Basic earnings / (loss) per ordinary share Rs	0.62	0.62	0.30	0.32

There have been no other transactions involving ordinary shares or potential ordinary shares between the reporting date and the date of completion of these financial statements.

7. Initial Application of SLFRS 16 - Leases

SLFRS 16 sets out the Principles for the recognition, measurement, presentation and disclosure of leases. This introduces a single, on-balance sheet lease accounting model for lessees. The standard removes the current distinction between operating and financing leases and requires recognition of an asset and a financial liability to pay rentals for virtually all lease contracts. An optional exemption exists for short term and low-value leases. Lessor accounting remains similar to the current standard. Lessee will be required to separately recognize the interest expense on the lease liability and depreciation expense on the right-of-use asset.

The company as a lessee has applied SLFRS 16 as initial application of 01st January 2019 using the modified retrospective approach at the present value of the remaining lease payments discounted using the incremental borrowing rate, on the lease-by-lease basis and therefore the comparative information has not been restated and continues to be reported under LKAS 17 at the present value of the remaining lease payments discounted using the incremental borrowing rate, on the lease-by-lease basis.

Arpico Insurance PLC

Notes to Interim Financial Statements

10. TAXATION AND DEFERRED TAX

Arpico Insurance PLC is liable for income tax at 28% (2018 -28%)

The taxation basis of life insurance business changed from 01 April 2018 with the coming into effect of the Inland Revenue Act No. 24 of 2017 where a surplus based taxation basis is adopted replacing what was commonly known as "I-E" basis of taxation. However, the profits of Life Shareholders' fund will be taxed along a basis of "I-E".

Deferred Taxation is provided using the liability method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the tax base of assets and liabilities, which is the amount attributed to those assets and liabilities for tax purposes. The amount of deferred tax provided is based on the expected manner of realization or settlement of the carrying amount substantively enacted by the reporting date.

Deferred tax assets, including those related to temporary tax effects of income tax losses and credits available to be carried forward, are recognized only to the extent that it is probable that future taxable profits will be available against which the asset can be fully utilized. Deferred tax assets, if any, are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Accordingly the company made an assessment of future taxable profits and identified that total tax losses can be claimed within the prescribed period of the new Act. Accordingly a deferred tax asset has been recognized amounting to Rs. 215 Mn.
