

MADE IT HAPPEN!
8760 HOURS OF SUCCESS...

“Twenty-seven years ago, we at Asia Siyaka commodities PLC began our journey with a simple yet powerful ethos, “Your own by your own effort” Today, that effort stands amplified by every stakeholder who walked this path with us. Together, we have not only facilitated trade but built trust, nurtured sustainability and shaped a legacy of purpose.

Strengthened with commitment, focus and unflinching perseverance, we have completed yet another successful financial year with an impressive record in performance.

This year too was made possible by the strength of our collective effort.

This milestone is more than a celebration of endurance. It is a tribute to foresight and responsibility. As Sri Lanka is home to the tea industry’s only LEED-certified green warehouse, our journey has been deeply rooted in environmental stewardship. From replanting forests to conserving upland ecosystems and protecting wildlife we have walked hand in hand with nature and with you.”

ABOUT THE REPORT

We are pleased to present the Annual Report of Asia Siyaka Commodities PLC (“ASC” or “the Company”) for the financial year ended 31st March 2025. This report provides a comprehensive and balanced overview of how we utilized our capital inputs to create sustainable value for our stakeholders. It also outlines the broader operating landscape, our governance practices, risk management strategies and the forward-looking outlook that guides our strategic direction.

REPORTING PERIOD

This report covers the 12-month period from 1st April 2024 to 31st March 2025, in line with our standard annual reporting cycle. It follows on from the previous Annual Report for the year ended 31st March 2024 and includes comparative data where applicable. There were no material changes during the reporting period that required any restatement of the prior year’s financial information.

SCOPE AND BOUNDARY

The scope of this report encompasses the operations of Asia Siyaka Commodities PLC along with its three subsidiaries – Asia Siyaka Warehousing (Pvt) Ltd, Siyaka Produce Brokers (Pvt) Ltd and Agrione Solutions (Pvt) Ltd referred to collectively as the “Group”. Financial information presented in pages 94 to 137, as well as the financial analysis within the narrative sections, reflects a consolidated view of the Group, unless otherwise indicated. All non-financial disclosures relate specifically to the group unless otherwise stated.

REPORTING FRAMEWORKS

This report is prepared using the following reporting frameworks.

FINANCIAL REPORTING

- Sri Lanka Financial Reporting Standards
- Sri Lanka Accounting and Auditing Standards Act No.15 of 1995
- Companies Act No 7 of 2007

NARRATIVE REPORTING

- Integrated Reporting Framework of the International Integrated Reporting Council (IIRC).

CORPORATE GOVERNANCE

- Continued Listing Requirements of the Colombo Stock Exchange
- Code of Best Practice on Corporate Governance issued by The Institute of Chartered Accountants of Sri Lanka.

INFORMATION INTERCONNECTIVITY

We have strengthened the connectivity of information through the consistent use of icons to enhance clarity and cohesion across the report. These visual cues help readers easily identify links between various sections – strategic priorities, capital inputs, performance outcomes and stakeholder impacts – ensuring a more seamless and integrated reading experience throughout the report:

FEEDBACK & INQUIRIES

We value your feedback and welcome your comments and suggestions on this Report. Please direct your feedback to info@siyaka.lk.

ABOUT US

Asia Siyaka Commodities PLC is a leading market intermediary in Sri Lanka's tea industry, driving innovation and efficiency since 1998. As a licensed broker for tea, rubber, and other commodities, we consistently rank among the top 4 tea brokers in the country by volume and value.

We are renowned for pioneering pragmatic solutions that have transformed Sri Lanka's tea auction process, creating shared value across the entire tea supply chain. Beyond tea, we trade rubber and a diverse range of non-traditional commodities, including spices and desiccated coconut.

Furthermore, we are proud to own and operate the world's only Leeds-certified "Green" tea auction logistics center, solidifying our position as the leading tea auction logistics provider in Sri Lanka, managing over 24% of all teas stored for the Colombo Tea Auction.

OUR COMPETITIVE EDGE

We continuously invest in building and leveraging our unique knowledge base, fostering a culture of innovation and expertise that drives our competitive advantage and contributes to the industry's progress.

OUR PRESENCE ALONG THE VALUE CHAIN

By expanding our services to include warehousing, advisory, and research, we have become a comprehensive and integrated solutions provider in the tea industry.

OUR GROUP STRUCTURE

ABOUT US

Brokerage Services

Connects tea manufacturers and buyers, leveraging the strong relationships across the entire supply chain.

Warehousing

Facilitating the smooth flow of Sri Lanka's tea logistics through effective warehousing solutions.

Advisory

Empowering customers with market intelligence and guidance on factory and estate management.

Research

Proactively researching emerging industry trends and sharing insights with stakeholders.

Agri Business

Sale of fertilizer, agro chemicals & seeds

614 Years of experience	Managing 22% of Sri Lanka's tea trade	179 Factories	343 Buyers

The background of the entire image is a close-up, shallow depth-of-field photograph of a tea ceremony. It features several glass teapots and small glass cups filled with tea, some with ice cubes. There are also small white bowls containing dark, granular tea leaves. The lighting is warm and focused on the foreground elements, creating a sense of intimacy and tradition.

TOGETHER

LEADERSHIP

THIER

CHAIRMAN'S MESSAGE

As an industry leader, the company remains proactively engaged in conversations around the long-term competitiveness of Ceylon Tea. Global trends indicate a growing preference for ethical sourcing, traceability and environmental responsibility, areas where Sri Lanka must regain its leadership.

Dear Shareholders,

It is my pleasure to present to you the Annual Report and audited financial statements for the year ended 31st March 2025, a year that tested the resilience of our industry and the strength of our strategy. Amid economic reform, policy uncertainty and evolving global markets, Asia Siyaka Commodities PLC remained steadfast in its commitment to value creation, sustainability and growth.

OPERATING LANDSCAPE

The 2024/25 financial year unfolded against a dynamic global and domestic backdrop. While international commodity markets remained volatile and macroeconomic uncertainty prevailed in many parts of the world, Sri Lanka's own economic trajectory showed early signs of stabilization. Inflation was brought under control, but growth remained sluggish. Structural reforms demanded by external creditors brought both promise and pressure. The export sector, including agriculture, continued to grapple with policy inconsistencies, currency fluctuations and systemic inefficiencies.

INDUSTRY PERFORMANCE

Meanwhile, Sri Lanka's tea cultivation performed below expectations for a country that typically produces over 300 million kilograms but were only able to achieve 262 million kilograms during the period under review. In 2024, Sri Lanka exported 245.7 million kilograms of tea, marking a slight increase over the 241.9 million kilograms exported in the previous year. Despite the broadly similar volumes, the industry recorded a significant milestone in export earnings. Tea exports generated an all-time high of Rs. 437 billion, equivalent to approximately USD 1.435 billion. However, earnings in local currency terms declined due to the appreciation of the Sri Lankan Rupee against the US Dollar and other major currencies, impacting incomes for farmers and estates.

For stakeholders in Sri Lanka's tea industry, the impending removal of the Simplified Value Added Tax (SVAT) scheme, influenced by the broader economic restructuring under the International Monetary Fund's (IMF) supervision, presents serious challenges. While the government may see this as a revenue-generating mechanism, the opportunity cost and disruption to cash flows have significant consequences for exporters' business models. Asia Siyaka, as an intermediary broking house, cannot remain unaffected when our clients - factories and exporters - are themselves constrained. A weakened buyer base inevitably puts downward pressure on price realisation at the Colombo Tea Auction, impacting all players in the value chain.

STRATEGY AND PERFORMANCE

Despite these headwinds, Asia Siyaka Commodities PLC demonstrated resilience. Our position as one of the foremost tea broking firms in Sri Lanka was bolstered by our reach in warehousing and logistics with the world's first LEEDS certified warehousing operation. We successfully managed over 53 million kilograms of tea through our facilities, offering not only space but also sophisticated handling solutions. We continued to grow our presence in brokering rubber and non-traditional commodities such as coffee, both of which provide a degree of diversification.

Strategic foresight led us to invest in a fertiliser start-up, recognising the intrinsic connection between input availability and plantation productivity. With Sri Lanka's tea production still struggling to recover from the fallout of the agrochemical ban, down from a peak of 340 million kilograms in (2013) to nearly 262 million in 2025, this initiative is critical to the long-term revitalisation of the sector. Similarly, the company's investment in solar energy, although facing regulatory headwinds, reflects our commitment to sustainable and future-oriented operations along with stepping into commercial generation of solar power.

As an industry leader, the company remains proactively engaged in conversations around the long-term competitiveness of Ceylon Tea. Global trends indicate a growing preference for ethical sourcing, traceability and environmental responsibility, areas where Sri Lanka must regain its leadership.

ESG & CORPORATE GOVERNANCE

At Asia Siyaka, sustainability is embedded in our ethos. It is deeply engaged with national initiatives, industry think-tanks and training institutions. We take pride in our involvement with the Tea Traders Association's roadmap 2030 and collaboration with agricultural universities such as Peradeniya and Wayamba, nurturing the next generation of professionals. The company's continued participation in charitable auctions and other social responsibility initiatives reflects our belief that industry players must actively contribute to the betterment of the communities they serve. Asia Siyaka will continue to advocate for systemic reforms that balance short-term feasibility with long-term viability. We are deeply committed to preserving the integrity of the Colombo Tea Auction, which remains one of the most transparent and efficient systems globally.

Furthermore, Asia Siyaka Commodities PLC remains firmly committed to maintaining the highest standard of corporate governance, ensuring transparency, accountability and ethical conduct across its operations. The Company adheres to the provisions of the Companies Act No. 07 of 2007 and complies with the Corporate Governance Code issued by the Institute of Chartered Accountants of Sri Lanka (CA Sri Lanka). The company upholds continuing listing requirements of the Colombo Stock Exchange (CSE), reinforcing investor confidence through timely disclosures and robust regulatory compliance. The Board of Directors provides strategic leadership, oversees risk management, and ensures that appropriate systems are in place to safeguard shareholder interests and uphold stakeholder trust. The Board is supported by well-structured committees, including the Audit Committee, Remuneration Committee, Nominations and Governance Committee and Related Party Transactions Review Committee, which function in accordance with established charters and regulatory guidelines.

FUTURE OUTLOOK

Looking ahead, our strategic intent is clear as we enhance our contribution to shape national policy where possible. As a company we remain committed to ethical conduct, transparency and anti-corruption. And we will persist in our pursuit

of innovation, whether through renewable energy, warehousing and logistics solutions for the tea industry, agri input-related ventures or digital solutions. As a company born of entrepreneurial grit in 1998, we understand the value of resilience, integrity and foresight. These qualities will continue to underpin our path forward.

APPRECIATION

In closing, I extend my gratitude to fellow directors on the Board for their support. I would like to appreciate Mr. Anandh Vaithyalingam, who resigned from the Board during the year under review, for his valuable contribution to the company's progress during his tenure and wish him the best in his future endeavours.

I would like to record the appointment of Ms. Rachini Rajapaksa to the board early in the year under review. She is an experienced banker and CFA and has strengthened the deliberations of the Board and Audit Committee significantly.

The entire Asia Siyaka team has shown great dedication and commitment, and I would like to commend their efforts in a challenging year. Their loyalty has been a driving force behind our resilience and continued progress.

Although after the year end, I felt it worthy to mention that Mr. Anil Cooke, our managing director, was conferred honorary membership of the Tea Traders Association, an honour granted to very few. He was recognized for his successful and distinguished service to the tea industry in multiple roles and over many years.

I also wish to express my sincere appreciation to our valued shareholders, customers, suppliers, industry stakeholders and strategic partners. Your trust, support and collaboration remain central to our journey and future ambitions.

As we work to drive sustainable growth and deliver increased value across the board, we look ahead with optimism and determination to a future of continued success.

C. L. de Silva
Chairman
28 August 2025

MANAGING DIRECTOR'S REVIEW

Asia Siyaka is focusing on three pillars: diversification, digitisation and strategic insight. We are mapping global markets into geographic clusters to optimise sales efforts.

Dear Shareholders,

It is with immense pride that I present to you the Annual Report of Asia Siyaka Commodities PLC for the financial year 2024/25. This year marked a return to growth and embodied a phase of renewal and strategic recalibration. Amidst a fluid operating environment, we successfully embraced both opportunity and adversity. The foundation of our performance rests not only in hard metrics but in our enduring commitment to partnership, resilience and value creation.

SRI LANKA'S ECONOMIC LANDSCAPE: EMERGING FROM CRISIS

Sri Lanka's macroeconomic recovery during 2024 has been encouraging. After years of fiscal instability, a turnaround became evident with GDP growth touching 5%, exceeding initial forecasts. This revival was underpinned by industrial output, improved foreign remittances and a strong tourism rebound. Critically, the USD 2.9 billion IMF programme extended in 2023 played a stabilising role - anchoring debt restructuring, reviving investor sentiment and restoring credibility in Central Bank of Sri Lanka's monetary policy. Inflation moderated significantly, contributing to improved cost structures across industries.

However, the strengthening Sri Lankan rupee, while a marker of macroeconomic recovery, created pressures for export-linked sectors. A stronger currency compresses the rupee value of foreign income, affecting bottom lines for exporters and brokers alike. At Asia Siyaka, where commissions are pegged to auction prices, this appreciation presented a real drag on revenue. It underscored the importance of not only maintaining volumes, but also enhancing value per unit through differentiated services.

THE TEA INDUSTRY IN 2024: SLOW RECOVERY, STRATEGIC SHIFTS

Sri Lanka's tea industry showed signs of fragile recovery. National production rose 2.6% year-on-year to reach 262 million kilograms, a three-year high. The company benefited significantly from production gains in the Low Country nationally, thanks to high market share. With almost all Low Grown tea being stored in Colombo, Asia Siyaka Warehousing increased its quantity by 23% from 43 Mn Kg to 53 Mn kg. Despite national High Grown tea production declining in the calendar year, the company increased its quantity sold, owing to its increased market share.

Tea export volumes rose marginally to 245.7 million kilograms in 2024, but the standout story was value. Sri Lanka earned an all-time high Rs. 437 billion (USD 1.435 billion), reflecting an average FOB of USD 5.84 per kilogram. Yet, earnings in rupee terms for growers and brokers alike declined per kilograms due to the currency appreciation. This nuanced scenario highlights the critical role of product quality, positioning and market intelligence - areas where Asia Siyaka led from the front.

DELIVERING VALUE THROUGH STRATEGIC DIFFERENTIATION

Our core strategy focused on maximising value per kilogram for our clients. As a broker, our revenue is a fixed percentage of the selling price achieved. In an environment

where volumes were capped, we doubled down on realisation. By offering customised advisory services to factory and estate clients, we encouraged a deliberate focus on quality, consistency and market-fit. Our analytics-driven intelligence team helped estates navigate performance, regional demand dynamics and buyer expectations. We worked hand-in-hand with plantation partners to ensure their offerings matched premium market niches, resulting in superior auction prices.

The impact of this strategic collaboration was evident: Asia Siyaka's average price per kilogram sold outperformed the national average, the outcome of disciplined engagement and deep industry knowledge. By improving our clients' realisations, we directly improved brokerage income, creating a shared value model that underscores our brokerage philosophy.

RISK MANAGEMENT AND FINANCIAL DISCIPLINE

Macroeconomic and operational risks continued to affect the entire tea value chain. Foreign exchange fluctuations, production variability and inflationary pressures presented notable challenges. The appreciation of the rupee impacted auction price realisations, reducing commission income in rupee terms. We responded with stringent financial discipline. Our lending facility, which provides advance liquidity to clients against warehoused stock, was carefully monitored. Credit exposures were tightened, repayment terms enforced and risk-based pricing strategies applied. As a result, we saw a significant reduction in bad debts, improving our profitability and reducing legacy risks. Furthermore, we reviewed our internal cost structures and invested selectively in initiatives that promised clear strategic returns. We retained agility in decision-making while ensuring operational resilience, a balance that underpins our long-term success.

WAREHOUSING: LEADING WITH SCALE AND SUSTAINABILITY

Our warehousing operations remained a cornerstone of our service ecosystem. Asia Siyaka operates the largest logistics facility supporting the Colombo Tea Auction, handling over 22% of the total tea stored. This facility is about scale and leadership in sustainability. It is the only LEED-certified tea logistics facility in the world and has become an industry benchmark. Our integrated design promotes energy efficiency, optimised material handling and improved turnaround times for buyers and sellers alike. In 2024/25, we extended this service beyond commodities, maximising asset use and strengthening our revenue mix. Our warehousing arm is more than a support service, it is an independent, scalable business unit positioned for growth, both organically and through adjacent offerings.

A SUSTAINABLE FUTURE: RESPONSIBILITY AND INNOVATION

Sustainability remained a guiding principle. Our rooftop solar installation contributed to energy savings and emissions reduction. However, the commercial expansion of this initiative was delayed due to changes in tariff regulations and grid integration policies. We continue to engage with policymakers to create an enabling environment for solar investments in logistics infrastructure.

Demonstrating industry leadership, the senior leadership of Asia Siyaka Commodities PLC serves on multiple industry and policy committees, championing regulatory reforms, participating in charity auctions and supporting national brand-building efforts. These engagements go beyond optics. As brokers, we occupy a central position in the tea value chain and we use this position responsibly to nudge the entire ecosystem towards sustainable, ethical and commercially viable practices. The Company's collaboration with agricultural universities and research institutions in the country continues to inform our sustainability agenda and align it with scientific best practices. Over the past five years, Asia Siyaka has contributed to the Rotary One Million Trees Project by sponsoring the planting of 16,500 trees, reaffirming its long-term commitment to environmental stewardship and climate resilience.

TECHNOLOGY AND DIGITAL TRANSFORMATION

The company made significant strides in its digital transformation roadmap. Several operational processes were automated, improving speed, accuracy and auditability. AI-driven analytics were introduced to support price forecasting, buyer targeting and estate-specific strategy formulation. Looking ahead, we are preparing for potential transitions to full e-auctions by investing in systems that can interface seamlessly with digital marketplaces, integrate client data and deliver real-time insights. Our aim is to transform Asia Siyaka into the most tech-enabled broker in the country.

OUR PEOPLE

The year 2024/25 brought with it new challenges in talent retention, particularly in light of increased emigration of skilled professionals. We responded by reinforcing our investment in people. Cross-functional training, mentoring programmes and leadership development tracks were rolled out. In tandem, digital literacy, adaptability and emotional intelligence were emphasised. This holistic approach to talent management is helping us build a future-ready team, one that is capable of navigating complexity with confidence. At the same time,

we continue to advocate for national reforms that address the root causes of brain drain. Retaining industry talent is a national imperative.

LOOKING AHEAD

As we look to the future, our outlook is cautiously optimistic. If weather patterns stabilise and policy reforms continue, Sri Lanka could edge back towards the 300 million kilogrammes production mark. Achieving this would revitalise the tea ecosystem and position the country to reclaim lost global market share. However, risks remain. North Africa and the Middle East, Sri Lanka's largest tea export destinations, remain geopolitically fragile. US tariff policy, instability in key regions and increasing competition from African and Indian Orthodox tea producers are all factors that could impact demand and pricing.

Nevertheless, in order to be prepared, Asia Siyaka is focusing on three pillars: diversification, digitisation and strategic insight. We are mapping global markets into geographic clusters to optimise sales efforts. We are expanding our warehousing and fertiliser businesses to reduce dependence on brokerage commissions alone. And, we are deepening our data capabilities to remain several steps ahead of the market.

APPRECIATION

The milestones we have reached this year reflect the strength of a unified vision and the tireless efforts of our entire team.

I extend my heartfelt appreciation to the Board of Directors for their steadfast leadership and strategic oversight, which continue to steer our progress with clarity and purpose.

I also commend our exceptional team at Asia Siyaka, whose resilience, expertise and relentless pursuit of excellence remain the cornerstone of our performance.

To our valued clients, producers, buyers, regulatory authorities and government partners, I offer my sincere thanks for your trust and collaboration. Your confidence in our capabilities inspires us to aim higher, push boundaries and innovate with purpose.

As we navigate the road ahead, we remain committed to fostering a stronger, more adaptive tea industry, one that delivers sustainable value to all who are part of our journey.

STAKEHOLDER ENGAGEMENT

OUR STAKEHOLDER ENGAGEMENT PROCESS

Creating long-term value requires meaningful engagement with those who influence and are impacted by our operations. We recognize that proactive and transparent dialogue with key stakeholders is central to our value creation model. We apply a structured engagement framework to identify, assess, and prioritize stakeholder groups based on their significance to our business and their exposure to our activities. This ongoing process enables us to understand stakeholder expectations, address material concerns effectively, and strengthen relationships that support sustainable growth.

Stakeholder	Engagement channel	Frequency of engagement	Key concerns raised	Our response
Employees	- Open door policy - Annual performance appraisals - Multi-level staff meetings - Work-life balance initiatives	Regularly scheduled interactions and updates.	- Remuneration and Other benefits - Safe and conducive workplace - Training and development - Job and financial security - Work practices and logistics - Dignity of labour - Work-life balance	- Strategic management of HR processes - Supporting employees during the economic crisis with continued emphasis on job security.
Clients-Commodity Producers, Warehousing Clients and Buyers of Estate Suppliers	- Weekly and quarterly performance reviews - Research reports - Site visits - One-to-one engagement	Varied based on business cycle and client needs.	- Ensuring secure supply - Sustainable demand - Fair pricing - Ease of transacting - Warehousing services - System efficiencies	Efforts to support customers during the economic crisis through ongoing engagement, financial support and sharing market insights
Shareholders	- Financial Statements and quarterly financial results - Annual General Meeting - Annual Report - CSE announcements - Periodic press releases	Periodic updates and formal meetings.	- Implications of the country's economic crisis on performance and stability - Adequate financial returns commensurate with the risk undertaken - Environment & social impact - Share price and liquidity - Business continuity and growth prospects - Governance and risk management practices	- Strategic focus on earnings diversification - Ongoing engagement with shareholders - Improved productivity and cost efficiencies - Transparency in communications on the implications of economic vulnerabilities
Buyers	- Weekly engagement at tea auctions - Face to face meetings - Research reports and site visits	Regular communication to manage relationships.	- Security of supply - High quality produce - Transparent and fair pricing - Ease of transactions - Efficient logistics	Continuously support buyer requirements by facilitating access to high-quality produce.

Stakeholder	Engagement channel	Frequency of engagement	Key concerns raised	Our response
Government	- Quarterly performance reviews - Representation at industry associations - Participation in economic and industry forums - Contributions to policy making	As required by regulations and policy changes	- Compliance to all legal and statutory regulations - Employment opportunities - Community engagement initiatives	- Timely payment of all taxes and dues - Zero instances of non-compliance with regulations - Proactive role in creating a conducive industry environment
Community	- Internship and training opportunities - Seminars for tea smallholders - Site visits - Donations and other forms of support for schools in estate communities	Regular involvement in community initiatives and updates	- Internship programs - Opportunities for skill development - Employment opportunities - Community engagement initiatives	- Operating responsibly and sustainably - Specific CSR initiatives
Industry Bodies and Associations	- Regular meetings - Industry forums - Promotional campaigns	Active involvement in industry events and initiatives	- Creating a conducive industry environment through meaningful engagement for long-term sustainability - Contribution to policy making and planning	Collaboration with industry stakeholders to transition to a digital auction and bringing value addition to the industry.

DEFINING MATERIAL ISSUES

Material issues represent the most significant factors that influence our ability to deliver sustainable value across the short, medium and long terms. These matters are pivotal to our strategic direction and are closely aligned with stakeholder expectations. By identifying and addressing these issues, we strengthen our decision-making, enhance risk management and ensure the resilience of our business model.

OUR MATERIAL TOPICS

Material Topic	Relevant Strategic Priority	2024/25 Ranking	2023/24 Ranking	Change in Ranking (YoY)
Macro-economic Volatility				
Persistent economic instability in the country continues to pose risks to the Group's financial resilience and operational planning.	Diversification Operational Efficiency	01	01	-
Earnings Sustainability				
Maintaining consistent earnings growth is essential to uphold shareholder confidence and drive long-term value creation.	Diversification	02	02	-
Client Management				
Innovation and Diversification				
Strategic innovation and broadening our income streams are vital to mitigating sector-specific risks and enhancing adaptability.	Diversification	03	03	-
Client Debt Management				
Effective credit oversight is increasingly critical amid rising financial strain within our customer base.	Client Management	04	04	-
Policy Environment				
Evolving government policy frameworks influence our strategic decisions and directly shape business performance.	Engagement with policy makers	05	06	Increased
Commodity Prices				
Global tea price fluctuations continue to influence our revenue stability and profit margins.	Research	06	07	Increased
Operational Efficiency				
Enhancing process efficiency is essential to manage escalating costs while delivering consistent service excellence.	Operational Efficiency	07	09	Increased
Foreign Exchange Risk				
Exchange rate movements have a direct impact on profitability, given the export-reliant nature of our buyer base.	Diversification	08	08	-
Fertilizer Availability				
Supply constraints in fertilizer have adversely affected both crop yields and product quality across the tea sector.	Diversification	09	05	Decreased
Market Intelligence				
Strengthening research capabilities enables us to anticipate trends and create value across the tea supply chain.	New Software	10	10	-
Community Engagement				
Sustained, meaningful engagement with local communities reinforces our social license to operate and long-term sustainability.	Engagement with company and association initiatives	11	11	-
Employee Health and Safety				
Employee health and safety have become a strategic priority, especially in the wake of pandemic-driven operational risks.	Talent Management	12	12	-

STRATEGIC PRIORITIES AND RESOURCE ALLOCATION

Our strategic direction is shaped by a rigorous assessment of evolving risks and opportunities, stakeholder expectations, and our broader economic, environmental, and social footprint. We are committed to delivering sustainable, long-term value by aligning our operations with key strategic pillars that address the needs of all stakeholders.

This year's strategic review reaffirmed the continued relevance of our approach, reinforcing our confidence in its alignment with our long-term goals and corporate Vision. We remain agile and responsive—continually refining our strategy to adapt to dynamic external conditions and ensure resilience, growth, and sustainable value creation.

	Diversification	Client Management	Operational Efficiencies	Talent Management
Objective	We continue to broaden our revenue streams and customer base—particularly within our warehousing operations—by maximising space utilization and enhancing profitability through targeted diversification initiatives.	We maintain a balanced approach to managing client advances, prioritizing long-term sustainability and optimizing our risk-return profile through strengthened financial oversight and relationship management.	Ongoing investments in technology enable us to streamline processes and reduce operational costs, reinforcing efficiency as a cornerstone of our performance and competitiveness.	We are committed to strengthening our Employee Value Proposition through focused investment in capability development, employee engagement, and structured succession planning to build a resilient and future-ready workforce.
Key Initiatives/ Highlights for FY 2024/25	8% Revenue decline in the Commodity business - Expanding 3PL operations	Acquisition of ten new customers	- Introduction of a new lending policy to reduce bad debts. 84% capacity utilization at Warehouse	- Rs. 1.67 Mn. Profit per Employee 91% Employee Retention Rate
Resource Allocation	Rs. 19.25 Mn. CAPEX Investment in the warehouse	Rs. 1.19 billion. client advances	Rs. 18.2 Mn. CAPEX investment in IT	- Rs. 333 Mn. Payments to employees - Rs. 1.39 Mn. Training investment
Future Focus	Continuous investments in physical and digital infrastructure, to diversify our offering	Focus on innovation and collaboration, and deliver increased customer value	Promote sustainable practices across the tea value chain, investment in technology and employee training to drive efficiency	Adjust salaries and employee benefits to market rates

MANAGEMENT DISCUSSION AND ANALYSIS

Operating Context

Sri Lanka's economy demonstrated a stronger-than-expected recovery in 2024, achieving a GDP growth rate of approximately 5%. This resurgence was propelled by improved macroeconomic stability, bolstered foreign exchange reserves, and the continued implementation of structural reforms under the IMF-supported programme. The easing of inflationary pressures and a more stable exchange rate environment contributed to enhanced investor confidence and a revitalization of domestic demand.

Indicator	Economic Overview	Impact to Company
Inflation	In 2024, Sri Lanka experienced a significant decline in inflation, transitioning into a period of deflation starting in September. This was largely due to reductions in energy prices and the appreciation of the Sri Lankan rupee. By November, the year-on-year inflation rate had dropped to -1.7%.	The deflationary environment influenced consumer spending patterns and operational costs. While lower inflation reduced certain input costs, it also led to adjustments in pricing strategies and margins. Asia Siyaka Commodities PLC navigated these changes by optimising operational efficiencies and maintaining strong stakeholder relationships to sustain profitability.
Exchange Rates	Throughout 2024, the Sri Lankan rupee exhibited relative stability, supported by improved forex inflows and prudent monetary policy. This contributed to a more predictable trading environment.	The stable exchange rate environment supported our export-oriented operations, enabling accurate pricing strategies and reduced volatility. This helped our clients achieve more consistent returns, strengthening our role as a value-adding intermediary.
Interest Rates	In May 2025, the Central Bank reduced the policy rate by 25 basis points to 7.75%, aiming to stimulate credit expansion and investment.	Lower interest rates reduced borrowing costs for clients in the plantation sector. This encouraged investments in productivity and quality improvements, indirectly benefitting our brokerage operations through increased volumes and better auction results.
External Sector	Sri Lanka's external sector improved notably in 2024, with stronger foreign reserves and robust export earnings—especially from agriculture. Tea exports benefited from growing global demand and favourable prices.	The strengthening of agricultural exports directly supported our business. Higher global demand for tea led to increased auction activity and improved price realisations, positively impacting brokerage volumes and income.
Global Tea Market	The global tea market saw a resurgence in 2024, with growing demand in key markets and a shift towards premium and specialty teas. Supply constraints in other countries pushed prices up.	Favourable international market conditions created opportunities for clients to earn more. Our strategic advisory services helped clients align with global trends, enhancing competitiveness and boosting our revenue through increased auction performance.
Tea Exports of Sri Lanka	Sri Lanka's tea exports grew in both volume and value, aided by production recovery and demand from key markets like the Middle East and Asia.	The growth in tea exports increased throughput in our brokerage services. We expanded our client base and customised offerings to meet changing exporter needs, reinforcing our position as a leading industry player.
Tea Industry Performance	The local tea industry began recovering in 2024 due to improved weather and fertiliser availability. Nonetheless, issues like labour shortages and cost pressures remained.	Increased production levels meant higher volumes at auctions, benefiting our core operations. However, we actively supported clients facing structural challenges through advisory services and access to working capital facilities.

MANAGING OUR CAPITALS

FINANCIAL CAPITAL

Asia Siyaka Commodities PLC has demonstrated disciplined financial stewardship and resilience in navigating a volatile macroeconomic landscape during FY 2024/25. Despite challenges including fluctuating exchange rates, inflationary pressures and sector-specific constraints, the Group upheld core financial health through strategic diversification, cost controls, and capital allocation practices aligned with its long-term sustainability vision.

FINANCIAL CAPITAL

FINANCIAL PERFORMANCE OVERVIEW

Key metrics indicate a resilient year amidst tightening margins. Group revenue contracted by 8% year-on-year to Rs. 1,170.03 Mn, down from Rs. 1,275.47 Mn in 2023/24. Gross profit followed a similar trajectory, reducing to Rs. 1,169.61 Mn (2023/24: Rs. 1,273.86 Mn). Net profit after tax Rs. 210.98 Mn, was maintained at despite the operational cost escalations and a tougher economic environment.

Metric	2022/23	2023/24	2024/25
Revenue	1,292.10	1,275.47	1,170.03
Gross Profit	1,290.15	1,273.86	1,169.61
Profit After Tax	253.10	209.21	210.98
Total Assets	4,007.74	3,972.34	4,736.25
Shareholders' Funds	1,261.40	1,322.65	1,544.54
ROE	20.07%	15.82%	13.66%
ROA	6.32%	5.27%	4.46%

REVENUE, GROSS PROFIT & PAT

BREAKDOWN OF GROUP REVENUE

CAPITAL STRUCTURE AND INVESTMENT DECISIONS

Shareholders' equity improved marginally to Rs. 1,544.54 Mn, reflecting confidence in the Group's underlying value despite macro-level contractions. Asset base rose by 19.23% to Rs. 4,736.25 Mn due to increased receivables and inventory holdings amid a strategic focus on leaner operations.

The Group continued its targeted investments across warehousing and renewable energy, ensuring long-term cost efficiency and sustainability. Borrowing levels remain contained, with the debt-to-equity ratio within optimal ranges.

FORWARD-LOOKING STRATEGY

Asia Siyaka Commodities PLC is poised to reinforce financial capital by optimising cost-efficiency programmes, enhancing client portfolio quality, and expanding its non-tea business segments. The continued implementation of disciplined capital deployment frameworks will support strategic expansion in digital infrastructure, diversified logistics and green energy projects.

The chart to the left highlights the revenue, gross profit, and net profit after tax over the past four reporting periods. It underscores the Group's substantial growth from 2021 to 2023 and the pressures observed in 2024/25, primarily from external macroeconomic factors.

As the chart illustrates, while revenue and gross profit peaked in FY 2022/23, the subsequent decline in FY 2024/25 reflects strategic recalibrations and tightened margins amidst inflation and currency volatility.

PROFIT AFTER TAX

Profit After Tax (PAT) was marginally higher than the previous year due to lower bad debt provisioning and improved margins on Client Financing operation.

WAY AHEAD

Looking ahead, Asia Siyaka Commodities PLC will continue to focus on consolidating its financial stability while strategically expanding high-margin, less climate-sensitive segments such as warehousing and logistics. The Group aims to enhance digital infrastructure, optimise capital allocation, and expand its non-agricultural client portfolio to buffer against sectoral volatility. With planned investments in renewable energy and technology-driven efficiencies, the company is positioned to drive sustainable value creation, reinforce stakeholder confidence and build long-term resilience in a dynamic operating environment.

RETURN ON EQUITY (ROE)

Return on Equity (ROE) serves as a critical measure of shareholder value creation. Asia Siyaka's ROE decreased significantly from 20.07% in 2022/23 to 15.82% in 2023/24, reflecting a period of rapid profitability decrease and operational inefficiency. However, FY 2024/25 witnessed a notable drop to 13.66% due to narrowed profit margins and an uptick in administrative expenses. The Group is taking corrective measures through diversification and cost optimisation to improve ROE in the coming years.

RETURN ON ASSETS (ROA)

Return on Assets (ROA) reflects how efficiently the company is utilising its asset base to generate profit. Asia Siyaka's ROA progressed from 6.32% in 2023 to 5.27% in FY 2024/25, buoyed by improved gross margins and streamlined cost structures. In 2024/25, ROA declined to 4.46%, largely due to reduced earnings and a strategic contraction in total assets. Despite this, the Group's capital-light warehousing model and growing non-agricultural clientele offer pathways to restore asset productivity.

EARNINGS PER SHARE (EPS)

Earnings Per Share (EPS) is a key measure of profitability and shareholder value. EPS saw a steep rise to Rs. 0.80 in 2024, reflecting high auction prices and favorable exchange rates. However, by FY 2024/25, EPS had increased to Rs. 0.81, despite margin compressions and increased operating costs. The Group's reinvestment strategies and cost control efforts are expected to gradually restore earnings growth.

DEBT TO TOTAL ASSETS RATIO

The debt to total assets ratio indicates the proportion of a company's assets financed through debt. Asia Siyaka Commodities PLC has managed to keep this ratio below 0.31 in the past five years, with a gradual improvement to 0.26 in FY 2024/25. This disciplined approach to financial leverage enhances liquidity and reduces exposure to interest rate risks. The declining trend signals prudent capital management and a move toward a stronger equity-funded model.

FINANCIAL CAPITAL

ASSET COMPOSITION

The Group's total assets reached Rs. 4,736.25 billion as of 31 March 2025, reflecting an increase of 19.23% compared to the previous year. Current assets accounted for a significant portion of the asset base, representing 68.98% of the total. Moreover, trade receivables, a key component of current assets, decreased by 17.5% YoY to Rs. 155.22 Mn. representing 15.44% of the Group's total assets. Additionally, the Group maintained a robust liquidity position with cash and cash equivalents amounting to Rs. 580 Mn. at year end.

AUCTION PRICE TRENDS

Auction prices play a pivotal role in determining revenue for tea brokers. Asia Siyaka's average auction price reached a high of USD 5.15/kg in 2023, buoyed by market volatility and favorable currency conditions. Prices fell slightly in 2024/25 to USD 4.75/kg due to increased global supply and softer demand from key importing countries. The Group continues to navigate these fluctuations through proactive client advisory, price risk management, and value-added services across the supply chain.

Debt Composition

HUMAN CAPITAL

At Asia Siyaka Commodities PLC, our human capital, comprising 126 committed, skilled and multi-disciplinary employees, continues to be the cornerstone of our sustainable value creation journey. Their diverse capabilities, unwavering dedication and adaptability have enabled the company to build resilience and deliver excellence in a dynamic post-pandemic business landscape.

HUMAN CAPITAL

MANAGEMENT APPROACH AND STRATEGIC ALIGNMENT

Our human capital management strategy is embedded within our broader corporate purpose. We strive to create a thriving, inclusive and equitable workplace that upholds meritocracy and supports employee well-being. Guided by a robust set of human resource policies aligned with national labour laws and global best practices, we cultivate a performance-oriented culture while maintaining a compassionate and secure work environment.

We have aligned our people strategy with material sustainability issues such as employee retention, digital transformation, and well-being. Our HR systems are structured to ensure fair recruitment, continuous professional development, competitive compensation, and a psychologically safe environment - integral to delivering on our value creation promise.

TEAM COMPOSITION AND DIVERSITY

In the year under review, we employed a total of 126 personnel, with approximately 9% female representation. Though this figure reflects the demographic realities of the tea auction sector, we remain committed to improving gender equity through deliberate hiring practices and inclusive policies.

EMPLOYEE COMPOSITION BY GENDER (2024/25)

EMPLOYEES BY AGE GROUP (2024/25)

Our workforce is multi-skilled, reflecting the transition from traditional outcry auctions to a digitized auction system, a shift that has demanded advanced technical competencies and adaptability. This transformation has required a workforce fluent in modern digital tools while still rooted in the legacy expertise of the tea trade.

ATTRACTING, DEVELOPING AND RETAINING TALENT

As a preferred employer within the industry, Asia Siyaka Commodities PLC attracts the brightest talent. These individuals are selected through a structured recruitment process designed to assess technical skills, cultural fit and long-term potential. In addition, we recognized and rewarded performance and growth by promoting employees. A 91% employee retention rate during 2024/25 highlights the strength of our employee value proposition, underpinned by job security, career progression, and a supportive work culture.

TRAINING AND DEVELOPMENT

We invested a total of Rs. 1.39 million in training and development during FY 2024/25, delivering over 120 hours of structured training to build capacity and equip our people for tomorrow's challenges. Our programmers spanned both technical and soft skills:

- Team Building Initiatives: A dedicated workshop held in September 2024 for the Marketing Division reinforced interpersonal trust, collaboration, and shared purpose.
- Industry-Specific Knowledge: Employees participated in specialized training at the Tea Research Institute - Walpola, enhancing technical understanding of market trends and quality parameters.

TOTAL TRAINING INVESTMENT VS. YEAR

These investments ensure our employees are equipped to deliver exceptional service and innovation, in alignment with SDG 4 (Quality Education) and SDG 8 (Decent Work and Economic Growth).

EMPLOYEE WELFARE AND WELL-BEING

In a year of continuing economic volatility, we prioritized employee well-being by retaining all permanent staff and supporting them with meaningful interventions. Financial security and morale were safeguarded through:

- **Salary Adjustments:** Wages were adjusted to reflect inflationary pressures, ensuring real income stability.
- **Travel Support:** Additional compensation was provided to offset the increased cost of commuting.
- **Essential Aid:** Dry ration packs and vouchers were distributed to ease the burden of rising living costs.
- **Flexible Work:** Work-from-home arrangements were implemented where possible to support work-life balance.

These measures are reflective of our human-centric values and our alignment with SDG 3 (Good Health and Well-being).

PERFORMANCE AND VALUE CREATION

Our people directly contributed to strong value metrics this year, with revenue per employee reaching Rs. 9.29 million and profit per employee recorded at Rs. 1.67 million. In addition, Rs. 333.45 million was disbursed in employee benefits, reflecting our commitment to shared success and equitable compensation.

REVENUE AND PROFIT PER EMPLOYEE

EMPLOYEE BENEFIT

WAY FORWARD

Looking ahead, we will continue to strengthen our human capital strategy to align with our long-term growth trajectory and digital transformation roadmap. Our focus areas include:

- Revising salary structures and benefits to align with market trends and inflationary realities.
- Deepening gender inclusivity and equitable leadership pipelines.
- Expanding digital upskilling initiatives to support the evolution of the auction platform.
- Further investing in employee wellness, resilience, and engagement.

We view our employees not just as resources, but as long-term partners in shared value creation. Their growth is our growth—and as we continue to evolve, we remain committed to nurturing a workplace that is as resilient and dynamic as the market we serve.

INTELLECTUAL CAPITAL

Our intellectual capital consists of the unique blend of skills, insight and experience within our organization and powers our innovation, agility and foresight to remain ahead of market trends. Strengthened by a leadership team with deep industry roots, we’ve cultivated a mindset of excellence that consistently builds stakeholder trust and delivers a formidable competitive advantage.

LEADERSHIP: KNOWLEDGE & DOMAIN EXPERTISE

Our Board and senior management team bring unmatched expertise to Sri Lanka's tea sector, helping it thrive even in the face of economic and regulatory challenges such as rising labour costs and the chemical fertilizer ban. By partnering closely with stakeholders and global buyers, the company has safeguarded the competitiveness and international standing of our teas. The senior management's active role in industry associations, further underscore our ongoing commitment to share best practices and fortify the sustainability of the tea ecosystem. This strategic leadership helped us notably increase our market share in low-grown teas in the past year.

ORGANIZATIONAL TACIT KNOWLEDGE

Embedded within our teams is a reservoir of experiential know-how that permeates all aspects of our operations. We maintain a vibrant culture of continuous learning and knowledge exchange, investing in programmes that enrich our collective intelligence. A recent example: interactive workshops aimed at helping suppliers navigate VAT regulations, which demonstrate our commitment to capacity-building and shared success.

SYSTEMS & PROCESS EXCELLENCE

We relentlessly pursue process optimization through cutting-edge systems and smart automation. By implementing robust IT solutions to manage VAT compliance in real time, we've enhanced operational efficiency and galvanized a culture of innovation supported by transparent, data-informed decision-making.

INNOVATION IN THE TEA VALUE CHAIN

As thought leaders in tea-industry innovation, we regularly disseminate market trends and best practices to elevate competitiveness across the supply chain. Asia Siyaka Commodities PLC has been responsible for cutting edge research reports to offer insights for tea producers to meet global quality standards and tailor production to consumer demand.

ENVIRONMENTAL SUSTAINABILITY PARTNERSHIPS

Our commitment transcends commercial success; we champion environmental stewardship throughout the tea value chain. Collaborating with factories and key partners, we've spearheaded efforts to reduce emissions and eliminate chemical fertilizers. These collaborative initiatives reflect our aspiration to reshape the industry into an eco-friendly, resilient sector.

LOOKING AHEAD

Asia Siyaka Commodities PLC will continue to invest in expanding our intellectual capital - deepening expertise, broadening knowledge and fuelling innovation. By reinforcing the foundations of our value-creation engine, we aim to sustain growth and positive impact in the years ahead.

MANUFACTURED CAPITAL

At Asia Siyaka Commodities PLC, manufactured capital plays a pivotal role in our integrated business model, enabling us to deliver critical value through our core functions: tea broking, logistics and warehousing. Our manufactured assets include purpose-built warehousing facilities, technology-driven operational infrastructure and capital equipment that support the efficient movement, storage and marketing of commodities in a competitive and evolving marketplace.

Asia Siyaka Warehousing (Pvt) Ltd combines massive storage capacity, advanced digital systems, green building practices and an expert team to deliver a world-class logistics solution for Sri Lanka's tea industry. From receipt to export, it ensures quality, efficiency, sustainability and auction-readiness - powering a sharpened, shorter tea-to-cash cycle and setting a high bar for the region. Our investments in physical infrastructure are evaluated not only for their economic returns but also their environmental efficiency, resilience and potential to deliver long-term shared value. These assets support key sustainability outcomes while advancing our growth strategy.

PROPERTY, PLANT & EQUIPMENT BREAKDOWN – FY 2024/25

CAPEX
Rs. Mn

In 2024/25, capital expenditure amounted to Rs. 19.2 million for structural upgrades and new storage equipment, while PPE (Property, Plant, and Equipment) represented Rs. 1.19 billion - 25.15% of total group assets. These figures underscore our commitment to future-proofing operations through modernised, high-efficiency asset bases.

STRATEGIC INVESTMENTS AND PHYSICAL INFRASTRUCTURE

Asia Siyaka Commodities PLC operates one of the largest warehousing facilities in Sri Lanka's tea industry, spanning 197,500 square feet across two advanced LEED-certified units. These facilities represent an Rs. 800 million investment and are equipped with automated racking systems, real-time inventory tracking, environmentally responsible design, and integrated logistics platforms. Together, they form the backbone of our storage and value-added services.

WAREHOUSE FACILITY AS A STRATEGIC ASSET

Asia Siyaka's warehousing (Pvt) Ltd operations have matured into a major revenue contributor and strategic value driver. In 2024/25, warehousing generated Rs. 330.76 million - 28% of consolidated revenue - reinforcing its status as a critical income stream independent of broking commissions. Beyond revenue, the warehouse enables value-added services such as integrated packing, pre-auction storage, third-party logistics and export readiness. These services are critical to our long-term competitiveness and customer retention strategy. Utilisation averaged 84% during the year under review - highlighting operational efficiency and asset productivity.

SUSTAINABLE INFRASTRUCTURE: LEED CERTIFICATION AND GREEN OPERATIONS

Asia Siyaka's warehouse is the first LEED-certified tea logistics facility in Sri Lanka. The design includes energy-efficient LED lighting, natural ventilation systems, rainwater harvesting and waste segregation units. These contribute to reducing our carbon footprint while aligning with SDG 9 (Infrastructure), SDG 12 (Responsible Consumption), and SDG 13 (Climate Action).

DIGITAL INFRASTRUCTURE SUPPORTING MANUFACTURED CAPITAL

We have complemented physical infrastructure with cutting-edge digital systems. These include real-time inventory dashboards, cybersecurity systems, auction platform integrations and automated billing. This hybridisation ensures transparency, customer satisfaction, and risk resilience in service delivery.

MANUFACTURED CAPITAL AND VALUE CREATION

The strength of our manufactured capital directly influences our financial and relational capital. In 2024/25, our PPE-to-Turnover ratio stood at 0.98, reflecting high efficiency. The operational leverage created through these assets is instrumental in delivering superior returns and market credibility. By integrating brokering and warehousing, Asia Siyaka shortens the tea value chain, offering faster turnaround, reduced loss and greater auction performance.

WAY AHEAD

Asia Siyaka Warehousing is poised for significant expansion as a regional logistics leader, enhancing its ability to integrate advanced digital systems and green infrastructure into future warehouse projects. With steady warehousing revenue growth (from Rs. 244.16 million in 2020 to Rs. 330.76 million in 2024 and deepening of tech-enabled, sustainable facilities, Asia Siyaka is forecast to build its manufactured capital into a resilient platform that supports both commodity volume growth and long-term operational excellence.

NATURAL CAPITAL

At Asia Siyaka Commodities PLC, our commitment to natural capital reflects our understanding that long-term value creation in the tea industry is deeply interlinked with responsible environmental stewardship. Although our direct operations as a service-based commodity broker have a relatively modest footprint compared to primary producers or manufacturers, we view the preservation and regeneration of natural capital as a strategic imperative. We operate in a country highly susceptible to the effects of climate change, which heightens our responsibility to act with foresight and integrity in all environmental matters.

OUR NATURAL CAPITAL MODEL

We apply the Integrated Reporting Framework to track the inputs, value transformation mechanisms, and outcomes associated with our natural capital. This enables us to integrate environmental accountability into decision-making while aligning with relevant GRI disclosures (GRI 302 – Energy, GRI 303 – Water, GRI 305 – Emissions, and GRI 306 – Waste).

Inputs:

- Grid electricity and renewable energy from solar installations.
- Water sourced primarily for utility and operational purposes.
- Paper and materials associated with office functions and auction documentation.

Transformation:

Through our operational infrastructure and processes, including energy-efficient warehousing and automation systems, we transform inputs into service value while reducing environmental externalities. Smart building design and solar generation have allowed us to shift to cleaner energy systems and limit dependency on grid-based fossil fuel electricity.

Outputs:

- 292,068 kWh total energy consumed.
- 257,849 kWh renewable energy generated from solar panels.
- 5,250 m³ of water consumed.
- Waste generation and paper savings achieved through digital transformation.
- Reduced operational carbon footprint and carbon emissions avoided.

ENVIRONMENTAL MANAGEMENT APPROACH

We aim to achieve a 20% reduction in our operational carbon footprint by 2026. To realise this, we focus on three pillars: efficient resource utilisation, renewable energy integration, and ecosystem-wide stakeholder collaboration. In 2024/25, we deepened engagement with industry stakeholders to champion sustainable tea cultivation, while continuing to advise our clients on environmentally aligned practices. We also minimised our internal environmental impact by investing in energy-efficient systems, redesigning lighting and air circulation, and maximising natural light in our office and warehousing environments.

ENERGY EFFICIENCY AND EMISSIONS MANAGEMENT

While electricity from the National Grid remains our primary energy source, we have made strategic investments to offset this dependency. Our flagship warehouse, the only green-certified tea logistics centre in Sri Lanka, is equipped with rooftop solar panels that generated 257,849 kWh of renewable energy in 2024/25. This energy was exported to the grid, supporting national renewable energy targets and contributing to our journey toward carbon neutrality.

DIGITAL AUTOMATION AND RESOURCE CONSERVATION

Automation across internal systems - ranging from auction process digitisation to paperless documentation - has contributed to measurable reductions in paper waste and energy consumption. By deploying document management systems and workflow automation, we continue to embed a low-impact culture across our operations.

WAY AHEAD

In the years ahead, Asia Siyaka aims to further strengthen its contribution to SDG 12 (Responsible Consumption and Production) and SDG 13 (Climate Action). We are exploring expanded solar capacity, increased water uses efficiency measures, and deeper value chain collaborations to promote responsible sourcing and supply chain resilience.

SOCIAL AND RELATIONSHIP CAPITAL

At Asia Siyaka Commodities PLC, our social and relationship capital forms a cornerstone of long-term value creation and resilience. We believe that strong, trust-based relationships with our customers, suppliers, industry stakeholders, and the broader community are critical to maintaining a sustainable and inclusive business model. Our commitment to transparent engagement, mutual growth, and social responsibility underpins all our business interactions.

INPUTS

Our relationships span 343 customers and 179 suppliers, encompassing regional plantation companies, private tea factories, smallholders, and corporate buyers. The year also saw the acquisition of 10 new customers, reflecting our strong value proposition and client retention strategies.

VALUE TRANSFORMATION

Through collaborative engagement, financial support, operational advisory, and warehousing services, we enhance the competitiveness of our partners. Our inclusive customer strategy ensures we cater to diverse stakeholder needs, creating synergies across the agricultural and commercial value chains.

OUTPUTS

Our sustained engagement has secured market leadership, supported industry growth, and strengthened community resilience. We paid Rs. 51.5 billion to local suppliers, disbursed Rs. 20.5 billion in client advances to tea manufacturers, and actively contributed to educational and cultural development.

CUSTOMER-CENTRIC APPROACH

Asia Siyaka Commodities PLC takes a tailored approach to customer engagement, offering warehousing, credit, advisory, and auction representation. We prioritise long-term relationship management over transactional interactions, helping clients navigate market volatility and evolving demand trends.

DIVERSIFYING OUR CUSTOMER BASE

In response to sectoral disruptions such as the fertiliser shortage, we broadened our client portfolio to include exporters and FMCG companies. This has improved warehouse utilisation and hedged our revenue streams against risks inherent in the tea sector.

SUPPORTING TEA MANUFACTURERS

With over 27 years of industry experience, we are a knowledge and finance partner to Sri Lanka's tea producers. The Rs. 20.45 billion in client advances during the year facilitated smoother production cycles, while our advisory role strengthened product competitiveness in global markets.

INVESTING IN LOCAL SUPPLIERS

We source stationery, packaging, and IT equipment locally, injecting over Rs. 50.75 billion into the local economy. Our supplier policies favour long-term, ethical relationships with local vendors, enhancing value retention within Sri Lanka's economy.

COMMUNITY ENGAGEMENT

Our community investment framework is based on shared value principles. Key activities included donations to educational institutions, participation in religious events, and support for cultural heritage initiatives. These efforts reaffirm our role as a socially grounded business committed to national development.

KEY STAKEHOLDER METRICS

Stakeholder Group	FY 2024/25 Highlights
Customers	343 total 10 newly acquired Expanded beyond tea sector
Suppliers	179 total Rs. 51.5 Bn. disbursed
Tea Manufacturers	Rs. 20.5 Bn. in client advances
Community	Educational donations, cultural sponsorships
Exporters	New diversification segment through warehousing

CSR PROJECT HIGHLIGHTS

Donated Computer, Printer, Books, Water bottles to the students of R/Ganapathi Vidyalaya, Heramitigala, Rassagala, Balangoda, Rathnapura on 05/02/2025.

PARTNERSHIPS AND ADVOCACY

Obtained membership in the International Tea Committee

WAY FORWARD

We are committed to deepening our stakeholder relationships through improved communication, inclusive engagement, and joint value creation initiatives. Our future focus will include enhanced customer feedback systems, impact measurement of CSR initiatives, and a stronger role in public-private policy advocacy.

CORPORATE GOVERNANCE

Good governance is integral for sustainable economic growth and corporate success. The Board is responsible for establishing sound corporate governance practices, frameworks, and processes, which signify the way companies are directed and controlled. This ensures that the interests of the Company’s many stakeholders are balanced, to deliver mutually beneficial returns for all.

OUR APPROACH TO GOVERNANCE

The Board of Directors of Asia Siyaka Commodities PLC is committed to maintaining high standards of integrity, accountability, transparency, and business ethics in the governance of the Group. Recognising the crucial importance of maintaining good governance in all aspects of business operations, the Board applies these principles to Asia Siyaka Commodities PLC and its fully owned subsidiaries, Asia Siyaka Warehousing (Private) Limited and Siyaka Produce Brokers (Private) Limited, and AgriOne Solution (Private) Limited, in which the Company holds a 55.87% stake as of 24th December 2024, collectively referred to as “the Group”.

The Board is fully committed to discharge its statutory and fiduciary duties as defined in the Companies Act No. 07 of 2007 and all other applicable laws and regulations, while also adopting international good governance practices in the operational and internal control aspects of the Company.

Clearly defined processes and policies ensure compliance with laws and regulations, while there is an established line of authority for decision making and accountability, with well-defined reporting channels. The Company is bound by the license issued by the Sri Lanka Tea Board and guidelines and regulations that govern the tea broking industry, Companies Act. No. 07 of 2007 and the Listing Rules of the Colombo Stock Exchange.

GOVERNANCE HIGHLIGHTS

Governance Structure

CORPORATE GOVERNANCE

GOVERNANCE IN 2024/25

The Board continued its effective oversight and leadership during the year, maintaining enhanced scrutiny amidst economic and political uncertainty, while continuing to improve and build on the Company's Corporate Governance practices. The Board was well supported by the Board sub-committees in facing challenges, managing risks, and exploiting opportunities.

The Company remained committed to all good corporate governance practices, complying with applicable regulations, adopting best practices and ensuring that its obligations to all its stakeholders are understood and met, while upholding the highest standards of business integrity, ethical values, professionalism and transparency.

BOARD COMPOSITION

The composition of the Board plays an important role in achieving the strategic objectives of the group. The Group is led by a well-balanced Board of Directors with relevant expertise and knowledge to provide guidance and leadership to formulate the strategic direction of the Group. In line with best corporate practice, the Board of Directors has been vested with the powers to direct, lead and control the Company in an effective manner that reflects the best interests of the Company.

As of the end of the financial year 2024/25, the Board comprised of 9 members, of whom 4 are Non-executive Directors and 5 serve as Executive Directors. Mr. A Vaithyalingam, an Independent, Non-Executive Director of the Company, resigned from the Board of Directors effective 15th February 2025.

ROLE OF THE CHAIRMAN AND MANAGING DIRECTOR

In conformity with best practice, we have segregated the roles of the Chairman and the Managing Director with a clear distinction of responsibilities. This ensures a balance of power, preventing any single individual from having unfettered control over decision-making and implementation.

INDEPENDENCE OF DIRECTORS

The independence of the Directors is determined by the Board based on the annual declarations submitted by the Non-Executive Directors in accordance with the Listing Rules of the Colombo Stock Exchange. Based on the declarations submitted, the Board has determined that Mr. C L de Silva, Mr. A Vaithyalingam and Ms. R Rajapaksa are 'Independent' as per the criteria set out in the Listing Rules of the Colombo Stock Exchange.

The Board was also of the view that the directorship of Mr. M R Morris in Lanka Commodity Brokers Limited does not compromise his independence and objectivity in discharging his functions as a Director and has determined that the said Director shall nevertheless be "independent" as per the Listing Rules.

BOARD INDUCTION AND TRAINING

The Board recognises the importance of continuous training and development in corporate governance and their respective areas of expertise to strengthen the collective capabilities of the Board. The Company's management supports this by providing timely information and facilitating visits to project sites and other operational locations as needed or requested.

Directors also engage with service providers and key stakeholders whenever deemed appropriate or necessary. All Directors are encouraged to participate in relevant programmes to enhance their skills and stay informed on developments that may impact the business interests of the Company and the Group.

DIRECTORS' INTERESTS, RELATED PARTY TRANSACTIONS AND CONFLICTS OF INTEREST

Board members dedicate sufficient time to fulfill their responsibilities diligently, contributing independent perspectives and professional judgment on matters presented to the Board. Each Director's external

directorships and significant shareholdings are disclosed and reviewed annually through formal declarations, with timely updates for any new appointments. Directors are required to declare any personal interests related to Board matters and recuse themselves from discussions and decisions where a potential or perceived conflict of interest may exist. The Board is satisfied that these external commitments do not impair the objectivity or effectiveness of its members. As experienced professionals, all Directors are fully aware of their obligation to act in the best interests of the Company in accordance with the Companies Act.

CORPORATE GOVERNANCE POLICIES

In accordance with Section 9 of the Listing Rules on Corporate Governance of the Colombo Stock Exchange, the following policies have been established and published on the Company's website: <https://asiyasiyaka.lk/siyaka-story/>.

- (a) Policy on the matters relating to the Board of Directors
- (b) Policy on Board Committees
- (c) Policy on Corporate Governance, Nominations and Re-election
- (d) Policy on Remuneration
- (e) Policy on Internal Code of Business conduct and Ethics for all Directors and employees, including policies on trading in the Entity's listed securities
- (f) Policy on Risk management and Internal controls
- (g) Policy on Relations with Shareholders and Investors
- (h) Policy on Environmental, Social and Governance Sustainability
- (i) Policy on Control and Management of Company Assets and Shareholder Investments
- (j) Policy on Corporate Disclosures
- (k) Policy on Whistleblowing
- (l) Policy on Anti-Bribery and Corruption

RELATIONS WITH SHAREHOLDERS

In compliance with the Continuing Listing Rules of the CSE, the Company ensures shareholders are kept up to date through quarterly performance disclosures—including Interim Financial Statements and press releases where applicable. Additionally, timely notifications are provided to the CSE on matters such as Director appointments or resignations, and any material, price-sensitive developments, in accordance with rules on corporate disclosure and related party transactions.

The Company has adopted a Policy on Relations with Shareholders and Investors in compliance with the provisions of Rule 9.2.1 of the Listing Rules, which sets out the process for directing their inquiries and suggestions or questions to the Board of Directors through the Company Secretaries. Accordingly, Shareholders also have the opportunity to make inquiries and suggestions to the Board through the Company Secretaries - P W Corporate Secretarial (Pvt) Ltd, No. 3/17, Kynsey Road, Colombo 8 (011 - 4640360, pwcs@pwcs.lk).

They also can directly communicate with the Board at the Annual General Meeting. All significant issues and concerns of Shareholders are referred to the Board with the views of the Management, for consideration and decision by the Board.

INTERNAL CONTROL

The Board is responsible for ensuring that the Company has adequate and effective internal controls in place.

INTERNET OF THINGS AND CYBERSECURITY

The Board has identified the need for management of IT and Cyber risk, and has initiated action towards this endeavor.

STATEMENT OF COMPLIANCE

Asia Siyaka Commodities PLC has, during the year under review and as at the date of this Report, complied with the Corporate Governance Rules as contained in the Listing Rules of the Colombo Stock Exchange.

BOARD MEETINGS

Board meetings are scheduled once every quarter and whenever necessary, to ensure regular reporting and oversight. The Board met 04 times during the financial year. Attendance at the scheduled meetings is as follows.

	Name of Director	Executive/Non-Executive/ Independent Non-Executive	Attendance at Board Meetings
1.	Mr. C L de Silva	Chairman / Independent Director (appointed 23.06.2023)	4/4
2.	Mr. A R Cooke	Managing Director (appointed 16.02.1998)	4/4
3.	Mr. D J Wedande	Executive Director (appointed 18.05.1998)	4/4
4.	Mr. S G Amarasuriya	Executive Director (appointed 22.05.2013)	4/4
5.	Mr. Y Kuruneru	Executive Director (appointed 22.05.2013)	4/4
6.	Ms. R Rajapaksa	Independent, Non-Executive Director (appointed 06.08.2024)	3/3
7.	Mr. J N Dambawinne	Non-Executive Director (appointed 09.01.2017)	4/4

9.	Mr. A Vaithyalingam	Independent, Non-Executive Director (resigned 15.02.2025)	4/4
10.	Mr. M R Morris	Independent, Non-Executive Director (appointed 01.03.2021)	4/4
11.	Mr. S T Gunatilleke	Non-Executive Director (resigned 31.07.2024)	1/1

BOARD SUB COMMITTEES

The Board has appointed sub-committees for assistance in discharging its duties more effectively and efficiently, in line with the mandatory requirements of the Listing Rules of the Colombo Stock Exchange and the voluntary requirements of the Code of Best Practices on Corporate Governance issued by the Institute of Chartered of Accountants of Sri Lanka.

Each committee so appointed reports to the Board and is accountable for its responsibilities. The committees include the Audit Committee, Remuneration Committee, Nominations and Governance Committee and Related Party Transactions Review Committee. The composition of each committee is as follows:

Audit Committee	(Refer Page 83 for Audit Committee Report)
The Committee has met 05 times during the year. The meetings are attended by the Managing Director. Senior Vice President – Finance by invitation & other Directors and Executives when required.	
Ms. R Rajapaksa (appointed 06.08.2024)	Chairperson / Independent Non-Executive Director
Mr. C L de Silva	Member / Independent Non-Executive Director
Mr. A Vaithyalingam (resigned 15. 02.2025)	Member / Independent Non-Executive Director
Mr. M R Morris	Member / Independent Non-Executive Director
Mr. S T Gunatilleke (resigned 31.07.2024)	Chairman / Independent Non-Executive Director

CORPORATE GOVERNANCE

Remuneration Committee

(Refer Page 87 for Remuneration Committee Report)

The Committee has met 04 times during the year and regularly reviews the remuneration policy to ensure that the remuneration structures are in line with industrial standards.

The main responsibility of the Remuneration Committee is to recommend to the Board a framework for the remuneration of Executive Directors, including its cost. The committee also determines, on behalf of the Board, the specific remuneration packages for each Executive Director. The aggregate remuneration paid to executive and non-executive directors is given on page 134.

Mr. M R Morris (appointed 30.09.2024)	Chairman / Independent Non-Executive Director
Mr. C L de Silva	Member / Independent Non-Executive Director
Ms. R Rajapaksa (appointed 15.02.2025)	Member / Independent Non-Executive Director
Mr. A Vaithyalingam (resigned 15.02.2025)	Member / Independent Non-Executive Director

Related Party Transactions Review Committee

(Refer Page 81 for Related Party Transactions Review Committee Report)

The Related Party Transactions Review Committee was appointed by the Board on 06 November 2015. The names of the Directors who serve on the said Committees are as follows:

Ms. R Rajapaksa (appointed 15.02.2025)	Chairperson / Independent Non-Executive Director
Mr. A Vaithyalingam (resigned 15.02.2025)	Member / Independent Non-Executive Director
Mr. C L de Silva	Member / Independent Non-Executive Director
Mr. M R Morris	Member / Independent Non-Executive Director
Mr. S T Gunatilleke (resigned 31.07.2024)	Member / Independent Non-Executive Director

Nominations and Governance Committee

(Refer Page 85 for Nominations and Governance Committee Report)

The Nominations and Governance Committee was appointed by the Board on 06 November 2015. The names of the Directors who serve on the said Committees are as follows:

Mr. M R Morris (appointed 30.09.2024)	Chairman / Independent Non-Executive Director
Mr. C L de Silva	Member / Independent Non-Executive Director
Ms. R Rajapaksa (appointed 15.02.2025)	Member / Independent Non-Executive Director
Mr. S T Gunatilleke (resigned 31.07.2024)	Member / Independent Non-Executive Director
Mr. A Vaithyalingam (resigned 15.02.2025)	Member / Independent Non-Executive Director

I.1 – I.2	The Company maintains policies relating to its governance and matters relating to Board of Directors in line with the Listing Rules of the CSE and the Code.	Adopted	Corporate Governance

STRENGTHENING RISK, GOVERNANCE AND DISCLOSURE THROUGH S1 AND S2

IFRS S1 AND IFRS S2: COMMITMENT TO ADVANCING REPORTING STANDARDS

Asia Siyaka has taken the first formal steps towards aligning its reporting practices with the International Sustainability Standards Board's S1 and S2 disclosure requirements. These standards will form part of the global baseline for sustainability-related financial disclosures, and while their adoption is still in the early stages for Sri Lankan companies, we view this as a strategic opportunity to elevate the depth, clarity and comparability of our reporting.

Our approach to adoption will be deliberate and phased. This ensures that the process is embedded into our existing governance and risk management structures without disrupting operational efficiency. The intention is to integrate S1 and S2 requirements in a manner that preserves the accuracy, relevance and timeliness of the data we disclose. In the year ahead, the company will focus on aligning internal processes, enhancing data-gathering capabilities and developing reporting frameworks that can fully accommodate the requirements over time.

STRONG FOUNDATIONS IN GOVERNANCE AND RISK MANAGEMENT

The company has a well-established governance and risk management framework that provides a solid foundation for the adoption of these new standards. Oversight rests with the Board of Directors and its dedicated committees, ensuring that decision-making processes are guided by accountability, integrity and transparency. The Board's governance role extends to setting strategic direction, monitoring performance, and ensuring compliance with both regulatory requirements and industry best practices. The company's enterprise risk management framework is robust and adaptive, encompassing financial, operational, environmental, market and reputational risks. Risks are identified through a combination of horizon scanning, stakeholder engagement and operational intelligence gathered from our tea broking, warehousing and allied businesses. Each

identified risk is assessed for likelihood and potential impact, with mitigation strategies developed and implemented accordingly. Scenario analysis is regularly undertaken to evaluate the resilience of our operations under different market and climatic conditions, an approach that will be increasingly relevant under the S1 and S2 reporting framework.

INTEGRATING SUSTAINABILITY INTO RISK OVERSIGHT

The S1 and S2 standards place greater emphasis on linking sustainability-related risks and opportunities directly to financial performance and strategic planning. Asia Siyaka's operational context already requires us to integrate such considerations into our risk oversight. For example, climate variability, regulatory shifts in agricultural inputs and global trade dynamics are monitored not only for their immediate operational impact but also for their long-term implications for supply, pricing and client relationships.

We recognise that climate-related factors have a direct bearing on our industry, particularly in relation to production volumes, product quality and market competitiveness. Our governance framework is already attuned to assessing and managing these variables, supported by continuous dialogue with producers, buyers, government agencies and industry associations. Embedding the S2 requirements into our reporting will formalise these practices into a structured disclosure framework, further enhancing the transparency and comparability of our approach.

POSITIONING FOR LONG-TERM VALUE CREATION

Beyond compliance, the integration of S1 and S2 into our governance and reporting framework will strengthen the strategic alignment between our risk management, operational decision-making and value creation model. By presenting a clear and credible picture of how sustainability-related risks and opportunities are identified, managed and leveraged, we aim to deepen stakeholder confidence and reinforce our position as a leader in the Sri Lankan tea broking and allied services sector.

Furthermore, the adoption of these standards will support more informed engagement with institutional investors, international clients and business partners, many of whom are themselves bound by rigorous sustainability reporting obligations. Providing high-quality, comparable disclosures will facilitate stronger partnerships, improve access to capital and enhance our competitive standing in global markets.

THE ROAD AHEAD

The coming financial year will mark a period of preparation and capacity-building. We will begin with a comprehensive gap analysis to map our current disclosures against S1 and S2 requirements, identify priority areas for enhancement and set measurable targets for readiness. This process will be complemented by targeted training for key personnel to ensure the organisation's readiness at both operational and strategic levels. We will also invest in upgrading our data collection and reporting systems to capture the expanded scope of sustainability-related metrics required under the standards.

Our governance processes will be refined to ensure that sustainability considerations are integrated into all major strategic decisions, with Board oversight at each stage. In a sector where long-term competitiveness depends on the interplay of environmental, social, and economic factors, having a structured and transparent disclosure regime will be an advantage for the company.

RISK MANAGEMENT

Risk management is an ongoing process facilitating constant review of external and internal developments and their impact on operations in the short, medium and long term. In the current volatile business environment, it is imperative that the Group anticipates future challenges and addresses its risks strategically, through a robust risk management framework.

OUR APPROACH TO RISK MANAGEMENT

The Group adopts a structured and proactive approach to risk management that facilitates the identification of risks as well as opportunities for growth, service excellence and differentiation at a broader ecological, political and socio-economic frame, with inbuilt and flexible response mechanisms. As a business that is exposed to both domestic and global influences, the Group also closely monitors emerging global trends that could potentially disrupt the company's strategic plans through changes in the commodity market.

The Board is cognizant of the importance of effective risk management to safeguard shareholder assets and to facilitate long-term wealth creation for all stakeholders. The overall risk management process is continuously evaluated to reflect the rapidly changing nature of the operating landscape and to ensure attainment of strategic objectives.

The company has developed an effective Risk Management Framework (RMF) based on the Three Lines of Defense model. The Three Lines of Defense model, which is an international standard, enables the company to harness different perspectives in defining risks and their impacts, while allowing to draw upon a wide range of skills for managing risks. The RMF is a continuous safeguard which is always active and operational in the day-to-day operations of the company as it permeates the width and breadth of the organization.

RISK GOVERNANCE

A strong risk governance system allows oversight of and accountability for risk at all levels and across all risk types. The Group's risk governance framework facilitates segregation of responsibilities, objective oversight by the Board and high levels of risk awareness by business owners, ensuring that the Group effectively identifies, measures and monitors risks across the organization.

As the highest decision-making body of the company, the Board of Directors is the final authority for determining the nature and extent of the significant risks the Company is willing to take and ensuring that these risks are managed effectively. The Board is assisted in the discharge of duties by the Audit Committee, which reviews the effectiveness of the Company's risk management and internal control systems on an annual basis.

Regular risk reporting to the Board ensures that risks are monitored on an ongoing basis. For clarity and transparency within the risk management process, the company has adopted a formal board approved, documented risk management process, which stipulates the procedures for identification, analysis, evaluation, treatment, management and communication of the material risks.

Our Risk Management Structure

RISK APPETITE

The Group has a formal risk appetite statement that defines the level of risk the Board is willing to accept, in achieving its strategic objectives. It provides oversight and consistency in the level of risk taken by the Group as a whole and ensures that risk return dynamics are appropriately managed at all times. Risk appetites are regularly reviewed and refined in line with strategic cost-benefit objectives and the ability to absorb risk.

THE RISK MANAGEMENT PROCESS

The risk management process encompasses continuously monitoring the systematic and unsystematic risk landscape, identifying and prioritising risks based on a weighted scoring system, developing risk responses and executing the risk management strategy. The overall risk management framework is strengthened through the utilization of the 3-Lines of Defence model, as the risk response and monitoring of risk receives close attention from specific risk owner groups.

1. RISK IDENTIFICATION

Regular and continuous consultations between the CEO and key management personnel from different functional units ensure comprehensive coverage of the risk landscape. Identified risk elements are reviewed by the Senior Management Team and the Audit Committee against the Group's strategic and tactical targets and stakeholder expectations.

2. ASSESSMENT AND ANALYSIS

Existing and emerging identified risks are mapped and rated based on the likelihood and potential level of impact as depicted below.

3. RESPONSE PLANNING AND EXECUTION

Developing a practical response to the risk, in line with the decision made on how the risk is to be handled. Responsibility for managing each identified risk lies with the respective risk owners, while the Group will ensure there is sufficient flexibility to respond to risks and adequate resources to mitigate risks.

It is recognized that risks can be most effectively managed if a risk culture is nurtured within the Group. The internal controls for risk management will be scrutinized by internal and external audit functions but these can only minimize the consequences of occurrence based on impact and likelihood but the risk itself will not be eliminated.

Group Policies will ensure that fundamental risks in their department are identified, assessed and monitored and incorporated in the Risk Register. Emerging risks will be added as required, and actions and controls put in place to mitigate them and provide assurance to the Board.

4. CONTROL AND MONITOR

Monitoring risk exposure is the collective responsibility of the respective risk owners and the senior management team. The Internal Audit function is responsible for aspects of the annual review of the effectiveness of the internal control system within the organization, while the external audit function provides feedback to the Audit Committee on the operation of the adequacy and effectiveness of the internal control system within the organization. Assurance on the effectiveness of the Group's overall risk management framework and internal controls is provided by the Statement of Internal Controls.

5. RISK REPORTING

Tracking the Group's risk exposures and ensuring that risk management strategies and internal controls are adequate in design and implementation through well-defined reporting structures and monitoring mechanisms.

RISK UNIVERSE

The Group's key risks can be categorized as follows.

In an increasingly challenging business landscape, we constantly monitor, manage and mitigate both current and emerging risks to ensure the sustainability of our business. The table below provides a summary of the potential impacts, mitigation mechanisms and risk scorings for the year under review.

Market Risk
Political & Economic Risks
Operational Risk
HR Risks
IT Risks
Health and safety Risk
Other Risks

COMPOSITION OF THE BOARD

The Board of Asia Siyaka Commodities PLC currently comprises nine (9) members of whom four(4) are Non -Executive Directors. Five (5) members of the Board serve as Executive Directors. Mr. A Vaithyalingam, an Independent, Non-Executive Director of the Company, resigned from the Board of Directors effective 15th February 2025.

DIRECTORS' INTERESTS AND INTEREST REGISTER

The Company, in compliance with the Companies Act No. 07 of 2007, maintains an Interests Register.

All Directors have made declarations as provided for in Section 192(2) of the said Act. As per the particulars of entries in the Interests Register there are no share purchases during the financial year under review.

All related party transactions which encompasses the transactions of Directors who were directly or indirectly interested in a contract or a related party transaction with the Company during the accounting period are recorded in the Interests Register in due compliance with the provisions of the Companies Act.

The Directors declare that all material interests in contracts involving the Company have been disclosed to the Board and wherever any Director was materially interested in a contract or a proposed contract with the Company, they have refrained from voting on such contracts. It is further declared that during the year under review, the Company did not enter into any contracts in which any Director was materially interested.

RELATED PARTIES' TRANSACTIONS WITH THE COMPANY

All related party transactions which encompasses the transactions of Directors who were directly or indirectly interested in a contract or a related party transaction with the Company during the accounting period are recorded in the interests register in due compliance with the applicable rules and regulations of the relevant regulatory authorities.

Transactions of related parties (as defined in LKAS 24 - Related Party Disclosures) with the Company are set out in Note 33 to the financial statements.

The Directors declare that the Company is in compliance with Rule 9.14 of the Listing Rules of the Colombo Stock Exchange pertaining to Related Party Transactions during the year ended 31st March 2025.

DIRECTORS' REMUNERATION

Executive Director's remuneration is structured within an established framework by the Board's Remuneration Committee to whom this task has been entrusted. The Directors are of the opinion that the framework assures appropriateness of remuneration and fairness to the Company. The total remuneration of the Directors for the year ended 31st March 2025 is given in Note 33.2 includes the value of perquisites (if any) granted to them as part of their terms of service.

The Directors' fees of Non-Executive Directors for the reporting year ended 31st March 2025 given in Note 33.2 is determined according to the scales of payment decided upon by the Board. The Board is satisfied that the payment of remuneration is fair to the Company.

SPECIAL BUSINESS TO BE TRANSACTED AT THE ANNUAL GENERAL MEETING

AMENDMENT TO ARTICLES OF ASSOCIATION

The Directors in the Notice of Meeting, have placed before the shareholders under "Special Business" amendments to certain Articles of the Articles of Association of the Company.

The "Special Business" set out as Item 2 of the Notice of Annual General Meeting contains amendments to certain Articles of the Articles of Association of the Company, as recommended by the Directors, to be adopted by way of a Special Resolution. The salient amendments proposed are :

- (a) A new Article to be inserted under the title "Methods of Holding Meetings" for meetings of shareholders to be held in addition to physical meetings as per the present Article; by means of audio or audio and visual communication thereby providing the Board to have the option to determine whether a General Meeting of shareholders would be held as a physical meeting, electronic meeting or as a hybrid meeting.
- (b) Currently, the minimum number of Directors shall not be less than three (03). The recent amendments to Listing Rules require the minimum number to be increased to five (05). The proposed amendment to the number of Directors is to be in line with the new Rule.
- (c) The Listing Rules have introduced provisions relating to the circumstances under which the period for which an Alternate Director may be appointed. The proposed amendment to the provisions relating to Alternate Directors is to align the existing provisions with the Listing Rules.

(d) Additional methods were brought in, to serve notice on shareholders.

(e) Further provision in terms of the Listing Rules that publication by advertisement must be done in all three languages in national daily newspapers is proposed to be incorporated. Publication of notice is further enhanced if permitted by law, to be done via the official website of the Company and/or the official website of the Colombo Stock Exchange so long as the Company is listed on the Colombo Stock Exchange.

ANNUAL GENERAL MEETING

The 13th Annual General Meeting will be held on 23rd September 2025 at the Auditorium of the Ceylon Chamber of Commerce No.50, Nawam Mawatha, Colombo 2 at 9.30 a.m

The Notice of the Annual General Meeting appears on page 143.

This Annual Report is signed for and on behalf of the Board of Directors by

STATEMENT OF DIRECTORS' RESPONSIBILITIES ON FINANCIAL REPORTING

The following statement sets out responsibility of the Directors in relation to the Financial Statements of the Company and its subsidiaries prepared in accordance with the provisions of the Companies Act No. 07 of 2007.

The responsibility of the Independent Auditor in relation to the Financial Statements is set out in the Report of the Auditors given on pages 91 to 93 of the Annual Report.

As per the provisions of sections 151, 153(1) and 152(2), 150(1) and 152(1) of the Companies Act No. 07 of 2007, the Directors are required to prepare Financial Statements for each financial year, which should give a true and fair view of the state of affairs of the Company and its subsidiaries as at the reporting date and its profit or loss for the financial year then ended, ensure that they are completed within six months or such extended period as may be determined by the Registrar General of Companies, certified by the person responsible for the preparation of the Financial Statements that it is in compliance with the said Companies Act and dated and signed on behalf of the Board by two Directors of the Company.

In terms of Section 166(1) read together with Sections 168(1)(b) and (c) and Section 167(1) of the Companies Act, the Directors shall cause a copy of the aforesaid Financial Statements together with the Annual Report of the Board of Directors of the Company prepared as per Section 166(1) of the Companies Act to be sent to every shareholder not less than fifteen working days before the date fixed for holding the Annual General Meeting. The above obligation is discharged by the Directors by making available the Annual Report on the Company's official website and the Colombo Stock Exchange website in terms of Rule 7.5(b) of the Listing Rules of the Colombo Stock Exchange. As per the said Rule printed copies of the Annual Report will be made available to the shareholders on request.

In preparing the Financial Statements, the Directors are responsible to ensure that appropriate accounting policies have been selected and applied consistently, reasonable and prudent judgments and estimates have been made and all applicable accounting standards have been complied with.

The Directors are also required to ensure that the Company and its subsidiaries have adequate resources to continue in operation to justify applying the going concern basis in preparing these Financial Statements.

Further, the Directors have a responsibility to ensure that the Companies within the Group maintain sufficient accounting records to disclose with reasonable accuracy, the financial position of the Company and the subsidiaries.

Financial Statements prepared and presented in this Report have been prepared based on Sri Lanka Accounting Standards (SLFRS/LKAS) and are consistent with the underlying books of account and are in conformity with the requirements of Sri Lanka Accounting Standards, Companies Act No. 07 of 2007, Sri Lanka Accounting and Auditing Standards Act No. 15 of 1995 and the Listing Rules of the Colombo Stock Exchange.

The Directors have also implemented effective and comprehensive systems of internal control for identifying, recording, evaluating and managing the significant risks faced by the Company throughout the year, which is primarily handled through the Audit Committee.

The Directors have taken appropriate steps to ensure that the Company and its subsidiaries maintain proper books of accounts and the financial reporting system is directly reviewed by the Directors at their regular meetings and also through the Board Audit Committee.

The Board of Directors also approves the Interim Financial Statements prior to their release following a review and recommendation by the Board Audit Committee.

The Board of Directors accepts responsibility for the integrity and objectivity of the Financial Statements presented in this Annual Report.

The Financial Statements of the Company and its subsidiaries have been certified by the Senior Vice President - Finance of the Company, the officer responsible for their preparation as required by the Section 152 (1) (b) and they have also been signed by two Directors of the Company as required by Section 152 (1) (c) of the Companies Act.

The Directors to the best of their knowledge and belief, are satisfied and all statutory payments in relation to all relevant regulatory and statutory authorities, which were due and payable by the Company and the subsidiaries as at the reporting date have been paid and where relevant, provided for.

The Directors are of the view that they have discharged their responsibilities as set out in this statement.

RELATED PARTY TRANSACTIONS REVIEW COMMITTEE REPORT

The Related Party Transactions Review Committee (RPTRC) of the Company was formed by the Board on 6th November 2015 in accordance with Section 9 of the Listing Rules of the Colombo Stock Exchange and due to ensure compliance with those Rules facilitating independent review, approval and oversight of Related Party Transactions of the Company.

COMPOSITION OF THE COMMITTEE

The Committee comprises three Independent Non-Executive Directors (one of whom is the Chairman), in conformity with Rule 9.14.2 of the Listing Rules of the CSE.

The Related Party Transactions Review Committee of the Company was reconstituted three times during the year under review in compliance with the Corporate Governance Rules of the Colombo Stock Exchange and due to board member resignations. The composition of the Committee during the financial year under review was as follows:

1st April 2024 to 5th August 2024:

Mr. A. Vaithyalingam - Chairman - Independent Non-Executive Director
Mr. C L de Silva - Member - Independent Non-Executive Director
Mr. M R Morris - Member - Independent Non-Executive Director

6th August 2024 to 29th September 2024:

Mr. A. Vaithyalingam - Chairman - Independent Non-Executive Director
Mr. C L de Silva - Member - Independent Non-Executive Director
Mr. M R Morris - Member - Independent Non-Executive Director
Ms. R Rajapaksa - Member - Independent Non-Executive Director

30th September 2024 to 14th February 2025:

Ms. R Rajapaksa - Chairperson - Independent Non-Executive Director
Mr. C L de Silva - Member - Independent Non-Executive Director
Mr. M R Morris - Member - Independent Non-Executive Director
Mr. A. Vaithyalingam - Member - Independent Non-Executive Director

From 15th February 2025 :

Ms. R Rajapaksa - Chairperson - Independent Non-Executive Director
Mr. C L de Silva - Member - Independent Non-Executive Director
Mr. M R Morris - Member - Independent Non-Executive Director

[Brief profiles of the Members appear on page 18.

P W Corporate Secretarial (Pvt) Ltd serves as the Secretaries to the Committee.

The Managing Director, CEO and SVP-Finance attend meetings by invitation.

MEETINGS

The Committee met five (05) times during the financial year under review, once every calendar quarter with one additional meeting during the third quarter.

POLICIES AND PROCEDURES

- The Committee operates within the Charter of the Committee / Terms of Reference as approved by the Board. The Company has adopted a Related Party Transactions (RPT) Policy whereby the categories of persons / entities who shall be considered as 'related parties' have been identified and the identification and reporting on RPTs have been established.
- In accordance with the RPT Policy, self-declarations are obtained from each Director for the purpose of identifying parties related to them.
- The RPTRC reviews all Non Recurrent RPTs of the Company, whilst Recurrent RPTs are entered into on an arm's length basis determined by market forces and as per

pre-approved criteria as determined by the Committee and details of the latter RPTs are presented to the Committee for review every quarter

During the year under review the Company entered into one Non-Recurrent RPT which were reviewed and recommended by the Committee and approved by the Board. The said Non-Recurrent RPT required immediate market announcements as per the Listing Rules 9.14.7.

The Committee also reviewed and approved the parent company to issue a Corporate Guarantee to the newly incorporated subsidiary (Related Party) aggregating to Rs.700Mn (Rupees Seven Hundred Million only) to serve as collateral for import loan to be obtained from Banks to meet its working capital requirements.

- In its review of RPTs, RPTRC considers the terms and conditions of the RPT, value, and the aggregate value of transactions with the said related party during the financial year, in order to determine whether they are carried out on an arm's length basis, the disclosure requirements as per the Listing Rules of the Colombo Stock Exchange and the level of approval required for the respective RPTs.
- The RPTRC ensures that all transactions with Related Parties are in the best interests of all shareholders, adequate transparency is maintained and are in compliance with the Listing Rules.
- The Committee has established guidelines in respect of Recurrent RPTs to be followed by the Senior Management of the Company, in the Company's dealings with Related Parties and has reviewed and assessed such ongoing relationships to ensure that the RPTs remain appropriate.
- Reviewing and approval of RPTs are either at a meeting of the Committee comprising at least two (2) members, one of whom shall be the Chairperson or by circulation, approved by all the members.
- The Committee ensures that immediate market disclosures and disclosures in the Annual Report as required by applicable Rules are made in a timely and detailed manner and approvals as required by applicable Rules and Laws are sought in respect of RPTs.

RELATED PARTY TRANSACTIONS REVIEW COMMITTEE REPORT

RELATED PARTY TRANSACTIONS / DISCLOSURES DURING THE YEAR UNDER REVIEW

1. Information on related parties / related party transactions, as extracted from the books of the Company as at the end of each quarter was presented to the RPTRC.
2. All Directors made annual disclosures of the related parties of the said Director, which were recorded by the Company Secretaries. Additionally if any Director assumes office as a Director of any company, the Director concerned makes a disclosure, which is then captured by the Company Secretary and passed on to the officer concerned.
3. The aggregate value of all non-recurrent RPTs entered into by the Company during the year under review exceeds the 10% of Equity as per the last Audited Financial Statements for 31 March 2024 per Rule 9.14.8(i) of the Listing Rules.

Name of the Related Party	Relationship	Value of the Related Party Transaction entered into during the financial year	Value of the Related Party Transaction as a % of Equity and as a % of Total Assets	Terms and Conditions of the Related Party Transaction	The rationale for entering into the transaction
AgriOne Solutions (Pvt) Ltd	Subsidiary	Rs. 700,000,000/-	As a percentage of Equity – 133% As a percentage of Total Assets – 24%	Corporate Guarantees aggregating to a total value of Rs. 1 billion was approved of which Rs. 700 million was issued to Banks as collateral for the import loans of the related party to meet working capital requirements.	To improve profitability and cash flows by adding new income streams through the subsidiary leveraging existing business relationships in the agriculture industry.

4. The aggregate value of Recurrent RPTs entered into by the Company during the year was below the threshold for disclosure in the Annual Report as per the Listing Rules.
5. Related Party Disclosures in terms of LKAS 24 are set out in Note 42 to the Financial Statements.

DECLARATION

In terms of Rule 9.3.2 (d) of the Listing Rules of the Colombo Stock Exchange, a declaration by the Board of Directors as an affirmative statement of the compliance with the Listing Rules pertaining to Related Party Transactions is given on pages 74 and 79 of the Annual Report.

R Rajapaksa

Chairperson

Related Party Transactions Review Committee

28 August 2025

THE REPORT OF THE AUDIT COMMITTEE

The Committee comprises three Independent Non-Executive Directors (one of whom is the Chairman), in conformity with Rule 9.13.3 of the Listing Rules of the CSE.

The Audit Committee of the Company was reconstituted two times during the year under review in compliance with the Corporate Governance Rules of the Colombo Stock Exchange. The composition of the Committee during the financial year under review was as follows:

1st April 2024 to 5th August 2024:

Mr. S T Gunatilleke - Chairman - Independent Non-Executive Director
Mr. C L de Silva - Member - Independent Non-Executive Director
Mr. M R Morris - Member - Independent Non-Executive Director

6th August 2024 to 14th February 2025:

Ms. R Rajapaksa - Chairperson - Independent Non-Executive Director
Mr. C L de Silva - Member - Independent Non-Executive Director
Mr. M R Morris - Member - Independent Non-Executive Director
Mr. A Vaithyalingam - Member - Independent Non-Executive Director

From 15th February 2025 :

Ms. R Rajapaksa - Chairperson - Independent Non-Executive Director
Mr. C L de Silva - Member - Independent Non-Executive Director
Mr. M R Morris - Member - Independent Non-Executive Director

A brief profile of each member are given on page 18 of this report.

P W Corporate Secretaries (Pvt) Ltd serves as the Secretary to the Audit Committee.

The Managing Director, CEO and SVP Finance attend the meetings by invitation.

MEETINGS

The Committee met five (05) times during the financial year under review, where they met once every calendar quarter prior to releasing financial statements to the market with one additional meeting during the last quarter.

ROLE OF THE COMMITTEE

The Committee operates under a formal Audit Committee Charter, approved by the Board, which defines its scope of responsibilities. The primary role of the Committee is to assist the Board in fulfilling its oversight responsibilities in respect of:

1. The integrity of financial reporting, including compliance with Sri Lanka Accounting Standards and all applicable financial reporting regulations
2. The Company's compliance with legal and regulatory requirements.
3. Ensuring the independence of external and internal Auditors.
4. Evaluating internal controls and risk management processes within the Company to provide a reasonable assurance that the Company's assets are safeguarded.
5. The maintenance of a robust whistleblowing mechanism and governance framework.

FINANCIAL REPORTING

The Committee reviewed and discussed the un-audited Interim Financial Statements and the Financial Statements for the year with the management and the External Auditors ensuring that the Company's financial reporting gives a true and fair view in accordance with the Sri Lanka Accounting Standards, Companies Act No. 07 of 2007, SEC Act, CSE Listing Rules, and other applicable regulations.

INTERNAL CONTROLS AND RISK ASSESSMENT

The Committee reviewed the adequacy and effectiveness of the Company's internal control environment and the risk management framework relating to its investments, and ensured that robust controls are in place to safeguard investments and that appropriate governance structures exist to monitor associated risks.

The Committee evaluated the processes adopted by senior management and the Board in identifying, assessing, and managing investment-related risks. It also reviewed the Company's internal control mechanisms relating to financial reporting, compliance and operational integrity.

By reviewing the reports received from outsourced internal auditors and followed up to ensure mitigating actions were taken by the management for issues highlighted.

The Committee also obtained and reviewed assurance received from: the CEO and the SVP-Finance that the financial records have been properly maintained and the financial statements gave a true and fair view of the Company's operations and finances and the adequacy and effectiveness of the Company's risk management and internal control systems.

Based on these evaluations, the Committee is satisfied that the existing framework provides reasonable assurance regarding the reliability of financial reporting and the effectiveness of risk oversight aligned with the Company's operational model.

EXTERNAL AUDITORS

The Committee meets the Independent Auditors more than once during the year to review their findings, discuss issues raised, as well as to identify the effectiveness of the internal controls in place. The fees paid for non-audit services provided by the Independent Auditors were also reviewed and where relevant granted its pre-concurrence / concurrence to ensure that the provisions of these services do not impair their independence

THE REPORT OF THE AUDIT COMMITTEE

INDEPENDENCE OF AUDITORS

The Committee is satisfied that the independence of the External Auditors has not been impaired by any event or service that gives rise to a conflict of interest. The Committee has considered the nature of the services provided by the Auditors, Messrs Ernst & Young have served as the Company's External Auditors for thirteen (13) years, with the current audit partner serving in this role for one (1) year. The level of audit and non-audit fees paid to Auditors for Non Assurance Services including Taxation Services provided by Messrs Ernst & Young under Partners distinct from the Partner in Charge of the Audit did not impair the independence of the External Auditor.

To the extent that the Audit Committee is aware, the Auditors do not have any relationship with (other than the Auditor and provider of non-assurance services as aforesaid) or interest in, the Company and the Group, which in the opinion of the Audit Committee, may reasonably be considered to have a bearing on their independence within the meaning of the Code of Professional Conduct and Ethics issued by the Institute of Chartered Accountants of Sri Lanka as at the reporting date. The Committee confirms receipt of written assurance from Ernst & Young stating that they remained independent throughout the audit engagement, in line with professional and regulatory standards.

RE-APPOINTMENT OF AUDITORS

The Audit Committee having evaluated the performance of the Independent Auditors, has decided to recommend to the Board of Directors the re-appointment of Messrs Ernst & Young, Chartered Accountants for the financial year ending 31st March 2026 up to the next Annual General Meeting, subject to the approval of the shareholders at the forthcoming Annual General Meeting.

SRI LANKA ACCOUNTING STANDARDS

The Committee reviewed the revised policy decisions relating to the adoption of new and revised Sri Lanka Accounting Standards (SLFRS/LKAS) applicable to the Group companies and made recommendations to the Board of Directors.

The Committee would continue to monitor the compliance with relevant Accounting Standards and keep the Board of Directors informed at regular intervals.

CONCLUSION

The Committee is of the view that adequate controls and procedures are in place to provide reasonable assurance that the Company and its subsidiaries' assets are safeguarded and that the financial position and the results disclosed in the Audited Financial Statements are free from, any material mis-statements.

Independent Non-Executive Director
Mr. A Vaithyalingam - Member -
Independent Non-Executive Director

From 15th February 2025 :

Mr. M R Morris - Chairman -
Independent Non-Executive Director

Mr. C L de Silva - Member -
Independent Non-Executive Director
Ms. R Rajapaksa - Member -
Independent Non-Executive Director

[Brief profiles of the Members of the NGC who held office as of 31st March 2025 appear on page 18]

The Company Secretaries, P W Corporate Secretarial (Pvt) Ltd serves as the Secretaries to the Committee.

MEETINGS

The Committee met once during the year under review attended by Mr. C L de Silva (Chairman), Mr M R Morris and S T Gunatilleke.

POLICY AND PROCESSES FOR DIRECTORS' NOMINATIONS

The NGC operates under a documented policy and defined processes for the nomination of Directors. These processes include :

- Overseeing the identification, assessment, selection, and nomination of suitable candidates to be appointed as Directors to fill any vacancy on the Board, howsoever created and/or as additional Directors based on the business requirements of the Company.
- Assessing the skills, knowledge, experience, expertise, diversity, and levels of independence necessary that will best contribute to the effectiveness of the Board.
- Ensuring that the Director nominees accord with the fit and proper criteria under Rule 9.7.3 of the Listing Rules and obtaining a declaration to that effect from the candidate and.
- Where a director nominee is to be appointed as an Independent Director, identifying any potential conflicts of interest and assessing the independence of the candidate, and overseeing that he / she satisfies the criteria for independence as per Rule 9.8.5 of the Listing Rules and obtaining a duly completed declaration to that effect from the said party.
- Based on the assessment as aforesaid making recommendations to the Board on appointment of new Directors.

RE-ELECTION OF DIRECTORS

In accordance with the Company's Articles of Association, one-third of the Directors shall retire from office provided that Directors appointed to the office of Chairman, Deputy Chairman, Chief Executive Officer, Managing or Joint Managing Director or other Executive Officer shall not while holding that office be subject to retirement by rotation or be taken into account in determining the Directors to retire in each year.

In pursuance of recommendations made by the NGC to align these provisions with the best practices a Resolution will be placed before the shareholders to amend the relevant Article whereby one third of the Directors for the time being (excluding the Executive Directors) will be required to retire by rotation at every Annual General meeting.

Additionally, the relevant provisions in the Articles dealing with the new appointments to the Board to fill casual vacancies or as additional directors are not required to offer themselves for re-election at the immediately succeeding Annual General Meeting. This Article too is to be amended based on NGC's recommendations to align the said provisions with the best practices. The Directors who retire by rotation are those who have been longest in office since their last re-election / appointment.

INFORMATION ON DIRECTORS' RE-ELECTION / RE-APPOINTMENT

In accordance with Article 87(i) of the Articles of Association of the Company, the Committee recommended that Mr. J N Dambawinne, who retires in terms of the said Article 87(i) be re-elected to the Board at the Annual General Meeting to be held on 22nd September 2025. Mr. Dambawinne does not serve on any of the Company's Board Sub-Committees.

BOARD DIVERSITY

Board diversity is considered an essential factor in ensuring the Board's effective performance. In that context, the Company is committed to maintaining a diverse Board across the following dimensions that align with its strategic goals and governance standards.

NOMINATIONS AND GOVERNANCE COMMITTEE REPORT

Experience

The present Board comprises of directors possessing varied experience / expertise in many disciplines which is appropriate for the business carried on by the Company. It reflects a diverse range of expertise, including entrepreneurship, finance, audit and risk management, banking, corporate communications, marketing and governance.

Skills

The Board is possessed of skills that are essential to drive the business of the Company including communication skills, leadership skills, decision making skills, organizational skills and skills to embody the vision of organization. Many directors are experienced entrepreneurs, professionals and business leaders and make significant contribution towards the strategic direction of the Company and its subsidiaries with their diverse skills and attributes.

Age

There is a balanced distribution amongst different age groups, ranging from 44 years to 74 years.

Gender

The Company's commitment to gender diversity is demonstrated by the appointment of a female director in the year under review.

EFFECTIVE IMPLEMENTATION OF POLICIES AND PROCESSES FOR APPOINTMENT AND RE-APPOINTMENT OF DIRECTORS

The effectiveness of the policies and processes relating to the appointment and re-appointment of directors is demonstrated by the following:

- The NGC reviewed the criteria for fitness and propriety, independence and other compliance requirements for individual directors at the time of their initial appointments to the Board and through annual review. Such a review also covered the general disclosure of interests, declarations and other information provided by Director nominees and by individual Directors in accordance with the Listing Rules,

Companies Act and the Company's Articles of Association.

- Director nominees are subject to reference checks and reviews of their past performance, particularly if the candidate has prior Board experience, and interviews with the Management.
- A process has been established for Board evaluations including attendance, engagement and effective contribution as a Board member, to ensure that each Director continues to add value to the Company to achieve its objectives, before the NGC recommends the re-election / re-appointment of a Director.

PERIODIC EVALUATIONS ON THE PERFORMANCE OF THE BOARD AND THE EXECUTIVE DIRECTORS

As per the Rules on Corporate Governance embodied in the Listing Rules and the policy on Corporate Governance, Nomination and Re-election adopted by the Company with effect from 1st October 2024, it is necessary that periodic evaluation of the performance of the Board of Directors and the Executive Directors of the Company are carried out, through a scheme of self-assessment to be undertaken by each Director. The NGC is responsible for such an assessment and to submit a report on the matter to the Board.

The NGC confirms that the annual evaluation of the performance of the Board of Directors and the Executive Directors has been conducted. This assessment ensures alignment with the organization's strategic objectives and supports continuous improvement in governance and leadership effectiveness.

PROCESS ON THE FLOW OF INFORMATION TO INDEPENDENT DIRECTORS ON MAJOR ISSUES

The Company ensures that independent directors are informed through a structured communication framework, including regular board and committee meetings, with detailed agenda and relevant documents shared in advance. Directors receive periodic updates on key financial, operational and strategic matters, with direct access to the senior management and the Company Secretaries to seek clarifications on matters falling under the purview of the Board.

Special briefings are provided to the directors through the Managing Director and/or the Company Secretaries in dealing with important matters. Strategy sessions, orientation, and training programs keep directors informed on industry trends and governance. Crisis communication processes ensure timely updates during significant events, supporting effective oversight and contribution to the Company's objectives.

INDUCTION AND ORIENTATION PROGRAMS

The Company provides induction programs for newly appointed directors, covering operations, governance, regulations, strategic objectives, financial performance and key policies.

Updates are also provided to the Board on corporate governance, regulatory developments and relevant laws, ensuring compliance, effective risk management, and alignment with legislative amendments to protect shareholder interests.

DETERMINATION OF INDEPENDENCE OF INDEPENDENT DIRECTORS

The NGC confirms that the Independent Directors meet the criteria for independence as stipulated in Rule 9.8.3 of the Listing Rules.

COMPLIANCE WITH THE CORPORATE GOVERNANCE REQUIREMENTS STIPULATED UNDER THE LISTING RULES

The NGC confirms that the Company has fully complied with the Corporate Governance requirements outlined in the Listing Rules.

M R Morris
Chairman

REPORT OF THE REMUNERATION COMMITTEE

The Remuneration Committee of the Company was formed by the Board on 6th November 2015 in accordance with Section 9 of the Listing Rules of the Colombo Stock Exchange to ensure compliance with those Rules. The Committee is committed to ensuring a fair, transparent and structured approach to Executive and Non-Executive remuneration in line with best governance practices.

COMPOSITION OF THE COMMITTEE

The Remuneration Committee of the Company was reconstituted three times during the year under review in compliance with the Corporate Governance Rules of the Colombo Stock Exchange and due to board member resignation and comprises the following independent non-executive directors:

1st April 2024 to 29th September 2024:

Mr. C L de Silva - Chairman -
Independent Non-Executive Director
Mr. M R Morris - Member -
Independent Non-Executive Director
Mr. A Vaithyalingam - Member -
Independent Non-Executive Director

30th September 2024 to 14th February 2025:

Mr. M R Morris - Chairman -
Independent Non-Executive Director
Mr. C L de Silva Member -
Independent Non-Executive Director
Mr. A Vaithyalingam - Member -
Independent Non-Executive Director

From 15th February 2025

Mr. M R Morris - Chairman -
Independent Non-Executive Director
Mr. C L de Silva - Member -
Independent Non-Executive Director
Ms. R Rajapaksa - Member -
Independent Non-Executive Director

The Remuneration Committee, appointed by the Board of Directors, operates with clearly defined terms of reference that outline its scope, authority and responsibilities. The Committee is responsible for formulating policies on executive remuneration and determining individual remuneration packages, while ensuring that no director is involved in deciding his or her own compensation.

MEETINGS

The Committee met four times during the year under review. The Chairman of the Committee can convene a special meeting in the event a requirement arises, provided all members are given sufficient notice of such special meeting. The quorum for a meeting is two members. The Managing Director, CEO and HHR are invited to participate in the Committee meetings as and when required by the Chairman considering the topics for deliberation at such meetings. The proceedings of the Committee meetings are reported to the Board of Directors.

REMUNERATION POLICY AND TRANSPARENCY

The objective of the Remuneration Policy of the Company is to attract and retain a highly qualified and experienced staff and accordingly, remuneration packages are aligned with market rates taking into consideration, the cost of replacement of qualified and experienced staff. The Committee further reports that the Company has adopted a "Policy on Remuneration" in compliance with Rule 9.2.1 of the Listing Rules, and it has complied with the provisions of the Companies Act and the Articles of Association regarding directors' remuneration.

Additionally, the recommendations of the Committee regarding Executive Directors' remuneration, bonus and other benefits were arrived at through discussion and thereupon, the agreement of Committee Members being recorded through circular resolutions.

ROLE OF THE REMUNERATION COMMITTEE

The Remuneration Committee is responsible for advising and assisting the Board in determining a formal and transparent procedure for developing the policy on Executive Directors' remuneration and for fixing the remuneration of Non-Executive Directors. Its key functions include:

- Establishing and reviewing the parameters of the framework for remuneration of Executive Directors, Non-Executive Directors and Senior Management of the Company and its unlisted subsidiaries.
- Reviewing and making recommendations to the Board with regard to the remuneration of Executive Directors and Senior Management and also Non-Executive Directors.
- Assisting the Board of Directors to comply with the obligations under section 216 of the Companies Act No.7 of 2007 read together with the Articles of Association of the Company when approving remuneration of Directors including the basis under which the remuneration may be considered fair to the Company or the relevant subsidiary.

DISCLOSURE ON DIRECTORS' REMUNERATION

The aggregate remuneration paid to the Directors of the Company during the year is disclosed in Note 33.2 to the Financial Statements in this Annual Report.

TO THE SHAREHOLDERS OF ASIA SIYAKA COMMODITIES PLC

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

OPINION

We have audited the financial statements of Asia Siyaka Commodities PLC ("the Company") and the consolidated financial statements of the Company and its subsidiaries ("the Group"), which comprise the statement of financial position as at 31 March 2025, and the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including material accounting policy information.

In our opinion, the accompanying financial statements of the Company and the Group give a true and fair view of the financial position of the Company and the Group as at 31 March 2025, and of their financial performance and cash flows for the year then ended in accordance with Sri Lanka Accounting Standards.

BASIS FOR OPINION

We conducted our audit in accordance with Sri Lanka Auditing Standards (SLAuSs). Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the Group in accordance with the Code of Ethics for Professional Accountants issued by CA Sri Lanka (Code of Ethics) and we have fulfilled our other ethical responsibilities in accordance with the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying financial statements.

INDEPENDENT AUDITORS' REPORT

Key audit matter

How our audit addressed the key audit matter

Provision for Impairment of Loans and Advances

As at 31 March 2025, carrying value of Group Loans and Advances given to Tea Clients amounted to Rs 1,166 Mn, with an accumulated provision for impairment of Rs 248 Mn, as disclosed in Notes 12 to the financial statements.

This was a key audit matter due to;

- Materiality of the net carrying value representing 38% of the total assets; and
- The degree of management assumptions, judgments and estimates associated with evaluating the provision for impairment, as disclosed in Note 12 to the financial statements..

The key areas of significant assumptions, judgments and estimates included risk over collection of loans and recovery of advances.

Our audit procedures included the following:

- Evaluated the reasonableness of credit quality assessments and checked that the disbursements and the recording of Loans and Advances are in accordance with the standard operating procedures for Loans and Advances given to Tea Clients.
- Obtained an understanding of the process for impairment assessment for Loans and Advances given to Tea Clients, including compliance with the contractual obligations and subsequent settlements of the Loans and Advances.
- Tested the computation of the provision of impairment and assessing the reasonableness of the assumptions and judgements used by the management in evaluating the probability of recoverability..

We also assessed the adequacy of the disclosures in notes 2.3.11 (e), 12.1 and 12.2 to the financial statements regarding impairment for Loans and Advances given to Tea Clients.

OTHER INFORMATION INCLUDED IN THE 2025 ANNUAL REPORT

Other information consists of the information included in the Annual Report, other than the financial statements and our auditor's report thereon. Management is responsible for the other information.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with Sri Lanka Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's and the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SLAuSs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SLAuSs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal controls of the Company and the Group.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

As required by section 163 (2) of the Companies Act No. 07 of 2007, we have obtained all the information and explanations that were required for the audit and as far as appears from our examination, proper accounting records have been kept by the Company.

CA Sri Lanka membership number of the engagement partner responsible for signing this independent auditor's report is 1697.

The Accounting Policies and Notes on pages 98 through 137 form an integral part of these Financial Statements.

NOTES TO THE FINANCIAL STATEMENTS

1. CORPORATE INFORMATION

1.1 REPORTING ENTITY

Asia Siyaka Commodities PLC is a public limited liability company incorporated and domiciled in Sri Lanka and listed on the Colombo Stock Exchange. The registered office and the principal place of business is situated at 1st Floor, 'Deutsche House', No. 320, T. B. Jayah Mawatha, Colombo 10.

1.2 CONSOLIDATED FINANCIAL STATEMENTS

The financial statements for the year ended 31 March 2025, comprise "the Company" referring to Asia Siyaka Commodities PLC as the holding company and "the Group" referring to the companies whose accounts have been consolidated herein.

1.3 PRINCIPAL ACTIVITIES AND NATURE OF OPERATIONS

HOLDING COMPANY

The principal activities and the nature of operations are to carry on business of Tea Brokers, Produce Brokers, Auctioneers, Appraisers, Valuers, Commission Agents, and General Agents.

SUBSIDIARIES

The companies within the Group and their business activities are disclosed in Note 2.1.4

1.4 PARENT ENTITY AND ULTIMATE PARENT ENTITY

The Company's parent entity and the ultimate parent entity is Lanka Commodity Brokers Limited, a company incorporated in Sri Lanka.

1.5 DATE OF AUTHORIZATION FOR ISSUE

The financial statements of Asia Siyaka Commodities PLC for the year ended 31 March 2025 were authorized for issue in accordance with a resolution of the Board of Directors on 28 August 2025.

2. GENERAL ACCOUNTING POLICIES

2.1 BASIS OF PREPARATION

The financial statements of the Company and the Group have been prepared on an accrual basis and under the historical cost convention, except for, buildings on leasehold lands and storage system that have been measured at fair value.

The financial statements are presented in Sri Lankan Rupees (Rs).

2.1.1 STATEMENT OF COMPLIANCE

The financial statements of the Company and the Group have been prepared in accordance with Sri Lanka Accounting Standards comprising SLFRS and LKAS (hereafter "SLFRS"), as issued by the Institute of Chartered Accountants of Sri Lanka (CA Sri Lanka) and the requirements of the Companies Act No. 07 of 2007.

2.1.2 GOING CONCERN

The Board of Directors has made an assessment of the Company's ability to continue as a going concern in the foreseeable future and they do not intend either to liquidate or to cease trading.

2.1.3 COMPARATIVE INFORMATION

Presentation and classification of the financial statements of the previous year have been amended where relevant for better presentation and to be comparable with those of current year.

2.1.4 BASIS OF CONSOLIDATION

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as at 31 March 2025. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if, and only if, the Group has:

- Power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee.
- The ability to use its power over the investee to affect its returns.

The Group re-assesses whether it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income, and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Profit or loss and each component of Other Comprehensive Income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance.

The financial statements of the subsidiaries are prepared for the same reporting year using uniform Accounting Policies for transactions, in similar circumstances and are applied consistently.

All intra-group assets and liabilities, equity, income, expenses, and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises the related assets, liabilities, non-controlling interest and other components of equity while any resultant gain or loss is recognised in profit or loss. Any investment retained is recognised at fair value.

Subsidiaries

The details of Subsidiaries are as follows:

Company Name	Asia Siyaka Warehousing (Private) Limited	Siyaka Produce Brokers (Private) Limited
Nature of Operations	The principal activities and the nature of operations are to carry on business of providing warehousing facilities for clients of parent and other selected third parties.	The principal activities and the nature of operations are to carry on business of Rubber Brokers, Auctioneers, Appraisers, Valuers, Commission Agents and General Agents. On 18 April 2017, the Company transferred its Rubber Broking Licence to Asia Siyaka Commodities PLC its parent company and since then the Company has not carried out any business activity. The Company is in the process of closing down by way of striking off in the ensuing year. Under these circumstances, the Board of Directors intends to liquidate the Company within foreseeable future.
Year of Ownership/ Incorporation	18.01.1999	15.02.2008
Ownership Percentage	100%	100%

Company Name

AgriOne Solutions (Private) Limited

Ownership Percentage

57.87%

Nature of Operations

The principal activities and the nature of operations are to carry on business of importing, storing, blending and marketing of fertilizers, plant protection products and plant seeds.

Transactions Eliminated on Consolidation

All intra-group assets and liabilities, equity, income, expenses, and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Year of Ownership/ Incorporation

24.12. 2024

Unrealised gains arising from transactions with equity accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

Non-Controlling Interests

The proportion of the profits or losses after taxation applicable to outside shareholders of subsidiary companies is included under the heading "NonControlling Interests" in the Consolidated statement of Profit or Loss. Losses applicable to the non-controlling interests in a subsidiary is allocated to the noncontrolling interest even if doing so causes the noncontrolling interests to have a deficit balance.

2.2 SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the financial statements of the Group requires the management to make judgments, estimates and assumptions, which may affect the amounts of income, expenditure, assets, liabilities and the disclosure of contingent liabilities, at the end of the reporting period. In the process of applying the Group's accounting policies, the key assumptions made relating to the future and the sources of estimation at the reporting date together with the related judgments that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year have been discussed in the individual notes of the related financial statement line items.

The line items which have most significant effect on accounting, judgements, estimate, and assumptions are as follows.

A) REVALUATION OF PROPERTY, PLANT AND EQUIPMENT

The Group measures buildings in leasehold lands and storage system at revalued amounts where changes in fair value being recognised in the statement of other comprehensive income. The Group engages independent, qualified valuation specialists to determine fair value. Such valuer uses assumptions and valuation techniques to determine the fair value. Please refer Note 3 for Revaluation of Property, Plant and Equipment.

NOTES TO THE FINANCIAL STATEMENTS

B) EMPLOYEE BENEFIT LIABILITY

The employee benefit liability of the Group is based on the actuarial valuation carried out by independent actuarial specialist. The actuarial valuations involve making assumptions about discount rates, salary increment rate, staff turnover rate, mortality rate and retirement age. The complexity of the valuation, the underlying assumptions and its long-term nature, the retirement benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. Details of the key assumptions used in the estimates are contained in Note 16.4.

C) PROVISION FOR EXPECTED CREDIT LOSSES OF LOANS AND ADVANCES

Details of the Group's policy relating to the Provision for expected credit losses of Loans and Advances are contained in Note 2.3.11 (e).

D) INCOME TAX AND DEFERRED TAX RATES

As per the new Inland Revenue (Amendment) Act No. 45 of 2023, which was implemented with effect from 01 January 2023, the tax rate of the company has increased to 30% from 24%. Accordingly, the deferred tax and income tax have been recognized considering this amended rate.

2.3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

2.3.1 FOREIGN CURRENCY TRANSLATION

The financial statements are presented in Sri Lankan Rupees, which is the Group's functional and presentation currency. Transactions in foreign currencies are initially recorded at the functional currency spot rates at the date the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency spot rate of exchange at the reporting date. All differences arising from settlement or

translation of monetary items are taken to the statement of profit or loss and other comprehensive income. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions.

2.3.2 TAXATION

(a) Income Tax

Current income tax assets and liabilities for the current period are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date which is currently the Inland Revenue Act No. 24 of 2017 effective from 1st April 2018 and subsequent amendments thereon.

Current income tax relating to items recognized directly in equity is recognized under other comprehensive income and not in the statement of profit or loss. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

The provision for income tax is based on the elements of income and expenditure as reported in the financial statements and computed in accordance with the provisions of the Inland Revenue Act.

(b) Deferred Tax

Deferred income tax is provided using the liability method on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred income tax liabilities are recognised for all taxable temporary differences except:

- Where the deferred income tax liability arises from initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of transaction, affects neither the accounting profit nor taxable profit or loss; and

- In respect of taxable temporary differences associated with investments in subsidiaries, where the timing of reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred income tax assets are recognised for all deductible temporary differences, carry-forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry-forward of unused tax credits and unused tax losses can be utilised except:

- Where the deferred income tax asset relating to the deductible temporary difference arises from initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of transaction, affects neither the accounting profit nor taxable profit or loss; and
- In respect of deductible temporary differences associated with investments in subsidiaries, deferred income tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised. Unrecognised deferred income tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on the tax rates and tax laws that have been enacted or subsequently enacted as at the reporting date.

Deferred income tax assets and deferred income tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current income tax liabilities and the deferred income taxes relates to the same taxable entity and the same taxation authority.

2.3.3 INVENTORIES

Inventories are valued at lower of cost and net realizable value, after making due allowances for obsolete and slow moving items. Net realizable value is the price at which inventories can be sold in the ordinary course of business less the estimated cost of completion and the estimated cost necessary to make the sale. The cost incurred in bringing its inventories to present location and condition is accounted at purchase cost on weighted average basis.

2.3.4 CURRENT VERSUS NON-CURRENT CLASSIFICATION

The Group presents assets and liabilities in statement of financial position based on current or non-current classification. An asset is current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle
 - Held primarily for the purpose of trading
 - Expected to be realised within twelve months after the reporting period
- or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

The Group classifies all other assets as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
 - It is held primarily for the purpose of trading
 - It is due to be settled within twelve months after the reporting period
- or
- It does not have a right at the reporting date to defer settlement of the liability for at least twelve months after the reporting period.

The Group classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

2.3.5 NON-FINANCIAL ASSETS

The carrying amounts of the Group's non-financial assets, other than deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs to sell and its Value In Use (VIU). The fair value less costs to sell calculation is based on available data from an active market, in an arm's length transaction, of similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a discounted cash flow model. The cash flows are derived from the budget for the next five years and do not include restructuring activities that the Group is not yet committed to or significant future investments that will enhance the asset's performance of the cash generating unit being tested. The recoverable amount is most sensitive to the discount rate used for the discounted cash flow model as well as the expected future cash inflows and the growth rate used for extrapolation purposes.

2.3.6 PROPERTY, PLANT AND EQUIPMENT

(a) Initial Recognition

All items of property, plant and equipment are initially recorded at cost.

The cost of property, plant and equipment is the cost of acquisition or construction together with any expenses incurred in bringing the asset to its working condition for its intended use and capitalised borrowing cost. Subsequent to the initial recognition as an asset at cost, revalued assets are carried at revalued amounts less any subsequent depreciation and impairment losses thereon. All other property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses, if any. Depreciation is provided for, on the bases specified in (c) below.

Where an item of property, plant and equipment comprises major components having different useful lives, they are accounted for as separate items of property, plant and equipment.

(b) Subsequent Expenditure

Expenditure incurred to replace a component of an item of property, plant and equipment that is accounted for separately, including major inspection and overhaul expenditure, is capitalized. Other subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the item of property, plant and equipment. All other expenditure incurred on repairs or maintenance of property, plant and equipment in order to restore or maintain the future economic benefits expected from the originally assessed standard of performance, is recognised as an expense when incurred.

NOTES TO THE FINANCIAL STATEMENTS

(c) Depreciation

Depreciation is calculated by using a straight-line basis on all property, plant and equipment over the estimated economic life of such assets.

The estimated useful life of assets is as follows:

Assets	Years
Buildings	Lower of 10-30 years or lease term
Land Development Cost	Over the lease term
Furniture and Fittings	5 - 6.67
Storage System	15
Solar Power System	10
Office Equipment	4 - 6.67
Computer and Accessories	5
Motor Vehicle	4-5
Plant and Machinery	5
Tools & Equipment	5

The residual values, useful lives and depreciation method are reviewed at each reporting date and adjusted prospectively when appropriate.

(d) Revaluation

Buildings on leasehold land and storage systems are measured at fair value at the date of revaluation less accumulated depreciation and impairment losses recognised after the date of the revaluation. Valuations are performed with sufficient frequency to ensure that the fair value of a revalued asset does not differ materially from its carrying amount.

The Group engages independent, qualified valuation specialists to determine fair value. Such valuer uses assumptions and valuation techniques to determine the fair value. Please refer Note 3 for Revaluation of Property, Plant and Equipment.

Any revaluation surplus is recognised in other comprehensive income and accumulated in equity in the revaluation reserve, except to the extent that it reverses a revaluation decrease of the same asset previously recognised in the statement of profit or loss, in which case the increase is recognised in the statement of profit or loss. A revaluation deficit is recognised in the statement of profit or loss, except to the extent that it offsets an existing surplus on the same asset recognised in the revaluation reserve.

Cost of repairs and maintenance are charged to the statement of profit or loss and other comprehensive income during the period in which they are incurred.

(e) De-recognition

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit or loss and other comprehensive income in the year the asset is derecognised.

2.3.7 LEASES

Lease Rentals Paid in Advance

Asia Siyaka Warehousing (Private) Limited has entered into a 50-year Lease Agreement commencing from 22 June 1999 with the Sri Lanka Land Reclamation and Development Corporation to lease a land in Muthurajawela for a total lease rent of Rs. 47,000, 000/-.

Lease rentals paid in advance to acquire 'land use rights' are amortized over the lease term in accordance with the pattern of benefits provided.

The Company / Group as a lessee

The Entity applies a single recognition and measurement approach for all leases. The Entity recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

(a) Right-of-use assets

The Entity recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date (Lease Rentals Paid in Advance) less any lease incentives received.

Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets, as follows:

Head Office Premises	6 years
Sample Room	4 - 6 years
Warehouse premises	5 years
Motor Vehicle	5 years
Lease Rentals Paid in Advance to acquire Lease Hold Land Rights	30 years

If ownership of the leased asset transfers to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The right-of-use assets are also subject to impairment. Refer to the accounting policies in section 2.3.5- Impairment of non-financial assets.

(b) Lease liabilities

At the commencement date of the lease, the Group recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognized as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset. (Refer Note 06).

2.3.8 INVESTMENT PROPERTIES

Investment properties are measured initially at cost, including transaction costs. Subsequent to the initial recognition investment properties are stated at cost less accumulated impairment losses, if any.

2.3.9 INTANGIBLE ASSETS

Basis of Recognition

An intangible asset is recognised if it is probable that the future economic benefits associated with the asset will flow to the Group and the cost of the asset can be reliably measured.

Basis of Measurement

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and any accumulated impairment losses. Internally generated intangible assets, excluding capitalised development costs, are not capitalised, and expenditure is charged against statement of profit or loss and other comprehensive income in the year in which the expenditure is incurred.

Useful Economic Lives, Amortization and Impairment

The useful lives of intangible assets are assessed as either finite or indefinite lives. Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life is reviewed at least at each financial year end and such changes are treated as accounting estimate changes. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit or loss and other comprehensive income. Intangible assets with indefinite useful lives are not amortized but tested for impairment annually, or more frequently when an indication of impairment exists either individually or at the cash generating unit level. The useful life of an intangible asset with an indefinite life is reviewed annually to determine whether indefinite life assessment continues to be supportable. If not, the change in the useful life assessment from indefinite to finite is made on a prospective basis.

The estimated useful life of asset is as follows:

Asset	Years
Software	2

Disposal Gains and Losses

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit or loss and other comprehensive income when the asset is derecognised.

2.3.10 INVESTMENT IN SUBSIDIARIES

Investment in Subsidiaries are initially recognised at cost in the Financial Statements of the Company. Following initial recognition, investment in subsidiaries are carried at cost less any accumulated impairment losses.

2.3.11 FINANCIAL INSTRUMENTS – INITIAL RECOGNITION AND SUBSEQUENT MEASUREMENT

Financial Assets

a) Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income (OCI), and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient, the Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under SLFRS 15.

NOTES TO THE FINANCIAL STATEMENTS

In order for a financial asset to be classified and measured at amortised cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

b) Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories;

- Financial assets at amortised cost (debt instruments)
- Financial assets at fair value through OCI with recycling of cumulative gains and losses (debt instruments)
- Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)
- Financial assets at fair value through profit or loss

c) Financial assets at amortised cost (debt instruments)

This category is the most relevant to the Group. The Group measures financial assets at amortised cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows, and

- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding

Financial assets at amortised cost are subsequently measured using the effective interest (EIR) method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

The Group's financial assets at amortised cost includes trade receivables, loans and advances, short term investments and cash and cash equivalents included under other financial assets.

d) Derecognition

Financial asset is derecognised when:

- The rights to receive cash flows from the asset have expired.
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either

(a) The Group has transferred substantially all the risks and rewards of the asset, or

(b) The Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, and has neither transferred nor retained substantially all of the risks and rewards of the asset nor transferred control of it, the asset is recognised to the extent of the Group's continuing involvement in it.

e) Impairment of Financial Assets

The Group recognises an allowance for Expected Credit Losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects

to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12 months (a 12 month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For Loans and advances collectively assessed for impairment, the Group applies a simplified approach in calculating ECLs. Therefore, the Group do not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has established a matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

The matrix is initially based on the Group's historical observed default rates. The Group will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. For instance, if forecast economic conditions are expected to deteriorate over the next year which can lead to an increased number of defaults, the historical default rates are adjusted. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future. The information about the ECLs on the Group's loans and advances is disclosed in Note 12.

Financial Liabilities

a) Initial Recognition and Measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings, carried at amortised cost. This includes directly attributable transaction costs.

The Group's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts.

b) Subsequent Measurement

The measurement of financial liabilities depends on their classification as follows:

Loans and Borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the Statement of Profit or Loss. This category generally applies to interest bearing loans and borrowings.

c) Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expired.

d) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Consolidated Statement of Financial Position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

Fair Value of Financial Instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (un-adjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the company determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period. The company determines the policies and procedures for both recurring fair value measurement, such as buildings on leasehold lands and storage systems and for non-recurring measurement. External valuers are involved for valuation of significant assets, such as buildings on leasehold lands and storage systems. Selection criteria for external valuers include market knowledge, reputation, independence and whether professional standards are maintained.

2.3.12 TRADE AND OTHER RECEIVABLES

Trade debtors, including amounts owing by subsidiaries, deposits and other debtors (excluding non-financial assets classified under deposits and other receivables which are measured at cost) classified and accounted for as loans and receivables.

2.3.13 CASH AND CASH EQUIVALENTS

Cash and cash equivalents are cash at bank and in hand, demand deposits and short term highly liquid investments readily convertible to known amounts of cash and subject to insignificant risk of changes in value.

NOTES TO THE FINANCIAL STATEMENTS

For the purpose of statement of cash flows, cash and cash equivalents consist of cash in hand, cash at bank, deposits in banks net of outstanding bank overdrafts. Investments with short maturities (i.e. three months or less from date of acquisition) are also treated as cash equivalents.

2.3.14 PROVISIONS

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, where it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Group expects some or all of a provision to be reimbursed, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the statement of profit or loss and other comprehensive income net of any reimbursement.

If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as an interest expense.

2.3.15 RETIREMENT BENEFIT OBLIGATIONS

(a) Defined Benefit Plan – Gratuity

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The defined benefit is calculated by independent actuaries using Projected Unit Credit (PUC) method as recommended by LKAS 19 – “Employee benefits”. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related liability. However, under the Payment of Gratuity Act No.12 of 1983, the liability to an employee arises only on completion of 5 years of continued service.

The present value of the defined benefit obligations depends on a number of factors that are determined on an actuarial basis using a number of assumptions about discount rate, staff turnover rate, future salary increment rate and mortality rates. Due to the long-term nature of these plans, such estimates are subject to significant uncertainty. All assumptions are reviewed at each reporting date. Details of the key assumptions used in the estimates are contained in Note 16.4.

Accordingly, the employee benefit liability is based on the actuarial valuation as of 31 March 2025, carried out by Messrs. Actuarial and Management Consultants (Private) Limited, actuaries.

Funding Arrangements

The Gratuity liability is not externally funded.

(b) Defined Contribution Plans-

Employees are eligible for Provident Fund Contributions and Trust Fund Contributions in line with respective statutes and regulations. These are recognized as an expense in the statement of profit or loss and other comprehensive income as incurred.

The Group contributes 12% of gross emoluments of the employees to Employees' Provident Fund, Estate Supplier's Provident Society, Ceylon Planters' Provident Society and 3% of gross emoluments of the employees to Employees' Trust Fund.

2.3.16 REVENUE RECOGNITION

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services.

In determining the transaction price for the revenue contracts, the Group considers the effects of variable consideration, the existence of significant financing components, non-cash consideration, and consideration to the customer (if any).

2.3.16.1 Principal Versus Agent Considerations

In determining whether the Group is the principal or the agent pertaining to certain revenue contracts the Group has evaluated who has control over the goods before transferring it to the customer;

The following factors were also considered;

- The primary responsibility for fulfilling the promise to provide the specified goods or the service.
- Inventory risk before or after the specified goods has been transferred to the customer
- The discretion in establishing the price for the specified good or service

Based on the above factors the Group concluded that it does not have the control over the goods or services on broking before transferring it to the customer, it will recognise revenue on the contract on net basis.

a) Brokerage Income

Brokerage income is recognised on net basis on the date of the auction. The settlement terms are generally within 07 days.

b) Warehousing Income

Handling income is recognised on net basis as an agent on the date of the auction and the handling income from third parties is recognised on net basis. Settlement terms are generally within 07 - 60 days.

c) Sale of Goods

The Company is engaged in the business of importing, blending, and marketing of fertiliser products, formulating and marketing of chemicals, producing, trading, and marketing of seeds, planting materials and other grains, import and trading Agri machineries and in exporting agriculturally based products.

The Company shall recognise revenue when (or as) the entity satisfies a performance obligation by transferring promised good to a customer. An asset is transferred when (or as) the customer obtains control of that asset.

d) Interest Income

For all financial instruments measured at amortised cost and interest-bearing financial assets classified as available for sale, interest income or expense is recorded using the Effective Interest Rate (EIR), which is the rate that exactly discounts the estimated future cash payments or receipts through the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset.

Interest income is included in revenue and finance income in the statement of profit or loss and other comprehensive income. Advance settlement terms are generally within 04 weeks.

e) Rent Income

Rent income is recognised on accrual basis.

f) Others

Other income is recognised on accrual basis.

Net gains and losses of a revenue nature resulting from the disposal of property, plant & equipment have been accounted for in the statement of profit or loss.

Gains and losses arising from incidental activities to main revenue generating activities and those arising from a group of similar transactions are not material, are aggregated, reported and presented on net basis.

g) Dividend Income

Dividend income is recognised when the Group's right to receive the payment is established.

h) Solar Power Income

Solar Power Income is recognized on an accrual basis.

2.3.17 SEGMENT INFORMATION**2.3.17.1 Reporting Segments**

The group's internal organisation and management is structured based on individual products and services which are similar in nature and process and where the risk and return are similar. The primary segments represent this business structure. Since the individual segments are located close to each other and operate in the same industry environment, catering to clientele from the same geographical location, the need for geographical segmentation does not arise.

2.3.17.2 Segment Information

Segment information has been prepared in conformity with the accounting policies adopted for preparing and presenting the consolidated financial statements of the group. An individual segment manager is determined for each operating segment and the results are regularly reviewed by the Board of Directors. The Board of Directors monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss which in certain respects, as explained in the operating segments information, is measured differently from operating profit or loss in the consolidated financial statements.

2.4 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

The new and amended standards and interpretations that are issued up to the date of issuance of the Company's financial statements but are not effective for the current annual reporting period, are disclosed below. The Company intends to adopt these new and amended standards and interpretations, if applicable, when they become effective

LACK OF EXCHANGE ABILITY – AMENDMENTS TO LKAS 21

The amendments specify how an entity should assess whether a currency is exchangeable and how it should determine a spot exchange rate when exchangeability is lacking.

The amendments also require disclosure of information that enables users of its financial statements to understand how the currency not being exchangeable into the other currency affects, or is expected to affect, the entity's financial performance, financial position and cash flows.

The amendments will be effective for annual reporting periods beginning on or after 01 January 2025. Early adoption is permitted but will need to be disclosed. When applying the amendments, an entity cannot restate comparative information.

3.6 Property, Plant and Equipment includes fully depreciated assets still in use having a gross carrying amount of Rs.164,164,163/- (2024 - Rs. 120,174,699/-).

GROUP

3.7 NON-FINANCIAL ASSETS FAIR VALUE HIERARCHY

As at 31 March		Fair value measurement using		
		Quoted Prices in active market (level 1)	Significant observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Assets Measured at Fair Value	Valuation Date			
Buildings on Leasehold Land	3/31/23	-	-	926,710,000
Storage System	3/31/23	-	-	235,100,000

NOTES TO THE FINANCIAL STATEMENTS

3.8 In determining the fair value, highest and best use of the property has been considered including the current condition of the properties, future usability and associated redevelopment requirements have been considered. Also the valuers have made reference to market evidence of the transaction prices for similar properties, with appropriate adjustments for the size and location.

The fair value of the Group's Buildings on Leasehold Land and Storage System were determined by means of a revaluation during the financial year 2022/2023 by Mr. A.R. Ajith Fernando, an independent valuer based on depreciated replacement cost. The results of such revaluation were incorporated in these Financial Statements from its effective date which is 31 March 2023. The surplus arising from the revaluation was transferred to a revaluation reserve.

Mr. A.R. Ajith Fernando inspected the above assets on 01 April 2025 and confirmed that the fair value of these assets are not materially different to market value reported on 31 March 2023.

There have been no transfers between Level 1 and Level 2 during the year.

3.9 DETAILS OF GROUP'S BUILDING ON LEASEHOLD LANDS AND STORAGE SYSTEM STATED AT VALUATION ARE INDICATED BELOW;

Non Financial Assets	Valuation Technique	Property Valuer	Significant Unobservable Inputs	Estimates for Unobservable Inputs	Level of Fair Value Hierarchy	Sensitivity of Fair Value to Unobservable Inputs
Buildings on Leasehold Land	Depreciated Replacement Cost	A.R. Ajith Fernando MRICS Chartered Valuation Surveyor	Price per Sq.ft	Rs. 750/- to Rs. 9,000/- per Sq.ft @ Dep. Rate of 3.33%	Level - 03	Positively Correlated Sensitivity
Storage System	Depreciated Replacement Cost	A.R. Ajith Fernando MRICS Chartered Valuation Surveyor	Pallet Locations	Rs. 4,850/- to Rs. 7,650/- per Pallet Location @ Dep. Rate of 6.67%	Level - 03	Positively Correlated Sensitivity

3.10 The carrying amount of revalued assets that would have been included in the Financial Statements had the assets been carried at cost less depreciation is as follows:

Class of Asset	Cost	Cumulative Depreciation if Assets were carried at cost	Net Carrying Amount 2025	Net Carrying Amount 2024
Buildings on Leasehold Land	501,752,366	170,200,087	331,552,279	345,060,781
Storage System	150,619,296	81,086,189	69,533,107	78,198,071
	652,371,662	251,286,277	401,085,386	423,258,852

Balance as at 31 March 2024	38,833,463	-	38,833,463
Balance as at 31 March 2025	48,866,131	-	48,866,131

6.2 LEASE LIABILITY

The lease liability is initially measured at the present value of the lease payments, discounted using the interest rate implicit in the lease or, if that rate can not be readily determined, the Group's incremental borrowing rate. The movement of Lease creditor for the year is as follows;

6.2.1 AMOUNTS RECOGNISED IN THE STATEMENT OF FINANCIAL POSITION AND INCOME STATEMENT

	Group		Company	
	2025	2024	2025	2024
	Rs.	Rs.	Rs.	Rs.
Balance as at 01.04.2024	35,350,412	2,117,669	43,050,712	11,729,370
Additions	125,668,525	38,037,090	18,537,903	38,037,090
Interest Expense Recognised in Profit or Loss	6,930,004	5,580,805	8,683,873	7,909,825
Realization of Liability	(26,975,510)	(10,385,152)	(17,995,256)	(14,625,573)
Balance as at 31.03.2025	140,973,432	35,350,412	52,277,232	43,050,712
Lease Liability/Lease Creditor				
Amount repayable within 1 year	34,148,798	5,146,526	10,935,969	7,638,810
Amount repayable after 1 year	106,824,634	30,203,886	41,341,264	35,411,902

6.2.1.1 The maturity analysis of Lease Liabilities are disclosed in Note 34.

6.2.1.2 The Group and the Company had total cash outflows for leases of Rs. 26,975,510/- and Rs. 17,995,256/- respectively in 24/25.

6.3 THE AMOUNTS RECOGNIZED IN PROFIT OR LOSS

	Group		Company	
	2025	2024	2025	2024
	Rs.	Rs.	Rs.	Rs.
Amortization Expense of Right of Use Assets	6,844,460	8,719,599	8,505,235	10,380,374
Interest Expense Recognised in Profit or Loss	6,930,004	5,580,805	8,683,873	7,909,825

7. INVESTMENT PROPERTY

	Acre. of Land		Group / Company

29. SEGMENTAL INFORMATION AND REVENUE

Primary Reporting Format - Business Segments

As at 31 March 2025, the qualifying segments under business segment reporting are as follows;

- Commodity Brokering
- Warehousing
- Agriculture Business

The following tables present revenue and profit and certain asset and liability information regarding the Group's Business Segments:

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss and is measured consistently with operating profit or loss in the consolidated financial statements.

- (vi) Mr. D.J. Wedande who is a Director of the Company provides consultancy services to the company. During the year the Company paid Rs. 10,647,352/- as consultancy fees.

NOTES TO THE FINANCIAL STATEMENTS

34. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial liabilities comprise interest bearing loans and borrowings and trade and other payables. The main purpose of these financial liabilities is to finance the Group's operations. The Group has trade and other receivables, and cash and short-term deposits that arrive directly from its operations.

The Group is exposed to market risk, credit risk and liquidity risk.

The senior management of the Group oversees the management of these risks. The senior management of the Group determine on financial risks and the appropriate financial risk governance framework for the Group. The financial risk-taking activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with Group policies and risk appetite.

The Board of Directors reviews and agrees policies for managing each of these risks which are summarized below.

MARKET RISK

INTEREST RATE RISK

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's long term debt and short term borrowings with floating interest rates. The Group manages its risk by striking a balance between long term and short term debts. The Group has easy access to funds at competitive interest rates.

INTEREST RATE SENSITIVITY

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of the long term and short term borrowings. With all other variables held constant, the Group's profit before tax is affected through the impact on floating rate borrowings as follows;

	Group		Company	
	Change in Basis Points	Change in Profit before Tax Rs.	Change in Basis Points	Change in Profit before Tax Rs.
2025	300 (3%)	26,897,579	300 (3%)	26,580,000
2024	300 (3%)	26,897,579	300 (3%)	26,580,000

EQUITY PRICE RISK

The Group's listed equity securities are susceptible to market price risk arising from uncertainties about the future values of the investments securities.

CREDIT RISK

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities (primarily for Trade receivables, Loans and advances) and from its financing activities, including deposits with banks.

TRADE RECEIVABLES

Customer credit risk is managed in accordance with the Group's established policy, procedures and control relating to customer credit risk management. Individual credit limits are defined in accordance with the prior experience with the customers. Outstanding customer receivables are regularly monitored. The requirement for an impairment is analyzed at each reporting date on an individual basis for major clients. Additionally, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The calculation is based on expected credit loss. Hence the Group evaluate the concentration of risk with respect to trade receivable as low.

The maximum exposure to credit risk at the reporting date is the carrying value of Trade and other receivables, Loans and advances and Cash and cash equivalents disclosed in Note 11, 12 and 14 respectively.

LIQUIDITY RISK

The table below summarizes the maturity profile of the Group's financial liabilities based on contractual undiscounted payments.

CAPITAL MANAGEMENT

Capital includes equity attributable to the equity holders of the parent. The primary objective of the Group's capital management is to ensure that it maintains healthy capital ratios in order to support its business and maximize shareholder value. The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions. The Group has long term debt in its capital structure amounting to Rs. Nil. (2024 - Rs. 10 Mn).

No changes were made in the objectives, policies or processes for managing capital during the years ended 31 March 2025 and 31 March 2024.

35. RECLASSIFICATION OF COMPARATIVES

The staff loan granted balance which was included under Other Receivables, Prepayments and Advances has been reclassified under Other Financial Assets for better presentation purpose.

NOTICE OF MEETING

NOTICE IS HEREBY GIVEN that the Thirteenth (13th) Annual General Meeting of Asia Siyaka Commodities PLC will be held at the Auditorium of the Ceylon Chamber of Commerce No.50, Nawam Mawatha, Colombo 2 on 23rd September 2025 at 9.30 a.m. for the following purposes:

1. ORDINARY BUSINESS

- 1.1 To receive and adopt the Statements of Accounts of the Company and of the Group for the year ended 31st March 2025 together with the Reports of the Directors and Auditors thereon.
- 1.2 To re-elect Mr. J N Dambawinne who retires by rotation pursuant to the provisions of Article 87(i) of the Articles of Association of the Company, as a Director.
- 1.3 To re-appoint Messers Ernst & Young, Chartered Accountants, as the Auditors of the Company and to authorize the Directors to determine their remuneration.
- 1.4 To authorize the Directors to determine donations for the year ending 31st March 2026 and up to the date of the next Annual General Meeting.

2. SPECIAL BUSINESS

To consider and, if thought fit, to pass the following Special Resolution to amend the Articles of Association of the Company:

"IT IS HEREBY RESOLVED THAT the Articles of Association of the Company be amended:

- (1) by the deletion of Article 57 under the heading "Resolution in lieu of Meeting" in its entirety and the substitution therefor of the following new Article 57;

57. (1) A General Meeting of shareholders may be held -

- (i) by a number of shareholders who constitute a quorum, being assembled together at the place, date, and time appointed for the meeting; (hereinafter sometimes referred to as the Physical General Meeting); or
- (ii) by means of audio, or audio and visual communication by which all shareholders participating and constituting a quorum can simultaneously hear each other throughout the meeting (hereinafter sometimes referred to as Electronic General Meeting); or
- (iii) by a meeting held both physically and electronically (called Hybrid General Meeting); or
- (iv) by means of a resolution in writing signed by not less than Eighty-Five per centum (85%) of the Shareholders who would be entitled to vote on a resolution at a meeting of Shareholders, who together hold not less than Eighty-Five per centum (85%) of the votes entitled to be cast on that resolution.

- (2) The Board shall determine whether a General Meeting is to be held as a Physical General Meeting as referred to in 58(1)(i) or held as an Electronic General Meeting as referred to in 58(1)(ii) or held as a Hybrid General Meeting, both physically and electronically, as referred to in 58(1)(iii) or by a Resolution in writing as referred to in 58(1)(iv).

- (3) The Board shall specify in the notice calling the General Meeting whether the meeting will be physical or electronic or hybrid or by a Resolution in writing. Such notice shall also specify (as applicable) the time, date, and place and/or electronic platform(s) of the General Meeting, as it is determined.

- (4) (i) When conducting an Electronic General Meeting, the Board shall enable persons to simultaneously attend by electronic means, with no shareholder necessarily in physical attendance at the Electronic General Meeting. The shareholders or their proxies present shall be counted in the quorum for, and entitled to vote at, the General Meeting in question.

(ii) If it appears to the Chairman of the General Meeting that the electronic platform(s), facilities, or security at the Electronic General Meeting have become inadequate for the purposes referred to herein then the Chairman may, without the consent of the meeting, interrupt to resolve such inadequacy where possible or adjourn the General Meeting. All business conducted at that General Meeting up to the time of that adjournment shall be valid and the provisions of Article 62 shall apply to that adjournment.

- (iii) In relation to an Electronic General Meeting, the right of a shareholder to participate in the business of any General Meeting shall include, without limitation, the right to speak, vote on a poll, be represented by a proxy, and have access (including electronic access) to all documents which are required by the Act or these Articles to be made available for/at the meeting."

- (2) by the deletion of the word and figure "three" in Article 79 of the Articles of Association and the substitution therefor of "five (5)";

- (3) by the deletion of Articles 120-124 under the existing heading, 'Alternate Directors' in its entirety and the substitution therefor of the following new Article 120;

120. (i) Subject to the Statutes and other laws applicable in respect of the composition of the Board, a Director may, due to exceptional circumstances, by notice in writing under his hand delivered to the Secretary, nominate an individual to be appointed as an Alternate Director of the Company for a maximum period of one (1) year from the date of appointment to attend to the duties of the Director in his absence, and the following provisions of these Articles shall apply to any person so appointed.

- (ii) If an Alternate Director is appointed for a Non-Executive Director, such Alternate Director shall not be an executive of the Company.
- (iii) If an Alternate Director is appointed to represent an Independent Non-Executive Director, such Alternate Director shall meet the criteria for independence specified in the Listing Rules of the Colombo Stock Exchange.
- (iv) The appointment of an Alternate Director shall be subject to the approval of the Board."
- (4) by the re-numbering of the existing Articles 125-166 as Article 121-162 respectively, and any cross references in the said Articles 125-166 to be accordingly re-numbered based on the re-numbering of Articles 125-166 as Articles 121-162.
- (5) by the inclusion of following paragraph at the end of the re-numbered Article 156;
"The Company may serve notice by electronic mail to an electronic mail account notified by a shareholder in writing or any other acceptable means, to the Company or to the Central Depository Systems (Pvt) Ltd. Where electronic mail is used, the document or notice shall be deemed to have been received by the shareholder upon the dispatch of same by the Company through electronic mail."
- (6) by the inclusion of the following paragraph immediately after the word "newspapers" in the re-numbered Article 157;
"The Company may if so permitted by Statute, publish any notice required to be given to the shareholders on the official website of the Company and/or on the official website of the Colombo Stock Exchange (so long as the Company is listed on the Colombo Stock Exchange)."

By order of the Board
