes an investment property, the Company accounts for such property in accordance with the policy stated under property, plant and equipment up to the date of change.

2.11 Liabilities and Provisions (excluding Insurance Contracts)

Provisions (excluding Insurance Contracts)

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, where it is probable that an outflow of resources embodying

NOTES TO THE FINANCIAL STATEMENTS

economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

2.12 Employee Benefit Plan – Gratuity

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The liability recognised in the Financial Statements in respect of defined benefit plans is the present value of the defined benefit obligation as at the reporting date. The defined benefit obligation is calculated by a qualified actuary as at the reporting date using the Projected Unit Credit (PUC) method as recommended by LKAS 19 – ‘Employee Benefits’.

However, under the payment of Gratuity Act No. 12 of 1983, the liability to an employee arises only on completion of five years of continued service. The Company is liable to pay gratuity in terms of relevant statute. In order to meet this liability, a provision is carried forward in the Statement of Financial Position.

The item is stated under Employee Benefit Liability in the Statement of Financial Position.

Recognition of Actuarial Gains and Losses

Actuarial gains or losses are recognised in the Statement of Other Comprehensive Income in the period in which they arise.

Funding Arrangements

The Gratuity liability is not externally funded.

Defined Contribution Plans – Employees’ Provident Fund (EPF) & Employees’ Trust Fund (ETF)

Employees are eligible for Employees’ Provident Fund Contributions and Employees’ Trust Fund Contributions in line with the respective statutes and regulations. The Company contributes 12 % and 3 % of gross emoluments of employees to Employees’ Provident Fund and Employees’ Trust Fund respectively.

Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

2.13 Impairment of Non-Financial Assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Company makes an estimate of the asset’s recoverable amount. An asset’s recoverable amount is the higher of an asset’s or cash-generating unit’s fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or Company of assets. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell,

an appropriate valuation model is used. These calculations are corroborated by valuation multiples or other available fair value indicators.

Impairment losses of continuing operations are recognised in the Statement of Comprehensive Income in those expense categories consistent with the function of the impaired asset, except for property previously revalued where the revaluation was taken to equity. In this case the impairment is also recognised in equity up to the amount of any previous revaluation.

For assets, an assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the Company makes an estimate of recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the asset’s recoverable amount since the last impairment loss was recognised. If that is the case the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the Statement of Comprehensive Income unless the asset is carried at revalued amount, in which case the reversal is treated as a revaluation increase.

2.14 Takaful Contribution (Premium)

Contributions (premiums) from Family Takaful (traditional life insurance) contracts, including participating contracts and annuity policies with life contingencies, are recognised as revenue when payable by the policyholder. Benefits and expenses are provided against such revenue to recognise profits over the estimated life of the policies. Moreover, for single contribution (premium) contracts, contributions (premiums) are recorded

as income when received with any excess profit deferred and recognised in income in a constant relationship to the insurance in-force or, for annuities, the amount of expected benefit payments.

Retakaful Contracts (Reinsurance Contracts)

Outward Retakaful contributions (reinsurance premiums) are recognised when payable. Retakaful (Reinsurance) recoveries are credited to match the relevant gross claims.

Claims

Death claims are recorded on the basis of notifications received. Maturities are recorded when due. Claims on participating business include profit. Claims payable include direct costs of settlement.

The interim payments (Part withdrawals) and surrenders are accounted only at the time of settlement.

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue and associated costs incurred or to be incurred can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable net of trade discounts and sales taxes. The following specific criteria are used for the purpose of recognition of revenue.

Technical Provisions – Family Takaful Business provision and provision for Unit Linked liabilities

The Directors agree to the Family Takaful (long term insurance) business provisions for the Company on the recommendation of reporting actuary following his annual investigation of the Family Takaful (life insurance) business.

The actuary's valuation takes into account of all liabilities including contingent liabilities and is based on the assumptions recommended by the consultant actuary.

2.15 Revenue Recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue and associated costs incurred or to be incurred can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable net of trade discounts and sales taxes. The following specific criteria are used for the purpose of recognition of revenue.

Wakala Fee (Agency/Allocation Fee)

Wakala Fee (Agency/Allocation Fee) on Takaful Contribution (Insurance Premium)

The Allocation Fee is charged on contribution of Family Takaful certificates at the following rates.

Family Takaful	
First Year	80%
Second Year	45%
Third	02%
Fourth Year	02%
Fifth & after	02%

- Mortgage Family Takaful (Insurance) Policies 20%
- Company Family Takaful (Insurance) Policies 30%

Wakala Fee (Agency/Allocation Fee) on Investment Income

The Shareholders' fund is entitled for Allocation fee of 50% on net investment income, only on Family Takaful Fund.

2.15.1 Investment Income

Income from Government Security

Interest income is recognised in the Statement of Comprehensive Income as it accrues and is calculated by using the effective interest rate method. Fees and commissions that are an integral part of the effective yield of the financial asset or liability are recognised as an adjustment to the effective interest rate of the instrument.

Dividend Income

Investment income also includes dividends when the right to receive payment is established. For listed securities, this is the date the security is listed as ex dividend.

Realised/unrealised Gains and (Losses)

Realised gains and losses recorded in the Statement of Comprehensive Income on investments include gains and losses on financial assets and investment properties. Gains and losses on the sale of investments are calculated as the difference between net sales proceeds and the original or amortised cost and are recorded on occurrence of the sale transaction.

Others

Other income consists with fund management fee, rental income and income from surpluses from re – insurers. All other income is recognised on an accrual basis.

2.16 Expenditure Recognition

Expenses are recognised in the Statement of Comprehensive Income on the basis of a direct association between the cost incurred and the earning of specific items of income. All expenditure incurred in the running of the business and in maintaining the Property, Plant and Equipment in a state of efficiency has been charged to the Statement of Comprehensive Income.

Surplus refund is made only when the Fund is in a surplus and to those participants who have not made any claims during the policy period.

For the purpose of presentation of Statement of Comprehensive Income, the Directors are of the opinion that nature of expenses method presents fairly the elements of the Company's performance, and hence such presentation method is adopted.

NOTES TO THE FINANCIAL STATEMENTS

2.17 Events after the Reporting Period

All material post reporting events have been considered and where appropriate adjustments or disclosures have been made in Note 32 to the Financial Statements.

2.18 Capital Commitments & Contingencies

Capital commitments and contingent liabilities of the Company are disclosed in the Financial Statements.

2.19 Stated Capital

Stated capital in relation to a company means the total of all amounts received by the Company or due and payable to the Company.

2.20 Current and Non-Current Classification

The Company presents assets and liabilities in statement of financial position under liquidity basis. Current non-current analysis of financial assets and liabilities are given under liquidity disclosure (Note 34.7).

3. STANDARDS ISSUED BUT NOT YET EFFECTIVE

The new and amended standards and interpretations that are issued up to the date of issuance of Amana Takaful Life PLC's financial statements but are not effective for the current annual reporting period, are disclosed below. Amana Takaful Life PLC intends to adopt these new and amended standards and interpretations, if applicable, when they become effective.

3.1 SLFRS 17 Insurance Contracts:

SLFRS 17 is a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. Once effective, SLFRS 17 will replace SLFRS 4 Insurance Contracts (SLFRS 4) that was issued in 2005. SLFRS 17 applies to all types of insurance contracts (i.e., life, non-life, direct insurance and re-insurance),

regardless of the type of entities that issue them, as well as to certain guarantees and financial instruments with discretionary participation features. The core of SLFRS 17 is the general model, supplemented by:

- A specific adaptation for contracts with direct participation features (the variable fee approach)
- A simplified approach (the premium allocation approach) mainly for short-duration contracts

SLFRS 17 is effective for annual reporting periods beginning on or after 1 January 2026, with comparative figures required. Early application is permitted, provided the entity also applies SLFRS 9 and SLFRS 15 on or before the date it first applies SLFRS 17.

3.2 SLFRS 9 Financial Instruments

SLFRS 9 replaces the existing guidance in LKAS 39 Financial Instruments: recognition and Measurement. SLFRS includes revised guidance on the classification and measurement of financial instruments, a new expected credit loss model for calculating impairment on financial assets, and new general hedge accounting requirements. It also carries forward the guidance on recognition and derecognition of financial instruments from LKAS 39. SLFRS 9 is effective for annual reporting periods beginning on or after 1 January 2018, with early adoption permitted.

The Company meets the eligibility criteria of the temporary exemption from SLFRS 9 and intend to defer the application of SLFRS 9 until annual reporting periods beginning on or after 1 January 2026.

3.3 Lack of exchangeability – Amendments to LKAS 21

The amendments specify how an entity should assess whether a currency is exchangeable and how it should determine a spot exchange rate when exchangeability is lacking.

The amendments also require disclosure of information that enables

users of its financial statements to understand how the currency not being exchangeable into the other currency affects, or is expected to affect, the entity's financial performance, financial position and cash flows.

The amendments will be effective for annual reporting periods beginning on or after 1 January 2025. Early adoption is permitted, but will need to be disclosed. When applying the amendments, an entity cannot restate comparative information.

4. INTANGIBLE ASSETS

As at 31st December	2024	2023
	Rs.	Rs.
Cost		
At beginning of the year	30,828,640	30,693,640
Additions during the year	313,784	135,000
At end of the year	31,142,424	30,828,640
Amortisation		
At beginning of the year	11,779,449	10,238,091
Amortisation charge for the year	1,503,691	1,541,358
At end of the year	13,283,140	11,779,449
Carrying value	17,859,284	19,049,191

4.1 Acquisition of Intangible Assets during the year

During the financial year, the Company acquired Rs. 313,784/= of Intangible Assets (Computer Software) (2023 - Rs. 135,000).

4.2 Fully amortised Intangible Assets in Use

There are no intangible assets that is amortised fully as at reporting date.

4.3 Title restriction on Intangible Assets

There are no restrictions that existed on the title of the Intangible Assets of the Company as at the Reporting Date.

4.4 Assessment of Impairment of Intangible Assets

The Board of Directors has assessed potential impairment indicators of intangible assets as at 31 December 2024. Based on the assessment, no impairment indicators were identified.

4.5 Capitalisation of Borrowing Costs

There were no capitalised borrowing costs related to the acquisition of Intangible assets during the year (2023 - Nil).

5. PROPERTY, PLANT AND EQUIPMENT

As at 31st December	2024	2023
	Rs.	Rs.

Carrying Amount	21,318,102					19,374,245

5.2 Acquisition of Property, Plant and Equipment during the year

During the financial year, the Company acquired Property, Plant and Equipment to the aggregate value of Rs. 25,029,162/- for cash consideration. (2023 Rs. 6,554,559/-).

5.3 Fully depreciated Property, Plant and Equipment in Use

Property, Plant and Equipment includes fully depreciated assets having a gross carrying amount of Rs. 42,237,237 (2023 - Rs. 37,243,982)

5.4 Title restriction on Property, Plant and Equipment

There are no restrictions that existed on the title of the Property, Plant and Equipment of the Company as at the Reporting Date.

5.5 Assessment of Impairment of Property, Plant and Equipment

The Board of Directors has assessed potential impairment indicators of Property, Plant and Equipment as at 31 December 2024. Based on the assessment, no impairment indicators were identified.

5.6 Capitalisation of Borrowing Costs

There were no capitalised borrowing costs related to the acquisition of Property, Plant and Equipment during the year (2023 - Nil).

5.7 Revaluation

In 2024, the Company's entire class of motor vehicles were revalued by De Silva Motor Engineers (Pvt) Ltd, which is a independent professional valuation organisation. Valuation was made on the basis of open market value which is the Level two in the fair value hierarchy. In carrying out such valuation market value of similar market, life and condition and year of manufacture of vehicles have been used as main inputs. The revaluation surplus was transferred to the Revaluation Reserve on 31st December 2024. The carrying amount of revalued motor vehicles that would have been included in the financial statements had the assets been carried at cost would have been as follows;

As at 31st December	2024	2023
	Rs.	Rs.
Cost	12,500,000	1,432,545
Accumulated depreciation	(7,822,175)	(1,432,545)
Carrying Value	4,677,825	-

6. RIGHT OF USE OF ASSET

6.1 APPLICATION OF SLFRS 16 - LEASES

The company recognises a right-of-use asset and a lease liability at the lease commencement date.

6.2 The present value of operating lease commitments has been calculated using weighted average incremental borrowing rates of the company.

6.3 The company has elected not to recognise right of use assets and lease liabilities for leases of low value assets and short term leases. The company recognises the lease payments associated with these leases an expense on a straight line basis over the lease term.

NOTES TO THE FINANCIAL STATEMENTS

As at 31st December	2024		2023
	Property Rs.	Total Rs.	Rs.
Opening right of use lease asset as at 01st January	12,390,512	12,390,512	11,954,352
Addition	32,214,188	32,214,188	7,977,707
Elimination	-	-	-
Depreciation for the period	(8,985,320)	(8,985,320)	(7,541,547)
Closing Right of use asset as at 31 December	35,619,380	35,619,380	12,390,512

7. INVESTMENT PROPERTY

As at 31st December	2024	2023
	Rs.	Rs.
Balance as at 1st January	151,000,000	150,550,000
Addition during the year	-	-
Net Gain/(Loss) from Fair Value Adjustment	1,500,000	450,000
At end of the year	152,500,000	151,000,000

During the financial year, the Amana Takaful Life PLC has incurred direct operating expenses on the investment property to the aggregate value of Rs.50,721 (2023 - 195,426).

Fair value hierarchy

The fair value of investment property was determined by external, independent property valuers, Mr. P. W. Senaratne (FIV, FPCS) having appropriate recognised professional qualifications and recent experience in the location and category of the property being valued. The independent valuer provides the fair value of the Company's investment property portfolio annually. The Company's entire class of investment properties were revalued on 31 December 2024.

The fair value measurement for investment property of Rs.152,500,000/- (2023 - Rs. 151,000,000/-) has been categorised as a Level 3 fair value based on the inputs to the valuation technique used.

Valuation Technique

In determining the fair value, the current condition of the properties, further usability and associated redevelopment requirements have been considered. The Valuer has also made reference to market evidence of transaction prices for similar properties, with appropriate adjustments for size and location. The appraised fair values are approximated within appropriate range of values which are as follows :

Details	Extent	Fair Value	Per Perch/ Sq. ft. Value	Fair Value	Per Perch/ Sq. ft. Value
		2024 Rs.	Rs.	2023 Rs.	Rs.
Land	5.5 Perches	139,500,000	25,350,000 per Perch	137,500,000	25,000,000 per Perch
Building *	2,610 sq. ft	13,000,000	5,000 per sq. ft	13,500,000	3,831 per sq. ft

* The Building is one continuous block holding the address 451, Old Moor Street Colombo 12

Sensitivity

Reasonably possible changes at the reporting date to one of the relevant inputs, holding other assumptions constant, would have affected the investment property by the amounts shown below.

	31 December 2024		31 December 2023	
	Increase	Decrease	Increase	Decrease
Per Perch Value (Rs.100,000 movement)	550,000	(550,000)	550,000	(550,000)
Per square Feet (Rs.1000 movement)	2,610,000	(2,610,000)	2,610,000	(2,610,000)

8. FINANCIAL INVESTMENTS

As at 31st December	2024	2023
	Rs.	Rs.
Financial Assets at Fair Value Through Profit or Loss (Note 8.1.1)	56,203,581	125,126,250

Loans and Receivable (Note 8.1.3)	735,000,371	716,830,956
	881,759,478	921,642,663

- 8.1** Fair Value Through Profit or Loss Investments and Available-For-Sale Investments have been valued at fair value. Loans and Receivable are valued at amortised cost.

8.1.1 Financial Investments at Fair Value Through Profit or Loss

As at 31st December	2024	2023
	Rs.	Rs.
Investments in Gold	56,203,581	125,126,250
	56,203,581	125,126,250

8.1.2 Financial Investments at Available-For-Sale Financial Assets

As at 31st December	2024	2023
	Rs.	Rs.
Unit Trust – Senfin Shari’ah Balance Fund	21,272,740	15,886,294
Unit Trust – Senfin Shari’ah Income Fund	30,075,280	27,743,757
Unit Trust – NDB Money Plus Fund	39,207,506	36,055,406
	90,555,526	79,685,457

8.1.3 Loans and Receivable

As at 31st December	2024	2023
	Rs.	Rs.
Investment in Repurchase Agreements	240,871,147	195,672,507
Mudharaba/ Fixed Term Investments	494,129,224	521,158,449
	735,000,371	716,830,956

NOTES TO THE FINANCIAL STATEMENTS

8.1.4 Loans and receivables includes a provision of Rs. 75,658,959 (2023 – Rs. 75,658,959). The said provision will be revised upon recovery.

8.2 Investments in Government Securities are made for the purpose of meeting the requirements of the Regulation of Insurance Industry Act, No. 43 of 2000.

8.3 Fair Value Hierarchy for Assets Carried at Fair Value

The different levels have been defined as follows:

Level 1:	Quoted prices (unadjusted) in active markets for identical assets or liabilities
Level 2:	Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)
Level 3:	Inputs for the asset or liability that are not based on observable market data (unobservable inputs)

The following table shows the fair value hierarchy of the financial assets carried at fair value.

(a) Fair Value Through Profit or Loss Financial Assets

	Level 1 Rs.	Level 2 Rs.	Level 3 Rs.
As at 31 December 2024			
Investments in Equity Securities – Unit Linked (Note 11.1)	96,135,371	-	-
Investments in Gold	-	56,203,581	-
Investments in Gold – Unit Linked	-	219,258,416	-
	96,135,371	275,461,997	-
As at 31 December 2023			
Investments in Equity Securities – Unit Linked (Note 11.1)	65,239,199	-	-
Investments in Gold	-	125,126,250	-
Investments in Gold – Unit Linked	-	110,028,750	-
	65,239,199	235,155,000	-

(b) Available For Sale Financial Assets

	Level 1 Rs.	Level 2 Rs.	Level 3 Rs.
As at 31 December 2024			
Unit Trust	-	90,555,526	-
Unit Trust – Unit Linked (Note 11.2)		42,866,057	
	-	133,421,583	-
As at 31 December 2023			
Unit Trust	-	79,685,457	-
Unit Trust – Unit Linked (Note 11.2)		39,542,958	
	-	119,228,415	-

The fair value of unit trust directly obtained from the unit trust market and categorised under level two, based on the expanded level of the market. The company used average unit price of Rs.17.63 and Rs.19.91 respectively for unit Linked and non Unit Linked investments as at 31 December 2024.

The following financial instruments not measured at fair value are financial instruments for which their carrying amounts are a reasonable approximation of fair value, because for example, they are short – term in nature or repriced to current market rates frequently.

As at 31st December	2024	2023
	Rs.	Rs.
CARRYING AMOUNT

Balance as at 31 December	3,839,333,345	3,274,695,108

NOTES TO THE FINANCIAL STATEMENTS

13.4 The insurance provision has been based upon the following assumptions and other information.

13.4.1 Actuarial Assumptions

Valuation Interest Rate

For Participant Tabarru Fund (PTF) of Family Takaful and Unit Linked business, the company has chosen Valuation Interest Rates of 4.8%p.a. and 6.9%p.a. respectively, which is net of Mudharaba sharing of investment returns with the Takaful Operator. For Mortgage Fund, Valuation Interest Rate of 7.7%p.a. is used which is based on the average of the last 5 years yield of the fund whereas for the Takaful Operator's Fund, Valuation Interest Rate equivalent to the risk-free yield is assumed.

Mortality and Morbidity Assumption

The Company has used the standard table SLA07/09 based on the Sri Lanka Assured Lives Mortality Study Report 2013 from Munich Re to calculate the best estimate assumptions for mortality due to insufficient in-house mortality and morbidity experience. The Total Permanent Disability (TPD) rates are assumed to be 10% of mortality rates and other morbidity rates are assumed as Takaful rates. The risk margin loading factors assumed for mortality and morbidity are +/- 10% and +/- 20% respectively.

Lapse Assumption

Lapse rate assumptions are based on a combination of the company's experience for early durations as well as industry experience in Sri Lanka. The company has used different lapse assumptions for each product to suit the specific nature of the product and business. A different lapse rate assumption has been used for single contribution as they are likely to exhibit different lapse experiences. The risk margin loading factor assumed for lapses is +/-20% for both regular and single contribution plans.

Expense Assumption

The company performed the expense study internally where the expenses are allocated to acquisition and maintenance expenses as well as variable and fixed expenses based on the best representation of actual cost. The variable expenses are linked to contribution amount whereas the fixed expenses are expressed as a per policy expense. Further, the maintenance expenses assumptions were derived assuming that 48.9% of the variable expenses and 14.6% of the fixed expenses will be charged to the PTF for Family Takaful and Unit - Linked business. The risk margin loading factor assumed for expenses is +10%.

Bonus Assumption

No guarantees apply to any of the Takaful funds, and all funds except the unit fund and the mortgage fund are subject to sharing of investment income between the certificate holders and the Takaful Operator.

13.4.2 Other Information

The valuation of the Insurance Provisions (Family Takaful Fund), as at 31 December 2024 was made by Mr. Zainal Abidin Mohd. Kassim (FIA) for and on behalf of Actuarial Partners Consulting Sdn Bhd, Malaysia.

In the opinion of the consultant actuary, the provision is adequate to cover the liabilities pertaining to Long Term Insurance (Family Takaful) Fund. It is not required to perform a valuation on the Participating Investment Fund since it represents just the accumulation of investments made by the policy holders, with no guaranteed returns.

13.5 Liability Adequacy Testing (LAT)

A Liability Adequacy Test ("LAT") for Life Insurance contract Liability was carried out by Mr. Zainal Abidin Mohd. Kassim (FIA) for and on behalf of Actuarial Partners Consulting Sdn Bhd, Malaysia as at 31 December 2024 as required by SLFRS 4 - Insurance Contracts. According to the Consultant Actuary's report, assets are sufficiently adequate as compared to the sum of the discounted cash flow reserves and any further additional reserves as at 31 December 2024.

14. EMPLOYEE BENEFITS

As at 31st December	2024	2023
	Rs.	Rs.
Employee Benefits - Gratuity		
At beginning of the year	12,696,932	10,820,935

	886,074	(818,616)
Net Benefit Expense	4,423,031	2,770,050

The gratuity liability was actuarially valued under the Projected Unit Credit Cost method by Mr. Piyal S. Goonetilleke (Fellow of the Society of Actuaries - USA) in 2024 as requires by LKAS 19, Employee Benefits.

Principal actuarial assumptions used :

	2024	2023
	Rs.	Rs.
a) Discount Rate % per Annum	10.9	13.8
b) Salary Increase % per Annum	5	5
c) Incidence of Withdrawals	4	5
d) Expected Average Future Working Life of the Active Participants	5.3 Years	5.4 Years
e) The weighted average duration of the defined benefit obligation is	4.7 Years	4.1 Years

NOTES TO THE FINANCIAL STATEMENTS

Cash Flow Study – Expected benefit payout in the next 10 years

Year	2024 Rs.	2023 Rs.
2024	-	2,723,567
2025	3,627,666	3,427,126
2026	2,644,343	2,510,576
2027	2,535,827	2,451,141
2028	2,685,579	2,678,937
2029	2,522,170	2,542,512
2030	3,014,766	2,355,309
2031	3,405,345	2,290,616
2032	3,147,313	2,509,823
2033	4,958,683	4,712,387
2034	5,084,148	-
Actual Benefit Payout	1,909,403	894,053

Demographic Assumption	2024 Rs.	2023 Rs.
f) Retirement age	60 Years	60 Years
g) Mortality rats	GA 1983 Mortality Table	GA 1983 Mortality Table

The liability is not externally funded.

14.2 Sensitivity

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below.

	31 December 2024		31 December 2023	
	Increase	Decrease	Increase	Decrease
Discount rate (1% movement)	(603,190)	664,132	(428,094)	466,750
Future salary growth (1% movement)	693,100	(638,700)	500,295	(464,706)

Although the analysis does not take account of the full distribution of cash flows expected under the plan, it does provide an approximation of the sensitivity of the assumptions shown.

15. SUBORDINATED DEBT

As at 31st December	2024 Rs.	2023 Rs.

NOTES TO THE FINANCIAL STATEMENTS

18. LEASE LIABILITY

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the Ijarah rate implicit in the lease or, if that rate can not be readily determined, the Group's incremental borrowing rate. The movement of Lease creditor for the period is as follows,

As at 31st December	2024		2023 Rs
	Property Rs.	Total Rs.	
Opening lease Creditor as at 01st January	13,687,013	13,687,013	13,039,310
Addition	32,214,188	32,214,188	7,977,707
Expense recognised in Profit or Loss	3,252,899	3,252,899	2,237,596
Settlement through lease payment	(11,461,100)	(11,461,100)	(9,567,600)
Lease Liability	37,693,000	37,693,000	13,687,013
	1 Year or less Rs.	2-5 Years Rs.	Total Rs
Maturity Analysis			
Gross Liability	12,728,900	33,377,160	46,106,060
Unamortised Profits	(3,514,748)	(4,898,312)	(8,413,060)
Net Liability	9,214,152	28,478,848	37,693,000

19. STATED CAPITAL

As at 31st December	2024	2023
Fully Paid Ordinary Shares -Voting (Rs.)	500,000,000	500,000,000
No of Ordinary Shares - Voting	50,000,000	50,000,000

All issued shares carry equal voting rights. The holders of ordinary shares are entitled to receive dividends as declared from time to time, and are entitled to one vote per share at meetings of the Company.

20. OTHER RESERVES

Reserves consists of the following :

20.1 Available For Sale Reserve

The Available For Sale Reserve comprises the cumulative net change in the fair value of Available For Sale financial assets until the assets are derecognised or impaired.

20.2 Life Policyholders' Reserve Fund

The Life Policyholder Reserve Fund includes the fair value changes recorded under Other Comprehensive Income in respect of Available For Sale financial assets related to Family Takaful Fund.

20.3 Revaluation Reserve

The Revaluation Reserve relates to the revaluation of motor vehicles under property, plant and equipment.

Depreciation	17,271,133	15,853,025
Amortisation of Intangibles	1,503,691	1,541,358

28. INCOME TAX EXPENSE

Amana Takaful Life PLC is liable for income tax at 30% on the taxable income for the year of assessment 2024/2025 (2023/2024 – 30%).

28.1 Tax Reconciliation Statement

Year ended 31st December	2024 Rs.	2023 Rs.
Investment Income of the Share Holder Fund	64,522,575	74,007,438
Surplus Distributed to Shareholders from Life Insurance Policy Holders	Nil	Nil
Surplus Distributed to Policy Holders	Nil	Nil
Expenses relating to Investment Income of the Share Holder Fund	(20,513,415)	(21,277,613)
Loss Brought forward – 100% of below	(44,009,160)	(52,729,825)
Assessable/Taxable Income	-	-

Unrecognised deferred tax asset

Deferred Tax Asset / (Liability) is attributable to the following;

	2024		2023	
	Temporary Difference Rs.	Tax Effect Rs.	Temporary Difference Rs.	Tax Effect Rs.
On Retirement Benefit Obligations	15,210,560	4,563,168	12,696,932	3,809,080
On Life Policyholders' Reserve Deficit	(49,237,713)	(14,771,314)	(35,044,545)	(10,513,363)
Accumulated Tax losses	712,245,457	213,673,637	756,254,617	226,876,385
	678,218,304	203,465,492	733,907,004	220,172,102

Deferred tax asset of Rs. 203,465,492 (2023: Rs. 220,172,101) as at 31 December 2024 arising out of the above temporary differences has not been recognised since it is not probable that future taxable profits will be available against which the Company can utilise the benefits therefrom.

28.2 Income Tax Assessment Relating To Years Of Assessment 2015/2016, 2016/2017, 2017/2018, 2019/2020 & 2020/2021

The Department of Inland Revenue has raised an assessment for the following years of assessment

- Year of Assessment 2015/2016: assessing the Life Insurance business to pay an income tax liability of 26,552,513 and the company has lodged a valid appeal against the said assessment.
- Year of Assessment 2016/2017: assessing the Life Insurance business to pay an income tax liability of 42,250,180 and the company has lodged a valid appeal against the said assessment.
- Year of Assessment 2017/2018: assessing the Life Insurance business to pay an income tax liability of 51,028,443 and the company has lodged a valid appeal against the said assessment.
- Year of Assessment 2019/2020: assessing the Life Insurance business to pay an income tax liability of 4,673,577 and the company has lodged a valid appeal against the said assessment.
- Year of Assessment 2020/2021: assessing the Life Insurance business to pay an income tax liability of 4,603,551 and the company has lodged a valid appeal against the said assessment.

NOTES TO THE FINANCIAL STATEMENTS

29. EARNINGS PER SHARE

29.1 Basic Earnings Per Share is calculated by dividing the profit for the year attributable to ordinary shareholders by the weighted average number of ordinary shares outstanding during the year.

29.2 The following reflect the income and share data used in the Basic Earnings Per Share computations.

Year ended 31st December	2024	2023
	Rs.	Rs.
Amount used as the Numerator:		
Profit for the year	4,578,270	50,319,475
Number of Ordinary Shares used as Denominator:		
Weighted Average Number of Ordinary Shares in Issue	50,000,000	50,000,000
Earnings Per Share	0.09	1.01

29.3 There were no potential dilutive ordinary shares outstanding at any time during the year. Therefore, Diluted Earning Per Share is same as Basic Earnings Per Share shown above.

30. RELATED PARTY DISCLOSURES

The Company carries out transactions in the ordinary course of its business with parties who are defined as related parties in Sri Lanka Accounting Standard (LKAS) 24 - "Related Party Disclosures". Transactions with related parties were made on the basis of the price lists in force with non-related parties, but subject to approved discounts. Outstanding balances with related parties as at the reporting date are unsecured and interest free. Settlement will take place in cash. Such outstanding balances have been included under respective assets and liabilities. These transactions are reviewed by related party transaction committee on frequent basis. Details of related party transactions are reported below :

The Company carried out following transactions with related parties in the ordinary course of its business on an arm's length basis at commercial rates during the year.

(A) Transactions and Outstanding Balances with the Related Companies

Relationship	Nature of Transactions and Outstanding Balances	2024	2023
		Rs.	Rs.
Parent	Shared Cost	32,480,884	83,837,099
	Takaful Premium Paid	9,139,655	867,782
	Takaful Premium Received	928,424	771,221
	Shared Cost Settlements	32,480,884	94,589,130
	Current Account Balance (Net)	-	-

Shared Cost refers to the value of expenses paid by the Parent Company on behalf of Amana Takaful Life PLC on the shared cost as reimbursements. The subsequent settlement by Amana Takaful Life PLC is recorded as Shared Cost Settlements.

(B) Compensation of Key Management Personnel

According to Sri Lanka Accounting Standard (LKAS) 24 - "Related Party Disclosure", Key Management Personnel (KMP) are those having authority and responsibility for planning, directing and controlling the activities of the entity. Accordingly, the Directors (including Executive and Non-Executive Directors) of the Company and its parent have been classified as Key Management Personnel of the Company.

The Company carries out transactions with KMPs & their close family members in the ordinary course of its business on an arms length basis at commercial rates.

The Company has made following payments to key management personnel during the year.

Year ended 31st December	2024	2023
	Rs.	Rs.
Salary and other short term benefits	20,560,692	15,756,728
Non cash benefits	1,440,000	1,320,000
	22,000,692	17,076,728

31. COMMITMENTS AND CONTINGENCIES

31.1 Commitments

The Company does not have significant capital commitments as at the reporting date.

31.2 Contingencies

The Company does not have significant contingencies as at the reporting date.

32. EVENTS OCCURRING AFTER THE REPORTING PERIOD

Accounting policy

Events after the reporting period are those events, favourable and unfavourable that occur between the reporting date and the date when the financial statements are authorised for issue.

All material post reporting date events have been considered and where appropriate, adjustments or disclosures have been made in the respective notes to the financial statements.

There have been no material events occurring after the reporting date that require adjustments to or disclosure in the financial statements.

33. ASSETS PLEDGED

Nature of Assets	Nature of Liability	Included Under	Carrying Amount Pledge	
			2024	2023
			Rs.	Rs.
Fixed Term Investments/ Mudharaba (Seylan)	Bank Guarantee for Tax Appeal Commission	Financial Investments	1,909,629	1,909,629

34. RISK MANAGEMENT CONTROL

34.1 Overview

All entities face uncertainty and the challenge for the Company is to determine how much uncertainty to accept as it strives to grow stakeholder value. Uncertainty presents both risk and opportunity, with the potential to erode or enhance value. Primarily, risk management framework enables management to effectively deal with uncertainty and associated risk and opportunity, enhancing the capacity to build value.

NOTES TO THE FINANCIAL STATEMENTS

34.2 Risk Management Framework

Amana Takaful Life PLC risk management framework forms an integral part of the management and Board processes and decision-making framework across the Company. The Company has a robust Enterprise Risk Management Framework to mitigate the identified risks exposed at multiple levels of the operation. We believe, while having the Governance practices and the Standard Operating Procedures (SOP's), having the right people at the right place will mitigate more than half the risks.

However, the Board of Directors has the overall responsibility for the establishment and oversight of the Company's risk management framework and thus, their approval is necessary for the Risk management Strategies. The Company's Risk Management Framework categorised into four lines of defence as follows:

1. Front Line People – Risk awareness of the people in the front line is the first line of defence.
2. Policies and Procedures – the Standard Operating Procedures will mitigate the risks at operational level.
3. Key Personnel – Appointing key personnel at the key positions will assist mitigating through right decision making and approval controls at senior management level.
4. Governance – the governance practices to mitigate the risks at Board level.

The Board has appointed a Subcommittee (Board Risk Committee) to monitor closely the affairs of Risk Management of the company.

This section discusses the salient features of the risks exposed by the Company in terms of financial instruments and other areas as an insurance Company. The Financial instruments of the Company are exposed to the following Risks.

1. Financial Risk
2. Credit Risk
3. Market Risk
4. Insurance Risk
5. Liquidity Risk

34.3 Financial Risk

34.3.1 Capital Management

a.Objectives and policies

The Company has established the following capital management objectives, policies and approaches to manage the risks that affect its capital position:

- Optimise capital utilisation within the regulatory guidelines.
- To maintain the required level of solvency of the Company, thereby providing a degree of security to policyholders.
- To allocate capital efficiently and support the development of business by ensuring that returns on capital employed meets the requirements of its shareholders, policyholders and other stakeholders.
- To retain financial flexibility by maintaining strong liquidity
- To align the profile of assets and liabilities taking account of risks inherent in the business

The Company currently has stated capital worth Rs 500Mn which is the minimum regulatory requirement of the Insurance Regulatory Commission of Sri Lanka (IRCSL). Operations of the Company are also subject to statutory requirements of the IRCSL (Capital, investments, solvency etc.,) of which adaptations are made to internal processes from time to time as and when regulations are amended. Such regulations not only prescribe approval and monitoring of activities, but also impose certain restrictive provisions on events such as capital adequacy and solvency to minimise the risk of default and insolvency on the part of the insurance companies to meet unforeseen liabilities.

b. Approach to capital management

Capitals of all investments are maintained strictly within the investment guidelines of the Insurance Regulatory Commission of Sri Lanka (IRCSL). This primarily helps the Company to maintain the required levels of solvency at all the times at different funds. In meeting the objectives mentioned above, the Capital management and asset allocation decisions are reviewed and approved by the Executive Committee and the Board Investment Committee which meet regularly on a monthly basis. The Board Investment Committee operates under clear terms of reference to thoroughly analyse the new investment proposals, review the past performance and provide guidance in terms of future investments and movements of assets.

34.4 Credit Risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss to the other party by failing to discharge an obligation.

How credit risk could arise

- 1 Premium Receivable
- 2 Re-Insurance Receivable
- 3 Financial Investments
- 4 Bank Balances
- 5 Other Financial Assets

The following policies and procedures are in place to mitigate the Company's exposure to credit risk:

- The Company has a stringent credit policy and a detailed SOP outlining the authority and approval limits to manage credit granted to customers.
- All Re-insurers are selected based on the ratings as required by IRCSL.
- The investment committee evaluates the exposure and the new investments in instruments in order to reduce the risks.
- The executive committee regularly reviews the credit position of the company i.e. out-standings and over-dues. In addition the company also ensures that there are sufficient provisions created in the case of doubtful debts.

34.4.1 Credit Exposure

The Company's maximum exposure to credit risk for the components of the statement of financial position at 31 December 2024 is the carrying amounts of respective financial instruments.

34.5 Market Risk

Market risk involves all the fluctuations in the demand and supply forces in the capital and insurance markets for the Company. The capital market forces determine interest rates, equity prices, yield on other investment assets, while the market forces in the insurance market determines the net premiums and gross premium values. Further, prices of goods and services in general i.e. inflation, determines the cost of administration.

34.5.1 Equity Risk

Listed equity investments are prone to market risk arising from uncertainties faced in the future values of the securities. In order to diversify its risk the company has a diversified investment policy based on fundamental analysis which has helped balance the uncertainty faced. It is also notable that the company invests only in sound fundamental value giving investments to the company greater security in its invested equity securities.

34.5.2 Currency Risk

Currency risk is the risk of loss resulting from changes in exchange rates. The company's principle operation is based in Sri Lanka; therefore it is not materially exposed to the financial impact at an operational level arising from changes in the exchange rates of various currencies.

The company has raised a cumulative subordinated debt in USD for a value of USD 335,000. This funds are reinvested in USD based financial instruments thereby mitigating currency risk exposure.

34.5.3 Interest rate risk

Interest rate risk is the risk that the value or future cash flows of a financial instrument will fluctuate because of changes in the market interest rates. Floating rate instruments expose the company to cash flow interest risk, whereas fixed interest rate instruments expose the company to fair value interest risk.

The Company invests in Treasury Bills primarily to meet the mandatory requirement of the investment Insurance Regulatory Commission of Sri Lanka and to park the cash inflow within the admissible assets category until a suitable option is identified within the available time space.

34.6 Insurance Risk

Being an insurance Company, risks related to the insurance business i.e. Insurance Risk, becomes primary in the list. Insurance is all about managing risks on behalf of the customers. In that context, we have identified the following three major risk areas under this Category.

- Underwriting Risks
- Claims Risks
- Re-Insurance Risk

In addition to the above Life insurance is specifically subject to the following risks

1. Mortality risk – risk of loss arising due to policyholder death experience being different than expected.
2. Morbidity risk – risk of loss arising due to policyholder health experience being different than expected
3. Investment return risk – risk of loss arising from actual returns being different than expected
4. Expense risk – risk of loss arising from expense experience being different than expected
5. Policyholder decision risk – risk of loss arising due to policyholder experiences (lapses and surrenders) being different than expected.

In order to mitigate such risk the company has adopted various strategies. The company strategy is driven by the comprehensive screening of policy holders in order to ascertain current medical status, family medical history the key been the comprehensive screening of participants. Further the company ensures that the overall risk is reduced by diversifying the product portfolio across widespread geographical and industry wide segments.

The company also rejects the payment of fraudulent claims once fully exhausting its investigative capacity. The insurance risk described above is also affected by the contract holder's right to pay reduced premiums or no future premiums, to terminate the contract completely. As a result, the amount of insurance risk is also subject to contract holder behaviour.

34.6.1 Under-writing Risks

In insurance, underwriting risk may either arise from an inaccurate assessment of the risks entailed in writing an insurance policy, or from factors wholly out of the underwriter's control. As a result, the policy may cost the insurer much more than it has earned in premiums.

Management Strategy

- i. Price – The Company has strict pricing mechanisms which need to be adhered in respect of various classes of products. Pricing is based on the Actuarial Valuation of the product plan done by Actuarial Partners.
- ii. Exposure – The Company fully ensures that the company does not underwrite risk which does not suit its risk profile and further ensures all high volume risks are re-insured.
- iii. Personnel – The Company ensures that all Underwriting personnel in Life are adequately trained. Further all staff inclusive of underwriting staff have been given specific Key Performance Indicators (KPI's) with regard to revenue and profitability of product segments.

Further it should be noted that the company monthly monitors product profitability of all main classes of insurance.

34.6.2 Claims Risk

The key risk facing insurance companies is the claims risk, where an extremely high amount of withdrawals i.e. a significantly high surrender ratio in comparison to the premium, could drastically affect company performance.

Sensitivities

The sensitivity analysis below has been performed for reasonably possible movements in key assumptions with all other assumptions held constant, showing the impact on gross and net liabilities. The correlation of assumptions will have a significant effect in determining the ultimate claims liabilities, but to demonstrate the impact due to changes in assumptions, assumptions had to be changed on an individual basis. It should be noted that movements in these assumptions are non-linear. Sensitivity information will also vary according to the current economic assumptions.

NOTES TO THE FINANCIAL STATEMENTS

Impact on Takaful Contract Liabilities

Discount rate	-1%	368	368	368
Expenses	+10%	1,425	1,425	1,425
Unit Fund Investment Return	-1%	-	-	-

Management Strategy

Countenance of adverse risk of the same is in effect with strict claims management with proper policy documentation at underwriting level and thorough inspection at claims level been fully emphasised in Key Performance indicators of all staff levels.

34.6.3 Re-Insurance Risk

Insurance companies in events where sum insured is extremely high in comparison to premium earned decide on reinsuring the policy with another insurer in order to mitigate/share its loss in the case of disaster. The risk borne would add up to the premium foregone in the event that disaster does not occur to the said policy.

Management Strategy

The Board Risk Committee annually reviews the list of reinsurers to ensure that the company's exposure is hedged to maximum effect whilst periodically monitoring the financial status and condition of the same. The company employs pre-agreed treaty insurance agreements to hedge against day to day insurance exposure whilst engages in facultative insurance to hedge against extra-ordinary insurance risks in the line of day to day business.

Impact on Takaful Contract Liabilities

Class of business	Name of the reinsurer	Reinsurers Country of origin	Name of the regulatory authority which approval obtained to transact reinsurance business *	License validity period of the reinsurer	Financial Strength	Rating Credit	Rating Agency	Date of Rating

34.7 Liquidity Risk

Liquidity risk is when a possibility arises that an entity will encounter difficulty in meeting obligations associated with financial instruments. The company has a standard set of guidelines set up by an Investment policy under the purview of the Investment committee which is followed in accordance with the IRCSL guidelines.

The following policies and procedures are in place to mitigate the company's exposure to liquidity risk:

- The company maintains a diverse maturity profile in its assets, in order to ensure sufficient funding available to meet insurance and investment contracts obligations.
- The investment committee regularly reviews the liquidity levels and takes appropriate action to improve the liquidity whilst ensuring maximum possible yield and efficiency in investments.
- Efficient forecasting of future commitments and making investments to meet the payouts to mitigate any possible liquidity concerns

GLOSSARY

ACQUISITION EXPENSES – FAMILY TAKAFUL (LIFE)

All expenses which vary with and are primarily related to the acquisition of new insurance contracts.

ACTUARY

An expert concerned with the application of probability and statistical theory to problems of insurance, investment, financial management and demography.

CLAIMS

The amount payable under a contract of insurance arising from the occurrence of an insured event, such as, death, critical illness or hospital benefits, the incurring of hospital or medical bills, death or disability of the insured, the maturity of an endowment policy and the amount payable on the surrender of a policy.

CLAIMS INCURRED

The aggregate of all claims paid during the accounting period together with attributable claims handling expenses, where appropriate, adjusted by the claims outstanding provisions at the beginning and the end of the accounting period.

CLAIMS INCURRED BUT NOT REPORTED (IBNR)

A reserve to cover the expected cost of losses that have occurred by the balance sheet date but have not yet been reported to the insurer.

COMMISSIONS

A payment made to intermediaries in return for selling and servicing an insurer's products.

EARNED PREMIUM

Written premium adjusted by the unearned premium provisions at the beginning and the end of the accounting period.

IJARA – (LEASING)

A contract under which, the Bank buys and leases out equipment required by its client for a rental fee. The duration of the lease and rental fees are agreed in advance. Ownership of the equipment remains with the Bank and only the usufruct is transferred to the client. The client is gifted the item at the end of the lease period based on a separate understanding taken by the Bank to gift the asset subject to certain conditions.

INSURANCE PROVISION – FAMILY TAKAFUL (LONG TERM)

The fund or funds to be maintained by an insurer in respect of its Long Term Insurance business in accordance with the Regulation of Insurance Industry Act No. 43 of 2000.

LIFE INSURANCE BUSINESS (FAMILY TAKAFUL)

Insurance business falling within the classes of insurance specified as Long Term Insurance, under the Regulation of Insurance Act No. 43, 2000

MUDHARABA

This is an agreement made between two parties. The Investor, who provides 100% of the capital for the project and the Mudharib manages the entire project using his entrepreneurial skills. The Investor has no control over the management of the project. Profits arising from the project are distributed according to a predetermined ratio. Losses are borne by the provider of the capital.

NET EARNED PREMIUM

Gross written premium adjusted for the reinsurance incurred and for the increase or decrease in unearned premium.

PREMIUM (CONTRIBUTION)

The consideration payable by the insured for an insurance contract.

RETAKAFUL (REINSURANCE)

Transfer of all or part of the risk assumed by an insurer under one or more insurance to another insurer, called the re-insurer.

RISK-BASED CAPITAL

A "Risk Based" approach to assess the Capital Adequacy, determined as per Solvency Margin (Risk-Based Capital) Rules 2015.

SHARI'AH

Is the code of law for the Islamic way of life which has been derived from the Quran and the Sunnah (The Practice of the holy Prophet Muhammad – Peace be upon him).

SHARI'AH ADVISORY COUNCIL (SAC)

This comprises of Shari'ah Scholars or/ and well versed personnel in Shari'ah, which ensures Shari'ah compliance in the operations of the Company. The SAC advises the Company on all Shari'ah matters in its business activities and involves in endorsing and validating relevant documentation, such as products manuals, policy terms and conditions, marketing materials, sales illustrations, etc.

SOLVENCY MARGIN – FAMILY TAKAFUL (LIFE)

The difference between the value of assets and the value of liabilities, required to be maintained by the insurer who carries on Long-Term Insurance business, determined as per Solvency Margin (Long-Term Insurance) Rules, 2002.

SURRENDER

The act of canceling of an insurance contract before it reaches its date of maturity.

GLOSSARY

TAKAFUL

Is an Arabic word, which means “guaranteeing each other”. It is a system of risk management based on the principle of mutual assistance (TA-AWUN) and contributions (Tabarru) where the risk is shared collectively by the Group voluntarily.

UNDERWRITING

The process of selecting which risks an insurance company can cover, and deciding the premium and terms of acceptance.

UNEARNED PREMIUM/UNEARNED PREMIUM RESERVE

It represents the portion of premium already entered in the accounts as due but which relates to a period of risk subsequent to the balance sheet date.

WRITTEN PREMIUM

Total premium received or due from all insurance contracts during a period.
