FINANCIAL COMMENTARY FOR THE PERIOD ENDED 31ST MARCH 2026

- Bank's Total Deposits crosses Rs 2.0 Tn and Gross Loans and Advances crosses Rs 1.6 Tn in Q1 2026
- Asset quality remains stable, with the Net Stage 3 ratio at 1.18%
- Strong Liquidity and Capital Positions maintained well above regulatory minimums

Against a backdrop of heightened economic volatility, the Bank recorded a Profit After Tax (PAT) of Rs 9.95 Bn in Q1 2026, reflecting disciplined balance sheet expansion and sustained improvements in asset quality. At Group level, performance remained resilient, with PAT reaching Rs 10.35 Bn for the quarter.

During the first quarter of 2026, interest income recorded a year-over-year (YoY) growth of 10.0%. While interest expense increased during the period, the growth in interest income outpaced the rise in funding costs, resulting in Net Interest Income (NII) reaching Rs 26.9 Bn.

Margin expansion was a key highlight for the quarter, with Net Interest Margin (NIM) increasing from 4.26% to 4.45% and NII rising by 13.5% YoY, driven by disciplined balance-sheet growth as loan expansion was supported by a growing deposit base and a largely stable funding mix, enabling sustained margin enhancement over the period.

Net fee and commission income rose to Rs 6.8 Bn, up 40.9% YoY from Rs 4.8 Bn in Q1 2025, driven by strong momentum in the leasing segment, building on the expansion achieved in the previous year. Growth was further supported by expansion of the loan book, improved card performance, and higher transaction banking activity, including increased adoption of enhanced digital solutions. Exchange income also increased by 6.0% YoY to Rs. 1.6 Bn, reflecting higher customer activity and improved trade flows.

Overall, Total Operating Income for the first quarter of 2026 increased to Rs 36.1 Bn, compared to Rs 30.8 Bn recorded in the corresponding period of 2025, reflecting a YoY growth of 17.2%. Total operating expenses increased by 19.6% YoY, primarily due to higher customer activity levels, including increased card-related volumes, higher loan originations and credit assessments, contributing to an increase in routine operational expenses, and mandatory levies associated with priority-sector and agriculture-related lending. Effective cost management was maintained, with the cost-to-income ratio standing at 37.15% in Q1 2026, broadly stable year-on-year compared to 36.41% in Q1 2025.

Incorporating prevailing economic conditions, the Bank adopted a prudent and forward-looking credit risk management approach, with impairment provisions of Rs 2.6 Bn recorded in Q1 2026, compared to a reversal of Rs 379.7 Mn in Q1 2025, reflecting a cautious risk stance amid economic challenges and global uncertainties.

Despite the increase in provisions, asset quality indicators remained stable. The net Stage 3 ratio edged up marginally by 9 bps to 1.18% as at end March 2026, compared to end December 2025. Stage 3 provision coverage remained strong at 73.29%, providing adequate buffers and supporting overall balance sheet resilience.

With Total Assets surpassing Rs 2.5 Tn, the Bank delivered strong growth during the quarter, with gross loans and advances increasing by Rs 113.8 Bn and deposits rising by Rs 61.7 Bn, reflecting continued customer confidence and prudent balance sheet management.

The Bank reported a strong capital and liquidity position, with Tier I at 15.03%, Total Capital at 18.07%, and an all-currency LCR of 194.44%, providing substantial regulatory headroom.

HNB, rated AA-(lka) by Fitch Ratings Lanka Ltd., continues its strong standing in Sri Lanka's financial sector, having been named Best Retail Bank in Sri Lanka for the 16th time by The Asian Banker, while Global Business Magazine awarded HNB as Best Retail Bank and Best SME Bank for 2026, alongside further recognition as Best Bank in Sri Lanka by The Banker (UK), Sri Lanka's Strongest Bank by The Asian Banker, Best Bank for Large Corporates by Euromoney, ranking among the Top 1,000 Banks in the World by The Banker (UK), and Sri Lanka's Best Corporate Citizen for 2025 by the Ceylon Chamber of Commerce.

EXPLANATORY NOTES

- 1 There are no changes in accounting policies and methods of computation since the publication of annual accounts for the year 2025.
- 2 There are no material changes during the period in the composition of assets, liabilities and contingent liabilities and use of funds raised through debentures. All known expenditure items have been provided for.
- 3 These interim financial statements are presented in accordance with Sri Lanka Accounting Standard (LKAS 34) "Interim Financial Reporting" and provide the information as required in terms of Rule 7.4 of the Colombo Stock Exchange.

4 ECL Assessment and computation

The Bank reassessed the impairment provisions recognized for Individually Significant Customers during the reporting period to ensure that adequate provisions are maintained in line with the respective risk profiles of these customers. In addition, key parameters used in the assessment of collective impairment were reviewed during the reporting period ended 31st March 2026.

Management overlays were applied to exposures within specific industries where elevated risk levels were identified. The Bank continued to maintain the overlay recognised for Ditwah during the period, taking into consideration other current volatiles in the external environment.

Based on these assessments, the Bank recognised sufficient provisions for expected credit losses in the financial statements as at 31st March 2026 to ensure that potential risks to the loan portfolio were appropriately covered. The Bank will continue to monitor developments and make adjustments as necessary.

- 5 The Bank re-classified its debt securities portfolio measured at Fair Value Through Other Comprehensive Income category to Amortised Cost category with effect from 1st April 2022 in accordance with "Statement of Alternative Treatment (SoAT) on Reclassification of Debt Portfolio" issued by CA Sri Lanka. Accordingly, Treasury Bills and Treasury Bonds investments which were previously classified as financial assets measured at Fair Value Through Other Comprehensive Income (FVOCI) were re-classified as financial assets measured at amortised cost. There was no change to the effective interest rate used and interest revenue recognised in respect of the reclassified assets.

Had these investments continued to be carried at fair value through other comprehensive income, the fair value of same as at 31st March 2026 would have amounted to Rs 4.6 Bn and would have resulted in the recognition of a fair value loss of Rs 293 Mn (net of tax) in other comprehensive income statement during the period.

- 6 Where required, figures on the audited annual financial statements have been reclassified to conform to Central Bank of Sri Lanka publication requirements.

FAIR VALUE DISCLOSURE OF FINANCIAL INSTRUMENTS

Fair value Disclosure of Financial Instruments

The Group measures the fair values of financial instruments using the following fair value hierarchy, which reflects the significance of the inputs used in making the measurements.

Level 1: Fair value measurement using unadjusted quoted market price

When available, the fair values of financial instruments are determined using quoted market prices (unadjusted) in active markets for identical instruments. A market is regarded as active if quoted prices are readily and regularly available and represent actual and regularly occurring market transactions on an arm's length basis. Accordingly, the fair values of treasury bills and bonds have been derived using the market yields and market prices published by Central Bank of Sri Lanka while fair value of quoted equity securities and PDI Bonds have been valued using the quoted market prices as at the reporting date

Level 2: Fair value measurement using significant observable inputs

In the absence of an active market for a financial instrument, the fair value is determined using quoted market prices in active markets for similar instruments or quoted prices for identical or similar instruments in markets that are considered less than active or other valuation techniques in which all significant inputs are directly or indirectly observable from market data. The spot and forward premiums available as at the reporting date have been used to estimate the fair value of derivative financial instruments while the fair value of unquoted units have been measured using manager's selling prices. The fair values of financial assets and financial liabilities carried at amortised cost have been estimated by comparing the interest rates when they were first recognised with the current market rates of similar instruments. The Bank classified the fair value of USD Step up Bond & PDI Bond under Level 2.

Level 3: Fair value measurement using significant unobservable inputs

Financial instruments for which the valuation technique includes inputs that are not observable and the unobservable inputs have a significant effect on the instrument's valuation.

There are no material changes in the fair value of financial assets categorised under Level 3 compared to the values reported as at 31st December 2025. The Group has not changed the valuation models and assumptions used to measure the fair values of Level 3 financial instruments during the period ended 31st March 2026.
