Basic earnings / (loss) per ordinary share Rs	3.02	3.57

There have been no other transactions involving ordinary shares or potential ordinary shares between the reporting date and the date of completion of these financial statements.

7. Initial Application of SLFRS 16 - Leases

SLFRS 16 sets out the Principles for the recognition, measurement, presentation and disclosure of leases. This introduces a single, on-balance sheet lease accounting model for lessees. The standard removes the current distinction between operating and financing leases and requires recognition of an asset and a financial liability to pay rentals for virtually all lease contracts. An optional exemption exists for short term and low-value leases. Lessor accounting remains similar to the current standard. Lessee will be required to separately recognize the interest expense on the lease liability and depreciation expense on the right-of-use asset.

The company as a lessee has applied SLFRS 16 as initial application of 01st January 2020 using the modified retrospective approach at the present value of the remaining lease payments discounted using the incremental borrowing rate, on the lease-by-lease basis and therefore the comparative information has not been restated and continuous to be reported under LKAS 17 at the present value of the remaining lease payments discounted using the incremental borrowing rate, on the lease-by-lease basis.
