1 Corporate Information

The Company was incorporated in Sri Lanka on 20th September 2006 as a public limited liability company and re-registered under the Company's Act No 7 of 2007 on 3rd August 2009. On 17th May 2012 the company was successfully listed on the Dri Savi Board of Colombo Stock Exchange and subsequently changed its name to Taprobane Holdings PLC on 13th July 2012 and as Ambeon Capital PLC on 10th May 2018.

The Interim Financial Statements of the Group and the Company for the nine months ended 31st December 2019 were authorised for issue by the Board of Directors on 30th January 2020.

2 Basis of Preparation

These Interim Financial Statements have been prepared based on the new accounting policies and methods which have been revised in line with the requirements of the SLFRS 9 - Financial Instruments. The Company complied with LKAS - 39, Financial Instruments : Recognition and measurements up to 31st March 2018, in the preparation of its Financial Statements. In order to recognise the impact on the transition, the Company has adopted the modified retrospective approach in line with SLFRS 9 - Financial Instruments for the financial year ended 31st March 2019. The accounting policies and methods of computation followed in preparing the above Interim Financial Statements are the same as those disclosed in our Annual Report for the year ended 31st March 2019.

These Interim Financial Statements have been prepared in compliance with the requirements of Sri Lanka Accounting Standards - LKAS 34 on Interim Financial Reporting.

3 New standards, interpretations and amendments adopted by the Group

SLFRS 16 - Leases

SLFRS 16 specifies how an entity will recognize, measure, present and disclose leases. The standard provides a single lessee accounting model requiring leases recognise assets and liabilities for all leases unless the term is 12 months or less or the underlying asset has a lower value. The Lessors continue to classify leases as operating or finance as SLFRS 16's approach for lessor accounting substantially unchanged from its predecessor. SLFRS 16 is effective for financial reporting periods beginning on or after 1st January 2018, with early adoption permitted.

The Group has lease contracts for retail stores typically made for 6 years of lease term and has extension option. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions.

Right of use assets

The Group recognises right of use assets when the underlying asset is available for use. Right of use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right of use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Unless the Group is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognised right of use assets are depreciated on a straight-line basis over the shorter of its estimated useful life or the lease term.

Lease liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

Set out below, are the carrying amounts of right of use assets and lease liability and the movements for the period ended 31st December 2019.
