Interim Financial Statements

For the nine months ended 30th September 2025

- Loans grow by over Rs 250 Bn in 9 months
- Asset quality improves further, with net Stage 3 ratio at 1.36%
- Recognised as the 'Strongest Bank in Sri Lanka' by 'The Asian Banker'

Sustaining its upward momentum, HNB delivered strong results in the first nine months of 2025. Group PAT reached Rs 34.7 Bn, marking a 47% YoY increase, while the Bank's PAT grew by 42% YoY to Rs 31.5 Bn.

The significant reduction in average interest rates compared to the corresponding period of the previous year, resulted in interest margins narrowing over the period. The significant growth in the balance sheet supported to offset the impact to a great extent, with net interest income improving to Rs 69.2 Bn for the 9 months.

Net Fee and Commission Income registered a strong YoY growth of 24.3%, supported by the continued expansion in loans and advances during the first nine months of 2025, compared to the same period in 2024. This growth was further supported by the enhanced performance of HNB's Transaction Banking operations and digital platforms, and card services.

Exchange income recorded a significant improvement, reaching Rs 4.2 Bn during the first nine months of 2025, reversing the loss of Rs 2.0 Bn reported in the same period last year. This growth was primarily driven by the movement in exchange rate alongside a notable increase in foreign currency transactions, particularly due to the surge in vehicle imports during the period.

HNB's continued emphasis on proactive risk management and recovery efforts were reflected in a Rs 7.5 Bn impairment reversal during the period, a significant turnaround from the Rs 3.2 Bn charge in the same period last year. Asset quality metrics continued to improve, with the Net Stage 3 ratio falling to 1.36%, from 1.88% in December 2024, while the Stage 3 coverage ratio remained steady at 75.64%, reflecting HNB's strong risk management discipline.

As at the end of September 2025, the Group's asset base surpassed Rs 2.6 Tn, with the Bank contributing Rs 2.35 Tn, reflecting a year-to-date growth of 17.9%. This expansion included a Rs. 287.7 Bn increase in net loans and advances at Group level, of which Rs. 262.6 Bn was attributable to the Bank. Meanwhile, the Group's deposit base grew by approximately Rs 182.0 Bn during the first nine months of the year, reaching Rs 1.93 Tn, with the Bank accounting for Rs 165.0 Bn of this growth.

During the period, HNB maintained strong capital buffers, with Tier I and Total Capital Adequacy Ratios standing at 16.74% and 20.13%, respectively, well above the regulatory minimums of 9.5% and 13.5%. The Bank also upheld a strong liquidity position, as reflected in its All currency Liquidity Coverage Ratio of 227.45%, significantly exceeding the regulatory threshold of 100%.

HNB is rated AA- (lka) by Fitch Ratings Lanka Ltd. Reinforcing its reputation for excellence, HNB was recognised by The Asian Banker as "Sri Lanka's Strongest Bank" and awarded "Best Retail Bank in Sri Lanka" for the 15th time. The Bank is also ranked among the "Top 1000 Banks in the World" as affirmed by The Banker magazine UK. HNB also received the prestigious title of "Best Bank for Large Corporates" at the Euromoney Awards for Excellence 2025.

EXPLANATORY NOTES

- 1 There are no changes in accounting policies and methods of computation since the publication of annual accounts for the year 2024.
- 2 There are no material changes during the period in the composition of assets, liabilities and contingent liabilities and use of funds raised through debentures. All known expenditure items have been provided for.
- 3 These interim financial statements are presented in accordance with Sri Lanka Accounting Standard (LKAS 34) "Interim Financial Reporting" and provide the information as required in terms of Rule 7.4 of the Colombo Stock Exchange.

4 ECL Assessment and computation

The Bank reassessed impairment provisions for Individually Significant Customers (ISL) recognised during the reporting period to ensure that adequate provisions are maintained in line with the respective risk profiles of these customers. In addition, key parameters used in the assessment of collective impairment such as Probability of Default (PD) and Economic Factor Adjustments (EFA) were reviewed during the period ended 30th September 2025. Management overlays have been applied to exposures in specific industries where elevated risk levels have been identified. The Bank has recognized sufficient provisions for expected credit losses in the financial statements as at 30th September 2025 to ensure that potential impacts on its loan portfolio are appropriately covered. The Board will continue to monitor developments and make adjustments as necessary.

- 5 Bank re-classified its debt securities portfolio measured at Fair Value Through Other Comprehensive Income category to Amortised Cost category with effect from 1st April 2022 in accordance with "Statement of Alternative Treatment (SoAT) on Reclassification of Debt Portfolio" issued by CA Sri Lanka. Accordingly, Treasury Bills and Treasury Bonds investments which were previously classified as financial assets measured at Fair Value Through Other Comprehensive Income (FVOCI) were re-classified as financial assets measured at amortised cost. There was no change to the effective interest rate used and interest revenue recognised in respect of the reclassified assets.

Had these investments continued to be carried at fair value through other comprehensive income, the fair value of the remaining portfolio as at 30th September 2025 would have amounted to Rs 5.6 Bn and would have resulted in the recognition of a fair value loss of Rs 209 Mn (net of tax) in other comprehensive income during the period.

- 6 Where required, figures on the audited annual financial statements have been reclassified to conform to Central Bank of Sri Lanka publication requirements.

7 Reporting entity

The Bank does not have an identifiable parent of its own. Hatton National Bank PLC is the ultimate parent of the Group. The consolidated financial statements of the Bank cover the Bank and its subsidiaries, HNB Assurance PLC, On January 21, 2025, HNB PLC acquired 75,500,001 ordinary voting shares, representing a 50% stake held by DFCC Bank PLC in Acuity Partners (Pvt) Ltd, for a consideration of Rs 6.5 Bn. This transaction was completed after obtaining approvals from the Central Bank of Sri Lanka and the Securities and Exchange Commission of Sri Lanka. Following this acquisition, Acuity Partners (Pvt) Ltd has become a wholly-owned subsidiary of HNB PLC and has been rebranded as HNB Investment Bank (Pvt) Ltd.

8 Utilization of funds raised via capital markets

8.1 The funds raised through debentures previously issued were fully utilized for the objectives mentioned in the respective prospectuses.

- 9 There are no material events that took place after the balance sheet date which require adjustment or disclosure in the financial statements.

FAIR VALUE DISCLOSURE OF FINANCIAL INSTRUMENTS

Fair value Disclosure of Financial Instruments

The Group measures the fair values of financial instruments using the following fair value hierarchy, which reflects the significance of the inputs used in making the measurements.

Level 1: Fair value measurement using unadjusted quoted market price

When available, the fair values of financial instruments are determined using quoted market prices (unadjusted) in active markets for identical instruments. A market is regarded as active if quoted prices are readily and regularly available and represent actual and regularly occurring market transactions on an arm's length basis. Accordingly, the fair values of treasury bills and bonds have been derived using the market yields and market prices published by Central Bank of Sri Lanka while fair value of quoted equity securities and PDI Bonds have been valued using the quoted market prices as at the reporting date

Level 2: Fair value measurement using significant observable inputs

In the absence of an active market for a financial instrument, the fair value is determined using quoted market prices in active markets for similar instruments or quoted prices for identical or similar instruments in markets that are considered less than active or other valuation techniques in which all significant inputs are directly or indirectly observable from market data. The spot and forward premiums available as at the reporting date have been used to estimate the fair value of derivative financial instruments while the fair value of unquoted units have been measured using manager's selling prices. The fair values of financial assets and financial liabilities carried at amortised cost have been estimated by comparing the interest rates when they were first recognised with the current market rates of similar instruments. Since the USD step up Bond / PDI Bond carries LKR conversion option, the Bank classified the fair value of that bond under Level 2.

Level 3: Fair value measurement using significant unobservable inputs

Financial instruments for which the valuation technique includes inputs that are not observable and the unobservable inputs have a significant effect on the instrument's valuation.

There are no material changes in the fair value of financial assets categorised under Level 3 compared to the values reported as at 31st December 2024. The Group has not changed the valuation models and assumptions used to measure the fair values of Level 3 financial instruments during the period ended 30th June 2025.
