15. Related Implications of Increasing Foreign Exchange, Interest and Inflation Rates

Sri Lanka has been facing a foreign exchange crisis due to the adverse economic impacts of the Covid-19 pandemic and it has grown from acute to severely acute during the financial period ended 30th September 2022. The deterioration of foreign reserves is putting pressure on exchange rates to depreciate in the market. Sri Lankan Rupee (LKR) has depreciated notably against USD during the FY 2022. The direct exposure to foreign exchange rates of the Group is minimum due to the limited

Sri Lanka's annual inflation has increased significantly and will continue to increase further. As a response to the prevailing economic crisis and inflation, the Central Bank of Sri Lanka (CBSL), has implemented a tightening Monetary Policy while increasing policy rates. Yields on Government securities have also increased notably to reflect market conditions in view of the higher financing requirement of the Government. Whilst inflation will cause interest rates to move upwards, the Group being in the Insurance sector will gain benefits from investment income while experiencing a negative impact due to fluctuation in market value of financial assets and expenses.

The Board continues to monitor the potential implications of these factors on the groups business activities, profitability, solvency and liquidity position and will take proactive action to meet future obligations and ensure business continuity.
