Our story

C T Holdings PLC, formerly known as Ceylon Theatres Limited, was incorporated in 1928 with its roots in cinema, movie production, and the broader entertainment industry. The company owned and operated a network of iconic cinemas across the country, including landmark locations such as Regal Colombo, Empire, and Majestic. In 1956, it made a pioneering move by establishing Ceylon Studios Ltd-the country's first film production and processing facility-laying the foundation for the development of local filmmaking expertise.

Though its first production, Asokamala, met with limited success, the company soon went on to produce several acclaimed films such as Golu Hadawatha, Akkara Paha, and Sakman Maluwa. The film Nidhanaya was later recognized as the best Sri Lankan film produced in the past 50 years.

In anticipation of structural changes in the film industry during the 1970s and 1980s, the Company began to diversify into other areas of business, notably, consolidating its interest in Millers Limited and Cargills (Ceylon) Ltd. (now Cargills (Ceylon) PLC). Millers Limited was subsequently merged with CT Holdings PLC in 2008.

A defining milestone in the Group's history came in 1983, when Cargills transitioned from the traditional Department Store model to launch Sri Lanka's first modern supermarket-Cargills Food City-at Staple Street, Colombo. This strategic shift marked a turning point not only for Cargills but for the entire CT Holdings Group. It laid the foundation for Cargills to become the largest modern retailer in Sri Lanka, serving customers across all districts and emerging as the principal growth engine of the Group.

Building on this momentum, Cargills ventured into Food Processing (FMCG) in 1993 by acquiring a convenience food processing facility and expanded into the Restaurant sector in 1996 after obtaining the local franchise of the globally renowned Kentucky Fried Chicken (KFC). Over the years, Cargills has strengthened its presence in the FMCG space, expanding into dairy, fruit-based beverages, culinary foods, as well as entering the confectionery segment. These investments have positioned Cargills as a leading FMCG company in Sri Lanka. In 2013, the Group further expanded its portfolio by establishing a fully-fledged commercial bank under the name Cargills Bank. The Group also operates the Cargills Square shopping and entertainment malls and established the first shopping mall in Sri Lanka in 1991, the Majestic City shopping complex, through the subsidiary CT Land Development PLC.

Today, C T Holdings PLC stands as a diversified conglomerate with interests across Retail, FMCG, Restaurants, Real Estate, Cinema, Hospitality, and Banking & Financial Services - driven in large part by the transformational role and continued leadership of its flagship subsidiary, Cargills.

Milestones

1928	1981	1983	1991	1992	1993
Ceylon Theatres Limited was established, focusing primarily on the cinema & entertainment industry.	Ceylon Theatres acquired Millers and Cargills. Late Mr. Albert A Page was appointed Chairman and Managing Director.	Cargills ventured into retail and supermarkets, with the opening of the first Food City at Staple Street, which would later go on to revolutionize the retail industry in Sri Lanka.	Completed the Majestic City shopping and entertainment mall through C T Land Development PLC.	Entered the financial services sector through C T Smith Stockbrokers.	Cargills diversified into food processing with the acquisition of the Ceylon Meat Products business, a modern meat processing plant, and launched the Goldi brand.

2009	2010	2013	2014	2017	2018
C T Properties Limited completed its flagship 'Empire' residential development project.	Cargills acquired controlling interest in Kotmale Holdings PLC. Cargills also acquired a biscuits manufacturing plant and the Knuckles Water Bottling plant. Name of Ceylon Theatres changed to C T Holdings PLC.	Cargills obtained the TGI Fridays Franchise and set up the first restaurant in Colombo. The KIST Kilinochchi plant was declared open, creating numerous market opportunities to entrepreneurs and farmers in the North. It was the largest investment in the Northern Province at that time	The Group received the license to set up the Cargills Bank, which was set up with a vision to improve financial inclusion in Sri Lanka by leveraging the strength of the Cargills brand and its vast ecosystem. The first Cargills Square Mall was opened in Jaffna.	Cargills commissioned the expanded Banduragoda dairy facility. The 2nd Cargills Square mall was opened in Gampaha.	The Cargills Foundation was set up. Regal Cinema in Nuwara Eliya was fully refurbished and re-opened.

1996	1999	2002	2005	2006	2008
Cargills obtained the KFC franchise in Sri Lanka and opened the first KFC restaurant in 1997	Cargills established the first fresh produce collection center in Hanguranketha, thus setting up the Cargills farmer outgrower model, which would be a turning point for the entire Group, transforming the philosophy to one which focuses on community development and sustainable business operations	Cargills acquired the Walls Ice Cream plant and converted it into a leading dairy ice cream facility. Cargills started the dairy farmer outgrower model, supplementing the agriculture outgrower model started in 1999. Cargills acquired the KIST processing plant, a production facility for jams, cordials and sauces. Subsequently Cargills launched a new range of fruit nectars under the KIST brand.	Cargills established the Albert A. Page Institute, the training institute of the Group, with a vision to professionalize the food industry.	Cargills commissioned its new state-of-the art meat processing facility in Ja-ela.	Ceylon Theatres merged with its subsidiary Millers PLC to create an investment holding Company. Cinema exhibition operation transferred to a wholly owned subsidiary; Ceylon Theatres (Private) Limited.

2019	2020	2022	2023	2024
Cargills Food Hall was opened, bringing Sri Lanka’s first gourmet supermarket experience. Cargills also launched the Kotmale Cheese processing plant in Hatton.	Cargills Online was launched amidst the COVID19 pandemic.	The 500th Cargills Food City was declared open.	Launch of the state-of the-art Cargills Distribution Centre in Katana. Two Cargills Square malls were opened in Katubedda & Bandarawela.	The Cargills Bank made its initial public offering (IPO) at the Colombo Stock Exchange. Cargills opened the 2nd convenience food processing facility in Ja-ela, adjacent to the existing plant.

Our Businesses at a glance

Retail

The retail sector of the Group functions under Cargills (Ceylon) PLC. The modern trade arm covers all districts of the island through its iconic brand Cargills Food City and is the market leader in Sri Lanka's supermarket sector. Operational Spotlight

Chairman's Message

Dear shareholder,

I am pleased to share the Annual Report and Financial Statements of CT Holdings PLC for the year ended 31st March 2025.

The past year saw many significant changes in our country. Most notably, we have seen encouraging progress in the country's economic recovery -widely acknowledged as a story of remarkable resilience. While macroeconomic indicators point toward growing stability and renewed optimism, it is imperative that all stakeholders remain vigilant, as Sri Lanka's debt position still makes the economy extremely fragile and sensitive to external shocks.

During the year, Sri Lanka successfully concluded its debt restructuring program, enabling the country to exit default status and regain international creditworthiness. 2024 was also a year of elections for Sri Lanka. Following the elections and the strong mandate received by the new NPP government, there is renewed hope that Sri Lanka will now move decisively toward a future grounded in rule of law, accountability, and transparency. We are also encouraged by the new Government's commitment to the IMF program, which is paramount to Sri Lanka's recovery process. In our view, global economic conditions and geopolitical risks pose the greatest external threats to Sri Lanka's outlook, provided the country remains on course in terms of fiscal discipline and its commitment to structural economic reforms.

CT Holdings remains committed to nation building, which is reflected in the significant investments the Group has made in the recent years despite

economic, political and health crises which impacted the country. These investments reflect our unwavering belief in Sri Lanka's long-term potential, confidence in our management team, and the opportunities we see in the sectors we operate in. We are equally proud of our ongoing contribution to rural livelihoods.

Business performance

During the year under review, the Group recorded a revenue of Rs. 243 Bn, an 8.0% year-over-year (YoY) increase. EBITDA increased to Rs. 22.0 Bn, recording a growth of 9.1% from the previous year. Profit After Tax (PAT) was Rs. 7.3 Bn, marking a 15.6% YoY increase. PAT improved on account of volume led topline growth, cost optimisation measures, lower overheads mainly arising from downward revisions to the electricity tariffs, and lower interest costs. The Group's net debt remained steady, and our ability to service the debt remains healthy, supported by strong operating cash flows.

Looking ahead

With improved consumer sentiment and growing optimism across the economy, we will continue to make focused investments to extend our reach, get closer to our consumers, and further strengthen our brands-many of which are now leaders in their categories.

Capital investments will focus predominantly on the expansion of our retail stores, restaurants, and the renovations to the Majestic City shopping complex. The renovations at Majestic City will include re-zoning, upgrading of the facilities, and the introduction of new features to the mall including the Majestic cinema.

Dividend

The Group declared an interim dividend of Rs. 4.00 per share for the reporting period, paid on 18 November 2024. This represents an increase from the interim dividend of Rs. 3.50 per share in the previous financial year. Subsequent to the reporting period, the Board of Directors proposed a second interim dividend of Rs. 10.00 per share for the reporting period, which was paid on 18 June 2025, up from the second and final dividend of Rs. 8.50 per share in the previous financial year.

Appreciation

It is with a deep sense of sadness that I record the passing of our former Chairman Emeritus - Mr. Anthony A Page, fondly known to all as Baba. Anthony succeeded our late father, Mr Albert Page, who himself succeeded Sir Chittampalam A Gardiner - the founder of CT Holdings PLC, then known as Ceylon Theatres Limited. They all shared a powerful vision: for the group to be an association dedicated to the welfare of its descendants, employees, shareholders, partners, and society at large.

Anthony joined Ceylon Theatres in 1971, at a time when significant challenges loomed over the local film industry. In 1972, with the establishment of the State Film Corporation, the state progressively took over the import and distribution of films. This left Ceylon Theatres - the pioneer in Sri Lanka's film industry - and its associate Ceylon Studios, then in partnership with Mr K. Gunaratnam, as exhibitors only. Following this nationalisation, the industry declined significantly until a limited liberalisation emerged in the early 2000s.

Anthony was a steadfast advocate for the liberalisation of the film industry - guided by appropriate censorship - and encouraged the production of quality Sinhala cinema. Today, we are beginning to see a meaningful improvement in the standards of local films. In keeping with the vision of our late chairman, it is our intention to actively contribute to the revitalisation of the local film industry.

In 1980, Ceylon Theatres made a strategic decision to re-establish its majority shareholding in Millers Limited and Cargills (Ceylon) PLC. Following this, Anthony was appointed Executive Director of Ceylon Theatres in 1981, and subsequently Executive Director of Millers and Director of Cargills. In 1984, he became Managing Director of Ceylon Theatres, and in 2000, was appointed Chairman of the group. In 2014, he was named Chairman Emeritus.

Throughout his career at CT Holdings, Anthony was a pillar of strength to the Board of Directors, and a source of guidance and mentorship to many. His quiet resolve, strategic insight, and enduring commitment to the group and its people have left an indelible mark on our legacy.

I am certain Anthony would echo my heartfelt appreciation to every member of the group-past and present-for their dedication and service to our shared purpose. To our shareholders who continue to support the vision of our patriarch, Mr Albert Page, we reaffirm our

commitment: the group will continue to be led by the best executive talent, guided always by meritocracy-an ideal Anthony deeply believed in.

In conclusion, I wish to express my appreciation to our team, customers, valued partners, and my colleagues on the Board. Your trust and support have been integral for our growth and success. Mr. Asite Talwatte and Ms. Cecilia Page have informed the Board that they will not be seeking re-election at the upcoming Annual General Meeting. On behalf of the Board, I extend our heartfelt thanks for their service and valued contributions to CT Holdings PLC over the years. I would also like to place on record our appreciation to Mr. J. B. L. De Silva and Mr. Priya Edirisinghe, who stepped down from the Board in August 2024. We thank them for their guidance and contributions to the Group. A special note of gratitude is due to Mr. Priya Edirisinghe, who has been an integral part of our Group since 1994, serving with distinction in various capacities over a remarkable three-decade-long tenure. His wisdom, integrity, and commitment have left a lasting mark on the organization.

(Signed)
Louis Page
Chairman
27 June 2025

Profile of Directors

LOUIS PAGE

Chairman, Non-Executive Director

Appointed to the Board on 29 November 1982

Expertise & Qualifications

Mr. Louis Page is a distinguished corporate leader with extensive experience in accounting, management, and corporate strategy. He is a Fellow Member of the Institute of Chartered Accountants of Sri Lanka and a Fellow Member of the Chartered Institute of Management Accountants (UK). Over the course of his career, he has held a number of senior leadership and board positions in prominent overseas public companies and public institutions.

Current Appointments

CT Holdings PLC - Independent, Non-Executive Director

Managing Director’s Statement

Operating Environment & Economic Overview

The Sri Lankan economy recorded a growth rate of 5% in 2024, marking a welcome recovery following two consecutive years of contraction in the wake of the 2022 economic crisis. Consumer demand-accounting for more than two-thirds of GDP-gathered momentum throughout the year, underpinned by stabilised price levels, reductions in utility and energy tariffs, lower interest rates, and improving consumer confidence. Economic indicators showed marked improvement across the board, signalling that the country is gradually moving in the right direction. Notably, stronger inflows from tourism and worker remittances bolstered foreign exchange reserves-critical sources of income to meet debt obligations and support imports. The new government presented its inaugural budget to Parliament in February 2025, reaffirming its commitment to fiscal consolidation. The budget outlined several reforms aimed at enhancing revenue collection and curbing unproductive public expenditure, signalling a more disciplined approach to economic management.

A notable deflationary trend emerged from September 2024 and continued into April 2025, largely due to high base effects, supporting a steady recovery in demand. The Central Bank of Sri Lanka (CBSL) projects that inflation will stabilise around its medium-term target of 5% during the second half of 2025. However, volatility in the prices of certain essential goods-such as rice, coconuts, and salt-persisted due to intermittent supply constraints. In particular, the price of rice surged owing to limited market availability of paddy. In response, the

government intervened by importing key rice varieties and imposing wholesale and retail price caps to stabilise the market.

A prolonged monsoon and heavy rainfall presented challenges during parts of the year, disrupting trade distribution, dampening consumer demand for certain product categories, and leading to temporary closures of supermarkets and restaurants. While adverse weather conditions also affected the production of some agricultural crops, the overall impact remained limited.

Financial Review

The Group’s performance was driven largely by the Cargills Retail, FMCG, and Restaurant sectors, which contributed over 99% to Group’s turnover and profitability. Though consumer demand is on the ascendancy, as seen in the volume led growth of our retail business, as well as the increase in volumes of our FMCG portfolio and growing transactions in the restaurants, we have not seen the same level of traction in other consumer facing businesses. During the year under review, the Group’s revenue increased 8.0% while EBITDA rose by 9.1%, despite a sizeable impact coming through the introduction of the VAT to the dairy sector, which is discussed in more detail in the Operational Review below. Profit After Tax (PAT) increased by 15.6%. Adjusting for the impact of the revaluation gains on the Group’s investment property during both the reporting period as well as the previous year, the increase in the PAT is 40.3%.

Operational Review

Retail

The Retail sector of the Group, driven by its iconic brand Cargills Food City, continued to deliver strong results with

Segmental Revenue - Retail

Segmental Profit - Retail

Segmental Revenue - FMCG

Segmental Profit - FMCG

Management and Financial Review ... *Contd.*

revenue growing by 9.1%. Same-store sales grew 8.5%, supported by a recovery in consumer confidence and robust footfall. Network expansion continued, bringing the total store count to 543. Operating profit increased by 39% to Rs. 7.4 Bn, while Profit After Tax (PAT) doubled to Rs. 3.3 Bn-reflecting continued cost discipline, energy efficiency measures, and a favourable electricity tariff environment compared to the previous year. Cargills Food City was once again recognised as Supermarket Brand of the Year at the 2025 SLIM-Kantar People's Awards, reaffirming our leadership in value-driven retailing.

The Retail sector remains the single largest contributor to Group profitability, with consistent returns and a proven model for growth and scalability.

FMCG

The FMCG sector delivered a resilient performance across all core categories-including dairy, beverages, convenience foods, culinary products, and confectionery-despite headwinds such as the introduction of the 18% VAT on locally produced dairy products which impacted our entire dairy portfolio.

Our brands retained market leadership in key categories including ice cream, value-added dairy, fruit-based beverages, and processed meats. Strategic portfolio rationalisation, product innovations, and operational efficiencies supported profitability. Similarly, revitalised brand activity-including the relaunch of RIDE and the KIST sparkling fruit beverage range, introduction of halal-certified processed meats under Sara's, and the introduction of Knuckles Water in glass bottles-helped position the portfolio for future growth.

While topline growth was modest due to VAT-related impacts, the sector remains a key engine of earnings and cash generation for the Group, supported by scale, brand equity, and operational integration.

Restaurants

The Restaurants sector posted revenue growth of 13.7%, driven by improved same-store performance and network expansion. Seven new KFC locations were added during the year, bringing the total to 78 restaurants, alongside the continued presence of our TGI Fridays franchise. Margins held firm as raw material prices stabilised and operating efficiencies-including energy cost savings-continued to support the bottom line. Profitability improved, and the sector continues to be a strong contributor to Group returns.

Lower footfall affected certain locations, although overall performance remained resilient. The bankruptcy filing of the TGI Fridays parent company in the U.S. has no bearing on our business, which continues under a fully independent franchise arrangement.

Real Estate

The Group's real estate sector comprises five Cargills Square malls and the Majestic City shopping complex in Colombo. The five Cargills Square malls continue to maintain healthy occupancy levels, with certain sites nearing full occupancy. While these locations are operationally profitable, their overall performance is constrained by borrowing costs associated with the two most recent malls.

Majestic City, operated by listed subsidiary CT Land Development PLC, has been in operation for over three decades. The

Segmental Revenue - Restaurants

Segmental Profit - Restaurants

Segmental Revenue - Real Estate

Segmental Revenue - Entertainment

economic challenges of recent years necessitated rental concessions and led to a decline in occupancy levels to below 75%. In response, a refurbishment of the mall is underway to reposition the mall in line with evolving consumer expectations. This renovation, estimated at Rs. 2.0 billion and funded via bank borrowings, is scheduled for completion by October 2025.

Real estate investments typically involve longer payback periods relative to the Group's main operating sectors. Since the onset of the COVID-19 pandemic, subdued footfall and slow recovery have further extended the time required to recoup investments. Excluding fair value gains on investment properties, the sector has not made a material contribution to Group profitability during the past 5 years. Nonetheless, we remain committed to revitalising this portfolio and enhancing access to modern, affordable retail and entertainment experiences across underserved regions of Sri Lanka.

Entertainment

Ceylon Theatres (Private) Limited operates the Group's entertainment business under the Regal and Majestic brands, with 18 screens across seven locations.

This sector continued to face significant challenges during the year. Occupancy levels remained low, which meant that revenue was insufficient to cover operating costs. This led to a loss of Rs. 28 million for the year, compared to a Rs. 26 million loss in the previous year. A weak pipeline of quality Sinhala and Tamil films contributed to this underperformance, compounded by global shifts in consumer behaviour favouring streaming platforms over traditional cinema. The Group continues to evaluate long-term strategic options for this sector in light of these changing dynamics.

Banking and Capital Markets (Associate Investments)

Cargills Bank PLC delivered a satisfactory performance, marking its third consecutive year of profitability. Profit after tax grew by 48% year-on-year to Rs. 651 million in 2024, supported by capital gains from

treasury bond investments. The Bank's asset base expanded to Rs. 80 billion during the year. Efforts were focused on active management of non-performing loans and strategic portfolio rebalancing. However, the rapid decline in domestic interest rates compressed Net Interest Margins (NIM), as the repricing of longer-tenure deposits lagged behind falling lending rates. Additionally, the macroeconomic environment-amplified by uncertainty ahead of elections-dampened credit demand and constrained lending growth.

Despite these headwinds, the Bank recorded a 14% growth in its loan book and a 17% increase in its deposit base. Capital and liquidity buffers remained strong, with a Total Capital Adequacy Ratio of 22.44% and all liquidity-related ratios comfortably exceeding the Central Bank's minimum thresholds.

Meanwhile, CT CLSA, which provides stockbroking, investment banking, and asset management services, also posted an improved performance during the year.

Performance trend:

Net Revenue by sector (Rs '000)	FY 2020	FY 2021	FY 2022	FY 2023	FY 2024	FY 2025

Management and Financial Review ... *Contd.*

*Includes fair value gains on investment property and after inter-Company consolidation

Sustainability

We continued to advance our environmental stewardship efforts during the year, focusing on reducing our ecological footprint and promoting responsible practices across our value chain. Key initiatives included supporting our outgrower farmer network in adopting sustainable agricultural methods, expanding solar energy capacity across our operations, reducing reliance on single-use plastics, promoting recyclable packaging, and implementing recycling programs in line with extended producer responsibility and plastic collect-back initiatives. Our commitment also extends to aligning our strategies with the UN Sustainable Development Goals (SDGs), ensuring our initiatives contribute positively to global sustainability efforts.

Governance

We continued to strengthen governance, processes, and internal controls across the Group through a series of structured initiatives. Governance has been reinforced at all levels, starting from

the Board and cascading throughout the organization. A core enabler of this progress has been our continued investment in technology to digitalize key operational processes, thereby enhancing oversight, accountability, and efficiency.

These efforts include the digitalization of our milk and agricultural produce collection systems, as well as the rollout of a new sales distribution platform-introduced in the previous year to monitor and track sales in the general trade (GT) channel. These tools have significantly improved transparency and responsiveness across our supply chains. Ongoing initiatives will further strengthen governance frameworks, enabling the Group to operate with greater agility, consistency, and integrity.

We remain firmly committed to upholding the highest ethical standards across all aspects of our business. We have a strict policy against bribery and corruption, supported by robust internal controls and regular awareness initiatives to reinforce

compliance. As one of the country's largest employers, we are equally dedicated to cultivating an inclusive and equitable workplace that provides equal opportunities for all team members-regardless of gender, ability, background, or belief.

Concluding remarks

I would like to take this opportunity to express my deep appreciation for our late Chairman, Mr. Anthony Page. He leaves behind an indelible mark on the Group and on all our lives. We are truly grateful for the invaluable guidance and wisdom he extended to the Board and Senior Management over the years.

I also extend my sincere thanks to our dedicated teams across the Group for their continued commitment and trust. The evolution and diversification of the Group over the years have been driven by our ability to adapt to changing customer needs and shifting consumer patterns an approach that has underpinned our resilience and growth.

Despite the multiple different crises, the country has endured in the recent past, I am proud to note that we have continued to grow. This progress affirms the strength of our long-term investments and strategic decisions, which have positioned us to weather external shocks and emerge stronger. I am equally proud to state that within a relatively short span of time, our brands have reached market leadership positions in several sectors.

Equally important has been our enduring commitment to the wider community, particularly those historically underserved such as Sri Lanka's rural agricultural sector. Our strategic pivot into the supermarket sector in 1983, followed by a transformative shift in 1999 to engage directly with the rural agrarian base, has been pivotal in shaping our identity and our success as one of Sri Lanka's leading corporates.

As we look ahead, we remain focused on our core strengths-committed to staying agile and responsive, while remaining open to new opportunities that build on and protect the legacy we have created.

Ranjit Page

Deputy Chairman / Managing Director

27 June 2025

Corporate Governance

Company's adherence to the Corporate Governance Rules as required by Section 9 of the Listing Rules of the CSE:

Risk Assessment

Risks are internal or external events that can negatively impact the realization of short-term objectives or the implementation of long-term strategies. They can also emerge from missed or poorly exploited opportunities. The risk management process encompasses anticipating, identifying, managing, and mitigating internal and external risks and opportunities to ensure both short and long-term economic, environmental, and social sustainability of the C T Holdings (CTH) Group.

The CTH risk portfolio is distributed among subsidiary companies and varies with the nature of each business, geographical dispersion, and operation of each sector and company. The Audit Committee of CTH assesses the risk profile of the Parent Company and monitors the responses to such risks. The Group has also set up separate monitoring and reporting structures at each sector and subsidiary company level.

Consistent risk monitoring

The Managing Directors of the respective sectors are responsible for overseeing the implementation and effectiveness of risk management in their particular sector. They ensure that the risk management system as a whole is operational and that the standards and processes remain current.

The significant internal and external risks faced by CTH, along with the mitigating factors, are described below.

1. Business risk

The business risks constantly change in nature and complexity in the operating environment of the Group. The Group's businesses are subject to a variety of risks, including laws and regulations, market

conditions, and competitive landscape, which require constant monitoring and evaluation by the management. CTH, as the Holding Company, carefully evaluates all risks of high-value investments of the Group, both in existing operating sectors and new areas (if any).

2. Reputational risk

Failure to protect the Group's reputation could lead to a loss of trust and confidence among stakeholders. We therefore endeavor to engage with them to understand their views in developing long-term strategies.

3. Funding & liquidity

The Group's subsidiaries and associates finance their operations through a combination of retained earnings, long-term and short-term banking facilities. Effective management of cash flow is a key component of maintaining strong funding and liquidity positions. Adequate funding arrangements are available to meet investments and contingencies that may occur in the ordinary course of business. Further, the strong relationships maintained with Banks enable companies within the Group to raise funds at competitive rates as and when required.

4. Credit risk

Credit risk is the risk due to uncertainty in the counterparty's ability to meet its financial obligations. The Group's Credit risk primarily arises from deposits with banks and exposure on outstanding receivables. Strict credit control procedures are adopted to assess the credit quality of present and potential customers, with further mitigating measures undertaken to reduce risk. Credit limits are regularly monitored.

5. Interest rate risk

Except in the case of investment of surplus funds, the Group's income and operating cash inflows are substantially independent of changes in market interest rates. The Group's interest rate risk arises from long and short-term borrowings at variable rates linked to market conditions. Such arrangements, while being advantageous at present, expose the Group to interest rate fluctuations. The Group monitors its interest rate exposure on a dynamic basis.

6. Exchange rate risk

Exposure to Exchange Rate risk is minimal. Revenue streams are also largely independent of Exchange Rate fluctuations, except in the case of equipment and commodity imports.

7. Product safety

The safety and quality of our products is of paramount importance to the Group, as well as being essential for maintaining customer trust and confidence. A breach in confidence could adversely affect the size of our customer base and financial results. We have detailed and established procedures for ensuring product integrity and quality at all times. There are strict product safety processes in place. We work in partnership with suppliers to ensure mutual understanding of the standards required. We also monitor developments in areas such as health, safety and nutrition in order to respond appropriately to changing customer trends and new legislation.

8. Health and safety risks

Provision of adequate safety to our staff and customers is of the utmost importance to us. Injury or loss of life cannot be measured in financial terms. We operate stringent health and safety processes in line with best practice in our outlets, manufacturing facilities and offices, which also ensure that safety practices are inculcated in all employees. Such procedures are monitored regularly.

9. Regulatory and political environment

As a Group predominantly operating within Sri Lanka, our business is affected by the regulatory and political framework within the country. The effect of such an environment outside Sri Lanka could affect the Company to the extent that it affects the entire local economy. We consider these uncertainties in the local and overseas economies when developing strategies and reviewing performance. We remain vigilant to future changes.

10. Legal issues

Full provision is made for all legal liabilities that are expected to result in any material loss to the Company. All contingent liabilities have been disclosed in the financial statements.

11. Retirement benefit obligations

The retirement benefit obligations are computed based on actuarial assumptions. The management takes all required steps to ensure that such assumptions are accurate and correspond to past results and current trends. However, any significant discrepancies between actuarial assumptions and actual conditions may have some impact on future results. The management considers the possibility of such an impact as very low.

12. Risk of natural disasters

Natural disasters such as earthquakes, storms, and floods, as well as accidents, acts of terror, infection and other factors beyond the control of the Group could adversely affect the Group's business operation. Insurance covers are obtained against all identified risks and natural disasters affecting the assets of the Group and operational matters.

13. Competition

Most sectors of the Group face very competitive business environments. The management regularly reviews the competitor environment to develop appropriate counter-strategies. Due to the widespread nature of operations, the Group's sales are not dependent on a single or small group of customers.

14. Information systems and cyber security

The Group is heavily reliant on computerised operational and financial systems to ensure efficiency of operations and financial reporting. These systems and the associated controls are regularly monitored and reviewed. Measures have been put in place to protect the Group against factors such as natural disasters, accidents, data losses, computer viruses and unauthorised access. An IT disaster recovery plan is also in place.

15. Commodity price risk

The Group's FMCG sector is more exposed to the volatility in the commodity prices. Prices may also be adversely affected by environmental factors such as drought & floods. Long-term relationships built with suppliers and forward contracts help in minimising the effects of this risk factor to some extent.

16. Supply chain

Raw material, semi-processed food, and finished goods for resale are sourced from third-party suppliers, contract manufacturers, and primary producers, exposing the group to market volatility and availability.

Report of the Senior Independent Director

This report is presented in compliance with the requirement set out in Section 9.6.3 (e) of the revised Listing Rules on Corporate Governance of the Colombo Stock Exchange which came into effect on 01 October 2023.

The requirement of appointing a "Senior Independent Director to C T Holdings PLC is in accordance with Section 9.6.3 (a) iii of the revised Listing Rules on Corporate Governance of the Colombo Stock Exchange and the Code of Best Practice on Corporate Governance issued by the Institute of Chartered Accountants of Sri Lanka.

Role and Responsibilities of Senior Independent Director.

In terms of the role and responsibilities of the SID, the principal role of the SID is to support the Chairman in his role and duties, acting as an intermediary for the Non-Executive Directors and to facilitate the due exercise of the functions of the Chairman with the Non-Executive Directors as and when necessary.

The role and the responsibilities vested on the SID of the Board is relevant in the current context of Corporate Governance regulations, standards, and best practices which are frequently reviewed and revised by regulators.

My role is to ensure requisite governance standards are complied with while providing necessary assistance to the Chairman of the Board through discussion and communication between Non-executive and Independent Directors of the Company in addressing matters relevant to the Board as a whole to enhance the overall effectiveness of the Board,

During the course of the period under review, the Independent/Non executive Directors held two meetings, excluding the participation of the Executive Directors.

Priyan Edirisinghe
Senior Independent Director
27 June 2025

Report of the Remuneration Committee

The Remuneration Committee of C T Holdings PLC is appointed by the Board of Directors of the Company and reports directly to the Board.

Remuneration Policy

As is well known, Human Resources in Companies are a vital cog in the wheel to successfully carry out its business activities in a fair and equitable manner in the interest of its shareholders, employees, and other stakeholders and in all instances, within the laws of the country to enhance/add shareholder value for the benefit of its respective stakeholders. Executive Directors and Senior Management are pivotal drivers and there is a need to ensure that such employees are adequately and fairly compensated in line with market conditions applicable to the respective sectors.

Framework

The Committee studies and recommends the remuneration and perquisites applicable to the Executive Directors of the Company and makes appropriate recommendations to the Board of Directors of the Company for approval. The Committee also carries out periodic reviews to ensure that the remunerations are in line with market conditions.

Composition

The Composition of the Remuneration Committee comprises three Non-Executive Directors of whom two are Independent. This is in accordance with the listing rules on corporate governance of the Colombo Stock Exchange. The Deputy Chairman/Managing Director and the Executive Director may also be invited to join in the deliberations as required.

Name	Directorship Status	Membership Status	Date of Appointment	Attendance (Attended/ Eligible to Attend)
Priyan Edirisinghe	Senior Independent Director	Chairman (w.e.f. 17 April 2025) Member (w.e.f. 05 August 2024 to 16 April 2025)	05 August 2024	1/1

Disclosures

The aggregate details of the Directors' remuneration are given in Note 8.1 to the financial statements.

Meetings

The Remuneration Committee shall meet on a needs basis and meet at least once a year.

Priyan Edirisinghe
Chairman - Remuneration Committee
27 June 2025

Report of the Nominations and Governance Committee

The Nominations and Governance Committee of the Company was formed on 02 August 2024, to be effective from 05 August 2024. The functions of the previous Nominations Committee of the Company (which also functioned as the Nominations Committee of the listed subsidiaries in the Group) ceased to function on the same date.

Composition

The Nominations and Governance Committee comprises four Non-Executive Directors, of whom two are independent.

Meetings

The Committee meets at least once each year or as required.

Committee Membership During the Year

Name	Directorship Status	Membership Status	Date of Appointment	Attendance (Attended/ Eligible to Attend)
Priyan Edirisinghe	Senior Independent Director	Chairman (w.e.f. 17 April 2025) Member (w.e.f. 05 August 2024 to 16 April 2025)	05 August 2024	2/2
Asite Talwatte	Non-Independent, Non-Executive Director	Chairman (up to 28 March 2025)	05 August 2024	1/1
Louis Page	Non-Independent, Non-Executive Director	Member	05 August 2024	2/2
Suren De Silva	Independent, Non-Executive Director	Member	20 May 2025	0/0

Functions

The functions of the Nominations and Governance Committee are to:

- Establish and maintain a formal and transparent procedure to evaluate, select, and appoint/re-appoint Directors
- Establish and maintain a set of criteria for the selection of Directors
- Evaluate and make recommendations for the appointment/ re-election of Directors to the Board and Board Committees
- Establish a framework for evaluating the performance of the Board of Directors and the CEO
- Develop a succession plan for the Board of Directors and Key Management Personnel of the Company.
- Review the structure, size, and composition of the Board and Board Committees.
- Review and recommend the overall corporate governance framework.

- Review reports from the Management on compliance with the corporate governance framework, the SEC Act, Listing Rules of the Stock Exchange, and other applicable laws.

Appointment of Directors

The Nominations and Governance Committee evaluates and recommends suitable persons to be Directors either to fill casual vacancies or as additional Directors, subject to the provisions in the Articles of Association of the Company. In considering candidates for Directorship, the Nominations and Governance Committee considers all relevant criteria including breadth of experience in business and industry, financial acumen, integrity, leadership, as well as the diversity of the Board.

Any Director so appointed shall hold office until the next Annual General Meeting and shall then be eligible for election, but shall not be taken into account in determining the number of Directors who are to retire by rotation at such Meeting. Details of new Directors are disclosed to the shareholders at the time of their appointment by public announcement as well as in the Annual Report.

A structured framework has been established to assess the performance of the Board of Directors and to provide knowledge based training with identified needs and responsibilities of the Board.

Board Tenure, Retirement, and Re-election of Directors

The Executive Directors are appointed and recommended for re-election subject to their prescribed retirement age, whilst Non-Executive Directors are appointed and recommended for re-election subject to the age limit as per statutory provisions at the time of reappointment. At each

Annual General Meeting (AGM), one third of the Directors retire by rotation on the basis prescribed in the Articles of Association of the Company and are eligible for re-election. The Directors who retire are those who have been longest in the office since their appointment or reappointment. In addition, any new Director appointed to the Board during the year is required to stand for election at the next AGM.

The details of the re-election and re-appointment of retiring Directors are given in the Annual Report of the Board of Directors.

Board Independence

The Board is well represented by the Independent Directors who support the Executive Directors in governance and strategic management. Independence of the Directors has been determined in accordance with the criteria of the CSE Listing Rules. Accordingly, the present composition of Independent Non-Executive Directors is in line with the requirements of the CSE Listing Rules. The Independent Non-Executive Directors have submitted signed confirmations of their independence.

Conflict of Interest

Where the personal or business relationships or interests of Directors and Executive Officers may conflict with the interests of the Company, they are required to disclose in writing the nature and extent of any interest they have in a material contract or material transaction with the Group.

Other Board Memberships

The Group, in assessing the performance of the individual Director, considers whether sufficient time and attention have been given by the Director to the affairs of the Group while holding Board membership in other companies. The Group expects Directors to devote sufficient time to the affairs of the Company, though it does not impose a limit on the number of Board representations which a director may hold in other companies.

Directors have demonstrated their commitment and effectiveness in discharging their duties and responsibilities and avoiding actual or potential conflicts of interest caused by serving on other Boards.

Priyan Edirisinghe
*Chairman - Nominations and Governance
Committee*

Report of the Related Party Transactions Review Committee

The Related Party Transactions Review Committee (RPTRC) is appointed by the Board of Directors of the Company and reports directly to the Board. The Committee functions within the overall governance process established by the Board of Directors of the Company and assists the Board in effectively discharging its responsibilities.

Composition of the RPTRC

The RPTRC comprises four Non-Executive Directors of whom three are Independent. The Chairman of the RPTRC is a Fellow member of The Institute of Chartered Accountants of Sri Lanka. The composition of the RPTRC satisfies the criteria as specified in the standards on corporate governance for listed companies. The Company Secretary acts as the Secretary to the Committee.

The committee Membership during the year was as follows:

Name	Directorship Status	Membership Status	Date of Appointment	Attendance (Attended/ Eligible to Attend)
Priyan Edirisinghe	Senior Independent Director	Chairman (w.e.f. 17 April 2025) Member (w.e.f. 05 August 2024 to 16 April 2025)	05 August 2024	3/3
Asite Talwatte	Non-Independent, Non-Executive Director	Chairman (w.e.f. 05 August 2024 up to 28 March 2025) Member (w.e.f. 04 July 2016 to 04 August 2024)	04 July 2016	4/4
Joel Selvanayagam	Independent, Non-Executive Director	Member	16 August 2024	2/2
Suren De Silva	Independent, Non-Executive Director	Member	20 May 2025	0/0
Priya Edirisinghe	Independent, Non-Executive Director	Chairman (up to 01 August 2024)	03 August 2015	1/1
J B L De Silva	Independent, Non-Executive Director	Member (up to 01 August 2024)	03 August 2015	1/1

* Mr. Asite Talwatte, who was an Independent Non-Executive Director at 1st April 2024, ceased to be an Independent Director on 28th March 2025 upon completing 9 years as a director of the Company.

Policy Framework

The policy framework for the functioning of the RPTRC of the Company and its subsidiaries is set out in the Group policies adopted across the Group. In addition to the RPTRC of the holding company all listed subsidiaries have a separate RPTRCs. The RPTRC of its listed holding company functions as the RPTRC of the non-listed subsidiary companies.

Scope

The RPTRC assists the Board in reviewing all related party transactions (RPT) carried out by the Company. The functions of the RPTRC include the following:

- Developing a related party transactions policy consistent with that proposed by the RPT Code of the Securities Exchange Commission (SEC) and recommending for adoption by the Board of Directors of the Company and its listed subsidiaries.
- Reviewing and recommending improvements to the control procedures to ensure that all recurrent and non-recurrent related party transactions are identified, adequately captured, and reported in a timely manner in accordance with the applicable rules.
- Establishing procedures to ensure that related party transactions that are captured within the system are reviewed in a systematic manner and certified by Key Management
- Personnel with appropriate level of authority.
- Reviewing all related party transactions as reported by Management for compliance with the RPT Code.
- Ensuring that appropriate disclosures are made as applicable to the Colombo Stock Exchange (CSE) where immediate market disclosures are required, and in the Annual Report.

Procedures are also in place for the RPTR Committee to obtain and have obtained:

- Quarterly declarations of related party transactions from Directors and Senior Management of all Group companies on recurrent and non-recurrent transactions undertaken by them or by their close family members.
- Quarterly declarations of Directors and Senior Management of all Group companies who have a significant shareholding/ownership in a company or partnership or proprietorship which is outside the Group companies and/or of the subsidiaries and associate companies of Group companies.
- Quarterly declarations of the Group Chief Financial Officer or equivalent position in Group companies on recurrent and/or non-recurrent transactions within the Group companies.

Procedures are also in place for the assessment of the need to obtain shareholder approval for specified transactions and to inform the SEC/CSE on the applicable non-recurrent transactions.

Related Party Transactions

Companies within the Group regularly engage in transactions with other companies within the Group. The Committee receives and reviews details of all related party transactions from the Group Chief Financial Officer of the Company and disposes of the same in accordance with the mandate set out above.

In respect of non-recurrent transactions, if any, the Committee is empowered to seek independent expert advice on valuation or any other related matters that the Committee deems to be significant.

Meetings

RPTRC met four times during the year. The meetings were also attended by the Executive Director.

The Committee adopted policies and procedures for

- (a) reviewing the related party transactions at each quarterly meeting, and,
- (b) identifying and reporting on recurrent and non-recurrent transactions to be in line with the applicable CSE Rules.

The Committee noted that there were no changes to practices followed over the years and general terms and conditions applicable to all lease agreements entered into with related parties are similar to those entered into with non-related parties taking into account, if any, due consideration of factors such as the long-term nature of the leases and the extent of the area occupied etc.

Conclusion

Based on its review, the RPTRC confirms that there were no non-recurrent transactions with related parties during the year that warranted prior shareholder approval. It is also noted that in respect of recurrent transactions, the transactions were in the ordinary course of business, there were no changes to terms

or practices over the previous year and general terms and conditions applicable to such transactions with related parties are similar to those entered into with non-related parties taking into account, if any, due consideration of factors such as volume, cost and any other special benefits which form part and parcel of such transactions. The observations of the Committee have been communicated to the Board of Directors and the Board in turn has made a declaration that the Company is in compliance with Section 9 of the Listing Rules of the CSE with respect to related party transactions carried out by the Company during the year.

The details of the recurrent transactions entered into with related parties are disclosed in Note 32 to the Financial Statements.

Annual Report of the Board of Directors of the Company

The Directors are pleased to present the Annual Report of C T Holdings PLC for the Year ended 31st March 2025.

Activities

The Group's Principal activities are set out on pages 04 and 05 of the Annual Report. There were no significant changes to the business activities of the Group during the year.

The important events during the year are discussed in detail in the Chairman's message and Managing Director's statement set out on pages 08 to 09 and 15 to 19 respectively.

Financial Statements

The Audited Financial Statements of the Company and Group for the year ended 31st March 2025, set out on pages 45 to 131, form an integral part of this Annual Report.

Independent Auditor's Report

The Independent Auditor's Report is set out on pages 41 to 44.

Accounting Policies

The accounting policies adopted in the preparation of the financial statements are given in notes 01 to 05 to the financial statements.

Property, Plant & Equipment and Investment Property

The movement of property, plant, and equipment and investment property during the year is given in notes 13 and 16 to the financial statements. The Group's outlay on property, plant and equipment during the year amounted to Rs. 5.0 Bn (2024 - Rs. 6.3 Bn), while the capital outlay on property, plant, and equipment at the Company level during the year amounted to Rs. Nil (2024 - Rs. 17,000).

The Directors are of the opinion that the carrying amounts of properties stated in note 13 to the financial statements reasonably reflect their fair values. Extents, locations, and values of the Group's property holdings and investment properties are disclosed in notes 13.2 and 16.2 to the financial statements.

Stated Capital

The stated capital of the Company at the reporting date amounted to Rs. 6,489,758,332 (2024 - Rs. 6,489,758,332), comprising 201,406,978 ordinary (voting) shares (2024 - 201,406,978).

Reserves

The total reserves of the Group at the reporting date stand at Rs. 26 Bn. (2024 - Rs. 24 Bn.), while the total reserves of the Company stand at Rs. 2.5 Bn. (2024 - Rs. 2.3 Bn.).

Dividends

The Company paid an interim dividend of Rs. 4.00 per share in November 2024 for the year ending 31st March 2025 (2024 - Rs. 3.50). The Company paid a second interim dividend of Rs. 10.00 per share in June 2025 for the year ended 31st March 2025 (2024 - Rs 8.50).

Employment

The number of persons employed by the Company and Group as at 31 March 2025 was 04 (2024 - 04) and 11,335 (2024 - 11,003), respectively. The Directors confirm that the Company has not granted any funding to employees to exercise any share options.

Donations

During the year, donations amounting to Rs. Nil Mn were made by the Company (2024 - Rs 0.1 Mn). In addition, the Group made investments amounting to Rs. 15.1 Mn for various community projects during the financial year (2024 - Rs 20.9).

Directorate

Brief profiles of the Directors of the Company as at the reporting date are given on pages 10 to 14 including their executive/non-executive status and determination of independence, as appropriate. Details of the Directors of group companies are given on pages 133 to 135 of this report.

Mr. Priya Edirisinghe & Mr. J B L De Silva resigned from the Directorate on 01st August 2024 at the conclusion of the Annual General Meeting for the year 2023/24.

Mr S C Niles retires by rotation in terms of the Company's Articles of Association and, being eligible offers himself for re-election.

Mr P P Edirisinghe who was appointed on 31 July 2024, Mr A J D Selvanayagam who was appointed on 16 August 2024, Mr S C De Silva who was appointed on 16 May 2025 and Mr W P C Wickramaratne who was appointed on 16 June 2025 retire in terms of the Company's Articles of Association and being eligible offer themselves for reappointment at the Annual General Meeting.

Mr L R Page, who retires having surpassed seventy years of age is due to retire in terms of Section 210 (2) (b) of the Companies Act No. 07 of 2007 at the conclusion of the Annual General Meeting and offers for himself for reappointment in terms of Section 211 (1) and (2) of the Companies Act No. 07 of 2007.

The re-election and the reappointment of the retiring Directors have the unanimous support of the other Directors.

The Directors hereby confirm that the Directors and CEO of the company satisfy the fit and proper assessment criteria stipulated in section 9.7 of the Listing Rules of the Colombo Stock Exchange for the year.

Annual Report of the Board of Directors of the Company ... *Contd.*

Events after the reporting period

Events occurring after the reporting date of the Company are given in Note 36 to the financial statements.

Shareholders

There were 1,401 registered shareholders as at 31st March 2025 (2024 - 1,376 shareholders). An analysis of shareholders according to size of holdings, public holdings, and the names of the twenty largest shareholders of the Company at the reporting date are given on Pages 136 to 137.

Ratios and Market Price Information

Key ratios and market price information pertaining to the equity of the Group are set out on page 132 along with the trend for the past five years. The Company and its subsidiaries have not raised any capital through listed debt instruments during the year.

Risk management

The overall approach to risk management within the Company and Group is set out in pages 24 to 25.

Corporate governance

The corporate governance practices within the Group are set out in pages 20 to 23 and the report of the Audit Committee is set out on pages 38 to 39.

The Company is in compliance with the Corporate Governance rules of the Colombo Stock Exchange.

Environmental Protection

After making adequate enquiries from the management, the Directors are satisfied that the Company and its subsidiaries operate in a manner that minimises the detrimental effect on the environment and provide products and services that have a beneficial effect on the customers and the communities within which the Group operates.

Auditors

The remuneration paid to the Auditors is given in Note 08 to the financial statements. As far as the Directors are aware, the Auditors do not have any relationship (other than that of an auditor) with the Company or any of its subsidiaries.

M/s. KPMG, Chartered Accountants, are deemed reappointed in terms of Section 158 of the Companies Act No.7 of 2007, as Auditors of the Company. A resolution authorizing the Directors to determine their remuneration will be submitted at the Annual General Meeting.

Report of the Audit Committee

The Audit Committee is appointed by the Board of Directors of the Company and reports directly to the Board. The Audit Committee functions within the overall governance process established by the Board of Directors of the Company and assists the Board in effectively discharging its responsibilities.

Composition of the Audit Committee

The Audit Committee comprises four Non-Executive Directors, of whom three are Independent. The Chairman of the Audit Committee is a Fellow member of the Institute of Chartered Accountants of Sri Lanka. The composition of the members of the Audit Committee satisfies the criteria as specified in the standards on corporate governance for listed companies. The Company Secretary acts as the Secretary to the Committee.

The committee Membership during the year was as follows:

Name	Directorship Status	Membership Status	Date of Appointment	Attendance (Attended/ Eligible to Attend)
Priyan Edirisinghe	Senior Independent Director	Chairman (w.e.f. 17 April 2025) Member (w.e.f. 05 August 2024 to 16 April 2025)	05 August 2024	3/3
Asite Talwatte	Non-Independent, Non-Executive Director	Member (w.e.f. 01 April 2025) Chairman (w.e.f. 05 August 2024 to 28 March 2025) Member (w.e.f. 04 July 2016 to 04 August 2024)	04 July 2016	5/5
Joel Selvanayagam	Independent, Non-Executive Director	Member	16 August 2024	2/2

J B L De Silva	Independent, Non-Executive Director	Member (up to 01 August 2024)	24 March 2008	2/2

** Mr. Asite Talwatte, who was an Independent Non-Executive Director at 1st April 2024, ceased to be independent on 28th March 2025 upon completing 9 years as a director of the Company.*

Policy Framework

The policy framework for the functioning of the Audit Committee of the Company and its subsidiaries are set out in the Group policies adopted across the Group. In addition to the Audit Committee of the holding company, all listed subsidiaries within the Group has

a separate Audit Committee. The Audit Committee of the listed holding company functions as the Audit Committee of its non-listed subsidiary companies as well.

Procedure

In terms of the Group policy, the Audit Committees should meet at least once in every quarter, two of which should be attended by the Company Auditors. The procedure in place is for the Executive Director to attend all meetings when scheduled and for the Deputy Chairman/Managing Director to attend Audit Committee meetings as and when requested to do so by the Audit Committee. Besides this, procedure is in place to circulate the various documents and for clarification of matters raised by the members of the Audit Committee. Where necessary, approvals may also be given by circular resolutions.

Meetings

The Audit Committee met four times during the year, one of which was with the participation of the Company’s External Auditors.

Scope

- The functions of the Audit Committee, as set out in the Audit Committee Charter, include the following:
- Oversight of the preparation, presentation and adequacy of disclosures in the Financial Statements in accordance with SLFRS/LKAS
 - Oversight of the Company’s compliance with financial reporting requirements, information requirements of the Companies Act, SEC and other related regulatory bodies
 - Oversight of the processes to ensure that the Company’s internal controls and risk management procedures are adequate to ensure that the various risk exposures are mitigated

- Assessment of the performance and independence of the External Auditors and make recommendations to the Board pertaining to appointment/reappointment and removal of External Auditors and approval of the remuneration and terms of engagement
- Review and monitor the External Auditor's independence and objectivity and the effectiveness of the audit process
- Develop and implement policy on the engagement of the External Auditor to supply non-audit services, considering relevant ethical guidance regarding the provision of non-audit services by the External Auditors
- Review the Company's annual audited Financial Statements and quarterly Financial Statements to ensure compliance with the Sri Lanka Accounting Standards and other relevant laws and regulations
- Advise the Board with respect to the Company's policies and procedures regarding compliance with applicable laws and regulations
- Report regularly to the Board with respect to the Committee's activities and make recommendations as appropriate

Financial Reporting

The Audit Committee reviewed the quarterly and annual Financial Statements of the Group prior to publication to assure that the published Financial Statements fairly present the state of affairs of the Group. The Audit Committee had discussions with the management and the External Auditors on the annual Financial Statements. In all instances, the Audit Committee obtained a declaration from the Executive Director (who also functions as the Chief Financial Officer) stating that the respective Financial Statements are in conformity with the applicable accounting

standards, company law and other statutes including corporate governance rules and that the presentation of such Financial Statements are consistent with those of the previous quarter or year as the case may be, and further states any departures from financial reporting, statutory requirements and Group policies, (if any).

Quarterly Compliance Certificates were also obtained from the Executive Director on a standardised exception reporting format perfected by the Audit Committee, stating any instances (where applicable) of, and reasons for, non-compliance.

Risk Management

The Risk Management Report containing risk assessments and risk mitigation actions pertaining to different business units were reviewed by the Audit Committee to give assurance that the risk management process is carried out in an effective manner.

Conclusion

Based on its work, the Audit Committee is of the opinion that the control procedures and environment within the Group provide reasonable assurance regarding monitoring of the operations, accuracy of the Financial Statements and safeguarding of assets of the Company.

Audit and Auditors' Independence

The Audit Committee assessed the independence and performance of the Company's External Auditors and made recommendations to the Board pertaining to appointment/reappointment. The Audit Committee also reviewed the audit fees and approved the remuneration and terms of engagement of the External Auditors and made recommendations to the Board. When doing so, the Audit Committee reviewed the type and quantum of

non-audit services (if any) provided by the External Auditors to the Company to ensure that their independence as Auditors has not been impaired.

The Audit Committee obtains an "Auditor's Statement" from Messrs KPMG confirming independence as required by Section 163 (3) of the Companies Act No. 07 of 2007 on the audit of the Statement of Financial Position and the related Statements of Profit or Loss and Other Comprehensive Income, Changes in Equity, and Statement of Cash Flows of the Company and the Group.

The Audit Committee has recommended to the Board that Messrs. KPMG, Chartered Accountants, be continued as External Auditors of the Company for the financial year ending 31 March 2026.

Priyan Edirisinghe
Chairman - Audit Committee
27 June 2025

Statement of Directors' Responsibilities

Maintenance of Accounting Records

Under the provisions of the Companies Act No. 07 of 2007 ('the Act'), every company is required to maintain accounting records that correctly record and explain the Company's transactions, and will at any time enable the financial position of the Company to be determined with reasonable accuracy, enable the Directors to prepare financial statements in accordance with the Act and also enable the financial statements of the Company to be readily and properly audited.

Preparation of Financial Statements of the Company and Group

The Act places the responsibility on the Board of Directors to ensure that financial statements are prepared within the prescribed time period in conformity with the Act. Such financial statements of a Company shall give a true and fair view of the state of affairs of the Company as at the reporting date and the profit or loss or income and expenditure, as the case may be, of the Company for the accounting period ending on that reporting date.

Further, the Act also requires that a Company with one or more subsidiaries at the reporting date also prepare financial statements in relation to the Group including every subsidiary, which give a true and fair view of the state of affairs of the Company and its subsidiaries as at the reporting date and the profit or loss or income and expenditure, as the case may be, of the Company and its subsidiaries for the accounting period ending on that reporting date.

Dividends

In the event of any distribution of dividends the Board of Directors is required to satisfy themselves that the Company will, immediately after the relevant distribution is made, satisfy the solvency test, provided that such a certificate is obtained from the auditors.

Annual Report

The Board of Directors is required to prepare an Annual Report on the affairs of the Company during the accounting period ending on the reporting date in the prescribed format and make the same accessible to every shareholder of the Company within the time frame prescribed in the Act.

Independent audit

The Act required the Company to appoint an Auditor to audit the financial statements of the Company / Group for the reporting period. Accordingly, M/s KPMG currently function as the Auditors of the Company. Their responsibility with regard to the financial statements as auditors of the Company are set out in the Independent Auditors' Report set out on pages 41 to 44.

Management

The Directors are responsible for the proper management of the resources of the Company. The internal control system has been designed and implemented to obtain reasonable but not absolute assurance that the Company is protected from undue risks, frauds, and other irregularities. The Directors have conducted a review of the internal controls covering financial, operational and compliance control and risk management and have obtained reasonable assurance of the effectiveness and adherence.

Compliance

Considering the present financial position of the Group and the forecasts for the foreseeable future, the Directors have adopted the going concern basis for the preparation of these financial statements.

The Directors confirm that:

- (a) The Company is in compliance with the requirements of the Act as aforementioned.

- (b) These financial statements have been prepared in accordance with the requirements of the Companies Act No. 7 of 2007, listing rules of the Colombo Stock Exchange and applicable Sri Lanka Accounting Standards, which have been consistently applied and supported by reasonable and prudent judgments and estimates.
- (c) The Company obtained the required certificate of solvency for the dividends declared during the year.
- (d) All statutory payments have been made up to date.
- (e) Other than as disclosed in the Financial Statements, no material issues have arisen pertaining to employees and industrial relations of the Company that requires disclosure or any adjustment to the Financial Statements.
- (f) The Directors have declared all material interests in contracts involving in the Entity and that they have refrained from voting on matters in which they were materially interested.
- (g) The Directors made arrangements to make themselves aware of the applicable regulatory framework.
- (h) The Directors confirm the company has developed the required policies in accordance with rule no. 9.2.1 of the Listing Rules of the Colombo Stock Exchange and are available on the corporate website.

The Directors are satisfied that the control procedures within the Company operated effectively during the year.

By order of the Board

TO THE SHAREHOLDERS OF CT HOLDINGS PLC
Report on the Audit of the Financial Statements
Opinion

We have audited the financial statements of CT Holdings PLC (“the Company”) and the consolidated financial statements of the Company and its subsidiaries (“the Group”), which comprise the statement of financial position as at March 31, 2025, and the statement of comprehensive income (*or statement of profit and loss and other comprehensive income*), statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including material accounting policies and other explanatory information set out on pages 45 to 131 of this annual report.

In our opinion, the accompanying financial statements of the Company and the Group give a true and fair view of the financial position of the Company and the Group as of March 31, 2025, and of their financial performance and cash flows for the year then ended in accordance with Sri Lanka Accounting Standards.

Basis for Opinion

We conducted our audit in accordance with Sri Lanka Auditing Standards (SLAuSs). Our responsibilities under those standards are further described in the *Auditor’s Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company and the Group in accordance with the Code of Ethics for professional Accountants issued by CA Sri Lanka (Code of Ethics), and we have fulfilled our other ethical responsibilities in accordance with the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the company and the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the company and consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Independent Auditor's Report ... *Contd.*

Revenue Recognition - Group

Refer the Note No. 4.3 and Note No. 06 in the Financial Statements.

Risk Description	Our responses
The Group has recognized revenue in the amount of Rs. 242,765 Mn. As the reporting date, 31st March 2025, revenue from the sale of goods from the food retailing and food and beverage manufacturing & distribution segment continued to be the main revenue stream for the Group amounting to Rs. 241,840 Mn which is 99.62% of Group Revenue. Based on the Group's business model, there are many different types of revenues, arising from different types of transactions and events with customers. We identified revenue recognition as a key audit matter because of its significance to the consolidated financial statements.	Our audit procedures included; • Obtaining an understanding of and assessing the design, implementation and operating effectiveness of management's key internal controls in relation to revenue recognition from sales transaction. • Testing the design, implementation, and operating effectiveness of relevant general IT controls, automated controls including testing the completeness and accuracy of key reports used in the operation of a control that addresses process risk points related to accounts with a risk of material misstatement. • Comparing revenue transactions recorded during the current year for the manufacturing segment, on a sample basis, with invoices, sales contracts, underlying goods delivery and acceptance notes, where appropriate to assess whether the related revenue was recognized in accordance with the Group's revenue recognition accounting policies. • Performing a revenue mapping between the front-end system and general ledger for restaurants and retails segments and mapping total inventories issued to corresponding invoices for the manufacturing segment to assess whether the sales were completely and accurately accounted in the general ledger. • Comparing, on a sample basis, specific revenue transactions recorded before and after the financial year end date with the underlying goods delivery notes and/or invoices to assess whether the related revenue had been recognized in the correct financial period.

Valuation of Investment Property - Group and Company

Refer to the Note No. 4.12 and Note No. 16 of Financial Statement.

Risk Description	Our responses
The Group and the Company carries its Investment Property at fair value amounting to Rs. 13,355 Mn and Rs. 1,205 Mn respectively. Management has engaged an independent professional valuer with appropriate expertise to determine the fair value of these properties in accordance with recognized industry standards. Estimating the fair value is a complex process which involves a significant degree of judgement and estimates in respect of price per perch of the land, capitalization rates, value per square feet, fair market rental and diversity of locations and nature of the land and buildings and investment properties. We identified this as a key audit matter because of the significance of the value of these properties and net change in fair value of these properties to the financial Statements.	Our audit procedures included; • Discussions with management and the external valuer and comparison of the key assumptions used against externally published market comparable or industry data where available and challenging the reasonableness of key assumptions based on our knowledge of the industry. • Discussions with management and the external valuer in relation to the possible impact on the key assumptions and the resulting valuation due to current uncertain economic conditions. • Assessing the key inputs used in the valuation by the independent external valuer against our expectations based on our experience, externally published market comparable and our knowledge of property market, consultation with internal valuation specialist. • Assessing the objectivity, independence, competence and qualifications of the external valuer. • Assessing the adequacy of the disclosures in the financial statements, including the description and appropriateness of the inherent degree of subjectivity and key assumptions in the estimates.

Carrying value of Inventories - Group

Refer the Note No. 4.9 and Note No. 22 in the Financial Statements.

Risk Description	Our responses
The Group has recognized inventory in the amount of Rs. 25,467 Mn. The Group holds a significant level of inventory across a broad and diversified product range, over many locations. At 31 March 2025, 17% of total assets of the Group consisted of inventory. Due to the change in consumer demands judgment is exercised with regard to categorization of stock as obsolete and/or slow moving to be considered for provision/write offs; estimates are then involved in arriving at provisions against cost in respect of slow moving and obsolete inventories located in 14 locations of the subsidiaries and many outlets to arrive at valuation based on lower of cost and net realisable value. Given the level of judgments, estimates, number of items and locations involved this is considered to be a key audit matter.	Our audit procedures included; • Obtaining an understanding of and assessing the design, implementation and operating effectiveness of key internal controls relating to inventory counts across the Group's sites and purchasing and issuing of inventories. • Comparing, on a sample basis, the purchase prices and quantities of inventories recorded by the Group with supplier invoices, goods delivery notes and goods receipt notes. • Evaluation of the inventory costing methodology and valuation policy established by management, including compliance with the applicable financial reporting standard. • Comparing, on a sample basis, the selling price of the finished goods subsequent to the reporting date to their carrying values of these inventories as at the financial year end. • Considering the principles of accounting for the inventory write offs and also carrying out a comparison of inventory levels, to sales data to corroborate whether slow moving and obsolete inventories had been appropriately identified. • Attending stock counts as at the year end at sample locations of supermarkets, outlets and warehouses. In addition, assessing the effectiveness of the physical count controls in operation at each count location to identify damaged stocks, expired stocks and stock shortages that are written off in a timely manner and evaluating the results of the other cycle counts performed by the management and third parties throughout the period to assess the level of count variances that are also adjusted periodically.

Other Information

Management is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with Sri Lanka Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's and the Group's financial reporting process.

Independent Auditor's Report ... *Contd.*

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SLAuSs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SLAuSs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's and the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

As required by section 163 (2) of the Companies Act No. 07 of 2007, we have obtained all the information and explanations that were required for the audit and as far as appears from our examination, proper accounting records have been kept by the Company. CA Sri Lanka membership number of the engagement partner responsible for signing this independent auditor's report is 2599.

The notes on pages 52 to 129 form an integral part of these Financial Statements.

Notes to the Financial Statements

1. REPORTING ENTITY

C T Holdings PLC (the ‘Company’) is a company incorporated in Sri Lanka and listed on the Colombo Stock Exchange. The address of the Company’s registered office is No. 8, Sir Chittampalam A Gardiner Mawatha, Colombo 2.

CT Holdings PLC is the Ultimate Parent Entity of the Group.

2. PRESENTATION OF THE FINANCIAL STATEMENTS

2.1 Consolidated financial statement

The consolidated financial statements of the Group as at and for the year ended 31 March 2025 comprise the Company and its subsidiaries (together referred to as the ‘Group’ and individually as ‘Group entities’) and the Group’s interest in equity accounted investees. The financial statements of all companies within the Group are prepared for a common financial year which ends on 31 March 2025, except as mentioned in Note 19.5. The principle activities of the Group are described in Note 3.1 to the financial statements.

2.2 Statement of compliance

The financial statements which comprise the Statement of Financial Position, Statement of Profit or Loss and Other Comprehensive Income, Statement of Changes in Equity, Statement of Cash Flows and Notes thereto have been prepared in accordance with Sri Lanka Accounting Standards (LKAS / SLFRSs), and the requirements of the Companies Act No. 07 of 2007. The Board of Directors of the Company is responsible for the preparation and presentation of these financial statements. The financial statements were authorised for issue by the Board of Directors on 27 June 2025.

2.3 Functional and presentation currency

These financial statements are presented in Sri Lankan Rupees, which is the Group’s functional currency. All financial information presented in Sri Lankan Rupees has been rounded to the nearest thousands, except when otherwise indicated.

2.4 Key accounting judgements and estimates

In preparing these financial statements, management has made judgements, estimates and assumptions that affect the application of the Group’s accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

2.4.1 Going concern

The Group’s management has made an assessment of its ability to continue as a going concern and is satisfied that it has the resources to continue in business for a foreseeable future. Furthermore, management is not aware of any material uncertainties that may cast significant doubt upon the Group’s ability to continue as a going concern.

Therefore, the Financial Statements continue to be prepared on the going concern basis.

2.4.2 Judgements

Information about critical judgments in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements is included in the following notes:

- Note 3.4 - Revenue Recognition: whether revenue from made-to-order products is recognised over time or at a point in time;
- Note 14 - Lease Term: whether the Group is reasonably certain to exercise extension options; and
- Note 18 - Investment in Subsidiaries: whether the Group has control over an investee.

2.4.3 Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties at 31 March 2025 that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities in the next financial year is included in the following notes:

Note 28	Measurement of defined benefit obligations: key actuarial assumptions
Note 13 and Note 16	Determination of fair value of investment property and property, plant and equipment: key valuation assumptions
Note 17	Impairment test of intangible assets and goodwill: key assumptions underlying recoverable amounts;
Note 21	Determination of fair value of biological assets: determining adjustments to market price.
Note 35	Recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources
Note 19	Recognition and measurement of provision of associates: key assumptions underlying recoverable amounts.

2.5 Materiality and Aggregation

Each material class of similar items is presented separately in the financial statements. Items of a dissimilar nature or function are presented separately unless they are immaterial as permitted by the Sri Lanka Accounting Standard - LKAS 1 Presentation of Financial Statements.

2.6 Events after the reporting period

All material events after the reporting date have been considered and where appropriate, adjustments or disclosures have been made in respective notes to the financial statements.

2.7 Basis of measurement

The financial statements of the Group have been prepared on the historical cost basis except for the following material items in the statement of financial position:

Items	Measurement bases
Freehold land and building	Fair value
Financial instruments at fair value through profit or loss	Fair value
Equity securities at fair value through other comprehensive income (FVOCI)	Fair value
Debt investments at FVTPL	Fair value
Investment property	Fair value
Biological assets	Fair value
Defined benefit obligations	Present value

2.8 Going Concern

The Management of C T Holdings PLC has made an assessment of the Group’s ability to continue as a going concern and is satisfied that the Group has the resources to continue in business for the foreseeable future. Furthermore, management is not aware of any material uncertainties that may cast significant doubt upon the Group’s ability to continue as a going concern. Therefore, the financial statements continue to be prepared on the going concern basis.

2.9 Measurement of fair value

A number of the Group’s accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

The Group has an established control framework with respect to the measurement of fair values.

Significant valuation issues are reported to the Group’s audit committee.

When measuring the fair value of an asset or a liability, the Group uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

Level 1	Quoted prices (unadjusted) in active markets for identical assets or liabilities.
Level 2	Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
Level 3	Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Group recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

‘Fair value’ is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Group has access at that date. The fair value of a liability reflects its non-performance risk.

Notes to the Financial Statements ... *Contd.*

A number of the Group’s accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. The Group measures the fair value of an instrument using the quoted price in an active market for that instrument. A market is regarded as active if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. If there is no quoted price in an active market, then the Group uses valuation techniques that maximise the use of relevant observable inputs and minimise the use of unobservable inputs. The chosen valuation technique incorporates all the factors that market participants would take into account in pricing a transaction. If an asset or a liability measured at fair value has a bid price and an ask price, then the Group measures assets and long positions at a bid price and liabilities and short positions at an ask price.

The best evidence of the fair value of a financial instrument on initial recognition is normally the transaction price - i.e. the fair value of the consideration given or received. If the Group determines that the fair value on initial recognition differs from the transaction price and the fair value is evidenced neither by a quoted price in an active market for an identical asset or liability nor based on a valuation technique for which any unobservable inputs are judged to be insignificant in relation to the measurement, then the financial instrument is initially measured at fair value, adjusted to defer the difference between the fair value on initial recognition and the transaction price. Subsequently, that difference is recognised in profit or loss on an appropriate basis over the life of the instrument but no later than when the valuation is wholly supported by observable market data, or the transaction is closed out.

Further information about the assumptions made in measuring fair values is included in the following notes:

Reference	Item
Note 16	Investment property
Note 31	Financial instruments
Note 18	Investment in subsidiaries
Note 13	Freehold land and building

3. OPERATING SEGMENTS

3.1 Basis for segmentation

The Group has the following six strategic divisions, which are its reportable segments. These divisions offer different products and services and are managed separately because they require different technology and marketing strategies.

The following summary describes the operations of each reportable segment.

Reportable Segment	Operation
Retail	Operation of a chain of supermarkets and convenient stores. Local distributor for world renown brands of food and beverages.
FMCG	Manufacturer / distributor of dairy, agrifoods, convenience foods and confectionery.
Restaurants	Franchisee / Operator for ‘Kentucky Fried Chicken’ (KFC) and ‘TGI Fridays’ Restaurants in Sri Lanka.
Real Estate	Owner / operator of the ‘Majestic City’ and ‘Cargills Square’ shopping and entertainment malls. Development and sale / rental of residential condominiums and commercial development.
Entertainment	Import, distribution and exhibition of cinematic content.
Financial Services	Commercial Banking, stock brokering, capital market solutions and fund management (Associates).

The Group’s chief executive officer reviews the internal management reports of each division at least quarterly. Segment results that are reported to the Group’s chief operating officer include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly corporate assets, head office expenses, and tax assets and liabilities. Inter segment transfers are based on fair market prices.

Segment results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Segment capital expenditure is the total cost incurred during the period to acquire property, plant and equipment, and intangible assets other than goodwill.

3.2 Summary of material accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these Financial Statements.

In addition, the Group adopted Disclosure of Accounting Policies (Amendments to LKAS 1 and IFRS Practice Statement 2) from 1 January 2023. The amendments require disclosure of “material” rather than “significant”, accounting policies. Although the amendments did not result in any changes to the accounting policies themselves.

3.3 Changes in material accounting policies

Amendments to LKAS 1 and SLFRS Practice Statement 2 - Disclosure of accounting policies

The group has adopted Amendments to LKAS 1 with effect from 1 January 2023. Although the amendments did not result in any changes to the accounting policies themselves, they impacted the accounting policy information disclosed in the financial statements.

The amendments require the disclosure of 'material', rather than 'significant', accounting policies. The amendments also provide guidance on the application of materiality to disclosure of accounting policies, assisting entities to provide useful, entity specific accounting policy information that users need to understand other information in the financial statements.

In certain instances, the amendments had an impact on the Group's disclosures of accounting policies, but not on the measurement, recognition or presentation of any items in these financial statements.

Amendments to LKAS 12 - Deferred tax related to assets and liabilities arising from a Single Transaction

The group has adopted to Amendments to LKAS 1 with effect from 01 January 2023. The amendments to LKAS 12 Income Tax narrow the scope of the initial recognition exception, so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences such as leases and decommissioning liabilities.

The amendments had no impact on the Group's consolidated Financial Statements.

4. MATERIAL ACCOUNTING POLICIES

The Group has consistently applied the accounting policies to all periods presented in these Financial Statements.

4.1 Basis of Consolidation

The Financial Statements comprise of Financial Statements of the Company, its subsidiaries and its equity accounted investees for the year ended 31 March 2025. Financial Statements of the Company's subsidiaries and associates are prepared for the same reporting year using consistent accounting policies.

4.1.1 Business Combination and Goodwill

The Group accounts for business combinations using the acquisition method when the acquired set of activities and assets meets the definition of a business and control is transferred to the Group. In determining whether a particular set of activities and assets is a business, the Group assesses whether the set of assets and activities acquired includes,

at a minimum, an input and substantive process and whether the acquired set has the ability to produce outputs.

The Group has an option to apply a 'concentration test' that permits a simplified assessment of whether an acquired set of activities and assets is not a business. The optional concentration test is met if substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or group of similar identifiable assets.

Goodwill acquired in a business combination is initially measured at cost, being the excess of the cost of the business combination over the Group's interest in the net amount of the identifiable assets, liabilities and contingent liabilities acquired.

Following initial recognition, goodwill is measured at cost less any accumulated impairment losses.

Goodwill is reviewed for impairment annually, or more frequently, if events or changes in circumstances indicate that the carrying value may be impaired. For the purpose of impairment testing, goodwill acquired in a business combination, from the acquisition date is, allocated to each of the Group's Cash - generating Units (CGUs) or group of CGUs, which are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

Where goodwill forms part of a CGU (or group of CGUs) and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on disposal of the operation. Goodwill

Notes to the Financial Statements ... *Contd.*

disposed of in this circumstance is measured based on the relative values of the operation disposed of and the portion of the CGU retained.

4.1.2 Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has right to, variable returns from its involvement with the entity and has the ability to

affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

The Company re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above. Total comprehensive income of subsidiary is attached to the owners of the Company and to the non-controlling interest, even this result in the non-controlling interest having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

4.1.3 Loss of control

When the Group loses control over a subsidiary it de-recognises the assets and liabilities of the subsidiary, any related non-controlling interests, and the other components of equity. Any resulting gain or loss is recognised in profit or loss. Any interest retained in the former subsidiary is measured at fair value when control is lost. Subsequently that retained interest is accounted for as equity accounted investee or as a FVOCI financial asset depending on the level of influence retained.

4.1.4 Non-controlling interests

Non-controlling interests are measured at their proportionate share of the acquiree's identifiable net assets at the date of acquisition.

Changes in the Group's interest in a subsidiary that do not result in a

loss of control are accounted for as transactions with owners in their capacity as owners. Adjustments to non-controlling interests are based on a proportionate amount of the net assets of the subsidiary. No adjustments are made to goodwill and no gain or loss is recognised in profit or loss.

4.1.5 Interest in equity accounted investees

The Group's interests in equity accounted investees comprise interests in associates. Associates are those entities in which the Group has significant influence, but not control or joint control, over the financial and operating policies. Significant influence is presumed to exist when the Group holds between 20% and 50% of the voting power of another entity. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies. The considerations made in determining significant influence or joint control is similar to those necessary to determine control over subsidiaries.

Investments in associates are accounted for under the equity method. They are initially recognised at cost which includes transaction costs.

Subsequent to initial recognition, the consolidated financial statements include the Group's share of the profit or loss and other comprehensive income of equity accounted investees, after adjustments to

align the accounting policies with those of the Group, from the date that significant influence commences until the date that significant influence ceases.

When the Group's share of losses exceeds its interest in an equity accounted investee, the carrying amount of the investment, including any long term interests that form part thereof, is reduced to zero, and the recognition of further losses is discontinued except to the extent that the Group has an obligation or has made payments on behalf of the investee.

4.1.6 Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated. Unrealised gains arising from transactions with equity accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

4.1.7 Common Control Transactions

All common control transactions are accounted using book value accounting in both consolidated and separate financial statements. This is on the basis that the entities are part of a larger economic group, and that the figures from that larger group are the relevant ones. Accordingly,

- The net assets of the combining entities are consolidated using the existing book values.
- No amount is recognised as goodwill which arises as a result of difference between the consideration and net assets acquired.

- In applying book value accounting, no entries are recognized in Profit or Loss; instead, the result of the transaction is recognized in equity as arising from a transaction with shareholders.

4.2 Foreign Currency Transactions and balances

All foreign currency transactions are translated into the functional currency of the Group which is Sri Lankan Rupees (Rs.) at the spot exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated to the functional currency at the spot exchange rate at the reporting date. The foreign currency gain or loss on monetary items is the difference between amortised cost in the functional currency at the beginning of the year adjusted for effective interest and payments during the year and the amortised cost in foreign currency translated at the spot exchange rate at the reporting date.

Non-monetary assets and liabilities denominated in foreign currencies are translated into functional currency at spot exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into functional currency at the spot exchange rate when the fair value was determined. Non-monetary items that are measured based on historical cost in a foreign currency are translated at the spot exchange rate at the date of transaction. Foreign currency differences are generally recognised in profit or loss and presented within finance cost.

If there is a long-term lack of exchangeability due to the non-availability of foreign currencies in the market at an indicative exchange rate and foreign currency is not available for immediate delivery at the rate published by other legal exchange mechanisms, the entity shall use either the official rate or estimated rates, maximizing the use of observable data, considering the facts and circumstances prevalent at that point in time.

4.3 Revenue from contracts with customers

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services. Revenue is recognised upon satisfaction of performance obligation. The revenue recognition occurs at a point in time when control of the asset is transferred to the customer, generally on delivery of the goods. The Group determines at contract inception whether it satisfies the performance obligation over time or at a point in time. For each performance obligation satisfied overtime, the Group recognises the revenue over time by measuring the progress towards complete satisfaction of that performance obligation.

4.3.1 Performance obligations and revenue recognition policies

Type of product / service	Nature and timing of satisfaction of performance obligations, including significant payment terms	Revenue recognition under SLFRS 15
Retail FMCG	The Group operates a chain of retail stores selling consumer goods and the Group manufactures and sells a range of food products. In the case of retail, payment of the transaction price is due immediately when the customer purchases the goods and takes delivery in store. In the case of Wholesale Distribution, when the products have been delivered to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract.	Revenue is recognised when the goods are delivered and have been accepted by customers at their premises. For contracts that permit the customer to return an item, revenue is recognised to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur.
Customer loyalty programme	The Group operates a loyalty programme where retail customers accumulate points for purchases made which entitle them to discount on future purchases. A contract liability for the award points is recognised at the time of the sale.	Revenue is recognised when the points are redeemed or when they expire after the initial sale. A liability is recognised until the points are redeemed or expire.

Notes to the Financial Statements ... *Contd.*

Type of product / service	Nature and timing of satisfaction of performance obligations, including significant payment terms	Revenue recognition under SLFRS 15
Restaurants	The Group operates chains of restaurants for KFC and TGIF brands operates through franchise arrangements.	Revenue from restaurant and shop sales (food and beverages) is recognized upon rendering of service. Sales are net of discounts.
Real Estate - Rental income from operating leases	The Group develops and operates commercial shopping malls to be rented out to third parties as well as to be used by own.	Rental income from operating leases is recognised on a straight-line basis over the lease term. When the Group provides incentives to its tenants, the cost of the incentives is recognised over the lease term, on a straight- line basis, as a reduction of rental income.
Real Estate - Revenue from service and property management charges	The Group provides services to the tenants of the commercial shopping malls operated agreed upon the tenants' agreements or otherwise.	Revenue from service and property management charges is recognised in the accounting period. In the case of fixed price contracts, the customer pays the fixed amount based on a payment schedule. If the services rendered exceed the payment, a contract asset is recognised. If the payments exceed the services rendered, a contract liability is recognised.

4.3.2 Finance and Other income

a. *Financing components of Retail*

The Group does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Group does not adjust any of the transaction prices for the time value of money.

b. *Commissions*

When the Group is acting as an agent, the commission rather than gross income is recorded as revenue.

c. *Dividend income*

Dividends are received from financial assets measured at fair value through profit or loss (FVTPL) and at fair value through other comprehensive income (FVOCI). Dividends are recognised as other income in profit or loss when the right to receive payment is established. This applies even if they are paid out of pre-acquisition profits, unless the dividend clearly represents a recovery of part of the cost of an investment. In this case, the dividend is recognised in OCI if it relates to an investment measured at FVOCI.

d. *Interest income*

Interest income from financial assets at FVTPL is included in the net fair value gains / (losses) on these assets. Interest income on financial assets at amortised cost and financial assets at FVOCI calculated using the effective interest method is recognised in the statement of profit or loss as part of other income.

Other income also includes rental income from investment properties (Refer Note 7). Gains and losses on disposal of an item of property, plant & equipment and investments are accounted in profit or loss by comparing the net sales proceeds with the carrying amounts of property, plant & equipment and investments concerned and are recognised net within “other income” in profit or loss. When re-valued assets are sold, the amounts included in the revaluation surplus reserve are transferred to retained earnings. Other income is recognized on an accrual basis.

4.4 Employee benefits

4.4.1 Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a

result of past service provided by the employee, and the obligation can be estimated reliably.

4.4.2 Share-based payment arrangement

The grant-date fair value of equity settled share-based payment arrangements granted to employees is generally recognised as an expense, with a corresponding increase in equity, over the vesting period of the awards. The amount recognised as an expense is adjusted to reflect the number of awards for which the related service and non-market performance conditions are expected to be met, such that the amount ultimately recognised is based on the number of awards that meet the related service and non-market performance conditions at the vesting date. For share-based payment awards with non-vesting conditions, the grant-date fair value of the share-based payment is measured to reflect such conditions and there is no true-up for differences between expected and actual outcomes.

Where a parent grants rights to its equity instruments to employees of its subsidiary, and the arrangement is accounted for as equity-settled in the consolidated financial statements, the subsidiary should in its own separate financial statements measure the services received from its employees in accordance with the requirements of SLFRS 2 applicable to equity-settled share-based payment transactions and corresponding increase recognised in equity as a capital contribution from the parent.

4.4.3 Defined contribution plans

Defined contribution plan is a post employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay any further

amounts. Obligations for contributions to Employees Provident Fund and Employees Trust Fund covering all employees are recognised as an expense in profit or loss, as incurred.

Types of contribution plans which are being contributed for by the Group;

- (a) Employee Provident Fund (EPF) - The Group and employees contribute 12% and 8% respectively of the salary to EPF.
- (b) Employees Trust Fund - All employees of the Group are members of the Employees' Trust Fund (ETF). The Group contributes 3% of the salary of each employee to ETF.

4.4.4 Defined benefit plans

Defined Benefit Plan is a post-employment benefit plan other than Defined Contribution Plan. These plans create an obligation on the entity to provide agreed benefits to current and past employees and effectively places actuarial and investment risk on the entity. The liability recognised in the statement of financial position in respect of Defined Benefit Plan is the present value of the defined benefit obligation at the reporting date. The defined benefit obligation is calculated annually by independent actuaries, using projected unit credit method, as recommended by LKAS 19-Employee Benefit. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates that apply to the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related liability.

The assumptions based on which the results of the actuarial valuation were determined are included in Note 28.2 to the Financial Statements.

This liability is not externally funded, and the item is grouped under non-current liabilities in the statement of financial position. However, under the Payment of Gratuity Act No. 12 of 1983 the liability to an employee arises only on completion of five years of continued service. The Group recognizes all actuarial-gains and losses arising from defined benefit plans in other comprehensive Income and expenses related to defined benefit plans in staff expenses in profit or loss. When the benefits of a plan are changed or when a plan is curtailed, resulting change in benefit that relates to past service or the gain or loss on curtailment is recognized immediately in profit or loss. The Group recognizes gains and losses on the settlement of a defined benefit plan when the settlement occurs.

4.4.5 Termination benefits

Termination benefits are expensed at the earlier of when the Group can no longer withdraw the offer of those benefits and when the Group recognises costs for a restructuring. If benefits are not expected to be settled wholly within 12 months of the reporting date, then they are discounted.

4.5 Grants

Grants are recognised initially as deferred income at fair value when there is reasonable assurance that they will be received and the Group will comply with the conditions associated with the grant, and are then recognised in profit or loss as other income on a systematic basis over the useful life of the asset.

Grants that compensate the Group for expenses incurred are recognised in profit or loss as other income on a systematic basis in the periods in which the expenses are recognised.

Notes to the Financial Statements ... *Contd.*

4.6 Finance income and Finance costs

The Group's finance income and finance costs would include:

- 4.6.1 interest income;
- 4.6.2 interest expense;
- 4.6.3 the net gain or loss on the disposal of investments in debt securities measured at FVOCI;
- 4.6.4 the net gain or loss on financial assets at fair value through profit or loss;
- 4.6.5 the foreign currency gain or loss on financial assets and financial liabilities;
- 4.6.6 impairment losses (and reversals) on investments in debt securities carried at amortised cost or FVOCI (other than trade receivables);
- 4.6.7 the gain on the re-measurement to fair value of any pre-existing interest in an acquiree in a business combination;
- 4.6.8 the reclassification of net gains previously recognised in other comprehensive income.

4.7 Income Tax Expense

Income tax expense comprises current and deferred tax. Current tax and deferred tax is recognised in profit or loss except to the extent that it relates to a business combination, or items recognised directly in equity or in other comprehensive income.

The Group has determined that interest and penalties related to income taxes, including uncertain tax treatments, do not meet the definition of income taxes, and therefore accounted for them under LKAS 37 Provisions, Contingent Liabilities and Contingent Assets.

4.7.1 Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax payable or receivable is the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. It is measured using tax rates enacted or substantively enacted at the reporting date. Current tax also includes any tax arising from dividends.

Current tax payable also includes any tax arising from dividends. Current tax assets and liabilities are offset only if certain criteria are met.

4.7.2 IFRIC Interpretation 23 - Uncertainty over Income Tax Treatment

IFRIC - 23 interpretation addresses the accounting for income taxes when tax treatments involve uncertainty that affects the application of LKAS 12 Income Taxes. It clarifies that an entity must consider the probability that the tax authorities will accept a treatment retained in its income tax filings, assuming that they have full knowledge of all relevant information when making their examination.

The Group applies significant judgement in identifying uncertainties over income tax treatments. The Group assessed whether the Interpretation had an impact on its financial statements. The Group is of the view that it is probable that its tax treatments will be accepted by the taxation authorities hence the Interpretation did not have an impact on the financial statements of the Group.

The Group reviewed its income tax treatments and concluded that no additional provisions are required as disclosed in Note 35.

4.7.3 Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax is not recognised for:

- temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss;
- temporary differences related to investments in subsidiaries, associates and jointly controlled entities to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognised for unused tax losses, tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be utilised. Future taxable profits are determined based on business plans for individual subsidiaries in the Group and the reversal of temporary differences. Deferred tax is not recognized for the undistributed profits of subsidiaries as the parent company has control over the dividend policy of its subsidiaries and distribution of those profits. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves.

Un-recognised deferred tax assets are reassessed at each reporting date and recognised to the extent that it has

become probable that future taxable profits will be available against which they can be used.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

Temporary differences in relation to a right-of-use asset and lease liability are regarded as a net package (ROU asset and lease liability) for the purpose of recognizing deferred tax.

The measurement of deferred tax reflects the tax consequences that would follow the manner in which the Group expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities. For this purpose, the carrying amount of investment property that is measured at fair value is presumed to be recovered through sale.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis, or their tax assets and liabilities will be realized simultaneously.

4.8 Dividend distribution

Dividend distribution to the Company's shareholders is recognized as a liability in the Group's financial statements in the period in which the dividends are proposed by directors or approved by the Company's shareholders, as the case may be.

4.9 Inventories

Inventories are measured at the lower of cost and net realisable value. The cost of inventories is based on the first-in first-out

principle, and includes expenditure incurred in acquiring the inventories, production or conversion costs, and other costs incurred in bringing them to their existing location and condition. In the case of manufactured inventories and work in progress, cost includes an appropriate share of production overheads based on normal operating capacity. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and estimated costs necessary to make the sale.

The cost of each category of inventory of the Group is determined on the following basis:

- Raw & packing materials - Actual cost on a First In First Out - (FIFO) basis
- Finished goods and work-in-progress - Directly attributable manufacturing cost
- Merchandising goods - Actual cost on a First In First Out - (FIFO) basis
- Other inventories - Actual cost

Property inventory

The Group's property inventories arise where there is a change in use of investment properties evidenced by the commencement of development with a view to sale, and the properties are reclassified as inventories at their deemed cost, which is the fair value at the date of re-classification. They are subsequently carried at the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less costs to complete redevelopment and selling expenses.

4.10 Property, plant and equipment

i. Recognition and measurement Items of property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. Land and Building is stated at its fair value. The Group revalues

its Land and Building every 3 years. Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the following:

- the cost of materials and direct labour;
- any other costs directly attributable to bringing the assets to a working condition for their intended use; and
- capitalised borrowing costs.

Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment. If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment. Any gain or loss on disposal of an item of property, plant and equipment (calculated as the difference between the net proceeds from disposal and the carrying amount of the item) is recognised in profit or loss.

ii. Subsequent expenditure

Subsequent expenditure is capitalised only when it is probable that the future economic benefits associated with the expenditure will flow to the Group. On-going repairs and maintenance are expensed as incurred.

iii. Depreciation

Items of property, plant and equipment are depreciated from the date they are available for use or, in respect of self-constructed assets, from the date that the asset is completed and ready for use. Depreciation is calculated to write off the cost of items of property, plant and equipment less their estimated residual values using the straight-line basis over their estimated useful lives. Depreciation is generally recognised in profit or loss, unless the amount is included in the

Notes to the Financial Statements ... *Contd.*

carrying amount of another asset. Leased assets are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Group will obtain ownership by the end of the lease term. Land is not depreciated.

The estimated useful lives for the current and comparative years of significant items of property, plant and equipment are as follows:

Description	No. of years
Freehold buildings	50
Improvements to leasehold buildings	4 to 10 years or period of lease whichever is lower
Plant & machinery	5 to 10
Motor vehicles	4 to 5
Furniture & fittings	5

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate. Fully depreciated property, plant and equipment are retained in the financial statements until such time when they are no longer in use.

iv. Constructions in progress

All direct and indirect costs that are related to the construction of fixed assets and incurred before the assets are ready for their intended use are capitalised as construction in progress. Construction in progress is stated in the statement of financial position at cost less impairment losses. Construction in progress is transferred to fixed assets when it is ready for its intended use. No depreciation is provided against construction in progress.

v. Reclassification to investment property

When the use of a property changes from owner-occupied to investment property, the property is re-measured to fair value

and re-classified as investment property. Any gain arising on this re-measurement is recognised in profit or loss to the extent that it reverses a previous impairment loss on the specific property, with any remaining gain recognised in other comprehensive income and presented in the revaluation reserve in equity. Any loss is recognized immediately in profit or loss.

4.11 Intangible assets and goodwill

i. Recognition and measurement

Asset	Measurement basis
Goodwill	Goodwill arising on the acquisition of subsidiaries is measured at cost less accumulated impairment losses. In respect of acquisitions prior to 1 April 2011, goodwill is included on the basis of its deemed cost, which represents the amount recorded under previous GAAP (SLAS) In respect of equity accounted investees, the carrying amount of goodwill is included in the carrying amount of the investment, and any impairment loss is allocated to the carrying amount of the equity accounted investee as a whole.
Other intangible assets	Other intangible assets, including computer software, patents, trademarks and licenses, which are acquired by the Group and have finite useful lives are measured at cost less accumulated amortisation and any accumulated impairment losses.

ii. Subsequent expenditure

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognised in profit or loss as incurred.

iii. Amortisation

Amortisation is calculated to write off the cost of intangible assets less their estimated residual values using the straight-line method over their estimated useful

lives and is generally recognized in profit or loss. Goodwill is not amortised.

The estimated useful lives for current and comparative periods are as follows:

Description	No. of years
Trademarks and licenses	10 years
Computer software	4 years

4.12 Investment property

Investment property is property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business or use in the production or supply of goods or services or for administrative purposes.

Investment property is initially measured at cost and subsequently at fair value with any change therein recognised in profit or loss. Cost includes expenditure that is directly attributable to the acquisition of the investment property. The cost of self-constructed investment property includes the cost of materials and direct labour, any other costs directly attributable to bringing the investment property to a working condition for their intended use and capitalised borrowing costs.

Any gain or loss on disposal of an investment property (calculated as the difference between the net proceeds from disposal and the carrying amount of the item) is recognised in profit or loss. When investment property that was previously classified as property, plant and equipment is sold, any related amount included in the revaluation reserve is transferred to retained earnings. When the use of a property changes such that it is re-classified as property, plant and equipment, its fair value at the date of re-classification becomes its cost for subsequent accounting.

4.13 Assets held for sale

Non-current assets, or disposal groups comprising assets and liabilities, are classified as held-for-sale or held-for distribution if it is highly probable that they will be recovered primarily through sale or distribution rather than through continuing use. Immediately before classification as held-for-sale or held-for distribution, the assets, or components of a disposal group, are re-measured in accordance with the Group's other accounting policies. Thereafter, generally the assets, or disposal group, are measured at the lower of their carrying amount and fair value less costs to sell.

Any impairment loss on a disposal group is allocated first to goodwill, and then to the remaining assets and liabilities on a pro-rata basis, except that no loss is allocated to inventories, financial assets, deferred tax assets, employee benefit assets or investment property, which continue to be measured in accordance with the Group's other accounting policies. Impairment losses on initial classification as held-for-sale or held-for-distribution and subsequent gains and losses on re-measurement are recognised in profit or loss. Gains are not recognised in excess of any cumulative impairment loss. Once classified as held-for-sale or held-for-distribution, intangible assets and property, plant and equipment are no longer amortised or depreciated, and any equity-accounted investee is no longer equity accounted.

4.14 Cash and cash equivalents

Cash and cash equivalents include cash in hand, cash at bank and call deposits with maturities of three months or less from the acquisition date that are subject to an insignificant risk of changes in their fair value.

4.15 Financial instruments

4.15.1 Recognition and initial measurement

Trade receivables and debt securities issued are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Group becomes a party to the contractual provisions of the instrument. A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at fair value through profit or loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

4.15.2 Classification and subsequent measurement

i. Financial assets

On initial recognition, a financial asset is classified as measured at: amortised cost; Financial assets at fair value through other comprehensive income (FVOCI) - debt investment; Financial assets at fair value through other comprehensive income (FVOCI) - equity investment; or Financial assets at fair value through profit or loss (FVTPL).

Financial assets are not reclassified subsequent to their initial recognition unless the Group changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

The Group's financial assets classified under amortised cost includes trade and other receivable, amounts due from related companies and cash and cash equivalents.

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and

Notes to the Financial Statements ... *Contd.*

- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

ii. *Financial assets - Business model assessment:*

The Group makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed, and information is provided to management.

The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;

- how the performance of the portfolio is evaluated and reported to the Group's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated - e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for de-recognition are not considered sales for this purpose, consistent with the Group's continuing recognition of the assets. Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

iii. *Financial assets - Assessment whether contractual cash flows are solely payments of principal and interest:*

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Group considers the contractual terms of the instrument. This

includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Group considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable-rate features;
- prepayment and extension features; and
- terms that limit the Group's claim to cash flows from specified assets (e.g. nonrecourse features).

A prepayment feature is consistent with the solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable additional compensation for early termination of the contract. Additionally, for a financial asset acquired at a discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable additional compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

iv. Financial assets - Subsequent measurement and gains and losses:

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.
Financial assets at amortised cost	These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.
Debt investments at FVOCI	These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognised in profit or loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.
Equity investments at FVOCI	These assets are subsequently measured at fair value. Dividends are recognised as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are never reclassified to profit or loss.

v. Financial Liabilities - Classification, Subsequent Measurement and Gains and Losses

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

Financial liabilities measured at amortised cost include interest bearing loans and borrowings, trade and other payables and amounts due to related companies.

4.15.3 Derivative financial instruments

Derivatives are initially recognised at fair value; any directly attributable transaction costs are recognised in profit or loss as incurred. Subsequent to initial recognition, derivatives are measured at fair value, and changes therein are generally recognised in profit or loss.

i. Financial liability on put options written over non-controlling interest

The financial liability is recognised at the present value of the redemption amount and accreted through finance charges in the profit or loss over the contract period up to the final redemption amount. Any adjustments to the redemption amount are recognised in equity in accordance with SLFRS 9 - Financial Instruments.

The initial redemption liability is a reduction of parent's equity if the risks and rewards of ownership remain with the non-controlling interest or a reduction of non-controlling interest equity if the risks and rewards of ownership transfer to the parent. If the present

value of the redemption amount exceeds the carrying value of the non-controlling interest, any excess is recorded against parent's equity. If the contract is exercised, any noncontrolling interest equity is allocated to parent equity. No adjustments are made to goodwill upon settlement of the contract. The redemption liability is offset by the cash payment. If the contract lapses un-exercised where the risks and rewards of ownership have transferred to the parent, a non-controlling interest equity is reinstated. In substance, the parent has sold those shares back to the noncontrolling interest and it is a transaction with a non-controlling interest. The non-controlling interest equity amount is reinstated at an amount equal to its share of the carrying values of the subsidiary's net assets at the date of lapse plus the goodwill from the subsidiary's initial acquisition. Any difference between the redemption liability and the non-controlling interest equity adjustment is recognised against the parent's equity. No adjustments are made to goodwill. If the contract lapses unexercised where the risks and rewards of ownership remain with the non- controlling interest, then no adjustment is made to the carrying value of the non- controlling interest and the redemption liability is de-recognised against the parent's equity.

4.15.4 De-recognition

i. Financial assets

The Group de-recognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

Notes to the Financial Statements ... *Contd.*

The Group enters into transactions whereby it transfers assets recognised in its statement of financial position but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not de-recognised.

ii. Financial liabilities

The Group de-recognises a financial liability when its contractual obligations are discharged or cancelled or expire. The Group also de-recognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value.

On de-recognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred, or liabilities assumed) is recognised in profit or loss.

iii. Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

4.16 Impairment

4.16.1 Non-derivative financial assets

The Group assesses on a forward-looking basis the expected credit losses associated with its debt instruments carried at amortised cost and FVOCI. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables, the Group applies the simplified approach permitted by SLFRS 9, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

At each reporting date the Group assesses whether there is objective evidence that financial assets not carried at fair value through profit or loss are impaired. If there is objective evidence (such as significant financial difficulty of the obligor, breach of contract, or it becomes probable that the debtor will enter bankruptcy), the asset is tested for impairment.

The amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future expected credit losses that have not been incurred) discounted at the financial asset's original effective interest rate (that is, the effective interest rate computed at initial recognition). An impairment loss is calculated as the difference between an asset's carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. Losses are recognised in profit or loss and reflected in a provision account.

In relation to trade receivables, a provision for impairment is made when there is objective evidence (such as the probability of insolvency or significant financial difficulties of the debtor) that the Group will not be able to collect all of the amounts due under the original terms of the invoice. Impaired debts are derecognised when they are assessed as uncollectible.

If in a subsequent period the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed, to the extent that the carrying value of the asset does not exceed its amortised cost at the reversal date. Any subsequent reversal of an impairment loss is recognised in profit or loss.

4.16.2 Non-financial assets

At each reporting date, the Group reviews the carrying amounts of its non-financial assets (other than investment property, inventories and deferred tax assets) to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. Goodwill is tested annually for impairment. For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs. Goodwill arising from a business combination is allocated to CGUs or groups of CGUs that are expected to benefit from the synergies of the combination. The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its recoverable amount. Impairment losses are recognised in profit or loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the

other assets in the CGU on a pro rata basis. An impairment loss in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation if no impairment loss had been recognised.

4.16.3 Credit-impaired financial assets

At each reporting date, the Group assesses whether financial assets carried at amortised cost and debt securities at FVOCI are credit-impaired. A financial asset is "credit impaired" when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or being more than 90 days past due;
- the restructuring of a loan or advance by the Group on terms that the Group would not consider otherwise; or
- it is probable that the borrower will enter bankruptcy or other financial reorganisation

4.17 Stated capital - Ordinary shares

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares are recognised as a deduction from equity, net of any tax effects.

4.18 Capital Grant

Government Grants

Government grants, including non-monetary grants at fair value, are

recognised when there is reasonable assurance that the conditions attached to them will be complied by the Group and the grants will be received. Grants related to assets, including nonmonetary grants at fair value, are presented in the Statement of Financial Position as deferred income and recognised in the profit or loss on a systematic and rational basis over the useful life of the asset. Grants related to income are presented as a credit in the profit or loss, under the heading 'other income' against the incurrence of related expenditure.

4.19 Provisions

A provision is recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

4.20 Leases

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group uses the definition of a lease in SLFRS 16.

4.20.1 As a Lessee

At commencement or on modification of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of its relative stand-alone prices. However, for the leases of property the Group has elected not to separate

non-lease components and account for the lease and non-lease components as a single lease component.

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term, unless the lease transfers ownership of the underlying asset to the Group by the end of the lease term or the cost of the right-of-use asset reflects that the Group will exercise a purchase option. In that case the right-of-use asset will be depreciated over the useful life of the underlying asset, which is determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Generally, the Group entities uses its incremental borrowing rate as the discount rate.

Notes to the Financial Statements ... *Contd.*

The Group determines its incremental borrowing rate by obtaining interest rates from various external financing sources and makes certain adjustments to reflect the terms of the lease and type of the asset leased.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- the exercise price under a purchase option that the Group is reasonably certain to exercise, lease payments in an optional renewal period if the Group is reasonably certain to exercise an extension option, and penalties early termination of a lease unless the Group is reasonably certain not to terminate early.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, if the Group changes its assessment of whether it will exercise a purchase, extension or termination option or if there is a revised in-substance fixed lease payment.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Group presents right-of-use assets that do not meet the definition of investment property in "Right-of-use" assets and lease liabilities in interest bearing loans and borrowings in the statement of Financial Position.

Short term leases and leases of low-value assets

The Group has elected not to recognise right-of-use assets and lease liabilities for leases of low-value assets and short-term leases. The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

4.20.2 As a Lessor

At inception or on modification of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices.

When the Group acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease.

To classify each lease, the Group makes an overall assessment of whether the lease transfers substantially all of the risk and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not then it is an operating lease. As part of this assessment, the Group considers certain indicators such as whether the lease is for the major part of the economic useful life of the asset.

When the Group is an intermediate lessor, it accounts for its interest in the head lease and the sub-lease separately. It assesses the lease classification of sub-lease with reference to the right-of-use asset arising from the head lease, not

with reference to the underlying asset. If a head lease is a short-term lease to which the Group applies the exemption described above, then it classifies sub-lease as an operating lease.

The Group recognises lease payments received under operating leases as rental income on a straight-line basis over the lease term as part of 'other income'.

4.21 Borrowing Costs

As per Sri Lanka Accounting Standard - LKAS 23 'Borrowing Costs', the Group capitalises borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset as part of the cost of the asset. A qualifying asset is an asset which takes a substantial period of time to get ready for its intended use or sale. Other borrowing costs are recognised in profit or loss in the period in which they occur.

4.22 Contingent Liabilities

Contingent Liabilities are possible obligations whose existence will be confirmed only by uncertain future events or present obligations where the transfer of economic benefit is not probable or cannot be readily measured as defined in the Sri Lanka Accounting Standard - LKAS 37 on 'Provisions, Contingent Liabilities and Contingent Assets'.

Contingent liabilities are not recognised in the Statement of Financial Position but are disclosed unless its occurrence is remote.

4.23 Operating profit

Operating profit is the result generated from the continuing principal revenue producing activities of the Group as well as other income and expenses related to operating activities. Operating profit excludes net finance costs, share of profit of equity accounted investees and income taxes.

4.24 Biological assets

A biological asset is a living animal. Biological assets consist of livestock of Pigs, Chickens, Turkey, Ducks, Geese, Sheep and Goats which includes a breeding stock of Pigs, Goats and Sheep.

Biological assets - Non-current

Bearer biological assets are those other than consumable biological assets and recognized as "Biological assets - Non-current". Bearer biological assets are not agricultural produce but, rather, are self-generating (Biological transformation which results in creation of additional biological animal or plants). Grandparent and Parent livestock's of the company which have been identified as bearer biological assets.

Biological assets - Current

Consumable biological assets are those that are to be harvested as agricultural produce or sold as biological assets (which will includes livestock intended for the production of meat). All other livestock of the company except for the breeding stock classified as non-current, which can be readily harvested have been identified as consumable biological assets

4.24.1 Measurement of fair value.

The biological assets of the company have been measured at fair value in line with the requirements of LKAS 41 Agriculture and SLFRS 13 Fair value measurement.

(i) Fair value hierarchy

The fair value measurement of biological assets has been categorized as level 3 fair values based on the inputs to the valuation technique used.

(ii) Valuation technique and significant unobservable inputs

The following table shows the valuation technique used in measuring level 3 fair value as well as the significant unobservable inputs used.

Type	Valuation technique	Significant unobservable Inputs
Biological Assets - Non Current This comprises of grandparent and parent breeding stock of pigs. This stock includes the living animal recently imported from UK (Feb 2025).	Cost Approach The valuation model considered is cost approach which will reflect the amount that would be required currently to replace the service capacity of the assets.	Not Applicable
Biological Assets - Current This comprises of other biological assets except biological assets which has been categorized under biological assets - non current.	Market Approach The valuation model considered is market approach which will reflect the amount that uses the prices and other relevant information generated by market transaction involving identical or comparable assets. All the other living animals except two-month-old piglet have been valued using market approach.	Selling price Rs. 800 - Rs. 1,500 Per KG

Consumable Biological Assets

Consumable biological assets comprise of Pigs, Goats, Sheep, Layers, Ducks, Turkey & Geese that are not breeding parents which are fair valued at the market price.

Notes to the Financial Statements ... *Contd.*

5. STANDARDS ISSUED BUT NOT EFFECTIVE AS AT THE REPORTING DATE

The Institute of Chartered Accountants of Sri Lanka has issued the following new and amended Sri Lanka Accounting Standards (SLFRSs/ LKASs), which will become applicable for annual reporting periods beginning on or after 1 January 2025, and are available for early adoption. Accordingly, the Group has not early adopted these amended standards in preparing these Financial Statements.

The Group does not expect the adoption of the standards listed below to have a material impact on the Financial Statements of the Group and the Company.

- SLFRS S1 - General Requirements for Disclosure of Sustainability-related Financial Information (Effective on or after 1 January 2025 with early adoption permitted).
- SLFRS S2 - Climate-Related Disclosure (Effective on or after 1 January 2025 with early adoption permitted).

6. REVENUE

(i) Accelerated tax depreciation on property, plant and equipment.

(ii) Tax losses are available for deduction against future taxable income.

Notes to the Financial Statements ... *Contd.*

10.5.2 Deferred income tax assets and liabilities during the year were calculated after setting off balances within the same tax jurisdiction.

10.5.3 Deferred tax has been computed taking into consideration the tax rates effective from 1 October 2022 which is 20%, and 30% for all standard rate companies. Deferred taxation is provided for all Group companies except those companies with tax losses available for carry forward exceeding taxable temporary differences and companies which are exempt from income tax.

10.5.4 Un-accounted deferred tax assets

A deferred tax asset is recognised only to the extent that it is probable that taxable profit will be available in the foreseeable future, against which such deductible temporary timing differences could be utilised. The deferred tax effect on undistributed reserves of subsidiaries has not been recognised where the parent can control the timing of the reversal of these temporary differences.

The break down of the tax effect of un-accounted deferred tax assets is given below;

Group

In thousands of rupees	2025		2024	
For the year ended 31st March	Temporary difference	Tax effect on temporary difference	Temporary difference	Tax effect on temporary difference
Deductible temporary differences				
Tax losses	2,048,984	568,549	2,236,719	624,869
	2,048,984	568,549	2,236,719	624,869

Company

In thousands of rupees	2025		2024	
For the year ended 31st March	Temporary difference	Tax effect on temporary difference	Temporary difference	Tax effect on temporary difference
Deductible temporary differences				
Tax losses	207,910	62,373	245,164	73,549
	207,910	62,373	245,164	73,549

11. EARNINGS PER SHARE

11.1 Basic earnings per share

Earnings per share is calculated by dividing the profit attributable to equity holders of the Group/Company by weighted average number of ordinary shares outstanding during the year.

In thousands of rupees	Group		Company	
For the year ended 31st March	2025	2024	2025	2024
Basic earning per share	25.43	21.63	13.91	12.62
In thousands of rupees				
Profit attributable to equity shareholders of the parent	5,122,119	4,357,303	2,801,263	2,541,493
In thousands of numbers				
Weighted-average number of ordinary shares	201,407	201,407	201,407	201,407

11.2 Diluted earnings per share

Diluted earnings per share computation is the same as in the note 11.1.

12. DIVIDEND PER SHARE

	For the year ended 31st March 2025			For the year ended 31st March 2024		
	Date of payment	Dividend per share Rs.	Dividend (in thousands of rupees)	Date of payment	Dividend per share Rs.	Dividend (in thousands of rupees)

13.3 Measurement of fair values of freehold land - Group

(a) Valuation process

The Group’s freehold lands are stated at their revalued amounts, being the fair value at the date of revaluation less any subsequent accumulated impairment losses. The Group has revalued all of its freehold land in the reporting period ending 31st March 2024. The value measurements were carried out in conformity with the requirements of the Sri Lanka Accounting Standards by Mr. Tissa Weeratne, Chartered Valuation Surveyor, UK & Fellow, Institute of Valuers of Sri Lanka, with appropriate qualifications and recent experience in the valuation of properties in the relevant locations. Mr. T Weeratne is not related to the Group. The surplus arising on such valuations have been transferred to revaluation reserves.

(b) Valuation techniques used

Valuation technique (1) : - Market Comparable Approach

The bare lands are valued using the market comparable approach. Under the market comparable approach, a property’s fair value is estimated based on comparable transactions. The valuer used the comparable method of valuation involving analysing data obtained from local selling prices for the entire portfolio, by property type. The market comparable approach is based upon the principle of substitution under which a potential buyer will not pay more for the property than it will cost to buy a comparable substitute property. The unit of comparison applied by the Group is the price per perch.

Valuation techniques (2) : - Income Capitalisation Method

The commercial property (shopping malls & theatres) are valued using the income capitalisation method where a property’s fair value is estimated based on the normalised net operating income generated by the property, which is divided by the capitalisation (discount) rate. The difference between gross and net rental income includes expense at rates estimated by the valuer.

(c) Fair value hierarchy

The fair value measurement for all the lands are categorised as a Level 3 fair value based on the inputs to the valuation technique used. A significant increase in the market value per perch, capitalisation rate and market rent used in arriving at fair value would result in a significant increase in fair value, and vice versa. There has been no change to the valuation technique during the year.

- Level 1 - Quoted prices in active markets
- Level 2 - Significant observable inputs
- Level 3 - Significant unobservable inputs

(d) Information about fair value measurements using significant unobservable inputs (Level 3)

Property valuations are inherently subjective as they are made on the basis of assumptions made by the valuer which may not prove to be accurate. For these reasons we have classified the land valuations as Level 3 as defined by SLFRS 13.

(e) The following table shows the valuation techniques used by Group in measuring level 3 fair values and the significant unobservable inputs used.

Notes to the Financial Statements ... *Contd.*

Valuation technique	Significant unobservable inputs	Sensitivity of the input to the fair value
Market comparable method - This method considers the selling price of a similar property within a reasonably recent period of time in determining the fair value of property being revalued. This involves evaluation of recent active market prices of similar assets, making appropriate adjustments for difference in size, nature and location of the property.	Market price per perch. The valuer has used a range of prices for respective lands based on adjusted fair value taking into account other valuation considerations. Market price per perch ranges between Rs. 5,000 - Rs. 20,500,000 per perch.	The estimated fair value would increase / (decrease) if: Cost per square foot was higher / (lower); or Market value per perch was higher / (lower)
Income method :- The net income generated by the property is used in conjunction with certain factors is used to calculate its fair value.	Contractual rentals agreed Capitalization rates 5.4%-6.25% Repairs and insurance 20%-40% Valuer has used market price per perch for excess land in existing location using a range of prices for similar lands based on adjusted fair value taking into account other valuation consideration ranges between Rs. 5,000 - Rs. 20,500,000 per perch	Estimated fair value will increase / (decrease) if market interest rate increase / (decrease)

13.4 If land were stated at the historical cost basis, the carrying amounts would have been as follows:

In thousands of rupees	Group	
As at 31st March	2025	2024
Freehold land	7,018,475	7,018,475

13.5 Leased assets capitalised in property, plant and equipment

In thousands of rupees	Group		Company	
As at 31st March	2025	2024	2025	2024
Capitalised	20,816,978	19,178,812	4,854	4,854
Accumulated Depreciation	(10,181,632)	(8,961,404)	(3,242)	(3,170)
Carrying value	10,635,346	10,217,408	1,612	1,684

13.6 Security

The details of assets mortgaged for banking facilities obtained have been given in the Note 27.3 to the financial statements, If any.

13.7 Details on classes of assets

- Land & buildings consist of freehold land, road ways & buildings.
- Improvements to leasehold buildings include the cost of civil work incurred in setting up new outlets on leasehold premises.
- Furniture & fittings consist of tools, implements, furniture & fittings, office & other equipment.
- Capital work in progress consists of expenditure incurred on projects where operations had not commenced as at the reporting date.

13.8 Other information

Property, plant and equipment of the Group and the Company included:

In thousands of rupees	Group		Company	
As at 31st March	2025	2024	2025	2024
Fully depreciated assets	13,268	11,939	41	41

Depreciation amounting to Rs. 4,044 Mn (2024 - Rs. 3,650 Mn) and Rs. 985 Mn (2024 - Rs. 949 Mn) has been charged respectively to the cost of sales and, administration and distribution expenses of the Group.

13.9 Impairment

The Management has assessed the potential impairment loss of property, plant and equipment as at 2025. Based on the assessment, the Group does not foresee any indications of impairment as at the reporting date and functions under the business continuity plan as per the Group's risk management strategy, allowing operations to function through alternate working arrangements, whilst strictly adhering to and supporting government directives.

14. LEASES

Information about leases for which a Group is lessee is presented below :

14.1 Right of use assets

As at 31 March	13,355,073	12,830,323	1,205,075	1,045,044

Investment property comprises both commercial properties leased to third parties as well as land held for capital appreciation. Changes in fair values are recognised as gains in profit or gains/ losses. All gains /losses are unrealised.

Notes to the Financial Statements ... *Contd.*

16.2 Measurement of fair values

(a) Valuation process

The valuations of investment property for the reporting period were performed by Mr. Sivaskantha, Chartered Valuation Surveyor, UK & Fellow, Institute of Valuers of Sri Lanka, an accredited independent valuer with a recognised and relevant professional qualification and with recent experience in the locations and categories of the investment property being valued. The valuation models applied are in accordance with those recommended by the International Valuation Standards Committee and are consistent with the principles in SLFRS 13. For all investment properties, their current use equates to the highest and best use and changes in Level 3 fair values are reviewed annually at each reporting date.

(b) Valuation techniques used

Valuation technique (1): - Market comparable approach

The bare lands are valued using the market comparable approach. Under the market comparable approach, a property's fair value is estimated based on comparable transactions. The valuer used the comparable method of valuation involving analysing data obtained from local selling prices for the entire portfolio, by property type. The market comparable approach is based upon the principle of substitution under which a potential buyer will not pay more for the property than it will cost to buy a comparable substitute property. The unit of comparison applied by the Group is the price per perch.

Valuation techniques (2): - Income capitalisation method

The commercial property (shopping malls & theatres) are valued using the income capitalisation method where a property's fair value is estimated based on the normalised net operating income generated by the property, which is divided by the capitalisation (discount) rate. The difference between gross and net rental income includes expense at rates estimated by the valuer.

(c) Fair value hierarchy

The fair value measurement for all the investment properties are categorised as a Level 3 fair value based on the inputs to the valuation technique used. A significant increase in the market value per perch, capitalisation rate and market rent used in arriving at fair value would result in a significant increase in fair value, and vice versa. There has been no change to the valuation technique during the year.

Level 1 - Quoted prices in active markets

Level 2 - Significant observable inputs

Level 3 - Significant unobservable inputs

(d) Information about fair value measurements using significant unobservable inputs (Level 3)

Property valuations are inherently subjective as they are made on the basis of assumptions made by the valuer which may not prove to be accurate. For these reasons we have classified the investment property valuations as Level 3 as defined by SLFRS 13.

Notes to the Financial Statements ... *Contd.*

(e) The following table shows the valuation techniques used by Group in measuring level 3 fair values and the significant unobservable inputs used.

Valuation technique	Significant unobservable inputs	Sensitivity of the input to the fair value
Market comparable method - This method considers the selling price of a similar property within a reasonably recent period of time in determining the fair value of property being revalued. This involves evaluation of recent active market prices of similar assets, making appropriate adjustments for difference in size, nature and location of the property	Construction cost per square foot Rs. 1,435 - Rs. 10,000 Market price per perch. The valuer has used a range of prices for respective lands based on adjusted fair value taking into account other valuation considerations Rs. 30,000 - Rs.18,500,000 per perch.	The estimated fair value would increase/ (decrease) if: • cost per square foot was higher / (lower); or • market value per perch was higher / (lower)
Income method - The net income generated by the property is used in conjunction with certain factors is used to calculate its fair value.	"Capitalization rates 5.4%-6% Repairs and insurance 23%-40% Contractual rental Rs. 644,333 - Rs. 54,401,395 per month."	The estimated fair value would increase / (decrease) if: • contractual rentals were higher / (lower); • occupancy rates were higher/ (lower); • capitalization rate was (higher) / lower; • repair and insurance was (higher) / lower; or • market value per perch was higher / (lower)

(f) Income and expense

During the year ended 31st March 2025 Rs. 941.29 Mn (2024: 687.64 Mn) rental and ancillary income from investment properties was recognised in the Group profit or loss. Direct operating expenses, including repairs and maintenance, arising from investment property that generated rental income amounted to Rs.481.59 Mn (2024: Rs. 519.01 Mn). The Group did not incur any direct operating expenses arising from investment properties that did not generate rental income.

(g) Restrictions and obligations

As at 31st March 2025, there were no restrictions on the realisability of investment property or the remittance of income and proceeds of disposal (2024: Rs. Nil) except for the restriction mentioned as note (i) below. There are no obligations to construct or develop the Group's residential or development land investment property or has no obligation to complete any construction of any property as at the reporting date.

i. Restrictions on realisability of bare land located at Boralessgamuwa

Sri Lanka Land Reclamation and Development Corporation (SLRDC) has issued an acquisition notice for this land under the Weras Reservoir Project on 29th March 2013. Due to impracticability of estimating the compensation to be received from SLRDC or fair value of the land as at 31st March 2025, the said land is stated at its previous revalued amount in the Financial Statements.

*All the intangible assets are separately acquired and there are no such internally generated intangible assets

17.2 Impairment loss and subsequent reversal of goodwill

(a) Consolidation goodwill

Goodwill on acquisition as at the reporting date has been tested for impairment. For the purposes of impairment testing, goodwill has been allocated to the Group's CGUs (operating divisions) as follows.

In thousands of rupees	Group		Company	
As at 31st March	2025	2024	2025	2024
FMCG	500,964	634,760	-	-
Corporate	688,467	688,467	688,467	688,467
	1,189,431	1,323,227	688,467	688,467

Notes to the Financial Statements ... *Contd.*

There has been no permanent impairment of intangible assets that require a provision during the year. Recoverable value of goodwill has been estimated based on the expected future cash flows. When testing for impairment for goodwill, the recoverable amount is determined on the basis of value-in-use calculations. These calculations use cash flow projections based on financial budgets of future performances which are approved by management and are discounted at an appropriate pre-tax discount rate equivalent to the average treasury bond rate.

The key assumptions used are given below;

- Business Growth - long term average growth for each division. The weighted average growth rate used is consistent with the forecast included in industry reports
- Inflation - current inflation rates
- Margin - past performance and budgeted expectations
- Discount rate - risk free adjusted for the specific risk relating to the industry

(b) Company - Merger goodwill

The Company goodwill relates to the property assets and investments acquired through the merger of Millers PLC with C T Holdings PLC (previously Ceylon Theatres PLC) in the financial year 2007/08. At the reporting date, the market value of the said quoted investments and property assets exceed the book value and the recognized goodwill. Therefore, no impairment was deemed to be necessary to the carrying value of goodwill stated in the Financial Statements.

CGU's below are disclosed for the material goodwill balances only.

CGU 1 - Cargills Convenient Foods Limited

The recoverable amount of this CGU was based on its value in use, determined by discounting the future cash flows to be generated from the continuing use of the CGU. The key assumptions used in the estimation of value in use were as follows:

	2025 %	2024 %
Description		
Discount rate	15.94	15.09
Terminal value growth rate	3	3
Budgeted EBITDA growth rate (average of next five years)	10	10

The discount rate was based on the weighted average cost of capital (WACC) for the companies, determined by considering the cost of equity and cost of debt proportionately weighted. Five years of cash flows were included in the discounted cash flow model. A long-term nominal growth rate into perpetuity has been determined as 3% based on management's internal assessment. Budgeted EBITDA was based on expectations of future outcomes taking into account past experience, adjusted for anticipated revenue growth. Revenue growth was projected taking into account the average growth levels experienced over the past five years and the estimated sales volume and price growth for the next five years. A reasonably possible change in any of the key assumptions on which the management has based its determination of the CGU's recoverable amount would not cause the CGU's carrying amount to exceed its recoverable amount.

CGU 2 - Cargills Agri Solutions Company (Private) Limited

Investment in Cargills Agri Solutions Company (Private) Limited was impaired based on the judgments and assumptions. As a result of the impairment and continuous losses incurred by the subsidiary goodwill on consolidation recognised at group level was written off.

Brand Name

The Rs. 661.87 Mn. represents the brand value recognised on the acquisition of Kotmale Holdings PLC. Brand name has been tested for impairment and no impairment has been recognised as at reporting date. Management is of the view that the brand name has an indefinite useful life and accordingly no amortisation is charged. However, in accordance with LKAS 38 - “Intangible Assets”, any intangible asset which has an indefinite useful life is subject to annual impairment test which is to be carried out in accordance with LKAS 36 - “Impairment of Assets” and the useful life of the intangible asset that is not being amortised is reviewed each period to determine whether events and circumstances continue to support an indefinite useful life assessment for this asset. The recoverable amount of this CGU was based on its value in use, determined by discounting the future cash flows to be generated from the continuing use of the CGU.

The key assumptions used in the estimation of value in use were as follows:

	2025	2024
	%	%
Description		
Discount rate	16.45	24.89
Terminal value growth rate	3	3
Budgeted EBITDA growth rate (average of next five years)	10	10

The discount rate was based on the weighted average cost of capital (WACC) for the companies, determined by considering the cost of equity and cost of debt proportionately weighted. Five years of cash flows were included in the discounted cash flow model. A long-term nominal growth rate into perpetuity has been determined as 3% based on management’s internal assessment. Budgeted EBITDA was based on expectations of future outcomes taking into account past experience, adjusted for anticipated revenue growth of the Kotmale Brands. Revenue growth was projected taking into account the average growth levels experienced over the past five years and the estimated sales volume and price growth for the next five years.

	Change require to carrying amount to equal recoverable amount	
	2025	2024
	%	%
Discount rate	(1.55)	1.55
Budgeted EBITDA growth rate (average of next five years)	2.20	(2.50)

Notes to the Financial Statements ... *Contd.***18. INVESTMENTS IN SUBSIDIARIES****18.1 Reconciliation of carrying amount**

*Impairment to the carrying value of investment in Ceylon Theatres (Private) Limited was recognised based on the discounted future cash flows to the extent of the non recoverability amount of the investment.

The recoverable amount of this CGU was based on its value in use, determined by discounting the future cash flows to be generated from the continuing use of the CGU.

The key assumptions used in the estimation of value in use were as follows:

	2025	2024
	%	%
Description		
Discount rate	21.09	18.56
Terminal value growth rate	3	3
Budgeted EBITDA growth rate (average of next five years)	10	10

The discount rate was based on the weighted average cost of capital (WACC) for the companies, determined by considering the cost of equity and cost of debt proportionately weighted. Five years of cash flows were included in the discounted cash flow model. A long-term nominal growth rate into perpetuity has been determined as 3% based on management's internal assessment. Budgeted EBITDA was based on expectations of future outcomes taking into account past experience, adjusted for anticipated revenue growth. Revenue growth was projected taking into account the average growth levels experienced over the past five years and the estimated sales volume and price growth for the next five years.

19.3 The summarised financial information presented above represents amounts shown in the associate's Financial Statements prepared in accordance with Sri Lanka Financial Reporting Standards (SLFRS). All of the above associates are accounted for using the equity method in these consolidated Financial Statements.

19.4 The financial year end date of Cargills Bank PLC is 31st December due to the industry requirement and Financial Statements for the year ended 31st December 2024 have been used for the purposes of applying the equity method. Further, there are no significant transactions between the dates of the financial statements of the said companies and 31st March 2025 which require any adjustments.

19.6 Restriction on voting power

Cargills Bank PLC

The Group's voting rights in Cargills Bank PLC is below 50% as per the investment conditions imposed by the regulator. As such the Group does not have controlling power over the investee and accordingly the investment in Cargills Bank PLC is equity accounted.

	1,500,000	1,500,000	-	-

The Subsidiary Cargills (Ceylon) PLC Invested in Fifteen Million (15,000,000) Basel III Additional Tier 1 Compliant Rated Unlisted Unsecured Subordinated Perpetual Convertible Debentures issued by Cargills Bank PLC, with a conversion at the option of the debenture holder and Non-Viability Conversion upon the occurrence of a trigger event at the par value of Sri Lankan Rupees One Hundred (LKR 100/-). The interest rate is based on the Weighted Average Twelve-Month Net Treasury Bill Rate + 2% p.a. The debenture holder has the right to convert the debenture to ordinary shares of the Bank during the conversion period.

The Interest is cumulative and will be paid only if the Bank has distributable profits. The Bank has discretion at all times to cancel the interest payments. However the agreement does not stipulate interest, on interest deferred/cancelled and therefore as the Investment does not meet the SPPI criteria, it has been classified as FVTPL.

21. BIOLOGICAL ASSETS

Biological assets shall be qualified for recognition if the Group controls the assets as a result of past event. It is probable that future economic benefits associated with the assets will flow to the Group and fair value or cost of the asset can be measured reliably.

Consumable biological assets are those that are to be harvested as agricultural produce or sold as biological assets.

Bearer biological assets are those other than Consumable biological assets. Bearer biological assets are not agricultural produce but, rather, are self-regenerating. The Group has identified grandparent and parent livestock as bearer biological assets.

Biological assets are measured at fair value less cost to sell and within any changes therein recognized in profit or loss for the period in which it arise. No indicators for impairment were identified as at 31 March 2025.

In thousands of rupees	Group		Company

Interest cost	222,643	315,647	4,947	7,524
	402,760	511,477	7,576	9,302

Notes to the Financial Statements ... *Contd.*

28.2 Actuarial assumptions

The following were the principal actuarial assumptions at the reporting date:

In thousands of rupees	Group		Company	
As at 31st March	2025	2024	2025	2024
Discount rate	10% - 11%	10% - 11%	10%	10%
Future salary growth rate	7.5% - 10%	7.5% - 10%	7.5%	7.5%
Staff turnover rate	9% - 20%	9% - 18%	9%	9%

The defined benefit obligation liability of the Company is based on an actuarial valuation carried out by Mr. M. Poopalanathan, AIA Messrs Actuarial and Management Consultants (Private) Limited, an Independent Actuary. The actuarial valuation involves making assumptions about discount rates and future salary increases. Due to the complexity of the valuation and the underlying assumptions and its long-term nature, the defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. The Company has considered the impact on the defined benefit obligations due to changes in economic factors with support of the independent actuarial expert. A long term treasury bond rate of 10%-11% p.a. (2024 - 10%-11%) has been used to discount future liabilities taking into consideration remaining working life of eligible employees. Further, the salary increment rate of 7.5% to 10% is considered appropriate to be in line with the Group's targeted future salary increments when taking into account the current market conditions and inflation rate. Due to the discount rate and salary increment rate assumptions used, nature of non-financial assumptions and experience of the assumptions of the Company.

In addition to the above, demographic assumptions such as mortality, withdrawal and disability, and retirement age were considered for the actuarial valuation. "A 67/07 mortality table" issued by the Institute of Actuaries, London was used to estimate the gratuity liability of all Group companies.

28.3 Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below.

In thousands of rupees	Group		Company	
As at 31st March	2025	2024	2025	2024
Increase				
Discount rate (1% movement)	(77,860)	(77,140)	(1,500)	(1,451)
Future salary growth (1% movement)	94,093	91,367	2,022	1,843
Decrease				
Discount rate (1% movement)	84,038	82,639	1,549	1,511
Future salary growth (1% movement)	(88,653)	(86,571)	(1,982)	(1,792)

As at 31st March 2025, the weighted average duration of the defined benefit obligation for the Company was 3 years.

Total financial liabilities		230,538 426,937

31.2 Fair Value Hierarchy

The table below analyses financial instruments carried at fair value, by valuation method.

The different levels have been defined as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2: Input other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)

Level 3: Inputs for the assets or liability that are not based on observable market data (unobservable inputs)

Notes to the Financial Statements ... *Contd.*

31.2.1 Assets and Liabilities Measured at Fair Value - Recurring

Asset and liabilities	Valuation technique	Significant unobservable inputs	Sensitivity of the input to the fair value
Property, plant and equipment - Freehold land and building	Market comparable method - This method considers the selling price of a similar property within a reasonably recent period of time in determining the fair value of property being revalued. This involves evaluation of recent active market prices of similar assets, making appropriate adjustments for difference in size, nature and location of the property.	Market value per perch of land/Price per square foot. The value has used a range of prices for respective lands based on adjusted fair value taking into account other valuation considerations - Rs. 5,000 - Rs. 20,500,000 per perch	Estimated fair value will increase (decrease) if ; Price per perch/ sq ft increases (decreases)
	Income method:- The net income generated by the property is used in conjunction with certain factors is used to calculate its fair value.	Cash flows from property discounted at an appropriate rate Contractual rental Rs. 600,000 - 54,401,395 per month. Capitalization rates 5.4% - 6.25% Repairs and insurance 20% - 40%.	Estimated fair value will increase (decrease) if ; market interest rate increases (decreases)

Asset and liabilities	Valuation technique	Significant unobservable inputs	Sensitivity of the input to the fair value
Investment property - Freehold land and building	Market comparable method :- This method considers the selling price of a similar property within a reasonably recent period of time in determining the fair value of property being revalued. This involves evaluation of recent active market prices of similar assets, making appropriate adjustments for difference in size, nature and location of the property.	Construction cost per square foot Rs. 1,435 - Rs. 10,000 Market price per perch. The valuer has used a range of prices for respective lands based on adjusted fair value taking into account other valuation considerations Rs. 30,000 - Rs.18,500,000 per perch.	The estimated fair value would increase/ (decrease) if Cost per square foot was higher/(lower) Market value per perch was higher/(lower)
	Income method:- The net income generated by the property is used in conjunction with certain factors is used to calculate its fair value.	Capitalization rates 5.4%-6% Repairs and insurance 23%-40% Contractual rental Rs. 644,333 - Rs. 54,401,395 per month.	The estimated fair value would increase/ (decrease) if Contractual rentals were higher/(lower) Occupancy rates were higher/(lower) Capitalization rate was (higher)/lower Repair and insurance was (higher)/lower Market value per perch was higher/(lower)

31.3 Capital management

The Group manages its capital to ensure that entities in the Group will be able to continue as going concern while maximizing the return to stakeholders through the optimization of the debt and equity balance. The Group's overall strategy remains unchanged from 2017.

The capital structure of the Group consists of below:

In thousands of rupees		Group		Company	
As at 31st March	Note	2025	2024	2025	2024
Debt (long and short term borrowings, excluding derivatives)					
Interest bearing loans and borrowings	27	52,181,246	55,346,873	198,360	401,579
Net debt		52,181,246	55,346,873	198,360	401,579
Equity (all capital and reserves of the Group that are managed as capital)					
Stated capital	25	6,489,758	6,489,758	6,489,758	6,489,758
Reserves	26	6,650,899	6,604,113	111,317	91,399
Retained earnings		19,533,126	17,060,717	2,538,431	2,268,764
Non-controlling interest		14,580,142	13,731,722	-	-
Total equity		47,253,925	43,886,310	9,139,506	8,849,921
Total debt and equity		99,435,171	99,233,183	9,337,866	9,251,500

The Group is not subject to any externally imposed capital requirements.

Notes to the Financial Statements ... *Contd.*

31.4 Financial risk management

The Group has exposure to the following risks arising from financial instruments:

- credit risk
- liquidity risk and
- market risk

Risk management framework

The Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework. The Group's risk management processes are established to identify and analyze the risks faced by the Group, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management systems are reviewed regularly to reflect changes in market conditions and the Group's activities.

The Audit Committee oversees how management monitors compliance with the Group's risk management processes/ guidelines and procedures and reviews the adequacy of the risk management framework in relation to the risks. The Audit Committee is assisted in its oversight role by Risk Management team and Internal Audit, who undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

31.5 Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers and investments in debt securities.

The carrying amount of financial assets represents the maximum credit exposure.

In thousands of rupees		Group		Company	
As at 31st March	Note	2025	2024	2025	2024
Trade receivables and amounts due from related companies	23	8,309,479	7,595,890	11,036	12,604
Other receivables	23	2,397,688	1,524,209	62	28,927
Other financial assets	20.3	670,854	131,107	407,872	-
Cash and cash equivalents	24	8,205,883	8,141,729	24,556	457,558
		19,583,904	17,392,935	443,526	499,089

31.5.1 Trade Receivables Net of Provision for Impairment

Neither past due nor impaired	Group		
	Gross Carrying Amount	Loss Allowances	Net Carrying Amount
	Rs. '000	Rs. '000	Rs. '000
1 - 30 days	5,558,831	-	5,558,831
31 - 60 days	1,153,090	-	1,153,090
61 - 90 days	666,306	-	666,306
More than 90 days	619,391	(282,180)	337,211
	7,997,618	(282,180)	7,715,438

Based on historic payment behavior and extensive analysis of customer credit risk, including underlying customers' credit ratings, if available, the management believes that the unimpaired amounts that are past due by more than 30 days are still collectible in full.

Impairment and risk exposure

Individual receivables which are known to be uncollectible are written off by reducing the carrying amount directly. The other receivables are assessed collectively to determine whether there is objective evidence that an impairment has been incurred but not yet been identified. For these receivables the estimated impairment losses are recognized in a separate provision for impairment.

The movement in the provision for impairment in respect of trade and other receivables during the year is given in Note 23.3.

31.5.2 Cash and cash equivalents

The Group held cash and cash equivalents of Rs. 8.21 Bn at 31st March 2025 (2024: Rs. 8.14 Bn). The cash and cash equivalents are held with bank and financial institution counter-parties, with high credit ratings which are rated AAA(lake) to A-(lake), based on Fitch Ratings.

31.5.3 Corporate guarantees

The Group's policy is to provide financial guarantees only to subsidiaries. As at 31st March 2025, the Company had issued guarantees to certain banks in respect of credit facilities granted to subsidiaries (refer Notes 35.2 & 35.3)

31.6 Liquidity risk

Exposure to liquidity risk - Contractual maturities of financial liabilities at the reporting date.

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation. The Group holds cash and undrawn committed facilities to enable the Group to manage its liquidity risk.

The Group monitors its risk to shortage of funds by considering maturity of both the Group's financial investment and financial assets and other projected cash flow from operations.

The Group's objective is to maintain balance between continuity of funding and flexibility through the use of multiple sources of funding including bank loans and overdrafts over a wider spread of maturity periods. In liquidity risk management, the Group uses a mixed approach where it combines elements of cash flow matching approach and the liquid assets approach. The business units attempt to match cash outflows in each time bucket against a combination of contractual cash inflows that can be generated through the sale of assets, repurchase agreement or secured borrowings.

31.7 Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

31.7.1 Currency risk

The Group is exposed to currency risk on sales and purchases that are denominated in a currency other than the Sri Lankan Rupee (LKR). The Group has limited exposure in respect of recognised foreign currency assets and liabilities. The Group applied Rs. 296 per USD and Rs. 320 per EUR as at the reporting date in translating its assets and liabilities. The following table shows the estimated impact on profitability by fluctuation of exchange rates assuming that all other variables remain constant;

Exposure to Interest Risk	Group		Company	
	31-Mar-25 LKR	31-Mar-24 LKR	31-Mar-25 LKR	31-Mar-24 LKR
In thousands of LKR				
Trade Receivable	34,361	22,696	-	-
Cash & Cash equivalent	92,417	116,516	-	-

5% increase in exchange rate of USD	(4,623)	(2,982)	-	-
	(316,656)	68,614	-	-
5% decrease in exchange rate of USD	4,623	2,982	-	-
	(307,410)	74,577	-	-

31.7.2 Interest rate risk

The Group is exposed to interest rate risk on borrowings and deposits. The Group's interest rate policy seeks to minimise the cost and volatility of the Group's interest expense by maintaining a diversified portfolio of fixed rate, floating rate and inflation-linked liabilities.

The Group adopt policy of ensuring borrowings are maintained at manageable level while optimizing return. Interest rates are negotiated leveraging on the strength of the Cargills Group and thereby ensuring the availability of cost -effective funds at all time, while minimizing the negative effect of market fluctuations. Further, the Group has considerable banking facilities with several reputed banks which has enabled the Group to negotiate competitive rates.

Sensitivity analysis

The following table demonstrates the sensitivity to a reasonably possible change in interest rates, with all other variables held constant, of the Company's and Group's profit before tax (through the impact on floating rate borrowings).

Exposure to Interest Risk	Group		Company	
	31-Mar-25 LKR	31-Mar-24 LKR	31-Mar-25 LKR	31-Mar-24 LKR
In thousands of LKR				
Financial Liabilities	52,181,246	55,346,873	198,360	401,579
Net Exposure	52,181,246	55,346,873	198,360	401,579
Effect of Currency Rate Swaps				
increase in 100 basis points	290,149	306,999	1,983	4,015
	52,471,395	55,653,872	200,343	405,594

	51,891,097	55,039,874	196,377	397,564

Notes to the Financial Statements ... *Contd.*

31.7.3 Market Price Risk

Listed equity securities are susceptible to market price risk arising from uncertainties of future values of the investment securities. The Group manages the equity price risk through diversification and placing limits on individual and total equity portfolio investments. The Group's equity risk management policies are;

- Equity investment decisions are based on fundamentals rather than on speculation; and
- Decisions are based on in depth macroeconomic and industry analysis as well as research reports on company performance. Market price risk exposure is not material to the Group.

32. Related parties

32.1 Transactions with key management personnel

According to the LKAS 24 - "Related Party Disclosures", Key Management Personnel are those having authority and responsibility for planning, directing and controlling the activities of the entity. Accordingly, the Board of Directors (including Executive & Non-Executive Directors) of the Company have been classified as Key Management Personnel of the entity.

- Mrs. R Page, wife of the Deputy Chairman is a Director of Double Yummm (Private) Limited with which Cargills Retail (Private) Limited had regular transactions in the ordinary course of business and the amount outstanding as at 31 March 2025 was Rs. 29.43 Mn (2024 - Rs. 35.95 Mn). Purchases for re-sale in the ordinary course of business for the year amounted to Rs 389.72 Mn (2024 - Rs 372.97 Mn).
- Short term employment benefits paid to key management personnel have been disclosed in the Note 8.1 to these financial statements. There are no post employment benefits paid during the year.
- No unsecured loans to Directors have been granted during the year.

Close Family Members (CFM) of a KMP are those family members who may be expected to influence, or be influenced by, that individual in their dealings with the entity. They may include;

- the individual's domestic partner and children;
- children of the individual's domestic partner; and
- dependents of the individual or the individual's domestic partner

CFM are related parties to the entity. There were no transactions with CFM during the year.

32.2 Other related party transactions

Transactions that are carried out in the ordinary course of business between the Company and other Group companies as well as between Group companies who are defined as related parties in Sri Lanka Accounting Standards (LKAS - 24 'Related party Disclosures') are disclosed below.

32.4 Parent Company and ultimate controlling entity

Odeon Holdings (Ceylon) (Private) Limited holds 42.32% (2023 - 42.09%) of the ordinary share capital of the Company.

33. OPERATING SEGMENTS

The Group has six reportable segments, as described in Note 3.1, which are the Group's strategic business units. The strategic business units offer different products and services, and are managed separately because they require different management strategies. For each of the strategic business units, the Group's chief decision maker reviews internal management reports at least on a quarterly basis.

33.1 Geographical information

The Group does not distinguish its turnover into significant geographical segments.

33.2 The accounting policies of the reportable segments described in Note 3.1, are the same as the Group's accounting policies.

Segment profit represents the profit before tax earned by each segment without allocation of corporate net income and Directors' salaries, share of profit of associates, other gains and losses. This is the measure reported to the chief operating decision maker for the purposes of resource allocation and assessment of segment performance.

For the purposes of monitoring segment performance and allocating resources between segments:

- All assets are allocated to reportable segments other than interests in associates and assets used by the head office. Goodwill is allocated to reportable segments as described in Note 17.2. Assets used jointly by reportable segments are allocated on the basis of the revenues earned by individual reportable segments.
- All liabilities are allocated to reportable segments other than liabilities of the head office, if there are any.

34. COMMITMENTS

The capital expenditure commitments of the Company and Group approved by the Directors were as follows:

34.1 Capital commitments

In thousands of rupees	Group		Company	
As at 31st March	2025	2024	2025	2024
(a) Subsidiary company Cargills (Ceylon) PLC Approved and contracted	701,586	725,092	-	-

34.2 Financial commitments

In thousands of rupees	Group		Company	
As at 31st March	2025	2024	2025	2024
(a) Settlement of letter of credits and import bills	279,439	279,929	-	-
	279,439	279,929	-	-

34.3 The Company has provided a letter of comfort to its subsidiary CT Properties Limited and its subsidiaries and Ceylon Theaters (Private) Limited indicating its intention to provide financial support as may be required to enable the subsidiary to meet their obligations as and when they fall due.

35. CONTINGENT LIABILITIES

35.1 IFRIC 23 - Uncertainty over Income Tax Treatments

Income tax

- a. The income tax concession claimed under the Inland Revenue Act, No. 10 of 2006 and Act, No. 24 of 2017 is being contested by the Department of Inland Revenue. The consequent contingent liability is as follows:

Cargills Food & Beverage Limited - Rs. 61.11 Mn, Cargills Dairies (Private) Limited - Rs. 384.39 Mn and Cargills Restaurants (Private) Limited Rs. 138.18 Mn, Cargills Convenient Foods Limited - Rs. 38.87 Mn, Cargills Confectionaries Limited - Rs. 66.98 Mn.

Having sought professional advice, the Management is confident that the tax concession are applicable and as such no liabilities would arise. Accordingly, no provision has been made in the financial statements.

- b. The Deputy Commissioner of Inland Revenue has made an additional assessment of Income Tax for the year ended 31st March 2018 of Rs. 60.5 Mn on the Company and also imposed a penalty of Rs. 29.6 Mn by considering the difference between the total value of credits in the Company's Bank current account and the declared revenue as undeclared revenue. The Company's Financial Statements have been prepared on an accruals basis as per generally accepted accounting principles and have been duly audited and reported on by the Auditors. The declared revenue of the Company according to its Financial Statements is accurate and the assumption made by the Deputy Commissioner that all deposits other than fund transfers need to be considered as revenue cannot be accepted. A full reconciliation between the Company's declared revenue and the total value of deposits credited to our Bank Account has been carried out and included in an appeal made to the CGIR through its Tax Consultants. The Appeal is still pending due to the department's frequent internal replacements of Assessors.

No adjustments have been made in the Financial Statements in this regard as the management of the subsidiary Company believes that there is no likelihood of an unfavourable outcome.

35.2 Bank guarantee

Cargills (Ceylon) PLC has provided Bank Guarantees to Sri Lanka Customs amounting to Rs. 2.5 Mn.

The Directors do not expect any claim on these guarantees. Accordingly, no provision has been made in the Financial Statements.

There are no other material contingent liabilities as at the reporting date.

35.3 Letters of guarantee

The Company has given letters of guarantee to Commercial Banks on behalf of subsidiary companies amounting to Rs. 75 Mn. Kotmale Holding PLC a subsidiary of the Company has given letters of guarantee to Commercial Banks on behalf of its subsidiary company Kotmale Dairy products (Pvt) Ltd (Rs. 50 Mn). The Directors do not expect any claim on these guarantees. Accordingly, no provision has been made in the Financial Statements.

36. EVENTS AFTER THE REPORTING PERIOD

Proposed Dividends

The Company and following subsidiaries have declared the following second interim dividends out of the profits for the year ended 31st March 2025.

- (a) Company - second interim dividend of Rs. 10.00 per share (on 201,406,978 shares now in issue)
- (b) Subsidiary, Cargills (Ceylon) PLC - second interim dividend of Rs. 11.70 per share (on 257,677,731 shares now in issue)

In accordance with LKAS 10 - "Events after the reporting period", the proposed dividends have not been recognised as a liability in the Financial Statements.

Other than the above mentioned events no material events have occurred since the reporting date which require adjustments to or disclosure in the Financial Statements.

37. GOING CONCERN

C T Properties Limited

The group and the Company have incurred a loss of Rs. 90,434,107 (2024: Rs. 25,007,457) and Rs. 47,443,580 (2024: Rs. 67,911,985) respectively for the year ended 31st March 2025 and as at that date the Group's and Company's accumulated losses amounted Rs. 1,601,521,124 (2024: Rs. 1,691,605,979) and Rs. 2,282,480,679 (2024: Rs. 2,234,687,835) and the Group's and the Company's total current liabilities exceeded its total current assets by Rs. 1,189,537,795 (Rs. 1,143,024,678) and Rs. 411,155,742 (2024: Rs. 363,848,926) respectively.

Notwithstanding, this the financial statements have been prepared on a going concern basis due to reliance on a letter of support, dated 06th June 2025 provided by the Directors of the parent entity C T Holdings PLC. Through this letter of support the directors of the parent entity undertakes to provide financial assistant to the Company to ensure that it can pay its debts as and when they fall due and payable for the period of at least 12 months from the date of signing these financial statements.

Accordingly, the Board of Directors has a reasonable confidence level that the Company has adequate resources to continue in operation for at least the next 12 months and that the going concern basis of accounting remains appropriate.

Notes to the Financial Statements ... *Contd.*

C T Real Estate (Private) Limited

The Company's total current liabilities exceeded its total current assets by Rs. 312,665,365 (2024 - Rs. 317,483,176).

Notwithstanding this, the financial statements have been prepared on going concern basis due to reliance on a letter of support, dated 06th June 2025, provided by the Directors of the ultimate parent entity C T Holdings PLC. Through this letter of support the directors of the parent entity undertakes to provide financial assistance to the company to ensure that it can pay its debts as and when they fall due and payable for the period of at least 12 months from the date of signing these financial statements.

Accordingly, the Board of Directors has a reasonable confidence level that the Company has adequate resources to continue in operation at least the next 12 months and that the going concern basis of accounting remains appropriate.

C T Properties G S (Private) Limited

The Company has incurred a profit of Rs. 68,300,461/- (2024: Rs. 17,819,767/-) during the year ended 31st March 2025 and as at that date the Company's accumulated losses amounted Rs. 200,414,804/- (2024: Rs. 268,715,265/-) and Company's total liabilities exceeds total assests by Rs. 936,249,896/- (2024: Rs. 867,949,435/-).

Notwithstanding, this the financial statements have been prepared on a going concern basis due to reliance on a letter of support, dated 06th June 2025 provided by the Directors of the parent entity C T Holdings PLC. Through this letter of support the directors of the parent entity undertakes to provide financial assistance to the company to ensure that It can pay its debts as and when they fall due and payable for the period of at least 12 months from the date of signing these financial statements.

Accordingly, the Board of Directors has a reasonable confidence level that the Company has adequate resources to continue in operation at least the next 12 months and that the going concern basis of accounting remains appropriate.

C T Property Management Company (Private) Limited

The Company has incurred a loss of Rs. 338,672/- (2024: Rs. 259,221/-) during the year ended 31st March 2025 and as at that date the Company's accumulated losses amounted Rs. 3,203,089/- (2024: Rs. 2,864,417/-) and Company's total liabilities exceeds total assests by Rs. 3,203,069/- (2024: Rs. 2,864,397/-).

Notwithstanding this, the financial statements have been prepared on a going concern basis due to reliance on a letter of support, dated 06th June 2025 provided by the Directors of the parent entity C T Holdings PLC. Through this letter of support the directors of the parent entity undertakes to provide financial assistance to the company to ensure that It can pay its debts as and when they fall due and payable for the period of at least 12 months from the date of signing these financial statements.

Accordingly, the Board of Directors has a reasonable confidence level that the Company has adequate resources to continue in operation at least the next 12 months and that the going concern basis of accounting remains appropriate.

Ceylon Theatres (Private) Limited

The Company incurred a net loss of Rs. 28,253,738 during the financial year ended 31 March 2025. As at 31 March 2025, the Company had net current asset deficiency of Rs. 232,866,485 (2024: Rs.245,613,544) and accumulated losses of Rs. 211,723,263 (2024: Rs. 183,361,703) as at 31st March 2025. Further, as at the reporting date, the Company's net assets are less than half of the stated capital and faces a serious loss of capital situation.

Notwithstanding this, the financial statements have been prepared on a going concern basis due to reliance on a letter of support, dated 24th April 2025, provided by the Directors of the ultimate parent entity (C T Holdings). Through this letter of support the Directors of ultimate parent entity undertakes to provide financial assistance to the Company to ensure that it can pay its debts as and when they fall due and payable for a period of at least 12 months from the date of signing these financial statements. Further, management is confident its ability to secure terms with its banks based on the cash flow forecast.

Accordingly, the Board of Directors has a reasonable confidence level that the Company has adequate resources to continue in operation at least the next 12 months and that the going concern basis of accounting remains appropriate.

C T Property Lakeside (Pvt) Ltd

The Company have incurred a loss of Rs. 228,650 (2024: Rs. 270,159) for the year ended 31st March 2025 and as at that date the Company's accumulated losses amounted Rs. 2,986,105 (2024: Rs. 2,757,455) and the Company's total current liabilities exceeded its total current assets by Rs. 90,072,669 (2024 - Rs. 89,844,019).

Notwithstanding this, the financial statements have been prepared on going concern basis due to reliance on a letter of support, dated 06 June 2025, provided by the Directors of the ultimate parent entity C T Holdings PLC. Through this letter of support the directors of the parent entity undertakes to provide financial assistance to the company to ensure that it can pay its debts as and when they fall due and payable for the period of at least 12 months from the date of signing these financial statements.

Accordingly, the Board of Directors has a reasonable confidence level that the Company has adequate resources to continue in operation at least the next 12 months and that the going concern basis of accounting remains appropriate.

38. ASSESSMENT OF GOING CONCERN

The Financial Statements of C T Holdings PLC for the year ended 31 March 2025, have been prepared on the basis that the Company is a going concern.

Based on the prevailing information, the management has considered the consequences of the uncertainty faced by the country and, whilst these challenges would have a bearing on the inflation, consumer demand and supply chain, Company has adapted strategies to mitigate its impact and does not contemplate a significant doubt upon the entity's ability to continue as a going concern.

39. DIRECTORS' RESPONSIBILITY STATEMENT

Board of Directors is responsible for the preparation and fair presentation of these Financial Statements in accordance with Sri Lanka Accounting Standards.

The Board of Directors acknowledges their responsibility for Financial Statements as set out in the Annual Report of the Board of Director's, Statement of Directors' Responsibility, and the certification on the Statement of Financial Position.
