The accounting policies and methods of computation followed in preparing the above Interim Financial Statements are the same as those disclosed in our Annual Report for the year ended 31st March 2019.

## 3 New standards, interpretations and amendments adopted by the Group

### SLFRS 16 - Leases

SLFRS 16 specifies how an entity will recognize, measure, present and disclose leases. The standard provides a single lessee accounting model requiring leases recognise assets and liabilities for all leases unless the term is 12 months or less or the underlying asset has a lower value. The Lessors continue to classify leases as operating or finance as SLFRS 16's approach for lessor accounting substantially unchanged from its predecessor. SLFRS 16 is effective for financial reporting periods beginning on or after 1st January 2018, with early adoption permitted.

The Group has lease contracts for retail stores typically made for 6 years of lease term and has extension option. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions.

#### Right of use assets

The Group recognises right of use assets when the underlying asset is available for use. Right of use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right of use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Unless the Group is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognised right of use assets are depreciated on a straight-line basis over the shorter of its estimated useful life or the lease term.

#### Lease liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

Set out below, are the carrying amounts of right of use assets and lease liability and the movements for the period ended 30th September 2019.
